Congressional Record

PROCEEDINGS AND DEBATES OF THE 111th CONGRESS, FIRST SESSION

Vol. 155

WASHINGTON, TUESDAY, MAY 12, 2009

No. 72

House of Representatives

The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Mr. COSTA).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
May 12, 2009.

I hereby appoint the Honorable JIM COSTA to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 6, 2009, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 30 minutes and each Member, other than the majority and minority leaders and the minority whip, limited to 5 minutes.

REPAYMENT OF TARP FUNDS

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. SHERMAN) for 5 minutes.

Mr. SHERMAN. Mr. Speaker, my speech builds on two themes.

The first is the continuing effort of administrations of both political parties to turn Congress into a mere advisory body. One of the more effective ways of doing this is to embrace those statutory sections that they like and to ignore those statutory sections that they don't like.

The second theme is, it's not illegal if Wall Street wants it.

Now let us illustrate these two themes on the TARP legislation, the

legislation that provided \$700 billion to bail out Wall Street and provided the Secretary of the Treasury with enormous authority and discretion as to how that money would be used.

Now I thought \$700 billion was more than enough. For many reasons I voted against this bill. But there was at least one code section in the bill that seemed to make sense, and that was a provision that stated clearly and unequivocally that whatever money came back from whatever investments were made by the Secretary of the Treasury would go to the general fund, would pay down the national debt, would go into the same fund that our money went into on April 15 when we mailed in our tax returns.

And that's why section 106(d) of the bill that created the act states very simply, "Revenues of, and proceeds from the sale of troubled assets purchased under this Act, or from the sale, exercise, or surrender of warrants or senior debt instruments acquired under section 113"—and here are the key words—"shall be paid into the general fund of the Treasury for the reduction of the public debt."

How is this code section relevant? How does it fit into the overall statute? Well, the statute envisions the idea that the Secretary of the Treasury would use our \$700 billion to purchase certain investment assets defined in the bill as troubled assets, and then at some subsequent point those assets would be sold. Whatever money we got from that sale or from the redemption, when we traded in those assets, whatever we got would go into the general fund.

It is being widely accepted in the press, in Washington and on Wall Street that whatever the Secretary of the Treasury gets back from the banks will instead be part of some revolving fund from which the Secretary of the Treasury may make additional bailouts in addition to the first \$700 billion of expenditures.

Well, the statute is very clear to the contrary. Whatever is returned to the Treasury goes into the general fund.

Now one thing to keep in mind is this statute uses the term "troubled assets" so that the Secretary of the Treasury might say, well, what we're selling is the preferred stock that Secretary Paulson originally invested in. These aren't troubled assets. They're happy assets, and therefore, section 106(d) would not apply.

This is a complete misreading of the statute because if you turn to section 3(9)(B) of the statute, "troubled assets" is defined as, "any other financial instrument that the Secretary, after consultation with the Chairman of the Board of Governors of the Federal Reserve System, determines the purchase of which is necessary to promote financial market stability, but only upon transmittal of such determination, in writing, to the appropriate committees of Congress."

The preferred stock that we are about to sell or that the companies are about to repurchase from us is exactly this kind of troubled asset. It was purchased by the Secretary of the Treasury after a determination that doing so was necessary to promote financial stability, and to make it very clear that they were relying on section 3(9)(B), which defines troubled assets, the Secretary of the Treasury sent the appropriate committees a written determination.

So when we bought the assets, they were defined by the Treasury Department as being troubled assets. They are clearly subject to this code section.

But one more thing, if for some reason the preferred stock wasn't within the ambit of the definition of troubled assets when it was purchased, then the purchase was illegal to begin with because the only code section in the bailout bill that allows for that purchase is section 101(a)(1), which authorizes only the purchase of troubled assets.

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

H5407

Make sure when we get back the money, it's not a revolving fund, that it goes into the general Treasury to pay off the national debt.

PRESIDENT OBAMA'S ENERGY TAX

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from West Virginia (Ms. FOXX) for 5 minutes.

Ms. FOXX. Thank you, Mr. Speaker. Americans are very concerned about our economy right now, and one of the things that gives them a lot of concern is where we are in terms of price for energy.

The Republicans have a group called the American Energy Solutions Group that has been working on this issue, and I want to share some information that they have put together. Republicans, despite what our colleagues on the other side have said, have alternatives to the problems that we're facing in this country, but often these alternatives are not getting the attention from the majority party they deserve.

Despite the President's campaign promise not to raise taxes on 95 percent of Americans, his energy plan is nothing more than a \$646 billion national energy tax on every American family and small business. As families and businesses struggle in these difficult times, it's unconscionable to make the pain worse by forcing taxpayers to pay ever-higher energy bills.

The President's energy plan will force family energy costs to rise by more than \$3,100 per year and will pull \$860 billion out of family budgets and put it into the Federal budget. And this is being optimistic. The non-partisan Congressional Budget Office estimates the real cost to be as high as \$3 trillion over the next 10 years. That means \$1,000 in energy tax hikes for every man, woman and child.

The President's own budget director, Peter Orszag, has testified that a tax on carbon emissions would "impose costs on the economy," and that consumers will pay these costs through higher energy prices. The President himself has admitted that his plan will cause energy prices to skyrocket.

The poor will be hit the hardest by this national energy tax. Experts agree that poor families spend a larger portion of their income on energy costs. Not even the President's modest Make Work Pay tax credit is enough to cover the high energy costs that will be forced on American families.

Instead of providing solutions to keep energy costs low, the President and Democrats in Washington are proposing a national energy tax that will hit every worker, family and business across our country. Republicans support helping American families through these difficult times through immediate tax relief, not increased taxes.

Since the current economic recession began in December of 2007 with the Democrats in charge of Congress, more

than 5 million jobs have been lost. Yet the President proposes an energy plan that could result in anywhere between 1.8 and 7 million additional jobs being lost. The only jobs that are going to be created are for more government bureaucrats.

Republicans support keeping energy prices low at home and at the pump through American energy by American workers. Instead of creating American energy made by American workers, the President's energy plan keeps us dependent on foreign oil.

Republicans support more American-made energy through the creation of new and renewable energy sources, conservation and more domestic energy production. Giving American workers the resources to create American-made energy will keep the cost of energy low for American consumers.

The President and the Democrat-controlled Congress are using this economic crisis as an opportunity to force dramatic change on the American people. As the President's own chief of staff has said, "You never let a crisis go to waste."

As Robert Samuelson noted in March, the President says he is focused on the economy, "but he's also using the crisis to advance an ambitious long-term agenda." One thing is certain, it's an agenda that will lead to more taxes, fewer jobs and less energy.

The Republicans have an alternative. It's called all of the above. We should develop all the resources that we have in the United States. We should conserve, we should look for alternatives, and we should use this opportunity to create more jobs and grow the economy, not kill jobs and slow the economy down even more.

Mr. Speaker, we need the Republican plan to be paid attention to. The American people want it, and they deserve it.

TIME TO PASS CLEAN ENERGY LEGISLATION

The SPEAKER pro tempore. The Chair recognizes the gentleman from Virginia (Mr. CONNOLLY) for 5 minutes.

Mr. CONNOLLY of Virginia. Thank you, Mr. Speaker.

Americans have not faced this level of economic stress since the Great Depression. Nearly a decade of ideologically driven deregulation sent the foundation of financial market regulation asunder and enabled the housing market bubble and subsequent financial crash. The same deregulators created an energy market that rewarded old polluting technologies while increasing greenhouse gas emissions and other kinds of pollution. The same Gilded Age politics that wreaked our financial system laid waste to our environment.

Today the same people who let Wall Street run amok claim that we cannot afford to make investments in energy independence or create new jobs with renewable energy generation. In fact,

we just heard such remarks. They claim that economic and environmental renewal is somehow too costly to undertake at this critical juncture in our Nation's history. In reality, with a contracting economy and expanding global warming pollution, we cannot afford inaction.

The Energy and Commerce Committee is considering draft legislation that would make historic investments in clean energy and job creation while dramatically reducing global warming and pollution. According to the Nobel Prize-winning economist Paul Krugman, this legislation would help spur economic growth by creating powerful incentives to invest in renewable energy.

This legislation also presents Congress with an opportunity to make polluters pay while directing money to consumers who have suffered as a result of the economic policies of the prior administration.

Although the committee's bill is in discussion draft with some details still unresolved, let us consider the economic math for American families.

If Congress enacted this legislation, the American Clean Energy and Security Act, and made polluters pay through a 100 percent auction of carbon credits for all of their greenhouse gas emissions, we could write a check in theory to every American for \$2,150 per year.

□ 1245

Due to inaction by the previous administration, polluters do not have to pay for the impacts of greenhouse gas pollution and its impacts on communities all across the United States. From rising sea levels to increased incidence of severe weather, the costs of global warming are increasing each year.

The minority party seems to believe that average Americans should bear that cost, not those who create the pollution in the first place.

The business community understands we cannot bear the economic costs of inaction. Companies including eBay, Nike, Starbucks, Levi Strauss, Symantec, Johnson & Johnson and others have formed a Business for Climate and Innovative Energy Policy Coalition, known as BICEP, to advocate for clean energy legislation that reduces greenhouse gas pollution. It auctions 100 percent of pollution permits, establishes a renewable electricity standard and invests in job creation. Those businesses support clean energy jobs legislation both to spur economic growth and to avoid the costs associated with global warming, which will reach at least \$271 billion, it is estimated, by 2025 if we do not act.

Now is the time to pass legislation that spurs jobs creation, reduces greenhouse gas pollution and puts money back in the pockets of the people who are suffering as a result of the failed economic policies of the Republican administration that just left town.

Mr. Speaker, as we consider the American Clean Energy and Security Act, we must ensure that we will make polluters pay and use the revenue to invest in job creation here at home and give a climate rebate to all Americans.

INFORMED CONSUMER CHOICE

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Connecticut (Ms. DELAURO) for 5 minutes.

Ms. DELAURO. Mr. Speaker, as we work to ensure every American has access to affordable choices of public or private health care coverage, we must also give them the tools to make informed choices about that coverage, to make sure that we will truly provide adequate protection in case they ever get sick.

We have all heard stories, sometimes tragic stories, about Americans who thought their health care coverage was comprehensive, only to realize that it had huge gaps once they actually got sick. Take the story of Jim Stacey, from Fayetteville, North Carolina. In 2000, Mr. Stacey and his wife bought a plan with a lifetime maximum payout of up to \$1 million per person. Then he learned he had prostate cancer. But the policy paid only \$1,480 of the more than \$17,000 in treatment costs.

The simple fact is that right now, what you see is not what you get as a customer trying to decide on a health care plan. According to one recent study from Georgetown University, health insurance plans that look similar up front with similar copays, deductibles and so-called "out-of-pocket limits" can actually result in drastically different out-of-pocket expenses at the end of the day. And yet because that information is buried in legalese, or simply left out altogether, the consumer cannot tell the difference before it is too late.

Mr. Speaker, when we buy cars, computers, even cereal, we know what we are getting and how much it will cost. And yet when it comes to purchasing health care coverage today, families are too often kept in the dark about what kind of care their plan covers or what out-of-pocket costs they may face in the case of a serious illness.

Health insurance is one of the most expensive products Americans buy. Consumers and employers pay on average over \$12,000 for it every single year. And yet we still expect them to make critical decisions about their health and well-being without all the information they need. You or I would never buy a car without first looking at its crash test ratings or knowing what kind of safety features it had. It is all laid out right on the sticker. Yet when it comes to health insurance, the most important information is simply not there.

And in a system where costs continue to skyrocket, the consequences have been devastating. Bad coverage and hidden exclusions can bankrupt people.

Sixty-one percent of working age adults who had problems paying medical bills or were paying off medical debt in 2007 actually had health insurance at the time the care was provided.

That is why I plan to introduce the Informed Consumer Choices in Health Care Act to promote transparency in coverage and to provide crucial data to consumers and health care providers.

The American Cancer Society Cancer Action Network, the American Heart Association, Families USA, and the Campaign For America's Future endorse this legislation to promote consistent information standards, provide long-overdue data and resources for consumers and create a new Office of Health Insurance Oversight within the Department of Health and Human Services to administer accountability and transparency initiatives in coordination with State insurance regulators.

It is a simple idea that better information makes better consumers, and in the end, healthier families as well. That is what the Informed Consumer Choices in Health Care Act is all about. I hope you will join me in empowering consumers to make the right choices for themselves and their families to make sure that they can truly count on their health care coverage.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until 2 p.m. today.

Accordingly (at 12 o'clock and 50 minutes p.m.), the House stood in recess until 2 p.m.

□ 1400

AFTER RECESS

The recess having expired, the House was called to order at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

For us to approach You in prayer, Lord, does not mean we have exhausted all of our own energies and so now are forced to turn to You. You do not exist only on the edge of our outer limits.

Rather, Lord, You are at the very center of all existence. In prayer we simply become more aware of Your presence at every moment and in everything we do.

Lord, through our prayer, all reality and all our responsibilities take on new dimensions. In the midst of everything we discover the joy of Your creative presence and faithful love.

You bless the day. You bless Congress and this Nation both now and forever.

Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's pro-

ceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentlewoman from California (Ms. RICHARDSON) come forward and lead the House in the Pledge of Allegiance.

Ms. RICHARDSON led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

THOU SHALT NOT ASK

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. With the rash of crime by foreign nationals in the city of Houston, coupled with the recent shooting of two Houston police officers by illegals that were previously deported, the Houston Police Officers Union wants to end the archaic, absurd policy of not questioning people about their immigration status.

President Gary Blankenship of the union bluntly says, "My guys are tired of dealing with criminal aliens. The severity of the crime is escalating". He advocates weeding out dangerous criminals from the illegal community. He clearly says he doesn't want to round up the 400,000 illegals in the Greater Houston sanctuary community—just capture criminal illegals.

But whoa there! You can't do that, saith the mayor and the open border crowd. That's insulting. That's probably racial profiling. The nerve of the police to ask people their legal status. That might scare them. And that's the Federal Government's job.

So Houston will continue the policy of "Thou Shalt Not Ask", and, for political expediency, prefer the desires of the illegal community over the safety of the police, the citizens, and the legal immigrants.

And that's just the way it is.

NO RAISE FOR SENIORS, BUT THE ONE FOR CONGRESS STAYS?

(Mr. FLEMING asked and was given permission to address the House for 1 minute.)

Mr. FLEMING. For the first time in more than 30 years, Social Security recipients will not get a cost of living adjustment in 2010 or in 2011, yet most will pay increasing premiums for part B and D of Medicare. This is the first Social Security check cut since 1975!

So let me get this straight—no raise for seniors on a fixed income, but an automatic pay raise for Congress. What's wrong with this picture?

We're telling our seniors to make it on less while we are shelling out millions to protect animals such as the Brolga crane and the Iberian lynx—species not even found in the United States.

We're forcing our seniors to choose between food and medicine, but we are approving \$3 trillion in spending and budgets that will double the national deficit in 5 years and triple it in 10 years. On top of this Social Security pay cut, we are raising utility costs to seniors by an average of \$250 a month through cap-and-trade.

Where are the priorities among the liberals in this country? Certainly not with the elderly and disabled on fixed incomes.

A REAL DISCUSSION ON HEALTH CARE

(Mr. BOUSTANY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOUSTANY. The American people want both sides of the aisle working together to help lower the cost of health care. However, according to a story in today's New York Times, even all but a few Democrats, in addition to Republicans, are being left out of the talks.

Some Washington Democrats are more concerned with implementing a government-run, bureaucratic health care system than achieving real solutions. Working together, we can lower the cost of health care in America while increasing access to a doctor and high-quality care.

Both sides have good answers, which we should consider. However, a silver bullet does not exist to solve all the problems. Compromise and common sense could produce results—such as lower costs, better access to a doctor, and coverage for all. And that's what we should be working toward.

Health care is a complex issue that affects individuals and businesses, young and old—everyone. And that's why it's more important than ever to work together to come up with good policies that will help the American people. They want us to work together to achieve real solutions—and that's what we should be working to, Madam Speaker.

THE STIMULUS PACKAGE

(Mr. REHBERG asked and was given permission to address the House for 1 minute.)

Mr. REHBERG. Across the country, we're seeing problems with the so-called "stimulus package." When I voted against this bill, I warned that time would reveal its inherent flaws.

While Americans were told that spending almost \$1 trillion would create jobs, unemployment continues to rise. It would make sense to spend stimulus money in the hardest hit counties, but the Associated Press reports that's not what's happening.

Instead, the massive and inflexible bill is causing waste. The Billings Gazette reported that a new Federal courthouse in Billings, Montana, will cost taxpayers an additional \$45 million as a result of the stimulus rules.

And now, Americans are denied the transparency we were promised. USA Today reports that the Web site meant to allow us to track every dime of stimulus spending won't be up and running for another 5 months. How many more jobs will we lose while we're waiting? How much more money will we waste? We can't afford any more of these flawed policies.

□ 1415

NEWS REPORTERS JOIN THE OBAMA ADMINISTRATION

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute.)

Mr. SMITH of Texas. Madam Speaker, the news industry faces a new threat to its job force—the Obama administration.

A senior producer at CNN announced last week that she will take a press secretary position in the Obama administration. She joins at least nine other reporters from such news outlets as The Washington Post, Los Angeles Times, Time magazine, CBS, ABC News and CNN who have left their jobs to join the administration.

It will be an easy transition for these former journalists since their primary job responsibility, supporting the Obama administration, remains essentially the same.

The bad news for Americans is that the line between objective journalism and partisan politics continues to be blurred. If the media wants to restore their credibility, they should act as objective observers, not seek jobs in the Obama administration.

MISSILE DEFENSE FUNDING CUTS

(Mr. COFFMAN of Colorado asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COFFMAN of Colorado. Madam Speaker, missile defense is critical to the protection of our Nation. It requires constant improvement and innovation in order to meet the growing challenges by those who may wish to destroy us.

Iran is currently focused on developing nuclear weapons, and North Korea is hard at work, extending its military capability into space and, correspondingly, achieving a status where they can pose a threat to the security of the United States.

Some 25 countries and counting are acquiring domestic missiles, many capable of carrying weapons of mass destruction. Despite all this, the Obama administration plans to cut the Missile Defense Agency's budget for fiscal year 2010 by \$1.4 billion.

The reduction in missile defense should be of concern to all Americans. Without an investment in missile defense today, given the complexity of the science and engineering involved in developing new systems, we will not be

able to respond to the threats to the United States of tomorrow.

TARP FRAUD

(Mr. STEARNS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEARNS. Madam Speaker, with \$590 billion or 84 percent of the authorized troubled asset relief funds having already been handed out to Wall Street, the TARP Inspector General, Neil Barofsky, issued a 250-page report that recommended transparency and that all TARP recipients be made to detail how they will use bailout dollars and safeguard a new mortgage rescue effort against scams.

But 84 percent of the funds have already been given away. To call for greater transparency at this stage in the game is well beyond a day late and a dollar short.

However, what is encouraging is that the Inspector General, amid reports of rampant fraud, has realized and embraced his legal power and has instituted 20 criminal investigations and six audits.

In addition, he has begun to ask tough questions and look into who, quote, sought to influence decision-making by Treasury or bank regulators. Bold and encouraging words as The New York Times reported that Secretary Geithner has more than cordial relationships with many of the TARP recipient CEOs.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore (Ms. RICHARDSON) laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,
Washington, DC, May 12, 2009.

Hon. NANCY PELOSI,
The Speaker, House of Representatives,
Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, I have the honor to transmit a sealed envelope received from the White House on May 11, 2009 at 2:33 p.m. and said to contain a message from the President whereby he submits the Updated Summary Tables, the Analytical Perspectives, and the Historical Tables to his Fiscal Year 2010 Budget.

With best wishes, I am
Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

TRANSMITTAL OF ADDITIONAL FISCAL YEAR 2010 BUDGET DOCUMENTS—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 111-3)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred

to the Committee on Appropriations and ordered to be printed:

To the Congress of the United States:

I transmit herewith the following volumes, which together complete my Fiscal Year 2010 Budget: Analytical Perspectives, Historical Tables, and Updated Summary Tables.

BARACK OBAMA.
THE WHITE HOUSE, May 11, 2009.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

SUPPORTING IEEE ENGINEERING THE FUTURE DAY

Mr. GORDON of Tennessee. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 413) supporting the goals and ideals of "IEEE Engineering the Future" Day on May 13, 2009, and for other purposes.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 413

Whereas IEEE is the world's largest technical professional society, with more than 375,000 members, including more than 210,000 members in the United States;

Whereas IEEE members are engineers, scientists, and other professionals whose technical interests are rooted in electrical and computer sciences, engineering, and related disciplines;

Whereas IEEE's core purpose is to foster technological innovation and excellence for the benefit of humanity;

Whereas IEEE traces its roots to the founding of the American Institute of Electrical Engineers (AIEE) on May 13, 1884;

Whereas renowned inventor and entrepreneur Thomas Alva Edison was a founder of AIEE;

Whereas notable presidents of the IEEE and its founding organizations include Alexander Graham Bell, Charles Proteus Steinmetz, Lee De Forest, William R. Hewlett, and Ivan Gettling;

Whereas AIEE merged with the Institute of Radio Engineers in 1963 to form IEEE;

Whereas IEEE maintains a vast library of technical publications;

Whereas more than 100,000 technical professionals attend the more than 300 conferences sponsored or cosponsored by IEEE each year;

Whereas IEEE is a leader in the development of international standards that support many of today's products and services, with an active portfolio of nearly 1,300 standards and projects under development;

Whereas IEEE provides learning opportunities within the engineering sciences with the goal of ensuring the growth of skill and knowledge among the technical profession;

Whereas IEEE provides a forum for professionals to interact, collaborate, and generate new ideas and concepts;

Whereas IEEE seeks to attract the best and brightest to use their skills and experience and apply technology to benefit society and help solve humanitarian issues;

Whereas "IEEE Engineering the Future" Day will be held by IEEE on May 13, 2009, to recognize the contributions and impact that IEEE, its members, and engineering and technology professionals have made and to raise public awareness of the diverse opportunities available in different technological fields;

Whereas revolutionary advances in information technology, biotechnology, nanotechnology, and other fields are reshaping the global economy; and

Whereas the United States must continue its efforts to maintain its leadership in science, technology, and innovation: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the importance of engineering and technology to meeting our Nation's most pressing challenges;

(2) congratulates IEEE on its 125th anniversary; and

(3) supports the goals and ideals of "IEEE Engineering the Future" Day.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. GORDON) and the gentleman from Florida (Mr. MARIO DIAZ-BALART) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee.

GENERAL LEAVE

Mr. GORDON of Tennessee. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on H. Res. 413, the resolution now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GORDON of Tennessee. Madam Speaker, I yield myself as much time as I may consume.

I rise today in support of H. Res. 413, supporting the goals and ideals of IEEE Engineering the Future Day on May 13, 2009.

I want to thank my good friend from Florida (Mr. STEARNS) for working with me to introduce this resolution. Mr. STEARNS holds a degree in electrical engineering and served in the Air Force as an aerospace engineer. So I think his sponsorship of this resolution is very appropriate.

The IEEE is the world's largest technical professional society, with more than 375,000 members worldwide, including 210,000 in the United States. It is made up primarily of engineers, scientists, engineering professors, computer and technical professionals. The organization's core purpose is to foster technological innovation and excellence for the benefit of humanity.

IEEE supports programs that improve K-12 science, technology, engineering and mathematics education and technical literacy. Its vast library of technical publications, worldwide conferences and global standards make it a powerful force for technological leadership.

To celebrate its 125th anniversary, IEEE will hold the IEEE Engineering the Future Day tomorrow, May 13, 2009, to recognize the contributions and impact that IEEE, its members, and the engineering and technological professions have made, and to raise public awareness of the diverse opportunities available in different technological fields.

I ask my colleagues to help pass H. Res. 413, to recognize the importance of engineering and technology in meeting our Nation's most pressing challenges; congratulate IEEE on its 125th anniversary; and support the goals and ideas of the IEEE Engineering the Future Day on May 13.

I reserve the balance of my time.

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, I would yield myself as much time as I may consume.

I rise today to support House Resolution 413, supporting the goals and ideals of IEEE Engineering the Future Day on May 13, 2009.

IEEE, as the Chairman has said, is a nonprofit organization and the world's leading professional association for the advancement of technology. It's a leading authority on areas ranging from aerospace systems, computers, telecommunications, biomedical engineering, electrical power and consumer electronics, just among many.

Today IEEE has more than 375,000 members, including nearly 80,000 student members in more than 160 countries around the world. These members rely on IEEE as a source of technical and professional information. They rely on them for resources and also for a number of different services.

IEEE Engineering the Future Day will be held by IEEE tomorrow, May 13, 2009, to recognize the contributions and impact that that organization, its members, and engineering and technology professionals have made over the last 125 years, and to raise public awareness, Madam Speaker, of the diverse opportunities available in many, many different technological fields.

Madam Speaker, I would then ask my colleagues to join me in supporting this resolution, honoring this special day and anniversary.

At this time I will reserve the balance of my time.

Mr. GORDON of Tennessee. Madam Speaker, I yield such time as he may consume to my friend from Florida (Mr. STEARNS), a cosponsor of this resolution.

Mr. STEARNS. Madam Speaker, let me thank the gentleman from Tennessee, the Chairman of the Committee on Science and Technology, for his hard work and his kindness and for letting me have this bill on the floor so promptly.

I also thank my colleague from Florida for his introduction and kind words.

This legislation, which I introduced with my good friend Chairman GORDON, obviously congratulates the IEEE on its 125th anniversary and recognizes

May 13, 2009, as the IEEE Engineering the Future Day.

My colleagues, IEEE is a renowned international not-for-profit professional organization whose core purpose is to foster technological innovation and excellence for the benefit of humanity.

As mentioned, with more than 210,000 members in the United States and more than 375,000 members in over 160 countries, the IEEE is the world's largest professional society for the advancement of technology. Their membership includes engineers, scientists and other professionals whose technical interests are rooted in electrical and computer sciences, engineering and related disciplines.

The IEEE as we know it today was formed by the merger of the Institute of Radio Engineers, which was founded in 1912, and the American Institute of Electrical Engineers, which was founded on May 13, 1884 by renowned inventor and distinguished entrepreneur Thomas Edison. Other notable past presidents of the IEEE and its founding institutions include well-known scientists Alexander Graham Bell, Charles Steinmetz, Lee De Forest, William Hewlett and Ivan Gettling.

The IEEE's name was originally an acronym for the Institute of Electrical and Electronic Engineers. Today the organization's scope of interest has expanded into so many related fields that it is simply referred to as the letters IEEE.

Through its global membership, IEEE is a leading authority on areas ranging from aerospace systems, computers and telecommunications to biomedical engineering, electric power and consumer electronics, among others. Most IEEE members are electrical engineers, computer engineers and computer scientists, but the organization's wide scope of interest has attracted engineers in a lot of other disciplines, including mechanical and civil engineering as well as biologists, physicists and mathematicians.

The IEEE's constitution defines the purpose of this organization as, quote, scientific and educational, directed toward the advancement of the theory and practice of electrical, electronics, communications and computer engineering, as well as computer science, the allied branches of engineering and the related arts and sciences, all encompassing.

□ 1430

My colleagues, in pursuing these goals, the IEEE serves as a major publisher of some 144 scientific journals and magazines and a sponsor of more than 300 conferences annually. It is also a leading developer of industrial standards that support many of today's products and services, with an active portfolio of nearly 1,300 standards and projects under development in a broad range of disciplines, including electric power and energy, biomedical technology and health care, information

technology, information assurance, telecommunications, consumer electronics, transportation, aerospace, and most importantly, nanotechnology, the wave of the future.

IEEE also develops and participates in educational activities such as accreditation of electrical engineering programs in all of our institutes of higher learning in this country. To foster an interest in the engineering profession, IEEE serves student members in colleges and universities around the world with more than 1,600 student branches in almost 500 student branch chapters at colleges and universities in 80 countries.

The goal of the IEEE educational program is to ensure the growth, the skill and knowledge in the electricity-related technical professions and to foster individual commitment to continuing education among IEEE members, the engineering and scientific communities, and, of course, the general public.

As mentioned by the distinguished chairman, I am an electrical engineer. I was a member of IEEE in college, and I'm now presently a member. I was an aerospace engineer in the Air Force, a captain in the Air Force during launching of satellites from Vandenberg Air Force Base. I'm very proud of the background I have. It sometimes helps me in trying to understand the intricacies in analysis here in Congress.

So I urge my colleagues to join me and recognize the simple and powerful contributions and impact the IEEE has in this country and its members and engineering and technology professionals who have made accomplishments here in the United States and continue to support their goals and ideals of IEEE engineering, the future day, on May 13, 2009.

Thank you, Mr. Chairman.

Mr. GORDON of Tennessee. We have no further speakers. I reserve the time.

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, after listening to the words of the sponsor, I don't think anything else needs to be said, so I will yield back the remaining part of my time.

Mr. GORDON of Tennessee. Madam Speaker, I will conclude by thanking Mr. STEARNS, my friend from Florida, for introducing this resolution. 125 years is a long time in the history of this country, and certainly to originate out of Thomas Edison demonstrates this is a very important organization. I thank Mr. STEARNS for bringing this to our attention.

Ms. JACKSON-LEE of Texas. Madam Speaker, I rise today to support this resolution put forth by my colleague Representative CLIFF STEARNS. H. Res. 413, "Supporting the goals and ideals of 'IEEE Engineering Future' Day on May 13, 2009" will recognize the importance of engineering and technology in meeting the nation's most pressing challenges.

This institution has a rich history, which traces its roots to the founding of the American Institute of Electrical Engineers (AIEE) on

May 13, 1884. The renowned inventor and entrepreneur Thomas Alva Edison was the founder of AIEE. Other notable presidents of the IEEE and its founding organizations include Alexander Graham Bell, Charles Proteus Steinmetz, Lee De Forest, William R. Hewlett, and Ivan Gettling.

Through its global membership, IEEE is a leading authority on areas ranging from aerospace systems, computers and telecommunications to biomedical engineering, electric power, and consumer electronics among others.

As technologies and the industries increasingly transcended national boundaries, IEEE kept pace and became a truly global institution. Over the years, IEEE used the innovations of the practitioners it represented to enhance its own excellence in delivering products and services to members, industries, and the public at large. Publications and educational programs were delivered online. IEEE's member services such as renewal and elections were also delivered online.

The IEEE publishes nearly a third of the world's technical literature in electrical engineering, computer science and electronics. This includes about 130 journals, transactions and magazines and over 400 conference proceedings published annually. In cooperation with John Wiley and Sons, Inc., the IEEE also produces technical books, monographs, guides and textbooks. IEEE journals are consistently among the most highly cited in electrical and electronics engineering, telecommunications and other technical fields.

IEEE is the world's largest technical professional society. By 2008, IEEE had 375,000 members in 160 countries and more than 210,000 members in the United States. The United States must continue its efforts to maintain its leadership in science, technology, and innovation as revolutionary advances in information technology, biotechnology, nanotechnology, and other fields are reshaping the global economy.

IEEE's core purpose is to foster technological innovation and excellence for the benefit of humanity. As a leader in the development of international standards that support many of today's products and services, with an active portfolio of nearly 1,300 standards and projects under development, this non profit organization attracts the best and brightest to use their skills and experience and apply technology to benefit society and help solve humanitarian issues. In addition, IEEE provides learning opportunities within the engineering sciences with the goal of ensuring the growth of skill and knowledge among the technical profession as well as a forum for professionals to interact, collaborate, and generate new ideas and concepts.

This Congress should recognize that IEEE is essential to the global technical community and to technical professionals everywhere. The IEEE is universally recognized for the contributions of technology and of technical professionals in improving global conditions. I congratulate IEEE on its 125th anniversary and support the goals and ideals of 'IEEE Engineering the Future' Day and I urge my colleagues to support them as well.

Mr. HOLT. Madam Speaker, I rise today in support of H. Res. 413, which recognizes the goals and ideals of IEEE Engineering the Future Day. IEEE traces its roots to the founding of the American Institute of Electrical Engineers (AIEE) on May 13, 1884, at a time when

the ability to harness electricity for useful purposes was in its infancy. Since then, electrical power has become central to our way of life, and technologies based on electronics have become ubiquitous. The AIEE evolved to reflect these changes, first by joining with the Institute of Radio Engineers to become the Institute of Electrical and Electronics Engineers and later by shortening the organization's official name to IEEE in recognition of the fact that technical fields were transcending traditional definitions and boundaries. Still, the overarching goal of the organization—to apply technology and innovation for the benefit of humanity—has remained constant from the beginning. IEEE has become a global professional organization with 375,000 members in 160 countries. It sponsors hundreds of conferences and professional meetings annually, maintains an electronic library of technical publications, develops international technical standards, hosts educational and professional development programs, and provides a forum for professional interactions and collaborations. As we look to the future, we will rely increasingly on science, engineering, and technology to help us meet our energy challenges, safeguard our environment, grow our economy, and improve our quality of life. I hope that IEEE's Engineering the Future Day will raise awareness about how science and technology affects our daily lives and about the many opportunities available to technical professionals. I congratulate IEEE and its members on the organization's 125th anniversary and past achievements, and I look forward to all of its future contributions.

Mr. GORDON of Tennessee. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. GORDON) that the House suspend the rules and agree to the resolution, H. Res. 413.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

SUPPORTING NATIONAL HURRICANE PREPAREDNESS WEEK

Mr. GORDON of Tennessee. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 387) supporting the goals and ideals of National Hurricane Preparedness Week.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 387

Whereas the Atlantic and central Pacific hurricane season begins June 1, 2009, and ends November 30, 2009, and the eastern Pacific hurricane season runs from May 15, 2009, through November 30, 2009;

Whereas an average of 11 tropical storms develop per year over the Atlantic Ocean, the Caribbean Sea, and the Gulf of Mexico, and an average of 6 of these storms become hurricanes;

Whereas in an average 3-year period, roughly 5 hurricanes strike the coastlines of the United States, sometimes resulting in multiple deaths, and 2 of these hurricanes are typically labeled "major" or "intense" category 3 hurricanes, as measured on the Saffir-Simpson Hurricane Scale;

Whereas millions of Americans face great risks from tropical storms and hurricanes, as 50 percent of Americans live along the coast and millions of tourists visit the oceans each year;

Whereas the 2008 Atlantic hurricane season included 16 named storms, including 8 hurricanes, 5 of which were category 3 or higher;

Whereas during a hurricane, homes, businesses, public buildings, and infrastructure may be damaged or destroyed by heavy rain, strong winds, and storm surge;

Whereas damage from a hurricane is usually substantial, as debris can break windows and doors, roads and bridges can be washed away, homes can be flooded, and destructive tornadoes can occur well away from the storm's center;

Whereas experts at the National Oceanic and Atmospheric Administration's National Hurricane Center and the National Weather Service agree that it is critical for all people to know if they live in an area prone to hurricanes, to figure out their home's vulnerability in the event of a storm surge, flooding, and heavy winds, and to develop a written family disaster plan based on this knowledge;

Whereas the National Hurricane Center recommends that people in areas prone to hurricanes prepare a personal evacuation plan that identifies ahead of time several options of places to go in the event of evacuation, the telephone numbers of these places, and a local road map;

Whereas the National Hurricane Center recommends that people in areas prone to hurricanes prepare a disaster supply kit before hurricane season begins that includes a first aid kit with essential medications, canned food, a can opener, at least 3 gallons of water per person per day for 3 to 7 days, protective clothing, rain gear, bedding or sleeping bags, a battery-powered radio, a flashlight, extra batteries, special items for infants, elderly, or disabled family members, and written instructions on how to turn off electricity, gas, and water in the event authorities advise these actions;

Whereas the National Hurricane Center recommends that citizens know that a "hurricane watch" means conditions are possible in the specified area, usually within 36 hours, and a "hurricane warning" means hurricane conditions are expected in the specified area, usually within 24 hours;

Whereas in the event of a hurricane warning, the National Hurricane Center recommends people listen to the advice of local officials, evacuate if told to do so, complete preparedness activities, stay indoors and away from windows, be alert for tornadoes, and be aware that the calm "eye" of the storm does not mean the storm is over;

Whereas in the 1970s, 1980s, and 1990s, inland flooding was responsible for more than half the deaths associated with tropical storms and hurricanes in the United States;

Whereas the National Weather Service recommends that when a hurricane threatens the United States, people in potential flood zones evacuate if told to do so, keep abreast of road conditions through the news media, move to a safe area before access is cut off by flood water, develop a flood emergency action plan, and do not attempt to cross

flowing water in an automobile, because as little as 6 inches of water may cause one to lose control of the vehicle;

Whereas the National Oceanic and Atmospheric Administration provides more detailed information about hurricanes and hurricane preparedness via its website, <http://www.nhc.noaa.gov/HAW2/>; and

Whereas National Hurricane Preparedness Week will be the week of May 24 through 30, 2009; Now, therefore, be it

Resolved, That the House of Representatives—

(1) supports the goals and ideals of National Hurricane Preparedness Week;

(2) encourages the staff of the National Oceanic and Atmospheric Administration, especially the National Weather Service and the National Hurricane Center, and other appropriate Federal agencies, to continue their outstanding work of educating people in the United States about hurricane preparedness; and

(3) urges the people of the United States to recognize such a week as an opportunity to learn more about the work of the National Hurricane Center in forecasting hurricanes and educating citizens about the potential risks of the storms.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. GORDON) and the gentleman from Florida (Mr. MARIO DIAZ-BALART) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee.

GENERAL LEAVE

Mr. GORDON of Tennessee. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and to include extraneous material on H. Res. 387, the resolution now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GORDON of Tennessee. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, on June 1, hurricane season begins in the Atlantic Ocean. Noted hurricane forecasters at Colorado State University have predicted an above-average year for tropical storms and hurricanes for 2009. It is, therefore, very timely to consider this resolution recognizing the importance of Hurricane Preparedness Week. As the tragedy of Katrina in 2005 showed us, it is not just the strength of the storm that determines the destruction on the ground. Just as important is the preparedness of the communities that are impacted.

Katrina took almost 1,500 lives and caused damages totaling \$81 billion. It was the one of the costliest natural disasters in the Nation's history. However, Katrina, a category 3 storm at landfall, was not an especially powerful storm. In fact, there were three other category 3 storms that struck the U.S. in 2005, but none of them caused the same level of damage and destruction.

This is a sobering lesson in the importance of hurricane preparedness. It is vitally important that Federal, State and local governments work together to better prepare the coastal

communities for these powerful storms. And I want to thank my friend from Florida who has firsthand knowledge of these problems, Mr. DIAZ-BALART, for introducing this important resolution.

I urge my colleagues to support it.

I reserve the balance of my time.

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, I yield myself as much time as I may consume.

Madam Speaker, before I talk about this issue, I would like to thank Chairman GORDON, once again, and also Ranking Member HALL and also their staffs for allowing this timely resolution to move forward so quickly. As the chairman has just said, the time is right for this resolution once again.

I rise today in support of House Resolution 387, which is to support the goals and ideals of National Hurricane Preparedness Week as established by the National Hurricane Center. Hurricane Preparedness Week begins on the 24th of May and lasts through the 30th of May of 2009. Now, in less than 2 weeks, Madam Speaker, on the 1st of June, unfortunately, we mark the beginning of yet another hurricane season in the Atlantic and central Pacific Oceans. Hurricane season lasts a long, long 6 months until November 30.

The goal of Hurricane Preparedness Week is to inform the public about hurricanes, their hazards, and to provide knowledge that, frankly, we can use and that hopefully all of us can use to take action now, to be ready now before the hurricanes hit. We must be ready. This information can be used to save property and, most importantly, it can be used to save lives. As the chairman himself said, we have too often seen what these storms can do.

Now, although the Federal Government plays a critical role before and after a storm, we have to do our part. We have to be ready ourselves. And it is the hope that the residents, particularly in areas that are hurricane prone, will prepare themselves and their families for this before this hurricane season starts.

History teaches us that a lack of hurricane awareness and preparation are, unfortunately, common threads among all hurricanes and major disasters. For instance, one of the biggest lessons learned from the recent wave of hurricanes is that the residents need to have enough supplies to take care of themselves and their families for at least 3 days after one of these storms makes landfall. Oftentimes, local governments are trying to keep order. They are trying to take care of really basic essentials right after a storm, so, therefore, it is important that each and every one of us have a plan, that we prepare and that we can be self-sufficient for those 3 days. Again, millions of Americans face great risk from tropical storms and hurricanes. More than 50 percent of all Americans live along the coast, which again just shows you how grave that risk can be.

Now, the statistics associated with hurricanes are staggering. An average

of 11 tropical storms develop each year over the Atlantic Ocean or the Caribbean or the Gulf of Mexico. Six of these storms will, unfortunately, become hurricanes. Now, look, we just hope that they don't make landfall, and they can just slide by, and we can just kiss them goodbye. But we can't be sure that will happen, so we have to be ready.

Last year, unfortunately, several storms made landfall along the eastern and gulf coast, including Tropical Storm Fay, Hurricanes Gustav, Hanna and Ike. And as we have learned in the past few years, hurricanes pose, again, a serious, serious threat to our country. These massive storms can result in casualties and millions of dollars or, frankly, billions of dollars in economic damage and destruction.

During a hurricane, homes and businesses and other buildings can be damaged by heavy rain, by strong winds and by storm surge, which is one of the worst problems and a real killer. Tornadoes can strike after these storms or during the storms, and oftentimes power can be wiped out for days, if not weeks.

Experts at the NOAA's National Hurricane Center agree that there are some critical things that have to be done. Obviously, first, is to determine if you live in a hurricane-prone area, then know your home's vulnerabilities to either storm surge or flooding or wind and develop a written, a real family disaster plan based on this knowledge. And make sure that everybody in the family knows how to make that plan work and knows about it.

Once you determine, again, how vulnerable you really are to a hurricane, the National Hurricane Center recommends that people in hurricane-prone areas assemble a disaster supply kit before the hurricane season, not before a storm comes, but now before the hurricane season is even upon us; a first aid kit and essential medications, nonperishable food items such as canned goods, at least 3 gallons of water per person per day, again for at least 3 to 7 days, at least 3 days, preferably more; obviously, a battery-powered radio, a flashlight, extra batteries, special items including medications if you need them for infants, for the elderly or for disabled family members, and also making sure that you take care of pets, as well.

As we have learned in south Florida, the forecasters, the meteorologists and the hurricane specialists at National Hurricane Center who become, frankly, every year, heroes to all of us who are in hurricane-prone areas are often the source of the most valuable information on hurricane preparedness. They spend countless hours and days providing valuable information and warnings to all those Americans located in a potential path of a hurricane. Millions of Americans have come to rely on their steady advice and counsel, on their skill, and we thank them for their vital services.

Madam Speaker, I urge all Americans living in hurricane-prone areas to use this Hurricane Preparedness Week as an opportunity to learn more about the approaching hurricane season, to prepare before—before, I repeat—a storm threatens.

Once again, I need to thank the chairman for allowing this resolution to come here quickly, timely. It is important, and I want to thank him for his cooperation, as well as the ranking member and both staffs.

And with that, I do not think I have another speaker. I yield back the remaining part of my time.

Mr. GORDON of Tennessee. Madam Speaker, in conclusion, I want to again thank Mr. DIAZ-BALART for introducing this legislation. He understands this in a very personal way. This resolution can help save lives.

I urge adoption of the resolution.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. GORDON) that the House suspend the rules and agree to the resolution, H. Res. 387.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

NETWORKING AND INFORMATION TECHNOLOGY RESEARCH AND DEVELOPMENT ACT OF 2009

Mr. GORDON of Tennessee. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 2020) to amend the High-Performance Computing Act of 1991 to authorize activities for support of networking and information technology research, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2020

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Networking and Information Technology Research and Development Act of 2009".

SEC. 2. PROGRAM PLANNING AND COORDINATION.

(a) PERIODIC REVIEWS.—Section 101 of the High-Performance Computing Act of 1991 (15 U.S.C. 5511) is amended by adding at the end the following new subsection:

“(d) PERIODIC REVIEWS.—The agencies identified in subsection (a)(3)(B) shall—

“(1) periodically assess the contents and funding levels of the Program Component Areas and restructure the Program when warranted, taking into consideration any relevant recommendations of the advisory committee established under subsection (b); and

“(2) ensure that the Program includes large-scale, long-term, interdisciplinary research and development activities, including activities described in section 104.”.

(b) DEVELOPMENT OF STRATEGIC PLAN.—Section 101 of such Act (15 U.S.C. 5511) is amended further by adding after subsection (d), as added

by subsection (a) of this Act, the following new subsection:

“(e) STRATEGIC PLAN.—

“(1) IN GENERAL.—The agencies identified in subsection (a)(3)(B), working through the National Science and Technology Council and with the assistance of the National Coordination Office established under section 102, shall develop, within 12 months after the date of enactment of the Networking and Information Technology Research and Development Act of 2009, and update every 3 years thereafter, a 5-year strategic plan to guide the activities described under subsection (a)(1).

“(2) CONTENTS.—The strategic plan shall specify near-term and long-term objectives for the Program, the anticipated time frame for achieving the near-term objectives, the metrics to be used for assessing progress toward the objectives, and how the Program will—

“(A) foster the transfer of research and development results into new technologies and applications for the benefit of society, including through cooperation and collaborations with networking and information technology research, development, and technology transition initiatives supported by the States;

“(B) encourage and support mechanisms for interdisciplinary research and development in networking and information technology, including through collaborations across agencies, across Program Component Areas, with industry, with Federal laboratories (as defined in section 4 of the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3703)), and with international organizations;

“(C) address long-term challenges of national importance for which solutions require large-scale, long-term, interdisciplinary research and development;

“(D) place emphasis on innovative and high-risk projects having the potential for substantial societal returns on the research investment;

“(E) strengthen all levels of networking and information technology education and training programs to ensure an adequate, well-trained workforce; and

“(F) attract more women and underrepresented minorities to pursue postsecondary degrees in networking and information technology.

“(3) NATIONAL RESEARCH INFRASTRUCTURE.—The strategic plan developed in accordance with paragraph (1) shall be accompanied by milestones and roadmaps for establishing and maintaining the national research infrastructure required to support the Program, including the roadmap required by subsection (a)(2)(E).

“(4) RECOMMENDATIONS.—The entities involved in developing the strategic plan under paragraph (1) shall take into consideration the recommendations—

“(A) of the advisory committee established under subsection (b); and

“(B) of the stakeholders whose input was solicited by the National Coordination Office, as required under section 102(b)(3).

“(5) REPORT TO CONGRESS.—The Director of the National Coordination Office shall transmit the strategic plan required under paragraph (1) to the advisory committee, the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Science and Technology of the House of Representatives.”.

(c) ADDITIONAL RESPONSIBILITIES OF DIRECTOR.—Section 101(a)(2) of such Act (15 U.S.C. 5511(a)(2)) is amended—

(1) by redesignating subparagraphs (E) and (F) as subparagraphs (F) and (G), respectively; and

(2) by inserting after subparagraph (D) the following new subparagraph:

“(E) encourage and monitor the efforts of the agencies participating in the Program to allocate the level of resources and management attention necessary to ensure that the strategic plan under subsection (e) is developed and executed effectively and that the objectives of the Program are met;”.

(d) ADVISORY COMMITTEE.—Section 101(b)(1) of such Act (15 U.S.C. 5511(b)(1)) is amended by inserting after “an advisory committee on high-performance computing,” the following: “in which the co-chairs shall be members of the President’s Council of Advisors on Science and Technology and with the remainder of the committee”.

(e) REPORT.—Section 101(a)(3) of such Act (15 U.S.C. 5511(a)(3)) is amended—

(1) in subparagraph (C)—

(A) by striking “is submitted,” and inserting “is submitted, the levels for the previous fiscal year,”; and

(B) by striking “each Program Component Area,” and inserting “each Program Component Area and research area supported in accordance with section 104,”;

(2) in subparagraph (D)—

(A) by striking “each Program Component Area,” and inserting “each Program Component Area and research area supported in accordance with section 104,”;

(B) by striking “is submitted,” and inserting “is submitted, the levels for the previous fiscal year,”; and

(C) by striking “and” after the semicolon;

(3) by redesignating subparagraph (E) as subparagraph (G); and

(4) by inserting after subparagraph (D) the following new subparagraphs:

“(E) include a description of how the objectives for each Program Component Area, and the objectives for activities that involve multiple Program Component Areas, relate to the objectives of the Program identified in the strategic plan required under subsection (e);

“(F) include—

“(i) a description of the funding required by the National Coordination Office to perform the functions specified under section 102(b) for the next fiscal year by category of activity;

“(ii) a description of the funding required by such Office to perform the functions specified under section 102(b) for the current fiscal year by category of activity; and

“(iii) the amount of funding provided for such Office for the current fiscal year by each agency participating in the Program; and”.

(f) DEFINITION.—Section 4 of such Act (15 U.S.C. 5503) is amended—

(1) by redesignating paragraphs (1) through (7) as paragraphs (2) through (8), respectively;

(2) by inserting before paragraph (2), as so redesignated, the following new paragraph:

“(1) ‘cyber-physical systems’ means physical or engineered systems whose networking and information technology functions and physical elements are deeply integrated and are actively connected to the physical world through sensors, actuators, or other means to perform monitoring and control functions;”;

(3) in paragraph (4), as so redesignated—

(A) by striking “high-performance computing” and inserting “networking and information technology”; and

(B) by striking “supercomputer” and inserting “high-end computing”;

(4) in paragraph (6), as so redesignated, by striking “network referred to as” and all that follows through the semicolon and inserting “network, including advanced computer networks of Federal agencies and departments;”;

(5) in paragraph (7), as so redesignated, by striking “National High-Performance Computing Program” and inserting “networking and information technology research and development program”.

SEC. 3. LARGE-SCALE RESEARCH IN AREAS OF NATIONAL IMPORTANCE.

Title I of such Act (15 U.S.C. 5511) is amended by adding at the end the following new section:

“SEC. 104. LARGE-SCALE RESEARCH IN AREAS OF NATIONAL IMPORTANCE.

“(a) IN GENERAL.—The Program shall encourage agencies identified in section 101(a)(3)(B) to

support large-scale, long-term, interdisciplinary research and development activities in networking and information technology directed toward application areas that have the potential for significant contributions to national economic competitiveness and for other significant societal benefits. Such activities, ranging from basic research to the demonstration of technical solutions, shall be designed to advance the development of research discoveries. The advisory committee established under section 101(b) shall make recommendations to the Program for candidate research and development areas for support under this section.

“(b) CHARACTERISTICS.—

“(1) IN GENERAL.—Research and development activities under this section shall—

“(A) include projects selected on the basis of applications for support through a competitive, merit-based process;

“(B) involve collaborations among researchers in institutions of higher education and industry, and may involve nonprofit research institutions and Federal laboratories, as appropriate;

“(C) when possible, leverage Federal investments through collaboration with related State initiatives; and

“(D) include a plan for fostering the transfer of research discoveries and the results of technology demonstration activities, including from institutions of higher education and Federal laboratories, to industry for commercial development.

“(2) COST-SHARING.—In selecting applications for support, the agencies shall give special consideration to projects that include cost sharing from non-Federal sources.

“(3) AGENCY COLLABORATION.—If 2 or more agencies identified in section 101(a)(3)(B), or other appropriate agencies, are working on large-scale research and development activities in the same area of national importance, then such agencies shall strive to collaborate through joint solicitation and selection of applications for support and subsequent funding of projects.

“(4) INTERDISCIPLINARY RESEARCH CENTERS.—Research and development activities under this section may be supported through interdisciplinary research centers that are organized to investigate basic research questions and carry out technology demonstration activities in areas described in subsection (a). Research may be carried out through existing interdisciplinary centers, including those authorized under section 7024(b)(2) of the America COMPETES Act (Public Law 110-69; 42 U.S.C. 1862o-10).”.

SEC. 4. CYBER-PHYSICAL SYSTEMS AND INFORMATION MANAGEMENT.

(a) ADDITIONAL PROGRAM CHARACTERISTICS.—Section 101(a)(1) of such Act (15 U.S.C. 5511(a)(1)) is amended—

(1) in subparagraph (H), by striking “and” after the semicolon;

(2) in subparagraph (I), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following new subparagraphs:

“(J) provide for increased understanding of the scientific principles of cyber-physical systems and improve the methods available for the design, development, and operation of cyber-physical systems that are characterized by high reliability, safety, and security; and

“(K) provide for research and development on human-computer interactions, visualization, and information management.”.

(b) TASK FORCE.—Title I of such Act (15 U.S.C. 5511) is amended further by adding after section 104, as added by section 3, the following new section:

“SEC. 105. UNIVERSITY/INDUSTRY TASK FORCE.

“(a) ESTABLISHMENT.—Not later than 180 days after the date of enactment of the Networking and Information Technology Research and Development Act of 2009, the Director of the National Coordination Office established under section 102 shall convene a task force to explore

mechanisms for carrying out collaborative research and development activities for cyber-physical systems, including the related technologies required to enable these systems, through a consortium or other appropriate entity with participants from institutions of higher education, Federal laboratories, and industry.

“(b) FUNCTIONS.—The task force shall—

“(1) develop options for a collaborative model and an organizational structure for such entity under which the joint research and development activities could be planned, managed, and conducted effectively, including mechanisms for the allocation of resources among the participants in such entity for support of such activities;

“(2) propose a process for developing a research and development agenda for such entity, including objectives and milestones;

“(3) define the roles and responsibilities for the participants from institutions of higher education, Federal laboratories, and industry in such entity;

“(4) propose guidelines for assigning intellectual property rights and for the transfer of research results to the private sector; and

“(5) make recommendations for how such entity could be funded from Federal, State, and non-governmental sources.

“(c) COMPOSITION.—In establishing the task force under subsection (a), the Director of the National Coordination Office shall appoint an equal number of individuals from institutions of higher education and from industry with knowledge and expertise in cyber-physical systems, of which 2 may be selected from Federal laboratories.

“(d) REPORT.—Not later than 1 year after the date of enactment of the Networking and Information Technology Research and Development Act of 2009, the Director of the National Coordination Office shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science and Technology of the House of Representatives a report describing the findings and recommendations of the task force.”

SEC. 5. NATIONAL COORDINATION OFFICE.

Section 102 of such Act (15 U.S.C. 5512) is amended to read as follows:

“SEC. 102. NATIONAL COORDINATION OFFICE.

“(a) ESTABLISHMENT.—The Director shall establish a National Coordination Office with a Director and full-time staff.

“(b) FUNCTIONS.—The National Coordination Office shall—

“(1) provide technical and administrative support to—

“(A) the agencies participating in planning and implementing the Program, including such support as needed in the development of the strategic plan under section 101(e); and

“(B) the advisory committee established under section 101(b);

“(2) serve as the primary point of contact on Federal networking and information technology activities for government organizations, academia, industry, professional societies, State computing and networking technology programs, interested citizen groups, and others to exchange technical and programmatic information;

“(3) solicit input and recommendations from a wide range of stakeholders during the development of each strategic plan required under section 101(e) through the convening of at least 1 workshop with invitees from academia, industry, Federal laboratories, and other relevant organizations and institutions;

“(4) conduct public outreach, including the dissemination of findings and recommendations of the advisory committee, as appropriate; and

“(5) promote access to and early application of the technologies, innovations, and expertise derived from Program activities to agency missions and systems across the Federal Government and to United States industry.

“(c) SOURCE OF FUNDING.—

“(1) IN GENERAL.—The operation of the National Coordination Office shall be supported by funds from each agency participating in the Program.

“(2) SPECIFICATIONS.—The portion of the total budget of such Office that is provided by each agency for each fiscal year shall be in the same proportion as each such agency's share of the total budget for the Program for the previous fiscal year, as specified in the report required under section 101(a)(3).”

SEC. 6. IMPROVING NETWORKING AND INFORMATION TECHNOLOGY EDUCATION.

Section 201(a) of such Act (15 U.S.C. 5521(a)) is amended—

(1) by redesignating paragraphs (2) through (4) as paragraphs (3) through (5), respectively; and

(2) by inserting after paragraph (1) the following new paragraph:

“(2) the National Science Foundation shall use its existing programs, in collaboration with other agencies, as appropriate, to improve the teaching and learning of networking and information technology at all levels of education and to increase participation in networking and information technology fields, including by women and underrepresented minorities;”

SEC. 7. CONFORMING AND TECHNICAL AMENDMENTS.

(a) SECTION 3.—Section 3 of such Act (15 U.S.C. 5502) is amended—

(1) in the matter preceding paragraph (1), by striking “high-performance computing” and inserting “networking and information technology”; and

(2) in paragraph (1), in the matter preceding subparagraph (A), by striking “high-performance computing” and inserting “networking and information technology”; and

(3) in subparagraphs (A) and (F) of paragraph (1), by striking “high-performance computing” each place it appears and inserting “networking and information technology”; and

(4) in paragraph (2)—

(A) by striking “high-performance computing and” and inserting “networking and information technology and”; and

(B) by striking “high-performance computing network” and inserting “networking and information technology”.

(b) TITLE I.—The heading of title I of such Act (15 U.S.C. 5511) is amended by striking “HIGH-PERFORMANCE COMPUTING” and inserting “NETWORKING AND INFORMATION TECHNOLOGY”.

(c) SECTION 101.—Section 101 of such Act (15 U.S.C. 5511) is amended—

(1) in the section heading, by striking “HIGH-PERFORMANCE COMPUTING” and inserting “NETWORKING AND INFORMATION TECHNOLOGY RESEARCH AND DEVELOPMENT”; and

(2) in subsection (a)—

(A) in the subsection heading, by striking “NATIONAL HIGH-PERFORMANCE COMPUTING” and inserting “NETWORKING AND INFORMATION TECHNOLOGY RESEARCH AND DEVELOPMENT”; and

(B) in paragraph (1) of such subsection—

(i) in the matter preceding subparagraph (A), by striking “National High-Performance Computing Program” and inserting “networking and information technology research and development program”; and

(ii) in subparagraph (A), by striking “high-performance computing, including networking” and inserting “networking and information technology”; and

(iii) in subparagraphs (B), (C), and (G), by striking “high-performance” each place it appears and inserting “high-end”; and

(C) in paragraph (2) of such subsection—

(i) in subparagraphs (A) and (C)—

(I) by striking “high-performance computing” each place it appears and inserting “networking and information technology”; and

(II) by striking “development, networking,” each place it appears and inserting “development,”; and

(ii) in subparagraphs (F) and (G), as redesignated by section 2(c)(1) of this Act, by striking “high-performance” each place it appears and inserting “high-end”;

(3) in subsection (b)(1), in the matter preceding subparagraph (A), by striking “high-performance computing” both places it appears and inserting “networking and information technology”; and

(4) in subsection (c)(1)(A), by striking “high-performance computing” and inserting “networking and information technology”.

(d) SECTION 201.—Section 201(a)(1) of such Act (15 U.S.C. 5521(a)(1)) is amended by striking “high-performance computing” and all that follows through “networking;” and inserting “networking and information research and development;”.

(e) SECTION 202.—Section 202(a) of such Act (15 U.S.C. 5522(a)) is amended by striking “high-performance computing” and inserting “networking and information technology”.

(f) SECTION 203.—Section 203(a)(1) of such Act (15 U.S.C. 5523(a)(1)) is amended by striking “high-performance computing and networking” and inserting “networking and information technology”.

(g) SECTION 204.—Section 204(a)(1) of such Act (15 U.S.C. 5524(a)(1)) is amended—

(1) in subparagraph (A), by striking “high-performance computing systems and networks” and inserting “networking and information technology systems and capabilities”; and

(2) in subparagraph (C), by striking “high-performance computing” and inserting “networking and information technology”.

(h) SECTION 205.—Section 205(a) of such Act (15 U.S.C. 5525(a)) is amended by striking “computational” and inserting “networking and information technology”.

(i) SECTION 206.—Section 206(a) of such Act (15 U.S.C. 5526(a)) is amended by striking “computational research” and inserting “networking and information technology research”.

(j) SECTION 208.—Section 208 of such Act (15 U.S.C. 5528) is amended—

(1) in the section heading, by striking “HIGH-PERFORMANCE COMPUTING” and inserting “NETWORKING AND INFORMATION TECHNOLOGY”; and

(2) in subsection (a)—

(A) in paragraph (1), by striking “High-performance computing and associated” and inserting “Networking and information”; and

(B) in paragraph (2), by striking “high-performance computing” and inserting “networking and information technologies”; and

(C) in paragraph (4), by striking “high-performance computers and associated” and inserting “networking and information”; and

(D) in paragraph (5), by striking “high-performance computing and associated” and inserting “networking and information”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. GORDON) and the gentleman from Florida (Mr. MARIO DIAZ-BALART) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee.

GENERAL LEAVE

Mr. GORDON of Tennessee. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on H.R. 2020, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GORDON of Tennessee. Madam Speaker, I yield myself such time as I may consume.

H.R. 2020 is a good bipartisan bill which I and Mr. HALL introduced along with a number of our committee colleagues. H.R. 2020 continues to improve and update a program that was originally created in the High-Performance Computing Act of 1991.

The NITRD program, as it is known, involves a collaboration of more than one dozen Federal research and development agencies for a current total Federal investment of approximately \$3.5 billion. This may sound like a lot, but the European Union is investing \$7 billion over the next 5 years in cyberphysical systems alone.

To ensure we make the most effective use of our own resources and to remain a leader in these fields, it is critical that these many agencies come together to develop common goals and well-defined strategies.

H.R. 2020 strengthens the interagency planning, coordination and prioritization for NITRD by requiring the development and periodic update of the strategic plan, informed by both industry and academia. This plan is meant to create a vision for networking and information technology, R&D, across the Federal Government, and provides specific metrics for measuring progress toward that vision.

Next, the bill calls for an increased support of large-scale, long-term interdisciplinary research in networking and information technology that will help us tackle national challenges. These large-scale, long-term investments can provide substantial benefits to society, such as improving the effectiveness and efficiency of our health care and energy delivery systems.

Finally, H.R. 2020 promotes partnerships between the Federal Government, academia, and industry to foster technological transfer. It makes certain that the existing independent advisory committee will have the technical knowledge necessary to guide the program, and it ensures that the education of the future NITRD force remains an important component of the program.

□ 1445

Many organizations support this legislation, including IBM, Association of Computing Machinery, Computing Research Association, IEEE-USA, and Society for Industrial and Applied Mathematics.

Our nearly 20-year investment in the NITRD program has helped create jobs across all sectors of our economy and contributed immeasurably to our economic and national security.

Given how rapidly these fields evolve, a comprehensive look at the NITRD program by Congress is timely. I urge my colleagues to support H.R. 2020.

I reserve the balance of my time.

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today to support H.R. 2020, the Network and Information Technology Research and De-

velopment Act of 2009. The NITRD program is the main Federal R&D investment portfolio in unclassified networking, computing, software, cybersecurity, and related information technology.

Networking and information technology, that technology that is vital but obviously sometimes drives us all crazy, sometimes outright batty, but it plays a critical role in our everyday lives, often in ways we do not even realize. Federal R&D investment in NIT has produced such computer breakthroughs as ARPAnet, the forerunner of the modern Internet, communications protocols to transmit data over networks, supercomputing, the Web browser, and the computer mouse, just to name a few. Multidisciplinary innovations include the decoding of the human genome, modeling and simulation of complex physical systems for aircraft, automobiles, power grids and pharmaceuticals, near real-time weather forecasting and climate models, and unmanned aerial vehicles and search and rescue robots.

Cybersecurity is one of the biggest security challenges facing our Nation today. It goes throughout all of our Federal agencies and even onto our private computer systems. This is just one area that the NITRD program helps to coordinate our Federal R&D, but it indicates just how imperative it is that we continue to support critical and collaborative research efforts such as this.

This bipartisan bill, and I again thank the chairman and also the ranking member for this, this bill authorizes one of the few formal interagency R&D activities within the Federal Government and one that has been viewed as a model of interagency cooperation and coordination. It is a culmination of recommendations from the 2007 PCAST Report on the program, feedback from numerous organizations, and hearing witness testimony. Technology has changed since this program was initiated in the early 1990s. This legislation updates the underlying statute to reflect those changes and helps prepare us for future innovative opportunities in NIT.

I want to thank the chairman for working on this important measure in such a bipartisan manner. Madam Speaker, he tends to do that. He is one of those Members that always tries to listen to all members of his committee.

I encourage my colleagues to join me, along with Chairman GORDON, Ranking Member HALL, and other members of the Science and Technology Committee in supporting H.R. 2020.

I reserve the balance of my time.

Mr. GORDON of Tennessee. Madam Speaker, we have no further speakers.

Mr. MARIO DIAZ-BALART of Florida. Madam Speaker, I yield back the balance of my time.

Mr. GORDON of Tennessee. Madam Speaker, I thank the gentleman from Florida for his kind remarks and asso-

ciating with his description of this very good bill.

I also want to say a special thanks to a former staff member of our committee, Jim Wilson, who was the staff director for the Research, Science and Education Committee. One of his last pieces of work before he left our committee was to put the framework for this bill together, and then working together with the good bipartisan staff that we have now, we have even a better bill. I thank him and I thank our current staff.

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, I rise in support of H.R. 2020: the Networking and Information Technology Research and Development Act of 2009.

Advanced computer networks are the wave of the future.

As technology has improved, we are better able to predict the paths of hurricanes, the force of tsunamis, or even the trajectory of comets.

Advanced computing is a broad area of active research. The Texas Advanced Computing Center, in Austin, has scientists who are using supercomputers to simulate airflow and manage shock waves for next-generation, hypersonic aircraft.

Other researchers there have been working to understand the process by which enzymes convert plant matter into energy, with the goal of creating more efficient enzymes. Then we could more quickly convert waste to energy.

High speed computers have also enabled scientists to develop realistic models of the human lung.

Teams of Texas researchers are working to develop a new tool to image, understand, and diagnose how air flows through the thousands of branching passageways of the lung, and how abnormalities can lead to illness.

There are so many useful applications for high speed computers and advanced networks.

The federal government invests more than \$3 billion on the Networking and Information Technology Research and Development (NITRD) program.

It is essential that such a large investment is spent wisely.

The President's Council of Advisors on Science and Technology recently provided recommendations on how to improve our federal efforts in computer network research.

A key recommendation was to support high-risk, multi-disciplinary research. I support this suggestion.

For far too long, federal investments have been made in "safe research," or research that has a certainty of getting a result.

The negative consequence is that science moves along at an incremental snail's pace.

Investments in high-risk research may never come to fruition or payoff. However we must support research of this nature.

Scientists must be unfettered to think more creatively. Then, they have the freedom to tackle big questions that sometimes take more time and more experimentation to answer.

As a previous chair of the Research and Science Education Subcommittee, I have long been a strong supporter of this kind of research.

I support H.R. 2020 and urge my colleagues to support it also.

Mr. GORDON of Tennessee. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. GORDON) that the House suspend the rules and pass the bill, H.R. 2020, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

RECOGNIZING NATIONAL NURSES WEEK

Mrs. CHRISTENSEN. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 192) recognizing National Nurses Week on May 6 through May 12, 2009.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 192

Whereas since 1999, National Nurses Week is celebrated annually from May 6, also known as National Recognition Day for Nurses, through May 12, the birthday of Florence Nightingale, the founder of modern nursing;

Whereas National Nurses Week is a time of year to reflect on the important contributions that nurses make to provide safe, high-quality healthcare;

Whereas nurses are known to be patient advocates, acting fearlessly to protect the lives of those under their care;

Whereas nurses represent the largest single component of the healthcare profession, with an estimated population of 2,900,000 registered nurses in the United States;

Whereas nurses are experienced researchers, and their work encompasses a wide scope of scientific inquiry including clinical research, health systems and outcomes research, and nursing education research;

Whereas nurses provide culturally and ethnically competent care and are increasingly being educated to be sensitive to regional and community customs of persons needing care;

Whereas nurses are best positioned to provide leadership to eliminate healthcare disparities that exist in our Nation;

Whereas nurses help inform and educate the public to improve the practice of all nurses and, more importantly, the health and safety of the patients they care for;

Whereas the American Association of Colleges of Nursing (AACN) released preliminary survey data showing that enrollment in entry-level baccalaureate nursing programs increased by only 2 percent from 2007 to 2008, and though this marks the eighth consecutive year of enrollment growth, the annual increase in student capacity in 4-year nursing programs has declined sharply since 2003 when enrollment was up by 16.6 percent;

Whereas United States nursing programs were forced to reject almost 100,000 qualified applications to nursing programs according to the National League for Nursing's most recent survey of all prelicensure nursing programs;

Whereas the nationwide nursing shortage has caused dedicated nurses to work longer hours and care for more acutely ill patients;

Whereas nurse educators work on average more than 57 hours per week in order to ensure that each and every new registered

nurse receives an excellent education, advancing excellence among the next generation of nurses;

Whereas nurses are strong allies to Congress as they help inform, educate, and work closely with legislators to improve the education, retention, recruitment, and practice of all nurses and, more importantly, the health and safety of the patients they care for; and

Whereas increased Federal and State support is needed to enhance existing programs and create new programs to educate nursing students at all levels, to increase the number of faculty members to educate nursing students, to create clinical sites and have the appropriately prepared nurses to teach and train at those sites, to create educational opportunities to retain nurses in the profession, and to educate and train more nurse research scientists who can discover new nursing care models to improve the health status of the Nation's diverse population: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the significant contributions of nurses to the healthcare system of the United States;

(2) supports the goals and ideals of National Nurses Week, as founded by the American Nurses Association; and

(3) encourages the people of the United States to observe National Nurses Week with appropriate recognition, ceremonies, activities, and programs to demonstrate the importance of nurses to the everyday lives of patients.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) and the gentleman from Idaho (Mr. SIMPSON) each will control 20 minutes.

The Chair recognizes the gentlewoman from the Virgin Islands.

GENERAL LEAVE

Mrs. CHRISTENSEN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the Virgin Islands?

There was no objection.

Mrs. CHRISTENSEN. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in strong support of H. Res. 192, a resolution that honors the important contributions of nurses in the United States health care system.

There are nearly 3 million registered nurses nationwide. Nurses represent the single largest group of health care professionals. They are involved in every aspect of care. They are researchers. They help inform and educate the public, and they also help educate doctors, especially those freshly out of medical schools or residencies. They monitor the health and safety of their patients. They work to provide culturally competent care.

Earlier this spring at an Energy and Commerce hearing, witnesses highlighted the important role that nurses play in improving access to primary care, particularly among the underserved populations.

I would like to thank Representative EDDIE BERNICE JOHNSON, a nurse, for

her leadership on this issue. I would also like to thank Representative CAPPS, who is also a nurse, for her continued support of nursing issues and for her work on this bill, and I urge my colleagues to join me in supporting this resolution that observes the important role that nurses play in the lives of their patients.

I reserve the balance of my time.

Mr. SIMPSON. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of H. Res. 192 recognizing National Nurses Week from May 6 through May 12, 2009. Not only is today the last day of National Nurses Week, but it is also the birthday of Florence Nightingale, the founder of modern nursing. I hope that my colleagues here at the House of Representatives have had an opportunity to reflect over the last week on all of the contributions that nurses have made to ensure safe and high-quality health care to those under their care.

In each of our communities, nurses work collaboratively with patients and other health professionals to improve the safety of patients and advance care in a myriad of settings. Nurses represent the largest single component of the health care profession with nearly 2.9 million registered nurses in the United States who are dedicated to improving the health outcomes of million of patients under their care.

I applaud the work that nurses have contributed and because of the ailing economy, we are seeing more nurses filling the shortage that exists. Many are going back to work, or putting off planned retirement to help maintain their family income during tough economic times. Many of those jobs are also being filled by better recruiting tactics by hospitals that have increased wages, offered potential hires signing bonuses, and efforts have been made to retain older nurses by making their jobs less strenuous. But as past economic indicators have shown, nurses shortages occur in times of healthy economic expansion and as baby boomers get older, we hope that hospitals will continue to provide incentives for nurses to fill vacant health care positions.

I would like to thank Ms. EDDIE BERNICE JOHNSON of Texas, the sponsor of this resolution, and the American Nurses Association for raising public awareness about the contributions that nurses give to our communities. I encourage all of my colleagues to vote in favor of this resolution.

I reserve the balance of my time.

Mrs. CHRISTENSEN. Madam Speaker, I would like to yield such time as she may consume to the gentlewoman from Illinois (Ms. SCHAKOWSKY).

Ms. SCHAKOWSKY. Madam Speaker, I thank my friend and colleague and physician from the Virgin Islands for yielding to me. I rise in strong support of H. Res. 192, a resolution in recognition of National Nurses Week.

I too would like to thank Representative EDDIE BERNICE JOHNSON for introducing this bill, along with Representative LOIS CAPPS and Representative CAROLYN MCCARTHY, all nurses in this body, for sponsoring this resolution and for their steadfast commitment to honoring nurses and highlighting the importance of estimated 2.9 million nurses to our health care system.

As we move forward with health care reform discussions, we must continue to listen to nurses. Nurses will fight for improving patient access to quality care. And it is nurses who will advocate for more preventive and primary care providers to help reduce the need for costly inpatient care. And it is nurses who will fight for appropriate nurse staffing ratios to reduce medical error and to cut down on the number of readmissions to hospitals.

We all know about the shortages in primary care professionals, especially nurses right now; and as we move toward health care reform and bring more people into the system, we certainly are going to need more nurses.

There are about 500,000 nurses out there who have left the profession for many, many reasons, but one of them is because they have very stressful working conditions.

So as we celebrate National Nurses Week, we need to think about that. One of those issues is to reduce the number of patients that each nurse has to take care of these days. The patient/nurse ratio is so high, there are so many patients that they have to take care of, that many have just said, Can't do it.

And so I think the best way we honor nurses is to look at ways we make conditions in the hospitals, in their workplace, much more amenable to them because they are the frontline people.

Right now when our loved ones have to go to the hospital, many feel they need to have an advocate with them because when the button is pushed calling for the nurse, sometimes they are not there, not because they don't want to be there, but because they are in the next room or the next room and not able to get to their patients.

Madam Speaker, it is important that Congress recognize and celebrate our nurses during National Nurses Week and throughout the year, and throughout the years to come. Our nurses stand up for us, and I am honored to stand up for them.

Mr. SIMPSON. Madam Speaker, I have no other speakers, and I yield back the balance of my time.

Mrs. CHRISTENSEN. Madam Speaker, it is my pleasure to yield to the sponsor of the resolution, the gentlewoman from Texas (Ms. EDDIE BERNICE JOHNSON).

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, let me thank my colleagues who are managing this bill today.

It really is a delight and a privilege to offer a resolution recognizing National Nurses Week, which is May 6 through today, the 12th.

I began my professional career as a nurse and as a registered nurse with a master's degree; I have 15 years of hands-on patient-care experience. I served as the chief psychiatric nurse at the VA Hospital in Dallas. During times of war, we see so many men and women suffering from post-traumatic stress disorder. They need prompt and compassionate care.

Just yesterday, the New York Times reported that an American soldier in Baghdad shot five of his fellow comrades. The attack took place in a clinic for soldiers who were seeking help for stress. Another such incident occurred last September.

I have great empathy for our brave members of our military who suffer from emotional distress, and I admire the nurses and other health care professionals who work to assist them. Nurses are a key component of our health care system; and whether on the battlefield, at sea, in a skilled nursing facility or in a hospital, the care that a nurse provides is very, very valuable.

□ 1500

Nurses are the patient's primary advocate. They are intelligent people who most often have to make quick decisions in an effort to save the life of a patient. Nurses are tough guardians. They often do their work under duress and under difficult conditions.

My colleagues, Congresswoman LOIS CAPPS and Congresswoman CAROLYN MCCARTHY, are also nurses. They have worked with me to promote this resolution, and they are champions in the nursing profession.

I want to thank my many congressional colleagues who cosponsored this resolution honoring nurses. We recognize that although more than 2.9 million registered nurses work in the United States, our Nation continues to suffer from a nursing shortage. Congress should invest in the title VIII Nursing Workforce Development Program to help address this challenge. We cannot do health care reform without addressing the shortage of nursing.

Congress must also increase support for nurse faculty education, particularly for advanced practice nurses and advanced education in nursing. Further, hospitals need to establish valid, reliable and adjustable unit-by-unit nurse staffing plans. These plans should link staff to quality outcomes and should involve direct input of nursing staff based on each area's unique characteristics and needs. The nursing community has provided valuable recommendations on policies to support the nursing profession, and I encourage my colleagues to review these suggestions.

Several nursing organizations were engaged in developing this resolution, and I would like to thank them. They are the American Nurses Association, the Emergency Nurses Association, the National Black Nurses Association, and the National League for Nurses.

Today's resolution honors the good work that all nurses do, the profession

that has more patient support than any other. Along with my many supportive colleagues, I want to thank the House leadership for bringing up this important resolution and I urge support for the resolution.

Mrs. CHRISTENSEN. Madam Speaker, I want to recognize the American Nurses Association and the National Black Nurses Association, as well as the other nursing associations, for the leadership that they provide on behalf of nurses, and to take this opportunity to congratulate all the new nurses who will be receiving their pins and their caps later this month and joining this noble profession.

Mr. CONYERS. Madam Speaker, I rise today in order to thank my colleague EDDIE BERNICE JOHNSON for sponsoring National Nurses Week.

Nurses are America's national heroes. Day after day, they deliver life saving health care in nursing homes, hospitals, community clinics, and public schools across this nation. They deliver our babies, take care of the disabled, and make sure that senior citizens receive the tender loving care and attention they need when they are sick and infirm.

Sadly, too many nurses are working in hospitals, clinics and other health care work settings that are stressful, inhumane, and not conducive to safe patient care. Many nurses experience painful and debilitating work related injuries from lifting patients—injuries that could be avoided if there were mechanical lift devices in hospitals which could safely assist nurses in the lifting of patients.

Nurses across the nation rightfully complain of working too many hours, supervising too many patients at one time, and having to spend endless hours filling out paper work. Much of the paper work is related to private insurance billing.

Many nurses leave the profession early because of stressful and difficult work conditions. This is contributing to a growing nursing shortage in America. Unfortunately, patients across this nation are getting less quality care from nurses because there are simply not enough nurses to provide the care that patients need and deserve. America must address the nursing crisis now, especially as we move towards major health reform.

We must thank President Obama for having the vision and courage to address our dysfunctional health care system by calling for passage of a major health reform bill this year. I believe that creating a national health insurance system would be the most cost effective and humane way to achieve universal health care in America. This is why I have introduced HR 676, "The United States National Health Insurance Act," in every Congress since 2003.

We as a nation must ensure that we have the best trained and optimal number of nurses possible. However, if we are to achieve this very important goal, the President and the Congress must have a "federal national nurse policy" that reflects the needs of the nursing profession.

This can be best accomplished by having members of Congress and the President listen to the many challenges that our over worked nurses experience every day, and then passing meaningful federal nurse reform legislation that can substantively address the nursing shortage in this country, and improve their work conditions.

Our nurses deserve the best work conditions possible, and so do the millions of patients they care for in America.

Ms. JACKSON-LEE of Texas. Madam Speaker, I rise today in support of H. Res. 192, recognizing national nurses week on May 6 through May 12, 2009. I thank Congresswoman EDDIE BERNICE JOHNSON for introducing this important resolution which recognizes and acknowledges the dedication of our nursing community across America.

This resolution is important because nurses represent the largest single component of the healthcare profession, with an estimated 2.9 million registered nurses in the United States. In Texas alone, according to the Texas Board of Nursing, there are 162,163 registered nurses through out the state.

In Harris County, the county encompassing my district, there are 24,480 registered nurses. Nurses are patient advocates and act fearlessly to protect the lives of those under their care. Nurses care for patients, but participate in a wide range of needed scientific research, and fight cultural and ethnic disparities, and treat all patients as equals. Nurses are also teachers, not only to future generations of nurses, but to the public, educating us on health and safety.

It is necessary that we acknowledge the outstanding contribution to society by nurses because nurses can be strong allies to Congress as they help inform, educate and work closely with legislators to improve the education, retention, recruitment and practice of all nurses and, more importantly, the health and safety of the patients they care for.

Federal and State support is needed to enhance existing programs to educate nursing students at all levels, to increase the number of faculty members to educate nursing students, to create clinical sites and have the appropriately prepared nurses to teach and train at those sites, to create educational opportunities to retain nurses in the profession, and to educate and train more nurse research scientists who can discover new nursing care models to improve the health status of the Nation's diverse population. The services nurses can provide are linked directly to the availability, cost and quality of healthcare services, which are at the center of health reform discussions.

In a year where health care reform is a top priority, it is significant to acknowledge that 33 national nursing organizations have endorsed a consensus statement from the Nursing Community that complement five of President Obama's tenets outlined in his Transforming and Modernizing America's Health Care System plan. Nurses protect families and financial health and make health care coverage affordable by providing cost-effective care at all levels of nursing practice. Nurses play a key role in the success of the President's aim for universality. Without a strong investment in the nursing workforce, the goal of reaching universality will be unattainable, particularly for rural communities and underserved populations. When the Administration and Congress invest in prevention and wellness, existing practice and care models, such as the Nurse Family Partnership, derived from nursing science will serve as national exemplars for wellness and prevention. The strength of the nursing profession lies in its contribution to improve patient safety and quality care. Nursing care is critical to improving healthcare

quality and safety to ensure better patient outcomes.

Unfortunately, there is a continuing shortage of professional Registered Nurses. The American Association of Colleges of Nursing released preliminary survey data showing that enrollment in entry level baccalaureate nursing programs increased by only 2 percent from 2007 to 2008. While this makes the eighth consecutive year of enrollment growth, the annual increase in student capacity in 4-year nursing programs has declined sharply since 2003 which enrollment was up 16.6 percent. Due to a lack of nurse educators over 100,000 qualified nursing candidates have been rejected to nursing programs across the U.S. according to the National League for Nursing most recent survey. These shortages have caused the current nurse educators to work on average more than 57 hours per week as well as dedicated nurses to work longer hours and care for more acutely ill patients. The nursing field needs more money invested in its future.

It is only fitting that the end of National Nurses Week is the birthday of Florence Nightingale. She once said "I attribute my success to this—I never gave or took any excuse." So today in her honor we must give no excuse to keep from honoring the noble and important profession of nursing, if anything we should fight to improve its condition because with improved nursing, and funds for nurses, we get a better health care system. I urge my colleagues to pass this resolution and acknowledge and support our country's nurses.

Mrs. CAPPS. Madam Speaker, I rise in support of H. Res. 192 and in support of National Nurses Week. I commend my friend and fellow nurse, Ms. JOHNSON, for introducing this resolution.

As we observe Nurses Week, we have a perfect opportunity to highlight the importance of addressing nursing issues in the context of health reform.

Nurses must have a seat at the table for the discussions and nurses must be part of the solutions. After all, nurses are the best advocates for their patients.

I would like to propose that we use National Nurses Week 2009 to not only thank the nurses who have helped us in our own lives, but to learn more about the roles that they play in our community at-large.

Whether it is the nurse at a patient's hospital bedside, the nurse tending to children at an elementary school, the nurse midwife delivering a baby or the nurse faculty instructing a new generation of nurses, they all play an important part in our health care delivery system.

As we proceed with comprehensive health reform, we need to take into account the various roles that nurses perform so that we can ensure a viable nurse workforce well into the future.

Health reform will be impossible without a nursing workforce to support the primary and acute care needs of all Americans and I encourage my colleagues to join me in making a commitment during Nurses Week to advocate for nurses during our health reform debate.

Ms. WATERS. Madam Speaker, I rise in support of House Resolution 192—Recognizing National Nurses Week. I'd like to particularly thank my colleague Representative EDDIE BERNICE JOHNSON of Texas for offering this resolution, and to honor my colleagues Representative LOIS CAPPS of California and Representative CAROLYN MCCARTHY of New

York, three Members of Congress who worked as nurses before holding public office and who continue to be strong advocates for nurses and patients.

The men and women who work as nurses in the United States are some of the most important—but also some of the most unsung—heroes who serve in our communities. We all probably have a personal story about a nurse who either cared for us or a close family member or friend during a time of need. They are superb in their skill sets; tender in the care they provide; and deserving of our utmost respect.

When you become a nurse, the conventional wisdom and continuing tradition is that you go into the field because you have a genuine interest in and passion for helping those in need. You don't do it for the money; you don't do it for the glamour; and you certainly don't do it for the hours.

But it's time to encourage men and women to pursue a career in nursing by showing them that we respect and value the careers of the approximate 3 million nurses across America. We can do this by increasing pay for nurses and by making nursing education more affordable and more accessible.

We're facing an unprecedented nursing shortage across this country that could lead to a shortfall of up to 500,000 nurses by 2025. And nursing isn't a job that can be downsized or outsourced. That is why I support the inclusion of \$215 million for the Nursing Workforce Development program in the Fiscal Year 2010 budget and why I worked to help secure \$500 million in the stimulus package for training programs for primary care providers, including nurses.

In my own district in California I fought to keep the Registered Nursing Program alive and funded at L.A. Southwest College, and am happy to announce that this year they will receive a \$285,000 appropriation to improve nursing education through state-of-the-art technology.

Nurses are a precious asset we cannot afford to be without.

With major health care reform on the horizon, we must remember that nurses will be at the center of any meaningful reform. Let us honor their service, their dedication, and their profession by passing this resolution.

Mrs. CHRISTENSEN. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) that the House suspend the rules and agree to the resolution, H. Res. 192.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

CONGRATULATING AMERICAN DENTAL ASSOCIATION ON ITS 150TH ANNIVERSARY

Mrs. CHRISTENSEN. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 204) congratulating the American Dental Association for its 150th year of working to improve the public's oral health

and promoting dentistry, supporting initiatives to improve access to oral health care services for all Americans, and emphasizing the benefits of prevention of disease through support of community prevention initiatives and promotion of good oral hygiene.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 204

Whereas access to good oral health care is a vital element of overall health;

Whereas the American Dental Association works to improve access to oral health care services that are essential to help ensure the health of the American public;

Whereas the American Dental Association supports community prevention initiatives and promotion of good oral hygiene;

Whereas the American Dental Association continually works to improve dental technologies and therapies through research and adherence to sound scientific principles;

Whereas "The Journal of the American Dental Association" is recognized internationally as a leader in peer-reviewed dental science;

Whereas the American Dental Association encourages its membership of more than 157,000 dentists to donate their time, resources, and services to providing charitable and uncompensated care;

Whereas dental practices provide over \$2,000,000,000 in charitable and uncompensated care to specific underserved populations annually; and

Whereas the American Dental Association advocates sufficient funding for Federal dental research and military readiness programs: Now, therefore, be it

Resolved, That the House of Representatives—

(1) congratulates the American Dental Association for its 150th anniversary;

(2) commends the American Dental Association's work to improve the public's oral health as well as access to oral health care for all Americans, especially low-income children;

(3) recognizes the tens of thousands of dentists who volunteer their time and resources to provide charitable and uncompensated oral health care to millions of Americans; and

(4) commends the American Dental Association's efforts to keep American dentistry the best in the world.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) and the gentleman from Idaho (Mr. SIMPSON) each will control 20 minutes.

The Chair recognizes the gentlewoman from the Virgin Islands.

GENERAL LEAVE

Mrs. CHRISTENSEN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to extend and revise their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the Virgin Islands?

There was no objection.

Mrs. CHRISTENSEN. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in strong support of House Resolution 204, a resolution that congratulates the American

Dental Association on its 150th anniversary.

The American Dental Association is the largest and oldest professional association for dental providers. Its more than 157,000 members play a vital role in improving access to oral health services.

Former Surgeon General David Satcher has noted that oral health is integral to general health. The American Dental Association has been a lead advocate in ensuring that these important health services are not forgotten.

I would like to thank and applaud my colleague, Representative SIMPSON, for his leadership on this issue. I urge my colleagues to join me in supporting this resolution that commends the American Dental Association for its important work to promote good oral hygiene and community prevention strategies.

Madam Speaker, I reserve the balance of my time.

Mr. SIMPSON. Madam Speaker, I yield myself such time as I may consume.

I rise today to offer this resolution congratulating the American Dental Association on its 150th year of advancing the art and science of dentistry and advocating on behalf of the oral health of the American people. I know many of you join me in offering those congratulations, as the resolution before the House today has 104 cosponsors.

The ADA is the professional association of dentists committed to the public's oral health, ethics, science, and the advancement of the dental profession.

The ADA traces its origins to the mid-19th century, when representatives of eight regional dental societies and two dental colleges came together in Niagara Falls, New York, to establish a representative body of stability and character. They called their fledgling organization the American Dental Association. Today, seven out of 10 U.S. dentists belong to the ADA, with membership of more than 157,000 dentists. The ADA has 53 State and territorial and 545 local dental societies. It is the largest and oldest national dental association in the world.

The association has long been a leader, advocating for improved health care and access for underprivileged Americans. Even today, as Congress wrestles with the issue of health care reform, the ADA is continually reminding us that oral health is an integral part of overall health. The ADA's health care reform principles focus on three things: prevention and wellness, fixing Medicaid, and improving the public oral health infrastructure.

The Association is active in cutting-edge dental research. At the Paffenbarger Research Center, housed on the National Institute of Standards and Technology campus just outside of Washington, D.C., ADA scientists are working on improving dental materials, tissue engineering, and cavity-repairing therapies. Some of

Paffenbarger's research accomplishments include the development of modern high-speed dental drills, panoramic x-ray machines, protective tooth sealants, tooth-colored composite filling material, calcium phosphate, bone cements, and more.

The ADA's Give Kids A Smile is an annual centerpiece to the National Children's Dental Health Month. It is observed every year on the first Friday in February. At more than 1,600 sites nationwide this year, some 45,000 dental professionals provided free services to more than 450,000 children. I can tell you, the spirit behind that one-day event carries over throughout the year. The ADA encourages its members to donate time and services to the underserved. In fact, dentists provide more than \$2 billion in charitable and uncompensated care to specific underserved populations each year. That's \$2 billion worth of free dental work.

I congratulate them on this 150th year of their founding of the American Dental Association. I hope that Members will join me in congratulating the ADA by voting in favor of this resolution.

Madam Speaker, I reserve the balance of my time.

Mrs. CHRISTENSEN. Madam Speaker, I reserve the balance of my time.

Mr. SIMPSON. Madam Speaker, I yield such time as he may consume to my good friend from Indiana, who has been a supporter of the dental profession for many years, Representative BUYER.

Mr. BUYER. I thank my dentist friend for yielding, and I thank him for bringing this resolution to the floor.

I come from a family of dentists. My grandfather is a dentist, my father is a dentist, my brother is a dentist, my sister is a dentist, my uncle is a dentist. I chose not to follow halitosis, so I became a lawyer, which means that I sit in the kitchen with the children at Christmas and Thanksgiving.

I come to the floor to honor my grandfather, Dr. Clarence Cornelius Buyer, my father, Dr. John Buyer, Sr., who on February 24 turned 80 and 4 days later retired from his dental practice. That's a lot of years, isn't it, practicing dentistry?

My deceased uncle, Dr. Earl Moore, was an orthodontist in Indianapolis. My sister, Dr. Diane Buyer, practices dentistry on the north side in Indianapolis. And my brother, Dr. John Buyer, Jr., is a periodontist and recently retired in January from the United States Army.

One thing I note about growing up in a family of dentists that has helped me is when you mention the words "prevention" and "wellness," when I think of the professions in health that are out there, dentists take the lead. It is almost to the point where I believe that anthropologists, a thousand years from now, are going to dig us up, and they are going to look at our bones and say, look at the stress on those bones, but look at those teeth. They've got to

be Americans. Because, see, Americans, what has happened to us? I will eat what I want, I will drink whatever I want; by golly, the health system better be there to take care of my body, but I'm going to take care of my teeth because my smile means everything to me. I just wish the people would put the same focus they have in their teeth that they also place in their bodies. If we were to do that, how much better in wellness as a society would we be?

The contribution that dentistry has had to me, as a leader in health policy for the country, even goes back to the 1990s, when we began to examine Medicare, for example, and we noted that one-third of our Medicare expenditures was diabetes-related. Well, I spoke up and said, I come from a family of dentists, and we focus on preventive medicine. If we spent billions of dollars on the front end, we wouldn't be spending the multibillion dollars on the back end. So it's about wellness of the whole body. So I want to compliment the dentists.

Now I want to pause and talk about military dentistry, too, for a second. If we are going to compliment the ADA, it is not only in their contributions to our society, but also to military dentists. Military dentists are combat multipliers because there are so many non-battlefield casualties, individuals who are taken off the battlefield because of what happens with regard to the deterioration of their dental hygiene. It is those dentists that put them back in, and I want to truly applaud them.

Let me close with the infinite wisdom of the United States Army. I came out of The Citadel. I received my commission as a second lieutenant in the Medical Service Corps. My first assignment in the United States Army was with a dental clinic. I did everything I could, dad, to get away from dentistry, but for whatever reason, it totally consumes me, even in my life today.

Let me say congratulations to the ADA and to all the dentists and the dental assistants and the dental hygienists and the specialties for which the ADA represents. Thank you, and good job.

Mr. SIMPSON. I appreciate the gentleman's comment. I should note that I also come from a family of dentists; I just couldn't escape. I ended up going into the dental profession where he went into the law profession. We will argue for some time who made the better choice. But I appreciate everyone's support and would encourage their positive vote on this resolution.

Mr. CONYERS. Madam Speaker, I rise in support of H. Res. 204, which honors one of our nation's oldest African-American medical professional organizations, the National Dental Association. For nearly 150 years, the NDA has committed itself to opening the doors to the dental profession—a profession that has traditionally been dominated by the privileged few who could afford dental training—to men and women of color.

Even more importantly, the NDA has been a voice for the under-served in our society,

often speaking out about disparities in access to dental care when others in the provider community would not. The dentists who make up the NDA, like I, believe that the right to dental care must be a fundamental human and civil right—not a privilege. In the wealthiest nation in the history of the world, there is no reason that some Americans lack access to a dentist or oral surgeon.

We all mourn the loss of Demonte Driver, a young African-American boy who died in 2007 as the result of not getting timely and medically necessary dental care because his family was uninsured. I am committed to working with the NDA and all other provider groups to ensure that our country reaches a point where stories like Demonte's will become increasingly rare and, eventually, cease to exist. We must work to ensure that young dental students who wish to practice in communities served by Medicaid have the fiscal flexibility to do so. This necessarily means addressing the \$145,000 debt the average dental student incurs during the course of his or her education.

To this end, I will soon introduce legislation that expands funding for the National Health Service Corps. The program provides for medical and dental students' reasonable educational expenses and a monthly stipend for room and board. After school, the student must apply for pre-approved positions in underserved areas. By increasing the funding levels between 2009 and 2019 by \$100 million each year, my bill will ensure that every citizen in every community has access to the doctor and dentist of their choice.

I applaud the NDA for their 150 years of excellence and compassionate advocacy and I wish them 150 more. Together, we will end dental access disparity once and for all. I encourage my colleagues to support the resolution.

Mr. SIMPSON. Madam Speaker, I yield back the balance of my time.

Mrs. CHRISTENSEN. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) that the House suspend the rules and agree to the resolution, H. Res. 204.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mrs. CHRISTENSEN. Madam Speaker, I object to the vote on the grounds that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

BELATED THANK YOU TO THE MERCHANT MARINERS OF WORLD WAR II ACT OF 2009

Mr. FILNER. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 23) to amend title 38, United States Code, to direct the Secretary of Veterans Affairs to establish the Mer-

chant Mariner Equity Compensation Fund to provide benefits to certain individuals who served in the United States Merchant Marine (including the Army Transport Service and the Naval Transport Service) during World War II, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 23

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Belated Thank You to the Merchant Mariners of World War II Act of 2009".

SEC. 2. PAYMENTS TO INDIVIDUALS WHO SERVED DURING WORLD WAR II IN THE UNITED STATES MERCHANT MARINE.

(a) *ESTABLISHMENT OF COMPENSATION FUND.*—Subchapter II of chapter 5 of title 38, United States Code, is amended by adding at the end the following new section:

"§533. Merchant Mariner Equity Compensation Fund

"(a) *COMPENSATION FUND.*—(1) *There is in the general fund of the Treasury a fund to be known as the 'Merchant Mariner Equity Compensation Fund' (in this section referred to as the 'compensation fund').*

"(2) *Subject to the availability of appropriations for such purpose, amounts in the compensation fund shall be available to the Secretary without fiscal year limitation to make payments to eligible individuals in accordance with this section.*

"(b) *ELIGIBLE INDIVIDUALS.*—(1) *An eligible individual is an individual who—*

"(A) *during the one-year period beginning on the date of the enactment of the Belated Thank You to the Merchant Mariners of World War II Act of 2009, submits to the Secretary an application containing such information and assurances as the Secretary may require;*

"(B) *has not received benefits under the Servicemen's Readjustment Act of 1944 (Public Law 78-346); and*

"(C) *has engaged in qualified service.*

"(2) *For purposes of paragraph (1), a person has engaged in qualified service if, between December 7, 1941, and December 31, 1946, the person—*

"(A) *was a member of the United States merchant marine (including the Army Transport Service and the Naval Transport Service) serving as a crewmember of a vessel that was—*

"(i) *operated by the War Shipping Administration or the Office of Defense Transportation (or an agent of the Administration or Office);*

"(ii) *operated in waters other than inland waters, the Great Lakes, and other lakes, bays, and harbors of the United States;*

"(iii) *under contract or charter to, or property of, the Government of the United States; and*

"(iv) *serving the Armed Forces; and*

"(B) *while so serving, was licensed or otherwise documented for service as a crewmember of such a vessel by an officer or employee of the United States authorized to license or document the person for such service.*

"(c) *AMOUNT OF PAYMENTS.*—*The Secretary shall make a monthly payment out of the compensation fund in the amount of \$1,000 to an eligible individual. The Secretary shall make such payments to eligible individuals in the order in which the Secretary receives the applications of the eligible individuals.*

"(d) *AUTHORIZATION OF APPROPRIATIONS.*—(1) *There are authorized to be appropriated to the compensation fund amounts as follows:*

"(A) *For fiscal year 2010, \$120,000,000.*

"(B) *For fiscal year 2011, \$108,000,000.*

"(C) *For fiscal year 2012, \$97,000,000.*

"(D) *For fiscal year 2013, \$85,000,000.*

“(E) For fiscal year 2014, \$75,000,000.

“(2) Funds appropriated to carry out this section shall remain available until expended.

“(e) REPORTS.—The Secretary shall include, in documents submitted to Congress by the Secretary in support of the President’s budget for each fiscal year, detailed information on the operation of the compensation fund, including the number of applicants, the number of eligible individuals receiving benefits, the amounts paid out of the compensation fund, the administration of the compensation fund, and an estimate of the amounts necessary to fully fund the compensation fund for that fiscal year and each of the three subsequent fiscal years.

“(f) REGULATIONS.—The Secretary shall prescribe regulations to carry out this section.”.

(b) REGULATIONS.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall prescribe the regulations required under section 532(f) of title 38, United States Code, as added by subsection (a).

(c) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item related to section 532 the following new item:

“533. Merchant Mariner Equity Compensation Fund.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. FILNER) and the gentleman from Indiana (Mr. BUYER) each will control 20 minutes.

The Chair recognizes the gentleman from California.

GENERAL LEAVE

Mr. FILNER. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 23, as amended.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. FILNER. Madam Speaker, I yield myself such time as I may consume.

I rise in strong support of H. Res. 23, the Belated Thank You to the Merchant Mariners of World War II Act of 2009, a measure, frankly, whose passage is six decades overdue.

I think today we are on the verge of doing a great deed, providing a way to finally give the heroic Merchant Mariners of World War II the belated compensation they so richly deserve. Congress has a responsibility to correct the wrongs of the past, and this is one of the grave injustices that deserve rectifying.

I thank all the cosponsors of the resolution, including some 40 Republicans. I know that many of you were trying to be added as cosponsors after the report was filed. I just would like to name for the record Mr. TIERNEY, Mr. MEEK, Ms. JENKINS and Mr. KILDEE.

□ 1515

For the remaining Members of the House who are not cosponsors of the amended version which passed unanimously out of the Committee on Veterans’ Affairs, let me tell you the sad history of these forgotten heroes.

The merchant mariners of World War II traversed the dangerous U-boat-laden waters of the Atlantic and the Pacific, faced down fierce attacks from

enemy aircraft, and were instrumental in every theater of war by carrying 95 percent of all the tanks, supplies, and troops during World War II.

As a result, they suffered the highest casualty rate of any of the military branches. It is indisputable that the Allied Forces would not have been able to begin, sustain, or end World War II without their valiant and selfless service. It is also indisputable that these men now are entitled to be compensated for that service. After the war, they did not receive recognition as veterans that they deserved or the benefits of the unprecedented GI Bill of 1944, which they had earned and were promised. Eight million military families were able to take advantage of that GI Bill, entering the middle class, but the merchant mariners were not.

When the GI Bill was signed in 1944, as I said, which gave unprecedented education, housing, small business loans, and health benefits to World War II servicemen, President Roosevelt declared, after losing the fight to have the merchant mariners included in the original bill, “I trust Congress will soon provide similar opportunities to members of the Merchant Marine who have risked their lives time and time again for the welfare of their country.” Congress never did. My friends, promises made should be promises kept.

Their fight for equity continued for over 40 years when they finally attained veteran status after a lengthy court battle, Schumacher, Willner, et al. v. Secretary of the Air Force Edward C. Aldridge, Jr. By then, over 125,000 mariners had died. As the judge ruled in that case, the mariners had “every reasonable expectation that they would be treated as veterans” entitled to the benefits of the GI Bill of Rights of 1944, based on the service they performed, not happened to perform. History supports this conclusion.

I had the distinct privilege of receiving the heart-wrenching testimony, during a full committee hearing, of one of the named parties to this lawsuit, a merchant mariner named Stanley Willner. Stanley was captured, interned, beaten, starved, and tortured as a POW for 3 years. He was actually one of the unfortunate groups of Allied Forces forced to build the infamous bridge over the River Kwai. Upon release, he weighed 74 pounds, and when he returned home, even his wife did not recognize him. And neither did his country. He received just 2 weeks of medical care and little else for his service. What a miscarriage of justice.

Madam Speaker, it was only due to a sad confluence of powerful events after the war that this country did not bestow the brave men of the World War II Merchant Marine with veteran status until 1988. I think that if the mariners would be on the floor today, they would say they should not have been subject to a “process” to determine whether they were veterans.

The mariners and many others thought that they would get these ben-

efits since many thought they were enlisting for duty. They were denied this status unjustly and in violation of the assurances that they would partake in the GI Bill of 1944. Their valiant service was recognized by all the leaders of the Allied Forces from Generals MacArthur to Eisenhower.

Madam Speaker, I include in the RECORD a list of quotes by President Roosevelt regarding their courageous service.

RELEVANT HISTORICAL QUOTES ON THE ROLE OF UNITED STATES MERCHANT MARINE DURING WORLD WAR II

QUOTES FROM PRESIDENT FRANKLIN D. ROOSEVELT

May, 1942: “The war is now five months old and we have had our answer. Two million men have been called to the colors. In far places and near, our soldiers, our sailors, our air pilots, the beleaguered men of the Merchant Marine, have shown the stuff of heroes. Everything we have asked of them they have delivered. Everything—and more.”

December 12, 1942: “It is with a feeling of great pride that I send my heartiest congratulations and best wishes to the officers and men of the new U.S. Maritime Service Training Station at Sheepshead Bay, New York. Ten thousand apprentice seamen in training at one station is a magnificent achievement, and the entire country joins me in wishing you every success and in paying tribute to you men of the Merchant Marine who are so gallantly working and fighting side by side with our Army and Navy to defend the way of life which is so dear to us all.”

1943: “The men of our American Merchant Marine have pushed through despite the perils of the submarine, the dive bomber and the surface raider. They have returned voluntarily to their jobs at sea again and again, because they realized that the life-lines to our battle fronts would be broken if they did not carry out their vital part in this global war . . . In their hands, our vital supply lines are expanding. Their skill and determination will keep open the highway to victory and unconditional surrender.”

September 19, 1944: “It seems to me particularly appropriate that Victory Fleet Day this year should honor the men and management of the American Merchant Marine. The operators in this war have written one of its most brilliant chapters. They have delivered the goods when and where needed in every theater of operations and across every ocean in the biggest, the most difficult and dangerous transportation job ever undertaken. As time goes on, there will be greater public understanding of our merchant fleet’s record during this war.”

June 22, 1944 (during signing of GI Bill): “I trust Congress will soon provide similar opportunities to members of the merchant marine who have risked their lives time and time again during war for the welfare of their country.”

QUOTES FROM DWIGHT D. EISENHOWER, GENERAL OF THE ARMY

Date Unknown: “Every man in this Allied command is quick to express his admiration for the loyalty, courage, and fortitude of the officers and men of the Merchant Marine. We count upon their efficiency and their utter devotion to duty as we do our own; they have never failed us yet and in all the struggles yet to come we know that they will never be deterred by any danger, hardship, or privation. When final victory is ours there is no organization that will share its credit more deservedly than the Merchant Marine.”

May 8, 1945 (From his Tribute on V-E Day): “The truly heroic man of this war is GI Joe

and his counterpart of the Air, Navy, and Merchant Marine."

1945: "The officers and men of the merchant marine, by their devotion to duty in the face of enemy action, as well as the natural dangers of the sea, have brought us the tools to finish the job. Their contribution to final victory will be long remembered."

QUOTES FROM DOUGLAS MACARTHUR, GENERAL OF THE ARMY

Date Unknown: "I wish to commend to you the valor of the merchant seamen participating with us in the liberation of the Philippines. With us they have shared the heaviest enemy fire. On this island I have ordered them off their ships and into fox holes when their ships became untenable targets of attack. At our side they have suffered in bloodshed and in death. The caliber of efficiency and the courage they displayed in their part of the invasion of the Philippines marked their conduct throughout the entire campaign in the southwest Pacific area. They have contributed tremendously to our success. I hold no branch in higher esteem than the Merchant Marine."

October 14, 1945: "They have brought us our lifeblood and they had paid for it with some of their own. I saw them bombed off the Philippines and in New Guinea ports. When it was humanly possible, when their ships were not blown out from under them by bombs or torpedoes, they have delivered their cargoes to us who needed them so badly. In war it is performance that counts."

FLEET ADMIRAL CHESTER W. NIMITZ, U.S. NAVY, CHIEF OF NAVAL OPERATIONS

War Shipping Administration Press Release PR 1839, April 23, 1944: "The Merchant Marine Service has repeatedly proved its right to be considered as an integral part of our fighting team. Its efforts have contributed in great part to our success. Well done."

There is one quote that is particularly telling of the broken promise, made by then General Dwight D. Eisenhower, delivered on May 8, 1945, during his tribute on V-E Day: "The truly heroic man of this war is GI Joe and his counterpart of the Air, Navy, and Merchant Marine."

Madam Speaker, how do you measure the loss of the GI Bill benefits that helped build the middle class of the United States, the missed opportunities and the dreams unrealized? That is what H.R. 23 will do, create a semblance of equity for the mariners of World War II. Undo this broken promise and unmitigated travesty of justice by providing this monthly benefit to the remaining 10,000 qualifying mariners.

Madam Speaker, I reserve the balance of my time.

Mr. BUYER. Madam Speaker, I yield myself such time as I may consume.

I rise in opposition. I rise in opposition, and I would say to the chairman, as a history professor, I know that you must embrace history and not be a revisionist of history.

I'm greatly disappointed with regard to this legislation. I'm disappointed because this is an attempt to say that he wants to resolve an inequity through discrimination so that your bias towards one specific group is so strong among the veterans community that you will discriminate against others. And I will even use your example of your friend with regard to his service

as a merchant mariner, as a prisoner of war building the bridge over the River Kwai. It means that other POWs who served with him would not be entitled to the special monthly payment, that you believe that that merchant mariner is so special that all other prisoners of war should not receive such payment.

You see, there's a reason that those of us who have worn the uniform do not do this. The only time we have provided a service pension, a service pension, are for Medal of Honor recipients. We do not provide service pensions, and that's exactly what this is. So we're paying \$1,100 to Medal of Honor recipients, and you want to pay now \$1,000 to merchant mariners. Yet there are 28 groups of whom are similarly situated, individuals of whom were contractor status during the war.

Now, we need to stop and pause and think about what we are doing here. Ever since the American Revolution, our government has utilized contractors as our combatants go to war. Whether it was in the Revolution, whether it was the War of 1812, the Mexican-American War, the Civil War, the Spanish-American War, World War I, World War II, Korea, Vietnam, the first Gulf War, and, in fact, the present wars in Iraq and Afghanistan, we all used contractors. So after World War II, we created a process whereby these contractors then could be granted that "veteran status." So for merchant mariners, the question of their valor, even the question of their status has now been resolved.

What's before the House is now with regard to a particular group of veterans that we're going to treat them differently, that we're going to say that you have such unique status that we are going to give you a \$1,000-a-month payment, a service pension, when, in fact, we don't even do that for anyone else.

So I am greatly disappointed that this type of legislation is brought to the floor. This is legislation that should never have been done. Members are just flying back now, so they aren't even sure about this legislation or what it's about, and they're thinking that, well, because it came out of the committee, it must be great legislation. It must be veterans legislation. We all must be arm in arm and let's go ahead and pass it. Time out. I think we should be very cautious and careful.

Like I said, we don't even give a specialty payment to prisoners of war, and we're going to select a particular group of individuals to give them.

Madam Speaker, I reserve the balance of my time because I have further comments I would like to make.

Mr. FILNER. Madam Speaker, I would like to yield such time as he may consume to one of our new Members who has been very active on our committee, the gentleman from Virginia (Mr. NYE).

Mr. NYE. Madam Speaker, I rise today to honor the service of our mer-

chant mariners from World War II and to urge this House to provide them with the compensation that is many years overdue.

I would first like to thank Chairman FILNER for his tireless work and his commitment to this issue. As a representative from an area with a long maritime tradition, it means a lot to me personally.

The Merchant Marines were an integral part of our fighting forces during the Second World War. Just like our war fighters, they answered the country's call. And just like those brave soldiers, sailors, airmen, and marines, many of our merchant mariners made the ultimate sacrifice.

Over 1,500 Merchant Marine ships were sunk during the war, many of them by German U-boats during the perilous crossing of the North Atlantic. By the end of the war, our merchant mariners had suffered the highest casualty rate of any service. Of the approximately 250,000 Americans who served on our Merchant ships, more than one out of every 26 was killed.

But despite these sacrifices, they were not granted the same benefits that other veterans received. They were promised benefits by President Roosevelt, but they were systematically cut out of the GI Bill, health care, loans, and the other tools that our grateful Nation provided to our "Greatest Generation."

Even though many of our merchant marines were eventually granted veteran status many years later, the effects of their unequal treatment put them at a disadvantage that continues to this day.

That is why I am proud to be a cosponsor of H.R. 23. This bill will provide each qualifying merchant mariner with a \$1,000 monthly stipend, a small step in the right direction of acknowledging the great sacrifices that these brave men made.

Madam Speaker, this is an injustice that should never have happened. It should have been fixed long ago. But with every year that passes, there are fewer and fewer of these men left among us. It is now 2009, over 63 years after the end of World War II, and it is long past time for us to right this wrong.

I urge my colleagues to join me in supporting this bill.

Mr. BUYER. Madam Speaker, I yield myself such time as I may consume.

This conversation we are having here on the floor with regard to degrees of valor is off the mark. Merchant mariners exhibited valor. They have been granted their veteran status. The question is whether we should now give them a service pension, which we do not do for any other veterans groups except the most highly decorated veterans, our Medal of Honor recipients.

The argument being made is that merchant mariners were shortchanged because they did not receive GI Bill benefits, unlike the members of the Armed Forces who then served in

World War II. However, 28 other groups that also provided military-related service in the U.S. during World War II have received veteran status in the same manner as merchant mariners and, likewise, did not qualify for GI Bill benefits.

If equity were really the issue, this bill would help these groups, too. But H.R. 23, as amended, does not. This bill unfairly ignores them and, thus, does not provide full equity. It creates an inequity among veterans, distinguishing the value of one group over and above someone else, something that we don't do in the military. We're very cautious and very careful not to do that type of thing, to say that, well, if you're a combatant and you're on the front line, then your service is more important than someone who is in a rear echelon, or, gosh, if you were back in the home States or in the National Guard, then your service isn't as important as somebody who is on the battlefield. Time out. We don't do that in the military.

The reason we don't do that is we look at everybody as a team, as one team. So when we go to a theater of operations, it may take seven to actually put one combatant on the field of battle because everybody is important, from the theater Army all the way to the actual combatants. And as a matter of fact, when they fall on the battlefield, maybe when they go to Landstuhl, Germany, they come back to the States. Everybody is an important part of the team, and we don't then make discriminatory judgments that someone's military service is more important than another and, thereby, Congress then awards a service pension.

I'm just appealing to the Members do not do this. It will have consequences among the ranks and the services of our military.

I would like to talk about the other 28 groups. One of these other groups of veterans of whom are being discriminated here against if this legislation passes is the American all-volunteer group famously known as the Flying Tigers. They were American P-40 pilots and ground crews who worked for the Chinese Government in the air defense of Rangoon and other parts of China before and after the attack on Pearl Harbor. The Flying Tigers are credited with destroying an impressive 297 enemy aircraft and had one of the best kill ratios of any air group in the Pacific theater. There were approximately 80 pilots that flew for the Flying Tigers, of which 21 died in service.

□ 1530

An amazing 19 of them were credited with five or more air-to-air victories,

making them aces. Nineteen out of the 80 pilots were aces. But they are not worthy for this service pension, okay, because we are not going to do that. Of the over 300 original members of the Flying Tigers, 18 of them are still alive today.

Another one of the groups that is being discriminated against here today I would like to highlight is the Women Airforce Service Pilots, the WASPS. There is even a colleague of mine who has legislation to get them the Congressional Medal of Honor. Yet a vote in favor of this legislation today discriminates against the Women Airforce Service Pilots. These were female pilots who flew every type of mission that an Army Air Force male pilot flew during World War II, except combat missions.

They freed up their male pilots for combat by flying planes from factories to air fields and flew over 60 million miles in every type of aircraft in the Army Air Force arsenal, from the fastest of fighters to heaviest of bombers. More than 25,000 women applied for WASPS service and less than 1,900 were accepted. After completing months of military flight training, 1,078 of them earned their wings and became the first women in history to fly American military aircraft. Thirty-eight of these brave women died while serving their country.

Madam Speaker, these are just some of the stories of two of these groups out of the 28 who all served loyally, selflessly, and courageously. Yet their service also contributed directly to victory in 1945, but they are being ignored and discriminated against by the legislation before us.

In May 11 of this year, a letter to all Members opposing H.R. 23, as amended, the Veterans of Foreign Wars stated with respect to the Merchant Mariners of World War II that "singling out this group, no matter how valiant their service, will create inequities. Congress should not single them out for special benefits when they are not provided to other groups."

Madam Speaker, I offered an amendment at the full committee of H.R. 23, as amended, to include these other 28 groups, who are similarly situated. It was rejected on a 15-14 vote.

I would like to insert the May 11, 2009, letter from the VFW and the names of the other 28 groups who have been granted veteran status of World War II to be placed into the RECORD.

VETERANS OF FOREIGN WARS
OF THE UNITED STATES,
Washington DC, May 11, 2009.

DEAR REPRESENTATIVE: This week, the House of Representatives is expected to take action on H.R. 23, the Belated Thank You to

the Merchant Marines of World War II Act. This legislation would grant a \$1,000 monthly benefit to individuals who served in the Merchant Marines between December 7, 1941 and December 31, 1946. The Veterans of Foreign Wars of the U.S. has serious concerns with the equity of this bill, and we urge you to oppose it.

The VFW has no doubt about the dedication and bravery the Merchant Marines demonstrated during World War II. Their contributions to the war effort in transporting cargo to keep forces supplied enabled the Allied forces to win the War. They suffered heavy casualties, with nearly one-in-26 dying in the Atlantic theater. We value and salute their efforts.

However, the VFW cannot support a special monthly benefit for this single group. Merchant Marines are just one of 28 civilian groups that have been awarded Veterans status by virtue of their military-related service. Not one of these other 28 groups receives a special monthly benefit such as this. In fact, the only group of veterans that receives a special monthly benefit is Medal of Honor recipients.

Singling this group out—no matter how valiant their service—would create inequities. Congress should not single them out for special benefits when they are not provided to other groups, such as the Women's Air Force Service Pilots (WASPs) or those honorably discharged members of "The Flying Tigers." Further, many World War II veterans who served on the front lines are not receiving any form of compensation, and certainly not a \$1,000 monthly benefit. We cannot put one group ahead of all others.

The VFW is also concerned about the funding for this proposal. The special monthly benefit would consume almost \$500 million of the VA's budget over the next five years. With waves of service members returning from Iraq and Afghanistan and presenting challenges for the entire VA health care system, especially for those who are grievously wounded, taking away money to give a special bonus to one segment of veterans is not right. This is especially true because the vast majority of the Merchant Marines covered under this bill are already entitled to VA health care and most veterans' benefits.

The VFW greatly respects their bravery and their dedication, but we cannot support legislation that singles them out above other deserving groups. We ask you to keep these issues in mind, and to oppose this bill's passage.

Very truly yours,
ROBERT E. WALLACE,
Executive Director.

WORLD WAR II SERVICE BY PARTICULAR GROUPS

A number of groups who provided military-related service to the United States can receive VA benefits. A discharge by the Secretary of Defense is needed to qualify. Service in the following groups has been certified as active military service for benefits purposes:

RECOGNIZED GROUPS UNDER PUBLIC LAW 95-202	
Date of recognition	Recognized group
1 8 Mar 79	Women's Air Force Service Pilots (WASPs) (WWII).
2 18 Mar 80	Women's Army Auxiliary Corps (WAAC) (WWII).
3 22 Jan 81	Civilian Employees, Pacific Naval Air Bases, Who Actively Participated in the Defense of Wake Island during WWII.
4 17 Jul 81	Male Civilian Ferry Pilots (WWII).
5 7 Apr 82	Wake Island defenders from Guam (WWII).
6 27 Dec 82	Civilian Personnel Assigned to the Secret Intelligence Element of the OSS. (WWII).
7 10 May 83	Guam Combat Patrol (WWII).

RECOGNIZED GROUPS UNDER PUBLIC LAW 95-202—Continued

	Date of recognition	Recognized group
8	7 Feb 84	Quartermaster Corps Keswick Crew on Corregidor (WWII).
9	7 Feb 84	U.S. Civilian Volunteers Who Actively Participated in the Defense of Bataan (WWII).
10	18 Oct 85	U.S. Merchant Seamen Who Served on Blockships in Support of Operation Mulberry in the World War II invasion of Normandy (WWII).
11	19 Jan 88	American Merchant Marine in Ongoing Service during the Period of Armed Conflict, December 7, 1941 to August 15, 1945 (WWII).
12	2 Aug 88	Civilian U.S. Navy IFF Technicians Who Served in the Combat Areas of the Pacific during World War II (December 7, 1941 to August 15, 1945) (WWII).
13	30 Aug 90	U.S. Civilians of the American Field Service (AFS) Who Served Overseas Under U.S. Armies and U.S. Army Groups in World War II During the Period December 7, 1941 through May 8, 1945 (WWII).
14	5 Oct 90	U.S. Civilian Flight Crew and Aviation Ground Support Employees of American Airlines Who Served Overseas as a result of American Airlines' Contract with Air Transport Command during the Period December 14, 1941 through August 14, 1945 (WWII).
15	8 Apr 91	Civilian Crewmen of the United States Coast and Geodetic Survey vessels who performed their service in areas of immediate military hazard while conducting cooperative operations with and for the United States Armed Forces within a time frame of December 7, 1941 to August 15, 1945 (WWII) (Qualifying vessels are: the Derickson, Explorer, Gilber, Hilgard, E. Lester Jones, Lydonia Patton, Surveyor, Wainwright, Westdahl, Oceanographer, Hydrographer and Pathfinder).
16	3 May 91	Honorably Discharged Members of the American Volunteer Group (Flying Tigers) Who Served During the Period December 7, 1941 to July 18, 1942 (WWII).
17	12 May 92	U.S. Civilian Flight Crew and Aviation Ground Support Employees of United Air Lines (UAL), Who Served Overseas as a Result of UAL's Contract With the Air Transport Command During the Period December 14, 1941 through August 14, 1945 (WWII).
18	12 May 92	U.S. Civilian Flight Crew and Aviation Ground Support Employees of Transcontinental and Western Air (TWA), Inc., Who Served Overseas as a Result of TWA's Contract with the Air Transport Command during the Period December 14, 1941 through August 14, 1945 (WWII).
19	29 Jun 92	U.S. Civilian Flight Crew and Aviation Ground Support Employees of Consolidated Vultee Aircraft Corporation (Convair Division), Who Served Overseas as a Result of a Contract with the Air Transport Command during the Period December 7, 1941 through August 14, 1945 (WWII).
20	17 Jul 92	U.S. Civilian Flight Crew and Aviation Ground Support Employees of Pan American World Airways and its subsidiaries and affiliates, Who Served Overseas as a Result of Pan American's Contract with the Air Transport Command and Naval Air Transport Service during the Period December 14, 1941 through August 14, 1945 (WWII).
21	29 Jun 92	Honorably Discharged Members of the American Volunteer Guard, Eritrea Service Command during the Period June 21, 1942 to March 31, 1943 (WWII).
22	13 Dec 93	U.S. Civilian Flight Crew and Aviation Ground Support Employees of Northwest Airlines, Who Served Overseas as a Result of Northwest Airlines' Contract with the Air Transport Command during the Period December 14, 1941 through August 14, 1945 (WWII).
23	13 Dec 93	U.S. Civilian Female Employees of the U.S. Army Nurse Corps While Serving in the Defense of Bataan and Corregidor During the Period January 2, 1942 to June 12, 1945 (WWII).
24	2 Jun 97	U.S. Civilian Flight Crew and Aviation Ground Support Employees of Northeast Airlines Atlantic Division, who served overseas in the result Northeast Airlines' contract with the Air Transport Command during the Period December 7, 1941, to August 14, 1945 (WWII).
25	2 Jun 97	U.S. Civilian Flight Crew and Aviation Ground Support Employees of Braniff Airways, who served overseas in the North Atlantic or under the jurisdiction of the North Atlantic Wing as a result of a contract with Air Transport Command during the period February 26, 1942, to August 14, 1945 (WWII).
26	30 Sep 99	Approximately 50 Chamorro and Carolinian policemen, who received military training and under the command of the 6th Provisional Military Police Battalion, to accompany U.S. Marines in combat patrol activity from August 19, 1945, to September 2, 1945.
27	27 Aug 99	Operational Analysis Group of the Office of Scientific Research and Development, who served overseas from December 7, 1941, through August 15, 1945.
28	9 Aug 00	Service as a member of the Alaska Territorial Guard during World War II of any individual who was honorably discharged under section 8147 of the Department of Defense Appropriations Act of 2001 (P.L. 106-259).

Now, while I am disappointed with regard to the outcome, I am encouraged that when the vote was concluded that Chairman FILNER had agreed to consider separate legislation with regard to these groups. Immediately following the markup, I introduced H.R. 2270, the Benefits of Qualified World War II Veterans Act of 2009, which provides equity to those other groups by providing them the same type of payment as sought here today.

Now that this whole issue is becoming better understood, it is my hope that other Members will join me in supporting H.R. 2270 to ensure fair treatment for all of these groups equally deserving.

H.R. 23, as amended, much like the legislation that comes to the floor, is certainly well meaning, but I must oppose it. I oppose it because you cannot resolve an inequity through discrimination, and that's exactly what this bill does.

Madam Speaker, H.R. 23, as amended, would provide an unprecedented \$1,000 monthly payment to World War II Merchant Mariners.

There is no dispute that these mariners braved great danger and suffered great loss in their service to the Allies.

This service has been recognized. These Merchant Mariners were given veteran status in 1988 and have VA healthcare and benefits. This bill would grant them a non-service connected pension unlike anything Congress has authorized, with one exception: the service pension of \$1,100 for recipients of the Medal of Honor.

Thus, the conversation about the Merchant Marines' degree of valor is off the mark. They were valorous. They have been granted vet-

erans' status. The question is whether we should now give them a service pension, which we do not do for other groups of veterans except our most highly decorated veterans, our Medal of Honor recipients.

The argument begin made is that the Merchant Mariners were shortchanged because they did not receive G.I. Bill benefits, unlike the members of the Armed Forces who served in World War II. However, twenty-eight other Veterans groups who were also contractors and mercenaries that also provided military-related service to the U.S. in World War II have also received veteran status as the Merchant Mariners, and likewise did not qualify for the G.I. Bill.

If equity was really the issue, this bill should help these groups, too; but H.R. 23, as amended, unfairly ignores them and thus does not provide full equity. It creates an inequity among veterans, diminishing the value of one group's service about others'. It is not possible to resolve an inequity through bias to Merchant Mariners by discriminating against similarly situated veterans groups.

Madam Speaker, I ask unanimous consent that the names of these 28 groups be inserted into the RECORD with my statement so that the discriminations against these veterans by this Congress will be noted.

One of those other groups of similarly situated veterans are members of the American Volunteer Group, famously known as the Flying Tigers. They were American P-40 pilots and ground crews who worked for the Chinese government in the air defense of Rangoon and other parts of China before and after the attack on Pearl Harbor.

The Flying Tigers are credited with destroying an impressive 297 enemy aircraft and had one of the best kill ratios of any air group in the Pacific theater. There were approximately

80 pilots that flew for the Flying Tigers, of which 21 died in service.

An amazing 19 of them were credited with five or more air to air victories, making them aces.

Of the over 300 original members of the Flying Tigers only 18 of them are still with us today—yet the chairman has chosen to discriminate against them.

Another one of these groups that I would like to highlight are the Women Air Force Service Pilots (WASPS). These were female pilots who flew every type of mission that any Army Air Force male pilot flew during World War II, except combat missions.

They freed up male pilots for combat by flying planes from factories to airfields and overall flew 60 million miles in every type aircraft in the Army Air Force arsenal—from the fastest fighters to the heaviest bombers.

More than 25,000 women applied for WASP service, and fewer than 1,900 were accepted. After completing months of military flight training, 1,078 of them earned their wings and became the first women in history to fly American military aircraft. Thirty-eight of these brave pilots died while serving their country—yet the chairman has chosen to discriminate against them.

Madam Speaker, these are just the stories of two of these groups who all served loyally, selflessly, and courageously.

Their service contributed directly to victory in 1945 and yet they are ignored by this bill.

In their May 11th letter to all members opposing H.R. 23, as amended, the Veterans of Foreign Wars agreed with this argument and stated with respect to the Merchant Mariners of World War II that, "Singling out this group—no matter how valiant their service—would create inequities. Congress should not single them out for special benefits when they are not provided to other groups . . .".

Madam Speaker I offered an amendment at the Full Committee markup of H.R. 23, as amended, to include these other 28 groups but it was rejected by a vote of 15–14.

I am very disappointed by this outcome.

Immediately following the markup, I introduced H.R. 2270, the Benefits for Qualified World War II Veterans Act of 2009, which provides equity to these other groups by providing them the same \$1,000 a month pension that H.R. 23, as amended, would provide to Merchant Mariners. Now that this whole issue is becoming better understood, it is my hope that other members will join me in supporting H.R. 2270 to ensure fair treatment for all of these groups who are equally deserving.

H.R. 23, as amended, like much of the legislation that comes to this floor, is certainly well-meaning. It may well pass the House, although I have opposed it. And if it does, then it will behoove us to also provide full equity and pass H.R. 2270 as soon as it can be brought to the floor. I urge all members to oppose H.R. 23, as amended.

I reserve the balance of my time.

Mr. FILNER. Madam Speaker, I reserve the balance of my time.

Mr. BUYER. I urge all Members to oppose this legislation before us, and I appeal to them, do not create a service pension that will differentiate members' service from others. This is the wrong approach.

I yield back the balance of my time.

Mr. FILNER. Madam Speaker, without a doubt these men, now octogenarians, average age almost 85, fought the good fight and gave our country their all. And H.R. 23 will provide them with the compensation they earned or was promised them and has been denied for decades, not just in words but in deeds.

Madam Speaker, I ask that letters of support from the American Maritime Officers, the International Organization of Masters, Mates & Pilots, the Marine Engineers' Beneficial Association, and the Seafarers International Union expressing their strong support for H.R. 23, as amended, be included in the RECORD.

MAY 5, 2009.

Hon. BOB FILNER,
Chairman, House Veterans' Affairs Committee,
Cannon House Office Building, Washington, DC.

DEAR MR. CHAIRMAN: We are writing on behalf of the undersigned American maritime labor organizations to express our strong support for H.R. 23, the "Belated Thank You to the Merchant Mariners of World War II Act of 2009" and to urge your Committee to favorably report this legislation. The organizations we represent have the privilege of including among our retired members individuals who served our country with honor and distinction during World War II. These World War II merchant mariners are truly representative of the "Greatest Generation", and we are extremely proud of them and the example they have set for all merchant mariners who continue to respond to our Nation's call whenever and wherever they are needed.

General Colin Powell, following the Persian Gulf War, said that: "Since I became Chairman of the Joint Chiefs of Staff, I have come to appreciate first-hand why our Merchant Marine has long been called our Nation's fourth arm of defense. The American seafarer provides an essential service to the

well-being of our Nation as was demonstrated so clearly during Operation Desert Shield and Desert Storm. . . ."

We agree wholeheartedly with you that the enactment of H.R. 23 is necessary "to correct an injustice that has been inflicted upon a group of World War II veterans, the World War II United States merchant mariners." We sincerely thank you, Mr. Chairman, for your initiative in working to address this injustice by sponsoring legislation to provide long-overdue recognition and benefits to World War II merchant mariners. We are also grateful to your colleagues who have cosponsored H.R. 23 and for their decision to add their names to the bipartisan supporters who are committed to working with you and with us for the enactment of H.R. 23 this year.

There is not, nor should there be, any debate as to the invaluable service given by American merchant mariners during World War II. In fact, World War II merchant mariners suffered the highest casualty rate of any of the branches of the Armed Forces other than the United States Marine Corps, as they delivered troops, tanks, food, fuel and other needed equipment and material to every theater of World War II. Enemy forces sank more than 800 merchant vessels between 1941 and 1944 alone.

As General of the Army, Allied Expeditionary Forces in Europe, Dwight David Eisenhower stated, "When final victory is ours there is no organization that will share its credit, more deservedly than the Merchant Marine." Fleet Admiral Chester W. Nimitz, Commander in Chief, Pacific Theater, said that "The Merchant Marine . . . has repeatedly proved its right to be considered as an integral part of our fighting team."

General of the Army Douglas MacArthur, speaking of the merchant seamen who supported the liberation of the Philippines, stated that "With us, they have shared the heaviest enemy fire. On these islands I have ordered them off their ships and into foxholes when their ships became untenable targets of attack. At our side they have suffered in bloodshed and death . . . They have contributed tremendously to our success. I hold no branch in higher esteem than the Merchant Marine Service."

Finally, President Franklin Roosevelt eloquently and accurately summed up the contributions of World War II merchant mariners, telling the country and the world that they "have written one of the most brilliant chapters. They have delivered the goods when and where needed in every theater of operations and across every ocean in the biggest, the most difficult and most dangerous job ever taken."

Yet, despite this record of exemplary, indispensable service to America's war efforts, merchant mariners were not given the formal recognition and benefits granted other services by the Congress through the GI Bill of Rights in 1945. In fact, no legislation to recognize the contributions made by World War II merchant mariners was enacted until Congress extended limited veterans' status to these gallant American citizens in 1988.

We believe, as you have stated Mr. Chairman, that it is time to correct this injustice. We believe our country has an obligation to the remaining World War II merchant mariners, to fully acknowledge their service and to give them the measure of benefit called for in H.R. 23. We ask you and your Committee to take the first step in righting this wrong by favorably reporting H.R. 23 to the House of Representatives for its consideration.

We note that during the consideration of H.R. 23 in the last Congress, changes were made to the legislation that would, among other things, reduce its overall cost. For example, it no longer provides any payment of

benefits to survivors' spouses and revised the legislation so that it is no longer self-funded. Rather, it sets up a Merchant Mariner Equity Compensation Fund and leaves it to Congress to later determine funding within its spending caps. Finally, those who have received benefits under the Servicemen's Readjustment Act of 1944 (the GI Bill—PL 78-346) are not eligible for benefits under H.R. 23. The bill, with these changes, is the legislation that was adopted by the House of Representatives on July 7, 2007 and we continue to support H.R. 23 with these changes.

We again thank you and your colleagues for the support you have shown for the World War II merchant mariners and we stand ready to work with you for its enactment this year.

Sincerely,

Thomas Bethel, President, American Maritime Officers; Timothy Brown, President, International Organization of Masters, Mates & Pilots; Don Keefe, President, Marine Engineers' Beneficial Association; Anthony Poplawski, President, Marine Firemen's Union; Gunnar Lundeborg, President, Sailors' Union of the Pacific; Michael Sacco, President, Seafarers International Union.

NATIONAL ASSOCIATION
FOR UNIFORMED SERVICES®,
Springfield, VA, May 11, 2009.

DEAR MEMBER OF CONGRESS:

On behalf of the National Association for Uniformed Services (NAUS), celebrating its 41st year representing all ranks, branches and components of the uniformed services, their spouses and survivors, I write to ask you to approve H.R. 23, the Belated Thank You to Merchant Mariners of World War II Act of 2009. NAUS strongly urges you to recognize finally, completely, and honorably, the service given in harm's-way during World War II by members of the U.S. Merchant Mariners.

Despite recent arguments against this bill, H.R. 23 does not, repeat, not put one group ahead of all others nor does it take funding away from any other veterans groups or programs. History shows that the Merchant Mariners of World War II had every reasonable expectation that they would be treated as veterans for their service in World War II.

When President Roosevelt signed the GI Bill in 1944, he said, "I trust Congress will soon provide similar opportunities to members of the Merchant Marine who risked their lives time and again during the War for the welfare of their country." Unfortunately, Congress did not act until 44 years later, long after other war veterans had used the generous benefits our nation provided and had received the medical care necessary to treat their wounds.

For all those years, the U.S. Merchant Marine Combat Veterans received no help from the Government they served and little to no recognition for wartime service to our country. They missed out on the GI Bill for their education, the GI Home Loan Program for purchase of their family home, and related earned benefits, not to mention the cost of the medical care they underwent for the wounds, injuries and illnesses they experienced. Their service was shelved and taken for granted.

Nearly 300,000 men answered the call to train and serve in the U.S. Merchant Marine during WWII. Many never returned home and many others who did return came back with both physical and mental wounds. These men put their lives on the line for their country with 9,521 killed (or died from wounds), 12,000 wounded, 663 taken as Prisoner of War, and 66 who died in POW camps.

Fewer than 10,000 of these brave men, who challenged our enemy at sea and willingly

risked life to help win the war, survive today. We ask you to support those now almost-ancient mariners whose heroic contribution as members of the ocean-going Merchant Mariners struggled to help secure the American victory in World War II.

On behalf of a grateful nation, I urge you to honor these brave men with your vote for H.R. 23, The Belated Thank You to the Merchant Mariner Combat Veterans of World War II. Time is running short for a final thanks to the Merchant Mariner of World War II. Let us not squander this opportunity. As always, thank you for your leadership and continued support of America's veterans.

Sincerely,

WILLIAM M. MATZ, JR.,
Major General, U.S. Army, Retired,
President.

NATIONAL ASSOCIATION
FOR UNIFORMED SERVICES,®
Springfield, VA, May 5, 2009.

Hon. BOB FILNER,
Chairman, Veterans' Affairs Committee, House
of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: On behalf of the National Association for Uniformed Services (NAUS), I write to offer our support for H.R. 23, The Belated Thank You to the Merchant Mariners of World War II Act of 2009, a bill to recognize the honorable service these brave and courageous individuals gave in wartime to their country.

By establishing a Merchant Mariners Equity Compensation Fund, the bill would provide monthly payments of \$1,000 to qualifying members of the United States Merchant Marines who, motivated by a deep love of country and personal sense of patriotism, faced enemy action and contributed decisively to the war's final victory.

NAUS commends your strength of leadership in recognition of the heroic service put forth during World War II by the thousands of young men who volunteered for service in the U.S. Merchant Marine. These forgotten heroes have struggled for more than six decades for honorable recognition by the nation they proudly served and their recognition is long overdue.

Once again, the National Association for Uniformed Services fully supports The Belated Thank You to the Merchant Mariners of World War II Act. We appreciate working with you and thank you for your leadership in recognizing the vital role these brave men served in helping to win the war.

Sincerely,

WILLIAM M. MATZ, JR.,
Major General, U.S. Army, Retired,
President.

Madam Speaker, William Matz, Jr., major general of the U.S. Army, retired, who is president of the National Association for Uniformed Services, wrote to all Members of Congress that "on behalf of NAUS celebrating its 41st year representing all ranks, branches and components of the uniformed services, their spouses and survivors, I write to ask you to approve H.R. 23, the Belated Thank You to Merchant Mariners of World War II Act of 2009. NAUS strongly urges you to recognize finally, completely, and honorably, the service given in harm's way during World War II by members of the U.S. Merchant Marines.

"Despite recent arguments against this bill, H.R. 23 does not, repeat, not put one group ahead of all others nor does it take funding away from any other veterans group or programs. History shows that the Merchant Mariners

of World War II had every reasonable expectation that they would be treated as veterans for their service in World War II.

"When President Roosevelt signed the GI Bill in 1944, he said, 'I trust Congress will soon provide similar opportunities to members of the Merchant Marine who risked their lives time and time again during the War for the welfare of their country.' Unfortunately, Congress did not act until 44 years later, long after other war veterans had used the generous benefits our Nation provided and had received the medical care necessary to their wounds.

"For all those years, the U.S. Merchant Marine Combat Veterans received no help from the government they served and little to no recognition for wartime service to our country. They missed out on the GI Bill for their education, the GI Home Loan Program for purchase of their family home, and related earned benefits, not to mention the cost of the medical care they underwent for the wounds, injuries and illnesses they experienced. Their service was shelved and taken for granted.

"Nearly 300,000 men answered the call to train and serve in the U.S. Merchant Marine during World War II. Many never returned home and many others who did return came back with both physical and mental wounds. These men put their lives on the line for their country with 9,521 killed (or died from wounds) 12,000 wounded, 663 taken as prisoner of war, and 66 who died in POW camps.

"Fewer than 10,000 of these brave men, who challenged our enemy at sea and willingly risked life to help win the war, survive today. We ask you to support these now almost-ancient mariners whose heroic contribution as members of the ocean-going merchant mariners struggled to help secure the American victory in World War II.

"On behalf of a grateful Nation, I urge you to honor these brave men with your vote for H.R. 23, the Belated Thank You to the Merchant Mariner Combat Veterans of World War II. Time is running short for a final thanks to the merchant mariner of World War II. Let us not squander this opportunity."

Madam Speaker, that was the letter from the president of the National Association for Uniformed Services, Major General William Matz of the U.S. Army, Retired.

I can say it no better, and I urge my colleagues to unanimously support H.R. 23, as amended.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. FILNER) that the House suspend the rules and pass the bill, H.R. 23, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GAO STUDY OF CIVIL AIR PATROL IN HOMELAND SECURITY MIS- SIONS

Mr. WALZ. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 1178) to direct the Comptroller General of the United States to conduct a study on the use of Civil Air Patrol personnel and resources to support homeland security missions, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1178

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CIVIL AIR PATROL STUDY.

(a) *STUDY.*—The Comptroller General of the United States shall conduct a study of the functions and capabilities of the Civil Air Patrol to support the homeland security missions of State, local, and tribal governments and the Department of Homeland Security. In conducting the study, the Comptroller General shall review the process by which the Civil Air Patrol may provide assistance to the Secretary of Homeland Security, other Federal agencies, and States to support homeland security missions by—

(1) providing aerial reconnaissance or communications capabilities for border security;

(2) providing capabilities for collective response to an act of terrorism, natural disaster, or other man-made event by assisting in damage assessment and situational awareness, conducting search and rescue operations, assisting in evacuations, transporting time-sensitive medical or other materials;

(3) providing assistance in the exercise and training of departmental resources responsible for the intercept of aviation threats to designated restricted areas; and

(4) carrying out such other activities as may be determined appropriate by the Comptroller General in the conduct of this review.

(b) *REPORT.*—Not later than 180 days after the date of enactment of this Act, the Comptroller General shall submit to the Secretary of Homeland Security, the Committees on Homeland Security and Transportation and Infrastructure of the House of Representatives and the Committee on Homeland Security and Governmental Affairs of the Senate a report containing the findings of the review conducted under subsection (a). The report shall include—

(1) an assessment of the feasibility and cost effectiveness of using Civil Air Patrol assets for the purposes described in subsection (a); and

(2) an assessment as to whether the current mechanisms for Federal agencies and States to request support from the Civil Air Patrol are sufficient or whether new agreements between relevant Federal agencies and the Civil Air Patrol are necessary.

(c) *REPORT TO CONGRESS.*—Not later than 90 days after the date of receipt of the report under subsection (b), the Secretary of Homeland Security shall review and analyze the study and submit to the Committees on Homeland Security and Transportation and Infrastructure of the House of Representatives and the Committee on Homeland Security and Governmental Affairs of the Senate a report on such review and analysis, which shall include any recommendations of the Secretary for further action that could affect the organization and administration of the Department of Homeland Security.

The SPEAKER pro tempore. Pursuant to the rule the gentleman from Minnesota (Mr. WALZ) and the gentleman from Pennsylvania (Mr. DENT) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota.

GENERAL LEAVE

Mr. WALZ. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include any extraneous material on H.R. 1178.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. WALZ. Madam Speaker, I would like to insert into the RECORD an exchange of letters between Chairman OBERSTAR and Chairman THOMPSON regarding H.R. 1178.

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON HOMELAND SECURITY,
WASHINGTON, DC, MAY 7, 2009.

Hon. JAMES L. OBERSTAR,
Chairman, Committee on Transportation and Infrastructure,
House of Representatives, Rayburn House Office Building, Washington, DC.

DEAR MR. CHAIRMAN: I am writing you regarding H.R. 1178, a bill "To direct the Comptroller General of the United States to conduct a study on the use of Civil Air Patrol personnel and resources to support homeland security missions, and for other purposes," introduced on February 25, 2009, by Congressman Charles W. Dent. This legislation was initially referred to the Committee on Transportation and Infrastructure and, in addition, to the Committee on Homeland Security.

In the interest of permitting your Committee to proceed expeditiously to floor consideration of this important legislation, I will waive further consideration of H.R. 1178. However, agreeing to waive consideration of this bill should not be construed as the Committee on Homeland Security waiving, altering, or otherwise affecting its jurisdiction over subject matters contained in the bill which fall within its Rule X jurisdiction.

Further, I request your support for the appointment of Homeland Security conferees during any House-Senate conference convened on this legislation. I also ask that a copy of this letter and your response be placed in the Congressional Record during floor consideration of this bill.

I look forward to working with you on this legislation and other matters of great importance to this nation.

Sincerely,

BENNIE G. THOMPSON,
Chairman.

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON TRANSPORTATION AND
INFRASTRUCTURE, WASHINGTON, DC,
MAY 7, 2009.

Hon. BENNIE G. THOMPSON,
Chairman, Committee on Homeland Security,
Ford House Office Building, Washington, DC.

DEAR CHAIRMAN THOMPSON: Thank you for your May 7, 2009 letter regarding H.R. 1178, a bill to direct the Comptroller General of the United States to conduct a study on the use of Civil Air Patrol personnel and resources to support homeland security missions.

I agree that provisions in H.R. 1178 are of jurisdictional interest to the Committee on Homeland Security. I appreciate your willingness to waive rights to further consideration of H.R. 1178 to ensure the timely consideration of this legislation, and I acknowledge that through this waiver, your Committee is not relinquishing its jurisdiction over this legislation or similar language. Further, I will support your request to be

represented in a House-Senate conference on those provisions over which the Committee on Homeland Security has jurisdiction in H.R. 1178.

This exchange of letters will be placed in the Congressional Record as part of the consideration of H.R. 1178 in the House.

I value your cooperation and look forward to working with you as we move ahead with this legislation.

Sincerely,

JAMES L. OBERSTAR, M.C.
Chairman.

Madam Speaker, I yield myself as much time as I may consume.

Madam Speaker, I rise in support of the gentleman from Pennsylvania's legislation, H.R. 1178. It does direct the Comptroller General to do a smart study of the Civil Air Patrol's ability to support the Nation's Homeland Security and emergency response activities.

Specifically, H.R. 1178 requires the Government Accountability Office to issue a report within 180 days of enactment that will describe the current functions and capabilities of the Civil Air Patrol to support emergency response and Homeland Security missions.

GAO is required to assess how the Civil Air Patrol may provide assistance for border security and a variety of threats and hazards, such as damage assessment, search and rescue operations, evacuations and transporting time-sensitive medical materials.

In addition, the report must focus on the cost-effectiveness of using the Civil Air Patrol to support a security mission, as well as whether mechanisms and agreements are sufficient, or whether new agreements between Federal agencies and the Civil Air Patrol are necessary to request support. The report must be reviewed and analyzed by the Secretary of Homeland Security and presented to Congress within 90 days with any recommendations for further action.

I urge my colleagues to join me in supporting H.R. 1178.

Madam Speaker, I reserve the balance of my time.

Mr. DENT. I thank my good friend, the gentleman from Minnesota, for his kind comments about my legislation.

Madam Speaker, I rise today in support of H.R. 1178. This bill, which I introduced in February of this year, is similar to the Civil Air Patrol legislation that was passed by this House during the 110th Congress with overwhelming bipartisan support. I am pleased to have the opportunity to bring this bill before the House for consideration once again.

I would like to thank Chairman OBERSTAR and Ranking Member MICA of the Committee on Transportation and Infrastructure for their cooperation and support in bringing this legislation to the floor today. I would also like to extend my gratitude to Chairman BENNIE THOMPSON and Ranking Member PETER KING and the Committee on Homeland Security for their continued support for this initiative.

Additionally, I would also like to thank Chairwoman SHEILA JACKSON-LEE of the Subcommittee on Transportation Security and Infrastructure Protection, on which I serve as ranking member, for her support as a cosponsor of H.R. 1178.

This bill, H.R. 1178, directs the Comptroller General of the Government Accountability Office to conduct a study to determine how the Civil Air Patrol or CAP can help support Homeland Security missions. The GAO will generate a report based on the findings of the study. Once complete, the report will be reviewed by both the Homeland Security Committee and the Transportation and Infrastructure Committee.

Specifically, this study will examine the ways in which the Civil Air Patrol may assist State, local and tribal governments and the Department of Homeland Security by providing aerial reconnaissance or communications assistance for border security, augmenting the Department's situational awareness in search and rescue capabilities in the aftermath of an act of terrorism, natural disaster or other catastrophic event, and providing other assistance deemed appropriate by the Comptroller General.

Once the study is completed and the GAO publishes its report, DHS must review and analyze that report, and within 90 days submit recommendations to Congress for further action. Aviation assets traditionally have played an important role in border security, in the interdiction of contraband and in search and rescue operations, evacuations and after-action analysis that must be performed in the wake of a catastrophic event.

We watch as communities continue to deal with fires or tornados, hurricanes, and floods that turn families' lives upside down. We continue to witness drug cartel violence on the Mexican border.

H.R. 1178 will allow for further explanation into the use of the Civil Air Patrol capabilities for delivering needed relief in such situations. The Civil Air Patrol has a long history of service to this Nation. The organization was founded at the outbreak of the Second World War, during which it served as a vital watchdog along the coastlines of America, protecting us from the threat of German U-boats that patrolled our shores. I even believe they got a few back then.

Since that time, the Civil Air Patrol has regularly assisted States in search and rescue operations and emergency response, including action during Hurricanes Katrina and Rita. The Civil Air Patrol deployed 1,800 members to the devastated areas, logging more than 50,000 volunteer hours and distributing over 30,000 pounds of relief supplies.

Today our Civil Air Patrol force of approximately 57,000 volunteers from varying professional backgrounds, with over 500 aircraft across the country, stands ready to assist in the aforementioned missions. In the Commonwealth

of Pennsylvania alone, we have over 2,300 volunteers, over 1,000 of which are cadets between the ages of 12 and 18.

I urge my colleagues to support this piece of legislation as we help to ensure the effective use of all available resources for securing our Homeland Security. Madam Speaker, I am pleased to say here today that the Civil Air Patrol enthusiastically supports this legislation.

Mr. PETRI. Madam Speaker, I rise in support of H.R. 1178 originally introduced by my colleague from Pennsylvania, Mr. DENT. The bill directs the Comptroller General of the Government Accountability Office (GAO) to conduct a study to determine how the Civil Air Patrol (CAP) can help support homeland security missions and to report to Congress on his findings.

The Civil Air Patrol (CAP) is a Congressionally-chartered, federally-supported, non-profit corporation that serves as the official auxiliary of the United States Air Force (USAF). First organized over sixty years ago at the beginning of World War II, the Civil Air Patrol is a 57,000-member volunteer cadre that flies 500 planes nationwide.

In addition to its aerospace education mission for youth and the general public, the Civil Air Patrol handles 90 percent of inland search and rescue missions. Its members are responsible for approximately 75 lives saved each year.

Civil Air Patrol planes have been among the first to survey the aftermath of such disasters as the attacks of September 11, 2001, Hurricane Katrina, Texas and Oklahoma wildfires, and North Dakota flash flooding. The Civil Air Patrol has also assisted in humanitarian missions along the U.S. and Mexican border.

Border security, drug interdiction, search and rescue are just a few missions in which airborne reconnaissance and tracking would give homeland security officials valuable information critical to carrying out their objective.

The Civil Air Patrol is eager to further assist in Homeland Security missions. This bill will help better define how the Civil Air Patrol may be used more extensively to aid in homeland security missions.

Mr. DENT. I yield back the balance of my time.

Mr. WALZ. I thank the gentleman for his thoughtful piece of legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. WALZ) that the House suspend the rules and pass the bill, H.R. 1178, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

□ 1545

COMMENDING FLOOD FIGHTING EFFORTS IN NORTH DAKOTA AND MINNESOTA

Mr. WALZ. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 415) commending the he-

roic efforts of the people fighting the floods in North Dakota and Minnesota.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 415

Whereas 47 of the 53 counties in North Dakota and 28 of the 87 counties in Minnesota have been declared Federal disaster areas;

Whereas wide swaths of North Dakota and Minnesota have faced unprecedented flooding crises, including cities along the Des Lacs, Heart, James, Knife, Missouri, Little Missouri, Park, Pembina, Red, Sheyenne, Souris, and Wild Rice Rivers and Beaver Creek;

Whereas the people of North Dakota and Minnesota have suffered tremendous damage to their homes, livelihoods, and communities;

Whereas the ranchers of North Dakota and Minnesota are estimated to have lost nearly 100,000 head of livestock;

Whereas many of the roads and bridges, and much of the other infrastructure, in North Dakota and Minnesota are in need of repair;

Whereas, despite terrible conditions, the people of North Dakota and Minnesota have shown the strength of their shared bond, coming together in large numbers to save their cities, towns, businesses, farms, and ranches;

Whereas stories of exceptional efforts abound, from people filling millions of sandbags on short notice, to people saving lives and effecting rapid emergency evacuations;

Whereas Federal, State, and local officials have provided outstanding leadership and effective service throughout the crisis in North Dakota and Minnesota; and

Whereas the response of the people of North Dakota and Minnesota to the disaster has shown the world how communities can unite, fight, and win in a crisis: Now, therefore, be it

Resolved, That the House of Representatives—

(1) commends the people of North Dakota and Minnesota for their heroic efforts in fighting the floods in North Dakota and Minnesota;

(2) commends the many people from around the United States who assisted the people of North Dakota and Minnesota during this time of need;

(3) expresses appreciation to the officials of the numerous Federal agencies, including the Federal Emergency Management Agency, working on the ground in North Dakota and Minnesota for their consistently rapid, efficient, and effective response to the disaster; and

(4) continues to stand with the communities of North Dakota and Minnesota in the efforts to recover from the flooding during 2009, and to improve protections against flooding in the future.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. WALZ) and the gentleman from Florida (Mr. MARIO DIAZ-BALART) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota.

GENERAL LEAVE

Mr. WALZ. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H. Res. 415.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. WALZ. Madam Speaker, I yield myself such time as I may consume.

I rise in the strongest support of H. Res. 415, a resolution to commend the heroic efforts of the people fighting the recent floods in North Dakota and Minnesota.

In October of 2007, the House passed H. Res. 657 to express sympathy for the victims of the devastating flooding that occurred in the States of Illinois, Iowa, Minnesota, Ohio, and Wisconsin. I spoke on the House floor then to commend our fellow citizens in the wake of Mother Nature's wrath, and to thank the men and women who serve this Nation as National Guardsmen, police officers, firefighters, emergency medical personnel, and others, who put themselves in danger every day to protect us. These dedicated professionals were once again called in the wake of the Red River floods.

In April 2009, several counties in Minnesota were greatly affected by flooding along the Red River. The Red River flows between North Dakota and Minnesota. Flooding along the Red River, combined with extremely cold weather, caused severe ice damage. Flooding conditions along the river were the result of one of the wettest springs, where winter stream flows were 300 percent above normal.

Twenty-four hours a day, every day of the year, all over this country, when any type of tragedy enters our lives, from a medical emergency facing a neighbor to a large-scale national disaster, terrorist attack, or other incident, our Nation's emergency responders and charitable organizations are the first on the scene to provide professional services, expert help, aid and comfort. These well-trained, highly skilled individuals are truly on the front lines in preparing for, responding to, and mitigating damages from a variety of hazards.

In addition to the heroic acts of neighbors and friends, we rise today to also acknowledge and praise the support of local businesses and many charitable organizations whose boundless generosity and caring are just one of the pillars of recovery on which we come to rely. I strongly support this resolution and urge its passage.

I reserve the balance of my time.

Mr. MARIO DIAZ-BALART of Florida. I yield myself such time as I may consume.

Madam Speaker, in March, both Minnesota and North Dakota, as the gentleman just said, began experiencing severe storms and flooding. As a result, major disaster declarations were issued for a number of counties in those States pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act to provide for Federal assistance.

But the numbers are staggering. Forty-seven of 53 counties in North Dakota and 28 of 87 counties in Minnesota

have been declared Federal disaster areas. That just tells you the scope and the size of these floods.

As a Member representing a State that has seen, unfortunately, its fair share of storms, I can tell you that there are so many people that really allow the people of these States to move forward and to, frankly, survive this and, hopefully, prosper from it.

There's so many people not only from North Dakota and Minnesota, but from around the Nation, who assisted in fighting these floods, and hundreds of volunteers chipped in to help one another to fill sandbags and to do whatever it takes to make sure that they can help their fellow citizens.

Demolition crews freed up ice jams and ice dams to get water moving up the Missouri River to minimize flooding—to try to minimize flooding after, obviously, so much had already taken place.

Reportedly, there were so many volunteers who offered to help, some of them actually had to be turned away. That says a lot about the greatness of the American people.

So this resolution commends the people of North Dakota and Minnesota for their heroic actions, as the gentleman just said, along with those volunteers from around the country who also came to assist. It also expresses appreciation to FEMA—the Federal Emergency Management Agency—and other Federal agencies for their work with the State and local officials.

Again, I want to thank the gentleman for this resolution. People are hurting and struggling, but the American people have a way to come together to help each other. This is just one more example.

I urge the approval and passage of this resolution.

I reserve the balance of my time.

Mr. WALZ. I thank the gentleman from Florida for those kind words. At this time I yield such time as he may consume to the author, the gentleman who introduced this, the gentleman from North Dakota, who, along with his constituents, we share a common border, and we share far more than that—a culture and a friendship—and his leadership of making sure that all possible steps were taken is a real great example.

So with that I yield such time as he may consume to the gentleman from North Dakota (Mr. POMEROY).

Mr. POMEROY. I thank the gentleman, my friend, for yielding, and appreciate very much the kind comments of Mr. DIAZ-BALART as well. Maybe sometime we can get the gentleman from southern Florida up for one of our ice storms. In turn, we can go down for a hurricane. We will all have kind of a better understanding one with another. It certainly does underscore the national dimension of how we hang together as a country. You get hit, we help; we get hit, you help. That's how it works. I want to speak to that for a moment or two in my remarks today.

The entire country, Madam Speaker, watched the compelling news coverage of the massive record flooding in North Dakota and Minnesota this spring that resulted from huge accumulations of snow and dangerous spring ice.

Having witnessed this flood fight firsthand, I understand what made these television images so compelling. From all walks of life, neighbors were helping neighbors. The Nation got to see the character of North Dakota and Minnesota as our communities responded to this disaster.

In my entire life, I have never seen a time when so many of our North Dakota communities faced disaster threats—from one end of the State to the other, and so many places in between.

Take a look at this picture. This is rural Cass County, actually outside of the city limits of Fargo. The next picture, a city a couple hundred miles north, Pembina, North Dakota.

These images are like so many small towns across North Dakota where all you see is water. Water, water everywhere. One of the operating heads of the disaster programs in the State observed to me that it has become a place where our ditches are streams, our streams are rivers, and our rivers are lakes. That's certainly what it felt like during much of the ordeal of this spring.

Record snow, in the end, wasn't the only threat. This next picture illustrates what happens when, as the gentleman illustrated, we had ice jams on the Missouri River, backing water into the southern part of Bismarck, known as Fox Island. It required, as we mentioned, demolition to blow up that ice jam to move this flood out of a place that has not had a flood threat since the construction of the Garrison Dam 60 years ago.

In the middle of all these fights, Fargo Mayor Denny Walaker observed, If we go down, we're going to go down swinging. That absolutely captured the determination of local leadership and the citizens that responded as they fought like crazy to keep their city from becoming inundated by ram-paging waters.

Federal, State, and local officials came together with folks from all walks of life. And we're very grateful to President Obama for moving swiftly to declare North Dakota and Minnesota Federal disaster areas, unleashing the help that comes with that designation.

Acting FEMA administrator Nancy Ward stood with our local leaders, ensuring they had the Federal disaster assistance to respond to community flood threats. Governor Hoeven ended calling up more than 2,000 National Guardsmen to respond to the threats. We observed many times that it was good having him work in our sand instead of desert sand, as threats this spring unfolded.

The Corps of Engineers were present—and even senior leadership

present in our communities time and time again. We could not have built the kind of emergency levees that were required without the Corps' expertise. They are true partners in this fight.

Throughout these ongoing flood fights I have had the opportunity and the honor of working with local, city, and community officials as they led the battle against the rising waters. While I have always been impressed with the caliber and commitment of our local leadership, I'm now in complete awe after witnessing these individuals lead their communities in times of real crisis.

Make no bones about it, city leaders have been instrumental, instrumental in keeping their residents and their communities safe.

When Federal agency heads came to North Dakota in the middle of all of this, seeking to provide advice and direction, what they got back was an understanding of just how thorough the planning had been and how competent the local response was as leaders led the fight against this. I think it underscores a lesson we need to keep in mind in terms of disaster—Federal support, subject to local leadership, because no one knows the ground better than local leaders.

But we all know the heart of our flood fighting efforts comes down to the people themselves. And our people stepped up, bore down, and worked furiously—neighbor helping neighbor in this struggle to save their homes and communities.

This is a picture of the Fargodome. Now that's an indoor football facility where Division I North Dakota State University Bison play their football games. It was turned into sandbag central. In a town of 90,000, over the course of this ordeal, more than 80,000 volunteers came forward, built millions and millions of sandbags around the clock at the Fargodome. I was there. I've never seen anything like it.

In addition to that, National Guard, local volunteers shown here took those sandbags in the middle of blizzards and everything else, built dikes, sometimes on top of snow banks, sometimes through some of the toughest snow storms we have had in the winter.

Having lived this flood fight for several weeks, I have seen more examples of heroism than I can begin to recount, but the impressions will be with me always. We will never be able to adequately thank the thousands of National Guard, tens of thousands of volunteers, and all the countless government agencies who brought to bear their assistance to fight this record fight.

I think President Obama put it best in his radio address which featured our State's disaster and response in our region, because there's lessons we can learn from all this. The President said, "At moments like these we're reminded of the power of nature to disrupt lives and endanger communities. But we're also reminded of the power of individuals to make a difference."

"In the face of incredible challenge, the people of these communities have rallied in support of one another. And their service isn't just inspirational—it's integral to our response. It's also a reminder of what we can achieve when Americans come together to serve their communities.

"In facing sudden crises, or more stubborn challenges, the truth is we are all in this together as neighbors and fellow citizens. That is what brought so many to help in North Dakota and Minnesota and other areas affected by the flooding."

Some may see these images of snow and rain and sand and mud and water and say to themselves, Why would anyone want to live there? But to each of us who played our respective part in this fight, experienced the strength of our community, mobilized together, shoulder to shoulder, helping one another, we say, Why would someone want to live anywhere else?

This congressional resolution is a well-deserved way to express our deep appreciation as a Congress and recognize North Dakotans and Minnesotans publicly for their courage and resilience. They are a true inspiration, and I am committed to standing with them during the long recovery process that now lies ahead. I thank you very much for allowing me this kind of time.

Mr. MARIO DIAZ-BALART of Florida. I want to thank the gentleman for that great illustration of what the people are facing. I recall that after Hurricane Andrew, I ran into a number of—obviously—volunteers. And something that really struck me was, I ran into two people who were there on vacation, and they were actually helping in a day care center for children that had lost their homes, because the gentleman just talked about how we all need to see that and how we all here need to come together as well.

□ 1600

But because of that experience, I did go to Missouri in the nineties after some floods. I had some days off. I was in the State legislature in those days. I volunteered, and I went down there. I spent a few days sandbagging. And you really see the best of the country when people are really hurting and the people are really struggling.

Again, we've received the kindness of the American people in Florida multiple times. You also see how heroic the American people are. You are seeing it now with these storms.

I want to, again, thank the gentleman for bringing up this resolution. It's timely. It's so important to make sure that we recognize that tough times are to be had, but the American people do step up.

In both of those States, they're going to do better than they ever were. They're going to be stronger, and the people are going to survive and prosper.

With that, Madam Speaker, I would yield back the remainder of my time.

Mr. WALZ. I thank the gentleman from Florida for his words, and I thank the gentleman from North Dakota for his inspirational description. Both of them did a wonderful job of explaining, when we come out of these most difficult situations, it's the best that we have.

I think, as the gentleman from North Dakota mentioned, when we saw Hurricanes Katrina and Rita, we all became Floridians. And when the Red River was flooding, we were all Minnesotans and North Dakotans. A commonality in this Nation and the ability to pull together is truly inspirational.

Madam Speaker, I encourage my colleagues to support this resolution.

Mr. OBERSTAR. Madam Speaker, I rise in strong support of H. Res. 415, a resolution to commend the heroic efforts of the people fighting the floods in North Dakota and Minnesota.

In October of 2007, the House passed H. Res. 657, to express sympathy for the victims of the devastating flooding that occurred in the States of Illinois, Iowa, Minnesota, Ohio, and Wisconsin in August of 2007. I spoke on the House floor then to commend our fellow citizens in the wake of Mother Nature's wrath, and to thank the men and women who serve this nation as police officers, firefighters, and emergency medical personnel and who place themselves in great danger every day in order to protect each one of us. These dedicated professionals were once again called to duty last month in the wake of the Red River floods.

In April of 2009, in my district in Minnesota, the counties of Cook and Lake were greatly affected by flooding along the Red River. The Red River flows north between North Dakota and Minnesota. Flooding along the Red River, combined with extremely cold weather, caused severe ice damage in Cook and Lake counties. Wadena county was declared a disaster area and a small section of Beltrami county was declared eligible for individual and public assistance. Flooding conditions along the river were the result of one of the wettest springs where winter stream flows were up to 300 percent above normal.

Twenty-four hours a day, every day of the year, all over this country, when any type of tragedy enters our lives, from a medical emergency facing a neighbor to a large-scale natural disaster, terrorist attack, or other incident, our Nation's emergency responders and charitable organizations are the first on the scene to provide professional services, expert help, aid and comfort. These well-trained, highly-skilled individuals are truly on the front lines in preparing for, responding to, and mitigating damages from a variety of hazards.

In addition to the heroic acts of our neighbors and friends, we rise today to also acknowledge and praise the support of local businesses, and many charitable organizations whose boundless generosity and caring are just one of the pillars of recovery on which we have come to rely.

I strongly support this resolution and urge its passage.

Mr. PETERSON. Madam Speaker, I rise today to commend the people of Minnesota and North Dakota for the hard work and community spirit they displayed fighting last month's Red River flooding. When the water

started to rise, people came from all around to feed the volunteers and help out in any way they could. Now, these communities are continuing to work together all across my district to rebuild, recover, and get life back to normal.

When I've been back home, I've seen the recovery effort firsthand. Neighbors all over my district, in Clay County, Fargo-Moorhead, and throughout the Red River Valley are working with one another to repair the damage. Schools, businesses, and towns are getting back on their feet.

It's impressive, Madam Speaker, but things aren't back to normal yet in North Dakota or Minnesota. Although we've come a long way since the flood crested a little over a month ago, we still have a ways to go.

Floods don't do many good things, but this flood has shown just how strong our communities are in the Midwest. In the face of the toughest odds, Minnesotans and North Dakotans united to fight for our community.

I would also like to take this opportunity to thank the Minnesota and North Dakota National Guards. They were mobilized to assist in the flood relief efforts and did a great job. Their readiness to help out their neighbors is what the National Guard is all about. In addition, 300 soldiers from the Minnesota Guard were deployed to North Dakota to provide additional support for its flood fighting efforts.

We aren't out of the woods yet. There is much more to do, and even when we recover from this flood, we'll need to start thinking long-term to prepare for the next one. I commend the people of Minnesota and North Dakota for what they've done in the recovery efforts. They deserve our thanks.

Mrs. BACHMANN. Madam Speaker, as the House considers H. Res. 415, I rise to honor the members of the Civil Air Patrol's Minnesota Wing for their response efforts to the flooding in the Fargo-Moorhead communities this spring. The area saw some of the worst flooding in decades and the fact that so many homes and families were protected is a direct result of courageous and caring volunteers like those of the Civil Air Patrol.

The Minnesota Wing sent 122 volunteers into the area to fill and place thousands of sandbags in an unprecedented protection effort. These volunteers also flew aerial damage assessment missions and staffed a mission base in Fargo just when the worst flooding fears were coming true. As the Red River rose higher than anyone expected, these men, women and teenage cadets stepped up their efforts to help their neighbors in their most desperate time of need.

I rise today, Madam Speaker, to support H. Res. 415 and to honor the members of the Minnesota Wing of the Civil Air Patrol who crossed flooded and snow-covered roads to answer their neighbors' call for help. The motto of the Civil Air Patrol is "Citizens Serving Communities: Above and Beyond" and I can think of no group that embodies this slogan better.

Mr. WALZ. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. WALZ) that the House suspend the rules and agree to the resolution, H. Res. 415.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

NATIONAL HEALTHY SCHOOLS DAY

Mr. LYNCH. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 370) expressing support for designation of April 27, 2009, as "National Healthy Schools Day," as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 370

Whereas there are approximately 54,000,000 children and 7,000,000 adults who spend their days in the Nation's 120,000 public and private schools;

Whereas over half of schools in the United States have problems linked to indoor air quality;

Whereas children are more vulnerable to environmental hazards as they breathe in more air per pound of body weight due to their developing systems;

Whereas children spend an average of 30 to 50 hours per week in school;

Whereas poor indoor environmental quality is associated with a wide range of problems that include poor concentration, respiratory illnesses, learning difficulties, and cancer;

Whereas an average of 1 out of every 13 school-age children has asthma, the leading cause of school absenteeism, accounting for approximately 14,700,000 missed school days each year;

Whereas the Nation's schools spend approximately \$8,000,000,000 a year on energy costs, causing officials to make very difficult decisions on cutting back much needed academic programs in efforts to maintain heat and electricity;

Whereas healthy and high performance schools designed to reduce energy and maintenance costs, provide cleaner air, improve lighting, and reduce exposures to toxic substances provide a healthier and safer learning environment for children and improved academic achievement and well-being;

Whereas new building construction, especially new school buildings, should be designed to optimize energy efficiency, lower energy costs, and reduce carbon dioxide emissions;

Whereas Congress has demonstrated its interest in this compelling issue by including the Healthy High-Performance Schools Program in the No Child Left Behind Act and the Energy Independence and Security Act of 2007;

Whereas our schools have the great responsibility of guiding the future of our children and our Nation; and

Whereas April 27, 2009, would be an appropriate date to designate as "National Healthy Schools Day": Now, therefore, be it

Resolved, That the House of Representatives supports the goals and ideals of National Healthy Schools Day.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Nebraska (Mr. FORTENBERRY) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

GENERAL LEAVE

Mr. LYNCH. Madam Speaker, I ask unanimous consent that all Members

may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. I yield myself as much time as I may consume.

Madam Speaker, in the coming months we will address critical problems in the areas of education, energy and health care. National Healthy Schools Day promotes positive changes in all three areas.

I'm pleased to present the amended version of House Resolution 370 for consideration. This legislation expresses the support of Congress for the goals and ideals of National Healthy Schools Day.

House Resolution 370 was introduced by my colleague and friend Representative PAUL TONKO from the Empire State of New York on April 27, which is actually the day that National Healthy Schools Day is annually commemorated.

The measure has the support of over 50 Members of Congress and has met requisite criteria for approval by the Committee on Oversight and Government Reform.

Madam Speaker, I am sure you will agree that it is important to ensure that our public schools are places that advance intellectual growth and provide healthy environments for our children to learn and to thrive.

The Environmental Protection Agency estimates that only 22 percent of public schools in America have effective indoor air quality management programs. More stringent regulation of indoor air quality in public schools would protect students against dangerous environmental hazards such as carbon dioxide, radon and even asbestos.

The National Healthy Schools Day initiative encourages new efforts to combat these hazards and limits the prevalence of indoor environmental asthma triggers that have been reported to account for more than 14 million missed school days each year.

Steps to improve the indoor air quality of our public schools should work in conjunction with efforts to make our schools more energy efficient. Through the use of new ventilation systems and the construction of high-performance so-called green schools, we can make certain that our educational facilities are using less energy while providing a healthier environment for our students.

Through efforts to enhance healthy environments within our school systems, we can improve educational environments as well. Improved energy efficiency in our schools will reduce energy costs and allow more resources to be devoted to other areas, such as hiring new teachers and the acquisition of new educational tools.

Madam Speaker, the health and well-being of all American students is para-

mount. Therefore, let us take one step forward in providing a high-quality learning environment for our children by expressing our support for the goals and ideals of National Healthy Schools Day.

I urge my colleagues to vote in favor of House Resolution 370, as amended.

I reserve the balance of my time.

Mr. FORTENBERRY. Madam Speaker, I yield myself as much time as I may consume.

Some 54 million children and 7 million adults, Madam Speaker, spend a large part of their day in our 120,000 public and private schools. These hard-working teachers and students deserve a healthy school environment.

We share a great responsibility in shaping the future for our children, and it is critical that it is done in a clean and safe environment.

When these elements are in place, everyone's performance improves, test scores rise, and attendance levels increase. Our Nation's children, parents and educators deserve to know that their schools provide the safest and healthiest environment possible.

A National Healthy Schools Day will help promote school environments that are conducive to learning and protect student health.

In order to express support for the goals and ideals of National Healthy Schools Day, I also urge my colleagues to support H. Res. 370.

Madam Speaker, I reserve the balance of my time.

Mr. LYNCH. I appreciate the gentleman's words.

At this time I would like to yield 5 minutes to the chief sponsor of this resolution, the one who has brought it to the floor, the gentleman from New York (Mr. TONKO).

Mr. TONKO. Madam Speaker, I thank my colleague from Massachusetts.

I rise today in support of House Resolution 370, a resolution I was proud to introduce to recognize National Healthy Schools Day.

National Healthy Schools Day recognizes the importance of having a clean, healthy and safe indoor environment for our Nation's schools.

Fifty-four million children, Madam Speaker, and 6 million adults spend their days in our Nation's schools. The EPA estimates that up to one-half of those schools have problems, problems with indoor air quality. Some 32 million students attend schools that have self-reported environmental problems with their facilities that can affect students' health and certainly students' learning.

Some of the hazards common to schools include overcrowding, indoor air pollution, mold infestation, airborne fiberglass particles, lead and copper-contaminated drinking water, playgrounds and classrooms with high levels of pesticides, unchecked furnaces and buses leaking carbon monoxide, chemical spills, renovation fumes, demolition dust, exhaust from gasoline-powered equipment and emissions

from hazardous facilities next door to their school campus.

These problems can contribute to absenteeism, the need for medication use amongst students and can contribute also to learning difficulties, sick building syndrome, staff turnover and liability issues for our school districts across this great country.

Children are more vulnerable than adults to environmental hazards in their schools simply because of their developing immune systems and small bodies. Poor indoor environmental quality has been linked to asthma and other illnesses in our children. With one out of every 13 children suffering from asthma, the number one cause of missed school days, it is very important that we address these issues and address them boldly.

Research shows that simple steps can be taken to make our Nation's schools healthier. Heating and ventilation equipment can be improved upon to enhance indoor air quality. New schools can be built with a healthy design and can be located at nonpolluted sites. Nontoxic products can be used for cleaning, for maintenance and for teaching. The use of natural light should be encouraged. Certainly we can improve on that dynamic heavily.

Many States have adopted guidelines for building healthy high-performing schools that incorporate these steps and more. H.R. 2187, the 21st Century Green High-Performing Public Schools Facilities Act, which we will be considering in this body later this week, would do just that. It would require States to adopt similar guidelines.

I was very proud to work with my colleagues at the New York State Energy Research and Development Authority to develop New York State's High Performance Schools Guidelines. I would suggest that they are some of the most effective and most rigid guidelines in the country and will score wonderful opportunities for our students.

National Healthy Schools Day draws attention to the importance of having a safe and a healthy school environment for all of our Nation's children.

National Healthy Schools Day is supported by the Healthy Schools Network, the EPA, the National Educational Association and many more organizations.

I am proud to be counted as a supporter of National Healthy Schools Day and look forward to working with my colleagues here to ensure that every student has a healthy environment in which to learn. Our students require that, and our students deserve that.

Mr. FORTENBERRY. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. LYNCH. Madam Speaker, again, let us join with the gentleman from New York (Mr. TONKO) and send a strong message to the public that we are committed to ensuring the develop-

ment and growth of healthy learning environments and schools for our children by supporting House Resolution 370.

With that, I ask my colleagues to join us.

I yield back the balance of our time. The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the resolution, H. Res. 370, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

The title was amended so as to read: "Resolution expressing the support of the House of Representatives for the goals and ideals of National Healthy Schools Day."

A motion to reconsider was laid on the table.

SUPPORTING NATIONAL MILITARY APPRECIATION MONTH

Mr. LYNCH. Madam Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 84) supporting the goals and objectives of a National Military Appreciation Month.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

H. CON. RES. 84

Whereas the vigilance of the members of the Armed Forces has been instrumental to the preservation of the freedom, security, and prosperity enjoyed by the people of the United States;

Whereas the success of the Armed Forces depends on the dedicated service of its members, their families, and the civilian employees of the Department of Defense and the Coast Guard;

Whereas the role of the United States as a world leader requires a military force that is well-trained, well-equipped, and appropriately sized;

Whereas the Federal Government has a responsibility to raise awareness of and respect for this aspect of the heritage of the United States and to encourage the people of the United States to dedicate themselves to the values and principles for which Americans have served and sacrificed throughout the history of the Nation;

Whereas service in the Armed Forces entails special hazards and demands extraordinary sacrifices from service members and their families;

Whereas the support of the families of service members enhances the effectiveness and capabilities of the Armed Forces;

Whereas the observance of events recognizing the contributions of the Armed Forces is a tangible and highly effective way of sustaining morale and improving quality of life for service members and their families;

Whereas, on April 30, 1999, the Senate passed S. Res. 33 (106th Congress), entitled "Designating May 1999 as 'National Military Appreciation Month'", calling on the people of the United States, in a symbolic act of unity, to observe a National Military Appreciation Month in May 1999, to honor the current and former members of the Armed Forces, including those who have died in the pursuit of freedom and peace;

Whereas, on March 24, 2004, the House of Representatives passed H. Con. Res. 328 (108th Congress), entitled "Recognizing and honoring the United States Armed Forces and supporting the goals and objectives of a National Military Appreciation Month", and on April 26, 2004, the Senate passed H. Con. Res. 328 by unanimous consent; and

Whereas it is important to emphasize to the people of the United States the relevance of the history and activities of the Armed Forces through an annual National Military Appreciation Month that includes associated local and national observances and activities: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) supports the goals and objectives of a National Military Appreciation Month; and

(2) urges the President to issue a proclamation calling on the people of the United States, all Federal departments and agencies, States, localities, organizations, and media to annually observe a National Military Appreciation Month with appropriate ceremonies and activities.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Nebraska (Mr. FORTENBERRY) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

GENERAL LEAVE

Mr. LYNCH. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. Mr. Speaker, I yield myself as much time as I may consume.

I rise in strong support of House Concurrent Resolution 84, sponsored by my friend and colleague from Tennessee (Mr. WAMP), a resolution supporting the goals and objectives of National Military Appreciation Month.

□ 1615

Each May since 1999, Congress has taken the time to honor our Nation's bravest men and women serving in the Armed Forces. Throughout our history, they have put themselves in harm's way all over the world in order to protect and defend our country. They continue to do so today, and they deserve our gratitude.

In the wake of the tragic shooting yesterday at Camp Victory in Baghdad, we are reminded of the perils and the stress that our Armed Forces face constantly during periods of deployment. It is important, I think, that we always show our appreciation for their service, but as we continue to face two long wars, they need and deserve our support now more than ever. I am glad we are taking the time today to thank them for their service, and I know that all my colleagues keep them and their families in our thoughts and prayers.

This measure was introduced this year on March 26 by Representative WAMP of Tennessee and was referred to

the Committee on Oversight and Government Reform. The committee reported the bill by unanimous consent on May 6, and it comes to the House floor today with the bipartisan support of over 75 cosponsors.

Mr. Speaker, every single day our soldiers, sailors, airmen and air women, marines, and their families, make tremendous sacrifices in service to our country. I have seen this firsthand on many, many deployments by these soldiers during my regular visits to Iraq and Afghanistan.

Our country is at war, and our military is certainly deserving of our support now more than ever. Today I ask my colleagues to join all Americans in giving thanks to our men and women in uniform.

Mr. Speaker, House Concurrent Resolution 84 gives us the opportunity to show our appreciation and respect to members and veterans of the armed services, men and women that hail from all walks of life but are bound together by one noble characteristic and take one simple but profound act. They have put on the uniform of our country, and they are together committed to protecting Americans and their liberties that we hold so dear.

Thus, to the military personnel from my own congressional district and to those of every congressional district represented in this body, we sincerely thank you, our men and women in uniform, for your service to our country.

With that, Mr. Speaker, I reserve the balance of our time.

Mr. FORTENBERRY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this year marks the 11th anniversary of National Military Appreciation Month, which was first passed as Senate Resolution 33, designating May 1999 the first National Military Appreciation Month.

Although it is important that we recognize our servicemembers every year, it is during times of conflict when one can truly put their sacrifices into greater perspective. These outstanding men and women sacrifice much so that we may continue to reap the many benefits of freedom in our land. While we enjoy the comfort of our homes and families, these brave soldiers are stationed far from home across our country and throughout the entire world.

Those who serve are our mothers, fathers, aunts, uncles, cousins and closest friends. These are the individuals who comprise our Nation's Army, Navy, Marine Corps, Air Force and Coast Guard, and we salute them and pledge to them our gratitude. While expressing our gratitude to the military, it is also important to recognize the thousands of families who often endure hardship and loneliness while their loved ones are serving our country. They must relocate, often putting additional strain on the family.

On this day, we must also remember and show appreciation for those who served our country in the past and have

played a critical role in making America the great country that it is today.

Mr. Speaker, we live in the greatest Nation in the world, and we owe much of our success to the men and women in uniform who answered the ultimate call of duty to serve and protect our Nation's citizens. Although this concurrent resolution serves to honor and support the goals and objectives of National Military Appreciation Month during the month of May, I hope our soldiers realize that their service is appreciated each and every day of the entire year.

I ask all Members, therefore, to join me in unwavering support of our military by supporting House Concurrent Resolution 84.

And with that, Mr. Speaker, I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, I have no further speakers at this time; however, I will continue to reserve.

Mr. FORTENBERRY. Mr. Speaker, I have no further requests for time, so I yield back the balance of my time.

Mr. LYNCH. Mr. Speaker, again, I would like to urge my colleagues to join with Mr. WAMP, the gentleman from Tennessee, who is the chief sponsor of this resolution, to show our support for our men and women in uniform by supporting this measure.

Ms. JACKSON-LEE of Texas. Mr. Speaker, today, I rise in support of H. Con. Res. 84, "Supporting the goals and objectives of a National Military Appreciation Month." I would like to thank Representative ZACH WAMP of Tennessee for introducing this resolution. We often take our National Military for granted, and I welcome this opportunity to reach out and recognize the importance of the National Military in the United States.

I do not believe there is a person in this body, or a person in this building, who does not feel a remarkable pride in the presence of the men and women who serve in our nation's military. The success of the Armed Forces depends on the dedicated service of its members, their families, and the civilian employees of the Department of Defense and the Coast Guard. Their incredible sacrifices and courage in the face of innumerable hazards have been critical to the preservation of the freedom, security, and prosperity enjoyed that we as Americans have come to love, enjoy, and even expect.

In the Iraq War, Texas has suffered over 222 resident casualties, second only to California. As a Representative for the 18th District of Texas, H. Con. Res. 84 is very close to the hearts of those I represent. Many Texans hold a passion for protecting the integrity and strength of their nation, and as the recruitment numbers show, they often exercise their passion, by joining the military. In past studies, Texas has been the number one state for military recruitment; therefore, recognition of military involvement is an important issue in Texas and in Houston.

Texas is home to more than 194,965 military personnel including a number of Army, Navy and Marine, Air Force, and Coast Guard bases. H. Con. Res. will encourage the citizens of Texas to reach out to those whom are involved with the military and extend their gratitude for all that they do for our nation. Be-

cause there is a large population of military personnel in Texas, it is critical that we show them the support of their nation and their state for all the positive contributions they have brought. I firmly believe that H. Con. Res. 84 is a positive step for the recognition, acknowledgement, and gratitude that should be given to our military personnel, and I hope to see the National Military Appreciation Month become a special time for the state of Texas to recognize the national contributions.

My City of Houston stands as an example of America's relationship with its military. Just outside the city stands Ellington Air Force Base, which has recently been renamed Ellington Airport. It was established in 1917 during the height of World War I, when aviation was in its infancy. In World War II, it served as a pilot training center. In the Cold War, the base proved useful in a number of pilot training programs and for a number of famous NASA missions, as well as serving briefly as a naval base for antisubmarine aircraft.

As my city works with our active military, so do we do our part in the aid of our Nation's veterans. Within city limits stands the Michael E. DeBakey VA Medical Center. It was awarded the Robert W. Carey Organizational Excellence Award in 2005, the Robert W. Carey Circle of Excellence Quality Award in 2007, and re-designation for Magnet Recognition for Excellence in Nursing Services in 2008.

The MEDVAMC serves as the primary health care provider for more than 120,000 veterans in southeast Texas and over 13,000 from Houston. Veterans from around the country are referred to the MEDVAMC for countless medical services, and their outpatient clinics logged nearly 900,000 outpatient visits in fiscal year 2008 alone. All this in a state with over 1.7 million veterans, 247,000 of which are disabled and over 25,000 buried in her soil.

Because of this undeniable fact of our Nation's existence, the Federal Government has a responsibility to raise awareness of and respect for this aspect of the heritage of the United States and to encourage the people of the United States to dedicate themselves to the values and principles for which Americans have served and sacrificed throughout the history of the Nation—the ultimate sacrifice of paying for our freedom and expectation of freedom with their lives.

Beyond helping to make Americans more aware of something so central to our country's liberty and prosperity, the observance of events recognizing the contributions of the Armed Forces is a tangible and highly effective way of sustaining morale and improving quality of life for service members and their families. Given that the support of the families of service members enhances the effectiveness and capabilities of the Armed Forces, this is more than enough reason for us to act today.

It is for these reasons that this Congress has made this resolution many times before. Ten years ago, on April 30, 1999, the Senate passed S. Res. 33, designating May 1999 as "National Military Appreciation Month". For that month, Congress called on the people of the United States, in a symbolic act of unity, to observe this remembrance, and to honor the current and former members of the Armed Forces, including those who have died in the pursuit of freedom and peace.

Less than 5 years later, on March 24, 2004, the House of Representatives passed H. Con.

Res. 328, "Recognizing and honoring the United States Armed Forces and supporting the goals and objectives of a National Military Appreciation Month", a bill I gladly supported. Less than a month later, on April 26, 2004, the Senate passed H. Con. Res. 328 by unanimous consent.

I have sought to do my part as well; earlier this year, I introduced to this body H.R. 228, a bill to direct the Secretary of Veterans Affairs to establish and carry out a scholarship program for students seeking a degree or certificate in the areas of visual impairment and orientation and mobility.

And so I join once again in not only giving my support for the goals and objectives of National Military Appreciation Month, but in urging the President to issue a proclamation calling on the people of the United States, all Federal departments and agencies, States, localities, organizations, and media to annually observe a National Military Appreciation Month with appropriate ceremonies and activities.

Mr. WAMP. Mr. Speaker, I would like to call your attention to H. Con. Res. 84, a bipartisan resolution I authored, supporting the goals and objectives of a National Military Appreciation Month. First, I would like to thank my colleague, Congressman CHET EDWARDS, for being the lead cosponsor of this resolution and for his efforts in helping move this resolution forward. Congressman EDWARDS is a strong advocate on Military Quality of Life issues in Congress and I am pleased to have the opportunity to work with him on the vital issue of raising awareness of National Military Appreciation Month. In addition, I would like to thank the National Military Appreciation Month organization for their grassroots efforts in building support for the resolution. It truly has been a collaborative effort for an important cause. It is one of the highest honors of my career to pay tribute and recognize these great patriots who serve and defend our Nation.

National Military Appreciation Month provides a period encompassing both the history and recognition of our armed services with an in-depth look at the diversity of its individuals and achievements. It allows Americans to educate each generation on the historical impact of our military through the participation of the community with those who serve encouraging patriotism and love for America.

This month gives the nation a time and place on which to focus and draw attention to our many expressions of appreciation and recognition of our armed services via numerous venues and also to recall and learn about our vast American history.

It recognizes those on active duty in all branches of the services, the National Guard and Reserves plus retirees, veterans, and all of their families—well over 90 million Americans and more than 230 years of our nation's history.

Congress and the American people continue to stand by our service men and women. These brave warriors are working nonstop to protect our free-

dom and to keep every American safe. We should be grateful for their sacrifices and that of their families. We must do everything we can for the men and women who are put in harm's way for the sake of our nation. Let us celebrate them just as we celebrate the other important entities that make up this wonderful country of ours.

Mr. Speaker, I urge all Members to support the passage of this important resolution.

Mr. LYNCH. I yield back the balance of our time.

The SPEAKER pro tempore (Mr. TONKO). The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 84.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. LYNCH. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

SUPPORTING THE GOALS OF MOTHER'S DAY

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 388) celebrating the role of mothers in the United States and supporting the goals and ideals of Mother's Day.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 388

Whereas Mother's Day is celebrated on the second Sunday of each May;

Whereas the first official Mother's Day was observed on May 10, 1908, in Grafton, West Virginia, and Philadelphia, Pennsylvania;

Whereas 2009 is the 101st anniversary of the first official Mother's Day observation;

Whereas in 1908, Elmer Burkett, a U.S. senator from Nebraska, proposed making Mother's Day a national holiday;

Whereas in 1914, Congress passed a resolution designating the second Sunday of May as Mother's Day;

Whereas it is estimated that there are more than 82,000,000 mothers in the United States;

Whereas mothers have made immeasurable contributions toward building strong families, thriving communities, and ultimately a strong Nation;

Whereas the services rendered to the children of the United States by their mothers have strengthened and inspired the Nation throughout its history;

Whereas we honor ourselves and mothers in the United States when we revere and emphasize the importance of the role of the home and family as the true foundation of the Nation;

Whereas mothers continue to rise to the challenge of raising their families with love,

understanding, and compassion, while overcoming the challenges of modern society; and

Whereas May 10, 2009, is recognized as Mother's Day: Now, therefore, be it

Resolved, That the House of Representatives celebrates the role of mothers in the United States and supports the goals and ideals of Mother's Day.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Nebraska (Mr. FORTENBERRY) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, there are fewer great honors, I think, in Congress than to stand in support of this bill which affirms the goals of Mother's Day and celebrates the role of mothers in the United States. I first would like to thank Mr. FORTENBERRY, the gentleman from Nebraska, for his courage in going out on a limb here and introducing this legislation. I would also like to commend Chairman TOWNS and my colleagues on the House Committee on Oversight and Government Reform for bringing this resolution to the floor by unanimous consent in their infinite wisdom.

On Sunday, we celebrated the 101st Mother's Day. It may come as a surprise to some, particularly our own mothers, that it took our country over 130 years to officially designate a day praising motherhood. Nevertheless, it is important to annually pause and recall that our lives and our country's history would have been much different but for the contributions of our mothers to our families and to our country.

I would not presume, nor am I brave enough, to speak on behalf of America's 82 million mothers; instead, I would simply like to speak to their importance in shaping our society and our future.

Mothers are indeed the backbone of the American family. With great love and compassion, they lay the foundation for all children to grow into honorable citizens. It is no stretch to say that our sustained national character of goodwill and moral strength is the result of dedicated motherhood.

Many of our greatest national heroes attribute their own successes to the guidance of their mothers. While examples are numerous, I will quote President Abraham Lincoln who once said of his own angel mother, "I remember my mother's prayers, and they have always followed me. They have clung to me all my life."

I am sure that similar thanks and acknowledgements are appropriate for

the mothers of every American. I am sure of that.

Mr. Speaker, I am sure my colleagues would agree that it is inadequate to spend just 1 day a year celebrating the contributions of America's mothers, but as our small measure of gratitude, I urge this body to join its 56 cosponsors and agree to House Resolution 388. And I reserve our time.

Mr. FORTENBERRY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, first let me thank the gentleman from Massachusetts for his poignant remarks about motherhood. We appreciate that. And, Mr. Speaker, I also have the pleasure of rising today to call attention to this time-honored celebration of Mother's Day.

This past Sunday, I, along with millions of Americans, paused to uplift the women who have shaped our lives and our country because, as the House of Representatives declared in 1914, the service rendered to the United States by the American mother is the greatest source of the country's strength and inspiration. Mothers have been celebrated throughout history in many languages, religions, and cultures.

Few traditions have withstood the test of time as the social celebration of motherhood. From its earliest roots in Egyptian society to our modern American holiday, the commemoration of mothers is timeless. On May 10, we celebrated the 101st anniversary of the first observance of the modern American Mother's Day when a woman from Grafton, West Virginia, named Anna M. Jarvis, held an observance in her mother's honor at St. Andrew's Methodist Church.

Afterward, when the junior Senator from Nebraska, Elmer Burkett, rose before Congress in 1908 to propose the establishment of Mother's Day at the request of Ms. Jarvis and the Young Men's Christian Association, he, interestingly, was originally met with opposition due to sensitivities concerning the role of women in society and the role of the Federal Government in honoring them.

It took until 1914, but Congress eventually passed a resolution declaring the second Sunday in May as Mother's Day. President Woodrow Wilson then issued a proclamation directing the flying of the flag as a "public expression of the love and reverence for the mothers of our country."

Mr. Speaker, we now honor all mothers for their immeasurable contribution to the very core of our society. Mothers sustain and strengthen our Nation through their leadership in the family and community. And despite the dynamics of modern society, the ability of mothers to meet the challenge of raising their families with love, understanding and compassion remains constant. As we commemorate mothers for the integral role they play in shaping the course of our Nation's past, present and future, we also revere and emphasize the importance of the

role of the family and the home as the true and ever-present foundation of our country.

Mr. Speaker, some may question why Congress is considering this matter at all, but I would like to say that each day here we tirelessly debate the challenges and nuances of modernity becoming mired in such a dizzying array of interventions that it is easy to lose sight of our ever-enduring core values. We don't often take the time to reflect on the essential philosophical foundations that have guided this Nation through many turbulent times, so I think it is refreshing that we now take time to pause and consider a resolution such as this that is timeless.

So I encourage my colleagues, Mr. Speaker, to join in support of this resolution today honoring the 101st celebration of the modern Mother's Day.

And with that, Mr. Speaker, I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, I join and support the gentleman's words.

We have no further speakers on our side at this time, so I will continue to reserve.

Mr. FORTENBERRY. Mr. Speaker, I have no further requests for time, so I will yield back the balance of my time.

Mr. LYNCH. Mr. Speaker, at this time, I just want to ask all Members to join with Mr. FORTENBERRY, the gentleman from Nebraska, in support of this resolution.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today in support of H. Res. 388 "Celebrating the role of mothers in the United States and supporting the goals and ideals of Mother's Day." I would like to thank my distinguished colleague Representative FORTENBERRY from Nebraska for introducing this resolution, and today, I rise today in order to recognize and celebrate all of the mothers in our nation.

Mothers are the nurturers, and caregivers that prepare our Nation's young for the challenges that life may hold. Their work may be inside or outside of the home, or both, and their contributions to this society can never be fully appreciated or valued. Jane Sellman definitely hit the needle on the head when she said, "The phrase 'working mother' is redundant."

Our mothers are our first teachers and they should be celebrated everyday. However, like many things we can take them for granted. This Mothers Day, take a moment to call your mother or to visit with her if you can. I must pay special tribute to my mother Ivalita Jackson and my late aunt Valrie Bennett who was like a mom.

Remember that being a mom is no easy feat. Our mothers are strong, determined, with big hearts and always loving. A mother must be able to juggle three things at once and still manage to make dinner and read bedtime stories. No doctor can take away all the ailments of a sick child or even an adult for that matter, like a mother can. Mothers are caring and courageous women who make a difference in the lives they touch. As the Jewish proverb says, "God could not be everywhere and therefore he made mothers."

Mother's Day is also a celebration for grandmothers, mother-in-laws, stepmothers, foster

mothers, godmothers, mothers who take in children, mothers who adopt, those who act as mothers, for those women who have no relations by blood but who give the gift of mothering to children.

Mothers bring a unique and valuable perspective to all aspects of American life. Today, thousands of mothers in this country have become active and effective participants in public life and public service, promoting change and improving the quality of life for men, women, and children throughout the Nation. They serve with distinction as legislators, mayors, judges, doctors, lawyers, and administrators, and their impact in these areas has proved to be monumental.

I could not find words descriptive enough to fully express the depth of admiration that I feel for women who fill this important role in our society. They are committed to their families and community not for public acclaim, but for love. As American author Washington Irving put it best, "A mother is the truest friend we have, when trials heavy and sudden, fall upon us; when adversity takes the place of prosperity; when friends who rejoice with us in our sunshine desert us; when trouble thickens around us, still will she cling to us, and endeavor by her kind precepts and counsels to dissipate the clouds of darkness, and cause peace to return to our hearts."

My heart goes out to those mothers with children who are away at war, I cannot even imagine the fear that they must feel daily. I want to recognize the First Lady, Michelle Obama, who is striking a balance between motherhood and her duties as the First Lady. I want to congratulate and praise all of the mothers in America for all of their hard work. Another former First Lady, Jacqueline Kennedy Onassis once said, "If you bungle raising your children, I don't think whatever else you do well matters very much."

I hope that we can all reflect on all the sacrifices our mothers made for us throughout the years. A mother's love is unending and her arms are always open. This resolution will ensure that Mothers throughout this nation are formally recognized, and the United States House of Representatives will acknowledge their importance and all that Mothers contribute to our society. I urge my colleagues to support H. Res. 388 as well. There are few things more important than celebrating the gift of having a mother. Finally to my mom—I love you for giving me my foundation.

Mr. LYNCH. I yield back the balance of our time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and agree to the resolution, H. Res. 388.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

HERBERT A LITTLETON POSTAL STATION

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2162) to designate the facility of the United States Postal Service located at 123 11th Avenue South in

Nampa, Idaho, as the "Herbert A. Littleton Postal Station".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2162

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. HERBERT A LITTLETON POSTAL STATION.

(a) DESIGNATION.—The facility of the United States Postal Service located at 123 11th Avenue South in Nampa, Idaho, shall be known and designated as the "Herbert A Littleton Postal Station".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Herbert A Littleton Postal Station".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Nebraska (Mr. FORTENBERRY) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

□ 1630

GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as chairman of the subcommittee with jurisdiction over the United States Postal Service, I am pleased to present H.R. 2162 for consideration. This legislation will designate the United States postal facility located at 123 11th Avenue South in Nampa, Idaho, as the Herbert A Littleton Postal Station.

Introduced by my colleague, Representative WALTER MINNICK, on April 29, 2009, and reported out of the Oversight and Government Reform Committee on May 6, 2009, by unanimous consent, H.R. 2162 enjoys the support of both members of the Idaho House delegation.

Marine Private First Class Herbert A Littleton was born on July 1, 1930, in Mena, Arkansas, to his loving parents, Paul and Maude Littleton. He attended high school in Sturgis, South Dakota, where he played both football and basketball and was subsequently employed by the Electrical Appliance Corporation in Rapid City, South Dakota.

On July 29, 1948, Private First Class Littleton enlisted in the United States Marine Corps at the age of 18. He completed boot camp in San Diego, California, before receiving additional training at nearby Camp Pendleton, which was then responsible for training the country's fighting force for the Korean War.

Private First Class Littleton was deployed to Korea in December of 1950,

bravely serving with the U.S. Marine Corps Reserve, Artillery Forward Observation Team, Company C, 1st Battalion, 7th Marines. His distinguished service and tremendous bravery during the conflict quickly earned him the admiration of his comrades and eventually resulted in his posthumous receipt of the Medal of Honor, the United States military's highest decoration. Private First Class Littleton also posthumously received the Purple Heart, the Korean Service Medal with one bronze star, and the United Nations Service Medal.

As recounted by the citation accompanying Private First Class Littleton's Congressional Medal of Honor, the young soldier exhibited conspicuous gallantry and intrepidity at the risk of his life and above and beyond the call of duty, in action against enemy aggressor forces on April 22, 1951, in Chungchon, Korea.

Specifically, in response to a violent night attack against his company, Private First Class Littleton quickly alerted his forward observation team and immediately moved into an advantageous position in order to assist in calling down artillery fire on the hostile force. Shortly after the arrival of other team members, an enemy hand grenade was thrown into PFC Littleton's vantage point. Without hesitation, the 21-year-old private sacrificed his life by hurling himself on the grenade and absorbing its full impact. PFC Littleton's Medal of Honor citation goes on to recognize that through his prompt action, he not only saved the other members of his team from serious injury or death, but also enabled them to carry on their vital mission which resulted in their ability to resist the hostile attack.

Mr. Speaker, Private First Class Littleton's dedicated service is a testament to all of the brave men and women in the United States Armed Forces who have offered this Nation the ultimate sacrifice. It is for this reason that the community of Nampa, Idaho, Private First Class Littleton's residence at the time of his death, marks every April 22 by holding a flag ceremony at the city's Herbert A Littleton flag pole in remembrance of his brave act. And it is for this reason that the city of Nampa has also named the road adjacent to PFC Littleton's grave in his honor.

Mr. Speaker, let us further this brave soldier's remembrance by passing this legislation to rename the Nampa postal facility after him. I urge my colleagues to join me in supporting H.R. 2162.

I reserve the balance of my time.

Mr. FORTENBERRY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I also rise in strong support of H.R. 2162, a bill designating the facility of the United States Postal Service located at 123 11th Avenue in Nampa, Idaho, as the Herbert A Littleton Postal Station.

Mr. Speaker, many of my words here will repeat the commemoration the

gentleman from Massachusetts (Mr. LYNCH) just gave, but I think it is worth repeating because today we are honoring a man who paid the ultimate sacrifice on behalf of his fellow soldiers and on behalf of a grateful Nation.

Herbert Littleton was a private first class in the U.S. Marine Corps Reserve, Company C, 1st Battalion, 7th Marines, 1st Marine Division. He was born in 1930 in Mena, Arkansas, and attended high school in Sturgis, South Dakota, where he played basketball and football. He enlisted in the Marine Corps Reserve on July 29, 1948.

Upon joining the Marines, he trained in San Diego and at Camp Pendleton before he was shipped out to Korea on December 17, 1950, fighting in South and Central Korean operations.

Serving as a radio operator with an artillery forward observation team, he was in action against enemy aggressor forces. Private First Class Littleton was standing watch when a well-concealed and numerically superior enemy force launched a violent night attack from nearby positions against his company. He quickly alerted the forward observation team and immediately moved into an advantageous position to assist in calling down artillery fire onto the hostile force.

It was during this fierce battle that an enemy hand grenade was thrown into his vantage point shortly after the arrival of the remainder of his fellow soldiers. As Mr. LYNCH pointed out, Private First Class Littleton unhesitatingly hurled himself on the grenade, absorbing its full, shattering, and explosive impact. Because of his quick action and heroic spirit of self-sacrifice, he saved the other members of his team from serious injury or death and enabled them to carry on the vital mission which culminated in the repulse of that hostile attack. His unflinching valor in the face of almost certain death reflects the highest credit upon Private First Class Littleton and the United States Naval Service. He gallantly gave his life for his country.

In addition to being awarded the Medal of Honor for "conspicuous gallantry and intrepidity at the risk of his life above and beyond the call of duty," Private First Class Littleton was awarded the Purple Heart, Korean Service Medal with one bronze star, and the United Nations Service Medal.

Mr. Speaker, I urge my colleagues to support this bill in which a grateful Nation honors a man who courageously traded his life for the lives of his fellow soldiers and in service to our country.

Mr. Speaker, I reserve the balance of my time.

Mr. LYNCH. Mr. Speaker, I reserve the balance of my time to close.

Mr. FORTENBERRY. Mr. Speaker, I yield back the balance of my time.

Mr. LYNCH. Mr. Speaker, I do want to say on behalf of WALTER MINNICK, who is the lead sponsor of this resolution who is flying in right now and did not have an opportunity to speak on

the floor, on his behalf I ask all Members to join with us. It is fitting, I think, that in this month of May, which marks Military Appreciation Month, let us join together once again to show our appreciation for all men and women in uniform by voting in favor of this resolution which would name this post office in memory of Private First Class Herbert A. Littleton and pass H.R. 2162.

Mr. MINNICK. Mr. Speaker, I rise today to ask our nation to honor the ultimate sacrifice made by Idahoan and American hero Herbert A. Littleton. I offer today H.R. 2162, a bill to rename Littleton's hometown post office in his honor. Private First Class Littleton, or "Herbie", as he was known by his fellow soldiers, was killed in Korea on April 22, 1951, when he hurled himself without hesitation on a deadly grenade, absorbing its full impact and thereby saving the lives of his fellow soldiers.

Littleton's actions enabled them to carry out their vital mission and repel an enemy attack. For that act, Littleton was posthumously awarded the Medal of Honor by President Harry S. Truman. It is my hope that my colleagues will support today H.R. 2162 and the efforts of my constituents to remember Private First Class Herbert A. Littleton and all those heroes who serve our nation in uniform.

Mr. LYNCH. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and pass the bill, H.R. 2162.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. LYNCH. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

REPORT ON H.R. 2346, SUPPLEMENTAL APPROPRIATIONS ACT, 2009

Mr. OBEY, from the Committee on Appropriations, submitted a privileged report (Rept. No. 111-105) on the bill (H.R. 2346) making supplemental appropriations for the fiscal year ending September 30, 2009, and for other purposes, which was referred to the Union Calendar and ordered to be printed.

The SPEAKER pro tempore. Pursuant to clause 1, rule XXI, all points of order are reserved on the bill.

RECOGNIZING 30TH ANNIVERSARY OF THE ELECTION OF MARGARET THATCHER

Mr. BERMAN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 378) recognizing the 30th anniversary of the election of Mar-

garet Thatcher as the first female Prime Minister of Great Britain, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 378

Whereas May 4, 2009, marks the 30th anniversary of the first woman sworn in as the Prime Minister of the United Kingdom, Margaret Hilda Thatcher;

Whereas Margaret Thatcher was Prime Minister of the United Kingdom from 1979 to 1990 and at the time of her resignation, was the longest continuously serving Prime Minister since 1827;

Whereas Prime Minister Thatcher was Leader of the Conservative Party from 1975 to 1990 and the only woman to ever hold that post;

Whereas Margaret Thatcher is the only woman to have ever held the post of Prime Minister of the United Kingdom;

Whereas Margaret Thatcher is the only Prime Minister of the United Kingdom in the 20th century to win three consecutive terms;

Whereas Margaret Thatcher gave birth to a new distinctive ideology known as "Thatcherism" which emphasized individual responsibility in the United Kingdom's monetary and social policies;

Whereas Time Magazine named Margaret Thatcher one of the 20 most influential leaders of the 20th century;

Whereas the strong, cooperative stances held by Prime Minister Thatcher, President Ronald Reagan, and Pope John Paul II are widely acknowledged to have been key forces in the collapse of communism in the former Soviet Union;

Whereas the special relationship between the United States and the United Kingdom was greatly strengthened under the tenure of Prime Minister Thatcher;

Whereas, on January 19, 1976, Prime Minister Thatcher delivered a bold speech against the communist regime of the Soviet Union, which prompted the Soviet Union Army's newspaper, the Red Star, to coin her the "Iron Lady";

Whereas in 1990, Margaret Thatcher was honored by Queen Elizabeth II with the Order of Merit, one of the United Kingdom's highest distinctions; and

Whereas in 1992, Queen Elizabeth II bestowed a life peerage upon Margaret Thatcher, conferring upon her the title of Baroness and providing a lifetime seat in the House of Lords: Now, therefore, be it

Resolved, That the House of Representatives—

(1) acknowledges the 30th anniversary of the election of Margaret Thatcher as the first female Prime Minister of the United Kingdom;

(2) pays tribute to the remarkable professional achievements of Margaret Thatcher;

(3) recognizes Prime Minister Thatcher's dedicated work in promoting individual rights and free markets around the world; and

(4) appreciates the strong diplomatic relationship between the United States and the United Kingdom fostered by Prime Minister Thatcher.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. BERMAN) and the gentleman from Texas (Mr. POE) each will control 20 minutes.

The Chair recognizes the gentleman from California.

GENERAL LEAVE

Mr. BERMAN. Mr. Speaker, I ask unanimous consent that all Members

may have 5 legislative days in which to revise and extend their remarks and insert extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. BERMAN. Mr. Speaker, I rise in support of H. Res. 378, which pays tribute to the distinguished political career of former British Prime Minister Margaret Thatcher, and I yield myself such time as I may consume. I thank the gentleman from Texas (Mr. POE) for introducing this measure that enables the House to acknowledge the 30th anniversary of her election as the first female Prime Minister of the United Kingdom.

On May 4, 1979, Margaret Thatcher was sworn in as Prime Minister. Holding this position until 1990, she became the U.K.'s longest continuously serving Prime Minister since 1827, and the only Prime Minister in the 20th century to win three consecutive elections.

The special relationship between the United Kingdom and the United States was strengthened during her tenure, particularly through her cooperative working relationship with President Ronald Reagan in addressing the threat of the Soviet Union.

Prime Minister Thatcher spoke in this House to a joint session of Congress on February 20, 1985. In her remarks, she cited the three occasions on which Prime Minister Winston Churchill addressed Congress. Those were worth remembering, she said, "because they serve as lamps along a dark road which our people trod together, and they remind us what an extraordinary period of history the world has passed through between that time and ours; and they tell us what later generations in both our countries sometimes find hard to grasp: why past associations bind us so closely."

Her words are as true today as they were during the height of the Cold War and World War II. We again find ourselves living in extraordinary times. And, thankfully, the United States and the United Kingdom stand shoulder to shoulder as we confront today's challenges together, just as we did throughout the last century.

I ask my colleagues to join me in acknowledging the 30th anniversary of Margaret Thatcher's historic election and paying tribute to her professional achievements. We should also use this occasion to reaffirm the enduring friendship and partnership between our two nations.

I reserve the balance of my time.

Mr. POE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I appreciate Chairman BERMAN bringing this before the House for consideration today. Time Magazine named Margaret Thatcher one of the 20 most influential leaders of the 20th century, and for good reason. She is the only woman to have ever held

the post of Prime Minister of the United Kingdom. She is a fearless leader, an advocate for democracy around the world, and a steadfast friend of the United States.

This resolution recognizes the 30th anniversary of her election as the first female Prime Minister of the United Kingdom. Margaret Thatcher served as Prime Minister of Great Britain for 11 years, from 1979 to 1990. At the time of her resignation, she was the longest continuously serving Prime Minister of the United Kingdom since 1827.

This resolution pays tribute to her remarkable professional achievements. In addition to being the only woman to have ever held the post of Prime Minister of the United Kingdom, she was also leader of the Conservative Party for 15 years, from 1975 to 1990, and was the only woman to ever hold that post.

In the 20th century, she was the only Prime Minister to win three consecutive terms, a testament to her bold and tenacious leadership. This resolution also recognizes Prime Minister Thatcher's dedicated work in promoting individual rights and free markets throughout the world.

□ 1645

During her time in office, Prime Minister Thatcher fostered the dawning of a new distinctive type of politics called "Thatcherism," which emphasized individual responsibility and fiscal and social policies.

When she came into office, the state of the United Kingdom's economy was in deep despair. There were pickets; there were strikes; there were food shortages; pregnant women were denied medical services and the country had double-digit inflation. Margaret Thatcher represented a literal end to socialized government and the re-institution of the free market philosophy.

Through plain speaking and sheer determination, she persuaded city after city to contract out public services to private companies, saving taxpayers \$30 billion every year. Company by company, she denationalized the entire economy. Family by family, she taught the nation the importance of living within their means. What a novel concept.

During her tenure, 3 million families moved from public housing and became homeowners under her Right-to-Buy program. Homeownership under her administration jumped from 53 percent to 71 percent.

This resolution also recognizes Margaret Thatcher's robust and principled approach to foreign policy during the long Cold War. Prime Minister Thatcher and President Ronald Reagan were key forces in the collapse of communism under the former Soviet Union. As a matter of fact, in 1976, Prime Minister Thatcher delivered such a bold speech against communism in the Soviet Union that the Soviet Union Army's newspaper started calling her the "Iron Lady," and it stuck.

The Iron Lady helped bring down the Iron Curtain, Mr. Speaker.

Finally, this resolution acknowledges the special relationship between the United States and the United Kingdom fostered by Prime Minister Thatcher. Under her direction, the United States and the United Kingdom worked to overcome communism, encourage free markets around the world, curb terrorism, and promote democratic and individualistic values.

My grandmother used to tell me that "there was nothing more powerful than a woman who had made up her mind," and my grandmother was right. Margaret Thatcher is one of those remarkable women who has led a remarkable life, characterized by courage, determination, intellectual integrity, and she had made up her mind.

She has not only inspired women all over the world to aspire towards positions of leadership, she has inspired an entire generation to promote policies that value economic freedom and individual responsibility.

I am proud to be the sponsor of this resolution today.

And that's just the way it is.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. LYNCH). The question is on the motion offered by the gentleman from California (Mr. BERMAN) that the House suspend the rules and agree to the resolution, H. Res. 378, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. POE of Texas. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

EXPRESSING NEED FOR CONSTITUTIONAL REFORM IN BOSNIA

Mr. BERMAN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 171) expressing the sense of the House of Representatives on the need for constitutional reform in Bosnia and Herzegovina and the importance of sustained United States engagement in partnership with the European Union (EU), as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 171

Whereas a brutal conflict marked by aggression and ethnic cleansing, including the commission of war crimes, crimes against humanity, and genocide, was brought to an end by the General Framework Agreement for Peace in Bosnia and Herzegovina (commonly referred to as the "Dayton Peace Accords"), which was agreed to at Wright-Patterson Air Force Base near Dayton, Ohio, on November 21, 1995, and signed in Paris, France, on December 14, 1995;

Whereas in the 13 years since the signing of the Dayton Peace Accords, the people of Bosnia and Herzegovina have worked in partnership with the international community to achieve considerable progress in building a peaceful and democratic society based on the rule of law, respect for human rights, and a free market economy;

Whereas political leaders of Bosnia and Herzegovina have agreed to significant reforms of public administration and broadcasting, the creation of state-level law enforcement and judicial institutions, the establishment of a unified armed services and Ministry of Defense, and the creation of an Indirect Taxation Authority;

Whereas the United States has continued to support the sovereignty, legal continuity, and territorial integrity of Bosnia and Herzegovina within its internationally recognized borders as well as the equality of the three constituent peoples and others within a united, multi-ethnic country in accordance with the Dayton Peace Accords;

Whereas the full incorporation of Bosnia and Herzegovina into the Euro-Atlantic community is in the national interest of the United States and important for the stabilization of southeastern Europe;

Whereas Bosnia and Herzegovina committed to the shared values of democracy, security, and stability by joining the Partnership for Peace program of the North Atlantic Treaty Organization (NATO) in December 2006;

Whereas NATO recognized Bosnia and Herzegovina's progress in achieving political and defense reforms by inviting the country to begin an Intensified Dialogue at the Bucharest Summit in April 2008;

Whereas Bosnia and Herzegovina took the first step on the road toward European Union (EU) membership by signing a Stabilization and Association Agreement (SAA) in June 2008;

Whereas NATO successfully preserved peace and stability in Bosnia and Herzegovina after the signing of the Dayton Peace Accords through its Stabilization Force (SFOR), which was succeeded by a European Union Force (EUFOR) in December 2004;

Whereas the Office of the High Representative (OHR) has similarly promoted peace and stability by facilitating implementation of the civilian aspects of the Dayton Peace Accords, including through use of the extensive powers given it by the international Peace Implementation Council (PIC), with the goal of transitioning to a European Union Special Representative (EUSR) at the appropriate time;

Whereas, these notable accomplishments notwithstanding, the citizens of Bosnia and Herzegovina continue to face significant challenges in their efforts to progress toward Euro-Atlantic integration;

Whereas the Dayton Peace Accords included many compromises imposed by the need for quick action to preserve human life that have hindered efforts to develop efficient and effective political institutions;

Whereas the Council of Europe's Venice Commission has concluded that the current constitutional arrangements of Bosnia and Herzegovina are neither efficient nor rational, and that the state-level institutions need to become more effective and democratic if the country is to move toward EU membership;

Whereas the "April package" of reforms, agreed upon by five major political parties in 2006, failed to achieve the requisite two-thirds majority in parliament;

Whereas in February 2008, the PIC stipulated five objectives (resolution of state property, resolution of defense property,

completion of Brcko Final Award, fiscal sustainability, and entrenchment of rule of law) and two conditions (signing of SAA with the EU and a "positive assessment" by the PIC) that must be met before the OHR is closed; and

Whereas in March 2009, the PIC determined that Bosnia and Herzegovina has not yet met the five objectives and two conditions that will determine when the OHR should be closed and oversight power transferred to the EUSR: Now, therefore, be it

Resolved, That it is the sense of the House of Representatives that—

(1) it is increasingly urgent that Bosnia and Herzegovina work toward the creation of an efficient and effective state able to meet its domestic and international obligations with more functional institutions, including a state government capable of making self-sustaining reforms and fulfilling European Union (EU) and North Atlantic Treaty Organization (NATO) requirements;

(2) any agreement on constitutional reform in Bosnia and Herzegovina should take as its basis the Dayton Peace Accords, advance the principles of democracy and tolerance, rectify provisions that conflict with the European Charter of Human Rights, include the general public in the process, provide the conditions to enable economic development and the creation of a single economic space, and be consistent with the goal of EU membership;

(3) continued efforts should be made domestically and at the International Criminal Tribunal for Yugoslavia (ICTY) to achieve justice for victims of war crimes, crimes against humanity, and genocide, as well as to promote reconciliation among ethnic groups;

(4) the United States should continue to provide assistance to Bosnia and Herzegovina to build effective state-level law enforcement and judicial institutions that can combat and investigate international terrorism, organized crime, and corruption;

(5) the United States should appoint a Special Envoy to the Balkans who can work in partnership with the EU and political leaders in Bosnia and Herzegovina to facilitate reforms at all levels of government and society, while also assisting the political development of other countries in the region;

(6) the Office of the High Representative (OHR) should not be closed until the Peace Implementation Council (PIC) can definitively determine that Bosnia and Herzegovina has met the five objectives and two conditions;

(7) the EU should carefully consider any future plans for the reduction or redeployment of the European Union Force (EUFOR) given the psychological reassurance of security and deterrence of violence provided by its continued presence in Bosnia and Herzegovina; and

(8) the United States should work closely with and support the EU in the transition to a European Union Special Representative (EUSR) to ensure that the EUSR has the authority and tools to manage effectively post-OHR Bosnia and Herzegovina, including a clear set of EU candidacy and membership conditions with explicit and objective yardsticks and a precise list of benchmarks to increase the functionality of the Bosnian state to be achieved by constitutional reform.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. BERMAN) and the gentleman from Texas (Mr. POE) each will control 20 minutes.

The Chair recognizes the gentleman from California.

GENERAL LEAVE

Mr. BERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. BERMAN. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of H. Res. 171, which calls for constitutional reform in Bosnia and Herzegovina as well as sustained American engagement in partnership with the European Union.

In the 13 years since the signing of the Dayton Peace Accords brought an end to a brutal conflict, the people of Bosnia and Herzegovina have worked closely with the international community to make considerable progress in building a peaceful and democratic society that is built upon the rule of law, respect for human rights, and a free market economy.

Within the last year, the country has taken important steps along the path to Euro-Atlantic integration, beginning an intensified dialogue with NATO and signing a Stabilization and Association Agreement with the European Union.

Notwithstanding these notable milestones, there are troubling signs of backsliding as political rhetoric grows confrontational, reforms unravel, and ethnic tensions increase. Bosnia seemingly faces the prospect of stagnation at best, and a return to violent conflict at worst.

While Bosnia's future clearly lies in the Euro-Atlantic community, the country must first develop an efficient and effective state with functioning institutions that are capable of making self-sustaining reforms and managing the responsibilities of EU and NATO membership. H. Res. 171 does not prescribe the types of constitutional reforms that are required. Indeed, such decisions can only be made by the people of Bosnia and Herzegovina. However, the United States and the European Union can help create conditions that are conducive to efforts by Bosnian citizens to develop a functional political system.

First, the Peace Implementation Council should remain firm in its commitment to maintain the Office of the High Representative until Bosnia has definitively met the five conditions and two principles. Only then should the office be closed and responsibility transitioned to the EU Special Representative. The recent dialogue among some political leaders that led to the adoption of an agreement on the status of Brcko District was a helpful development. Hopefully, similar progress can be made on state property and other issues.

Second, the European Union should provide Bosnia with a clear set of EU candidacy and membership conditions.

These should include explicit and objective benchmarks regarding constitutional reforms that will increase the functionality of the Bosnian state. The EU should also carefully reconsider its plans for the drawdown or redeployment of its 2,500 European Union force, as the continued presence of those troops deters violence and provides citizens with a psychological reassurance of security.

And, finally, there is a need for sustained, high-level U.S. engagement with the EU on the development and implementation of common policies that will stabilize and strengthen Bosnia and Herzegovina. H. Res. 171 advocates the appointment of a Special Envoy for the Balkans which would signal American commitment to the region. In addition to working directly with political leaders on the ground, this official could seek to develop a consensus among the EU and its member states about the way forward in southeastern Europe.

The visit by Vice President BIDEN to Bosnia, Serbia, and Kosovo next week is an encouraging sign of renewed American interest in the Balkans. As he and other senior officials in the Obama administration were personally involved in efforts to establish peace in the Balkans 13 years ago, they know firsthand the importance of preserving this hard-won stability and the considerable cost of letting it slip away.

Although the United States and the European Union are consumed by other foreign policy priorities, we must not lose sight of our unfinished business in the Balkans or waiver from our commitment to consolidating peaceful progress across Europe.

I strongly support this resolution. I urge my colleagues to do the same.

Mr. Speaker, I reserve the balance of my time.

Mr. POE of Texas. Mr. Speaker, I yield myself such time as I may consume.

I want to thank Chairman BERMAN and Ranking Member ROS-LEHTINEN for bringing House Resolution 171 to the floor. This resolution expresses support for the progress made by the state of Bosnia and Herzegovina toward stability and greater international cohesion.

Bosnia has come a long way in the 14 years since the signing of the so-called "Dayton Accords" that ended the terrible ethnic-based conflict there.

While this short resolution speaks to much that has been accomplished in Bosnia, much work needs to still be done. Some would suggest, for example, that greater constitutional reform within Bosnia is necessary for its future growth and its stability for the progress of democracy and tolerance in that country.

Another important issue confronting the state of Bosnia and Herzegovina is the burden placed on its economic progress by its extensive bureaucracy that is now in place in that country. That bureaucracy reportedly consumes

a great deal of that small country's revenues, confronting its economy with serious obstacles to growth.

This measure, as considered on the floor today, does include a short statement that was added after agreement by the majority and the minority that I believe makes an important point. Among its resolved clauses, H. Res. 171 now specifically calls for continued assistance to Bosnia to help it investigate al Qaeda activities and those of related networks. That is an important point when we consider the reported increase of Islamic militant extremism in the broader Balkan region. Such reports should serve as a warning that Islamic extremists may be looking at the Balkan region as a potential launching platform for future attacks somewhere else.

I am pleased that the Bosnian Government is working to address important issues such as the reports of the use of Bosnian passports by Islamic militants. I am also pleased by reports that some leaders within the Bosnian Muslim community are combating Islamic extremism and have been strong advocates for peace and reconciliation.

The call for continued support for Bosnia and such important efforts enhances the other important statements this resolution makes with regard to our policy toward Bosnia.

Mr. Speaker, many of us would like to ensure that Bosnia becomes a greater anchor for stability in the Balkans region. This resolution is an important message of encouragement and support for all the people of Bosnia as they seek to promote stability, peace, and prosperity. I support its adoption by the House.

Mr. Speaker, I reserve the balance of my time.

The SPEAKER pro tempore. Without objection, the gentleman from Missouri (Mr. CARNAHAN) will control the time of the gentleman from California.

There was no objection.

Mr. CARNAHAN. Mr. Speaker, I yield myself 2 minutes.

I rise today in strong support of H. Res. 171. I, too, want to thank Chairman BERMAN and Ranking Member ROS-LEHTINEN and their staffs for their time and efforts in bringing this bill to the floor.

I have advocated for increased attention in the Balkans, and especially to the needs of Bosnia Herzegovina, a country with a long, rich tradition of multiethnic communities living and working together. I asked Secretary Clinton about this just a few weeks ago when she appeared before the House Committee on Foreign Affairs, and I think she, too, agrees that there needs to be renewed attention to this country. I hope this resolution is another step toward U.S. reengagement in the region and offering Bosnia the support that it needs.

This resolution recognizes the need for constitutional reform in Bosnia and Herzegovina and highlights the importance of sustained U.S. engagement in partnership with the European Union.

As a founding member and co-chairman of the Congressional Caucus on Bosnia with my colleague, CHRIS SMITH from New Jersey, and having the distinct pleasure of representing a growing, vibrant community of Bosnian-Americans in the St. Louis, Missouri, region, one of the largest communities of Bosnian-Americans in the country, I am pleased to support this resolution.

I especially want to highlight two clauses in this resolution that I think are of particular importance. First, we need to continue our efforts, both here and at the ICTY, to achieve justice for victims of war crimes, crimes against humanity, genocide, as well as to promote reconciliation among ethnic groups.

Secondly, that the appointment of a Special Envoy to the Balkans who can work in partnership with the EU, Bosnia, and other leaders will help redirect the U.S. commitment to the region.

Mr. Speaker, I reserve the balance of my time.

Mr. POE of Texas. Mr. Speaker, I yield such time as he may consume to the gentleman from New Jersey (Mr. SMITH), ranking member of the Subcommittee on Africa and Global Health of the Helsinki Commission and co-Chair of the House Bosnia Caucus.

Mr. SMITH of New Jersey. I thank my good friend for yielding.

Mr. Speaker, I rise in strong support of H. Res. 171, a powerful statement calling for meaningful constitutional reform and strengthened U.S. engagement in Bosnia. I want to thank Chairman BERMAN for authoring this legislation, and I am very proud to be one of the cosponsors.

Mr. Speaker, this resolution makes all the important points on the need for real constitutional reform. It notes that the Dayton Accords, notwithstanding their merits in stopping the war and the genocide, "included many compromises imposed by the need for quick action to preserve human life that have hindered efforts to develop efficient and effective political institutions."

Everyone involved in the Dayton Accords understood that they were not intended to be more than a tourniquet designed to halt the genocide and to act as a bridge towards good governance and a workable constitution. And the time for meaningful, sustainable and just reform has come.

Importantly the resolution notes the progress Bosnia has made since 1995. And by almost all accounts, that progress is truly remarkable. I visited Bosnia again in July of 2007 and was deeply impressed by the economic and social recovery that has taken place within the past 12 years.

□ 1700

On the constitutional arrangements, Mr. Speaker, the resolution points to the history of strong U.S. support for the "legal continuity and territorial integrity of Bosnia-Herzegovina" and notes that the current Dayton-based

constitutional arrangements are "neither efficient nor rational." The resolution praises the value of a "united multiethnic country" and "full incorporation into the Euro-Atlantic community" in stabilizing the Balkans.

Mr. Speaker, efficient and rational arrangements to unite the multiethnic country and enable it to be fully incorporated into NATO and the EU can only mean a major reform that abolishes the "entity" voting system so that the vote of every Bosnian citizen will be of equal weight. Under the current Dayton-based system, only 22 percent of the deputies can block any proposed legislation. And, in fact, this happens all the time. In the past 13 years such a "super-minority" has blocked over 260 bills. To put this number in context, in the same period, the national legislature passed less than 150 laws. Mr. Speaker, this is a serious problem. It is the reason that we are here today talking about constitutional reform in Bosnia.

Mr. Speaker, as chairman or co-chairman for 12 years of the Commission on Security and Cooperation in Europe, known around here as the Helsinki Commission, and co-chairman of the Bosnia Caucus with my friend and colleague from Missouri, and chairman of the House Human Rights Committee for 8 years, I've had the opportunity to chair numerous Bosnia hearings and author congressional resolutions on Bosnia, including H. Res. 199 on the Srebrenica genocide.

My most recent trip to Bosnia was in July of 2007, and I joined relatives of those killed, murdered—massacred—in the Srebrenica genocide in a ceremony interring hundreds of the approximately 8,000 Bosnian Muslims who were killed in what the U.N. euphemistically designated to be a "safe haven." It wasn't. The ceremony was solemn, it was holy, and it was numbing. Reis Ceric, the Grand Mufti, gave a very powerful talk, a sermon, to all of those who had gathered. Reis Ceric is a great man of peace and faith, and, I'm honored to say, a good friend. Dr. Haris Silajdzic, the President of Bosnia, is likewise a good friend, and spoke very eloquently about the huge loss of life, the importance of justice as well as about the future. Seeing hundreds of caskets with exhumed victims left an indelible impression on me.

During that visit and after meeting here as well as in Europe with members of the Bosnian community, it has become abundantly clear that while Bosnia needs to move forward, that there needs to be an accounting for the atrocities committed. And to move ahead they need constitutional reform.

Sometimes we get reports or hear that ethnic tensions are rising in Bosnia and that, therefore, the constitutional reform process has to be slowed for a while—put on the back burner. That would be a big mistake. Bosnia is in a position similar to that of Poland,

Romania, and other countries of Eastern Europe in the 1990s. When we debated their admission to NATO, for example, some said that their admission would destabilize the region. They were flat wrong. What could have dangerously destabilized Eastern Europe was continuing uncertainty about whether these countries would join the West or whether they might remain in the Russian sphere of influence. We resolved that uncertainty and further stabilized Eastern Europe by welcoming them to the West.

Likewise, with Bosnia, it's long past time to send a strong, unambiguous signal that Bosnia does not have to remain a country forever preserved in the amber of the Dayton Accords. With this resolution, we invite the Bosnians to reform their constitution, become a one-person, one-vote democracy, and join the Euro-Atlantic community.

Mr. Speaker, our country has played a constructive role in Bosnia through both Democrat and Republican administrations, and I know the Bosnians appreciate that very much. The great majority of them will welcome strengthening our engagement to complete the American legacy of spreading democracy and security in Bosnia.

This is a good resolution, and I urge its passage by all Members of the House.

Mr. HASTINGS of Florida. Mr. Speaker, I want to state my strong support for House Resolution 171, expressing our support for constitutional reform in Bosnia-Herzegovina, as well as for U.S. engagement in the Western Balkans region. I want to thank our colleague from California and the Chairman of the House Foreign Affairs Committee, Mr. BERMAN, for introducing this resolution, inviting me to be an original co-sponsor, and working the text through the committee.

This resolution is timely and important. The international community, under U.S. leadership, has invested heavily in Bosnia-Herzegovina. We did so not just for that country's sake, nor just to end the tremendous suffering faced by its people. We did so because the threat it faced in the mid-1990s constituted war crimes, crimes against humanity and genocide. To have acquiesced to the realities presented on the ground in 1995 would have been to abandon the very principles on which the world is expected to operate. We had the ability to stop that from happening in the Balkans and to make a difference, so we did, through NATO intervention and the negotiation of the Dayton Agreement.

Bosnia's considerable recovery a decade after the conflict has been stalled in recent years, as the additional reforms necessary for Bosnia's European integration are perceived to be a threat to the outdated notions of ethnic exclusivity which were resurrected during the war. It is also a threat to some who currently rely on these notions as the basis for their power and authority.

I believe this resolution makes clear that all the people of Bosnia-Herzegovina—Bosniaks, Serbs, Croats and others—must find a common agreement on how to move forward, but it opposes efforts to block a broad consensus

in order to maintain the status quo. The reforms supported by this resolution are critical to making Bosnia a functional, modern, European state.

This resolution also calls for greater U.S. engagement in Bosnia and throughout the Balkans. European integration is the goal for Bosnia and all the countries of the region. It is not enough, however, to say "here's your goal now find your own way to it." The European Union has done tremendous work in the Balkans, but its own lack of decisiveness leads to mixed signals in the region and undercuts more vigorous efforts to resolve outstanding issues. The United States has a high degree of credibility in the Balkans that can help influence developments in the region but we also must make sure the EU itself stays on course.

This does not mean going back to the days of a heavy U.S. troop presence in the Balkans and significant aid to the countries of the region. The resolution does not call for going back to the 1990s. Instead, the resolution reflects what seems to be an obvious piece of wisdom—namely that a bit more attention now can actually preclude a situation where greater involvement might become a necessity later. This will allow the United States to maintain its strong focus on other regions of the world, as it should, while Europe and its full integration moves forward.

I think the Vice President's current plans to visit Sarajevo, Pristina and Belgrade reflect this wisdom, and I wish his trip to be a successful one that will lead to additional efforts in the future.

As the Co-Chairman of the U.S. Helsinki Commission, I have continued to follow the situation in the Western Balkans closely. In early April, the Commission held a hearing on the challenges to the United States and Europe in the region. I would commend to my colleagues the transcript of that hearing, which can be found on the Commission's website, because it makes clear the challenges we face in the Balkans today. While there is little chance of going back to the days of horrific conflict in the Balkans that we saw in the 1990s, there continues to be a need for the peoples of the region to find a way to put the 1990s behind them. That's easier said than done, and we cannot expect people to erase what was obviously such a traumatic period in their lives just because we tell them to do so. With U.S. and European support, however, we can give them the confidence and hope that will enable them to move forward. That benefits everyone. For this reason, I support this resolution.

Mr. POMEROY. Mr. Speaker, I rise today in support of this resolution.

Over 13 years ago, the U.S. brought an end to Bosnia's war through the Dayton Peace Agreement. This conflict lasted over three years, and was marked by brutal ethnic cleansing and genocide. As a result of this tragic conflict, at least 97,000 people perished, and over 2.3 million people were driven from their homes, creating the greatest flow of refugees in Europe since World War II.

Since this time, the people of Bosnia and Herzegovina have painstakingly worked with the international community to make progress towards building a peaceful, democratic, and multi-ethnic society based on the rule of law and respect for human rights.

I congratulate Bosnia for joining the Partnership for Peace program of the North Atlantic

Treaty Organization (NATO) in December 2006 and for taking the first step on the road toward European Union (EU) membership by signing a Stabilization and Association Agreement (SAA) in June 2008.

However, despite these important steps forward, challenges remain. The Dayton agreement did its job by ending the war, but left a governmental structure in place that is bloated with bureaucracy and multiple layers of government. To be a functioning state, Bosnia needs to build functional institutions, including state-level institutions that are capable of self-sustaining reforms and fulfilling European Union (EU) and North Atlantic Treaty Organization (NATO) requirements.

The success of Bosnia is essential to the stability of the region, and the United States cannot afford to ignore this strategically important country. This work must be done in concert with the international community, who should continue to play a role in Bosnia. To this end, the international body charged with implementing the Dayton Peace agreements, known as the Peace Implementation Council or the "PIC", should ensure that the Office of the High Representative (OHR) remains open until the objectives and the conditions set forth by the PIC are met.

As in 1995, resolve and U.S. and European Union involvement are needed in Bosnia and Herzegovina if we are to ensure that we do not get involved in another crisis in the Balkans. I urge my colleagues to support this important resolution.

Mr. POE of Texas. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CARNAHAN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. HOLDEN). The question is on the motion offered by the gentleman from California (Mr. BERMAN) that the House suspend the rules and agree to the resolution, H. Res. 171, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6:30 p.m. today.

Accordingly (at 5 o'clock and 5 minutes p.m.), the House stood in recess until approximately 6:30 p.m. today.

□ 1830

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mrs. TAUSCHER) at 6 o'clock and 30 minutes p.m.

AUTHORIZING AND DIRECTING THE COMMITTEE ON THE JUDICIARY TO INQUIRE WHETHER THE HOUSE SHOULD IMPEACH SAMUEL B. KENT, A JUDGE OF THE UNITED STATES DISTRICT COURT FOR THE SOUTHERN DISTRICT OF TEXAS

Ms. SLAUGHTER. Madam Speaker, I ask unanimous consent that the Committee on Rules be discharged from further consideration of H. Res. 424 and ask for its immediate consideration in the House.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The text of the resolution is as follows:

H. RES. 424

Resolved, That the Committee on the Judiciary shall inquire whether the House should impeach Samuel B. Kent, a judge of the United States District Court for the Southern District of Texas.

SEC. 2. The Committee on the Judiciary or any subcommittee or task force designated by the Committee may, in connection with the inquiry under this resolution, take affidavits and depositions by a member, counsel, or consultant of the Committee, pursuant to notice or subpoena.

SEC. 3. (a) For the purpose of the inquiry under this resolution, the Committee on the Judiciary is authorized to require by subpoena or otherwise—

(1) the attendance and testimony of any person (including at a taking of a deposition by counsel or consultant of the Committee); and

(2) the production of such things; as it deems necessary to such inquiry.

(b) The Chairman of the Committee on the Judiciary, after consultation with the Ranking Member, may exercise the authority of the Committee under subsection (a).

(c) The Committee on the Judiciary may adopt a rule regulating the taking of depositions by a member, counsel, or consultant of the Committee, including pursuant to subpoena.

Mr. DREIER. Madam Speaker, as you know this resolution authorizes the Committee on the Judiciary to undertake an investigation to determine whether Samuel Kent should be impeached. I know that we are all appalled by the behavior that led to Judge Kent's guilty plea, and can agree that moving forward with an eye to removing him from the bench is the right thing to do.

While we have no objection to most of the resolution, I note that section 3(c) authorizes staff deposition authority, something we have been consistently concerned about due to the potential for abuse. My understanding is that the Judiciary Committee intends tomorrow to adopt a resolution putting in place the same safeguards on staff deposition authority that they currently have in place for their investigation into Judge Porteous. Those rules follow the model rules suggested by the Rules Committee and contain adequate protections for the Minority.

I am inserting the text of the relevant resolutions for the RECORD.

Our agreement to this unanimous consent request is dependent on the commitment from the Judiciary Committee that they will extend

their existing rules on staff deposition authority to this investigation before engaging in staff depositions. Without similar assurances in the future, we will oppose efforts to grant unelected staff unfettered deposition authority.

RESOLUTION

Resolved,

SECTION 1. ESTABLISHMENT OF TASK FORCE.

There is hereby established in the House Committee on the Judiciary (hereinafter referred to as the "Committee") a task force (hereinafter referred to as the "Task Force") to conduct an inquiry into whether United States District Judge G. Thomas Porteous should be impeached.

SEC. 2. FUNCTIONS.

The Task Force shall conduct such hearings and investigations relating to the inquiry described in section 1 as the Chairman of the Committee, in consultation with the Ranking Minority Member of the Committee, determines to be warranted.

SEC. 3. MEMBERSHIP.

The members of the Task Force shall be chosen from among the members of the Committee as follows:

(1) 7 members shall be chosen by the Chairman of the Committee.

(2) 5 members shall be chosen by the Ranking Minority Member of the Committee.

SEC. 4. CHAIRMAN; RANKING MINORITY MEMBER.

The Chairman of the Committee shall designate one member of the Task Force to be the Chair of the Task Force. The Ranking Minority Member of the Committee shall designate one member of the Task Force to be the Ranking Minority Member of the Task Force.

SEC. 5. AUTHORITY AND PROCEDURES.

(a) IN GENERAL.—Except as otherwise provided in this resolution, the Rules of the House of Representatives applicable to standing committees and the rules of the Committee shall govern the Task Force.

(b) DEPOSITION AUTHORITY.—

(1) CHAIRMAN MAY ORDER.—The Chairman of the Committee, upon consultation with the Ranking Minority Member of Committee, may order the taking of depositions, under oath and pursuant to notice or subpoena. Consultation with the Ranking Minority Member shall include three business days written notice before any deposition is taken. All members of the Task Force shall also receive three business days written notice that a deposition has been scheduled.

(2) MODE FOR TAKING.—Notices for the taking of depositions shall specify the date, time, and place of examination. Depositions shall be taken under oath administered by a member of the Task Force or a person otherwise authorized to administer oaths. The individual administering the oath, if other than a member, shall certify that the witness was duly sworn. Witnesses may be accompanied at a deposition by counsel to advise them of their rights. No one may be present at depositions except members of the Task Force, Committee staff or consultants designated by the Chairman or Ranking Minority Member of the Committee, an official reporter, the witness, and the witness's counsel. Observers or counsel for other persons may not attend.

(3) CONDUCT OF DEPOSITION.—A deposition shall be conducted by a member of the Task Force or by Committee staff or consultants designated by the Chairman or Ranking Minority Member of the Committee. Questions in the deposition shall be propounded in rounds, unless the Chairman and Ranking Minority Member of the Committee otherwise agree. A single round shall not exceed 60 minutes per side, unless the persons conducting the deposition agree to a different

length of questioning. When depositions are conducted by staff or consultants, there shall be no more than two persons permitted to question a witness per round, one to be designated by the Chairman of the Committee and the other by the Ranking Minority Member of the Committee. Other Committee staff or consultants designated by the Chairman or Ranking Minority Member of the Committee may attend, but may not pose questions to the witness during that round. In each round, the person designated by the Chairman of the Committee shall ask questions first, and the person designated by the Ranking Minority Member shall ask questions second.

(4) OBJECTIONS.—The Chairman of the Committee may rule on any objections raised during a deposition, either during the deposition or after the deposition has been concluded. If a member of the Task Force appeals in writing the ruling of the Chairman, the appeal shall be preserved for Committee consideration. A witness that refuses to answer a question after being directed to answer by the Chairman may be subject to sanction, except that no sanctions may be imposed if the ruling of the Chairman is reversed on appeal.

(5) TRANSCRIPTION OF TESTIMONY.—Committee staff and designated consultants shall ensure that the testimony is either transcribed or electronically recorded or both. If a witness's testimony is transcribed, the witness or the witness's counsel shall be afforded an opportunity to review a copy. No later than five days thereafter, the witness may submit suggested changes to the Chairman of the Committee. Committee staff or designated consultants may make any typographical and technical changes requested by the witness. Substantive changes, modifications, clarifications, or amendments to the deposition transcript submitted by the witness must be accompanied by a letter signed by the witness requesting the changes and a statement of the witness's reasons for each proposed change. Any substantive changes, modifications, clarifications, or amendments shall be included as an appendix to the transcript conditioned upon the witness signing the transcript. The transcriber shall certify that the transcript is a true record of the testimony, and the transcript shall be filed, together with any electronic recording, with the clerk of the Committee in Washington, DC. The Chairman and the Ranking Minority Member of the Committee shall be provided with a copy of the transcripts of the deposition at the same time. The Chairman and Ranking Minority Member shall consult regarding the release of depositions. If either objects in writing to a proposed release of a deposition or a portion thereof, the matter shall be promptly referred to the Committee for resolution.

(6) DEEMED PLACE OF TAKING.—Depositions shall be considered to have been taken in Washington, DC, as well as the location in which actually taken, once filed there with the clerk of the Committee for the Committee's use.

(7) REQUIREMENT TO PROVIDE COPY OF RESOLUTION TO WITNESS.—A witness shall not be required to testify unless the witness has been provided with a copy of this resolution and the resolution of the House of Representatives authorizing and directing the Committee to make the inquiry described in section 1.

SEC. 6. EXPIRATION.

The Task Force shall expire at the end of the 111th Congress.

SEC. 7. EFFECTIVE DATE.

This resolution shall take effect on January 22, 2009.

RESOLUTION

Resolved, That the resolution adopted in the Committee January 22, 2009, establishing the task force to conduct an inquiry regarding the impeachment of Judge Porteous, is amended as follows:

(1) Section 1 is amended to read as follows:

"SECTION 1. ESTABLISHMENT OF TASK FORCE"

"There is hereby established in the House Committee on the Judiciary (hereinafter referred to as the "Committee") a task force (hereby referred to as the "Task Force") to conduct—

"(1) an inquiry into whether United States District Judge G. Thomas Porteous should be impeached; and

"(2) an inquiry into whether United States District Judge Samuel B. Kent should be impeached."

(1) Section 5(a) is amended to read as follows:

"(a) IN GENERAL.—Except as otherwise provided in this resolution, the Rules of the House of Representatives applicable to the Committee on the Judiciary, the rules of the Committee, and the authorities provided in House Resolution 15 and House Resolution _____, shall govern the inquiries conducted by the Task Force."

The resolution was agreed to.

A motion to reconsider was laid on the table.

RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. FLAKE. Madam Speaker, I rise to a question of the privileges of the House and offer the resolution previously noticed.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read as follows:

H. RES. 425

Whereas, The Hill reported that a prominent lobbying firm, founded by Mr. Paul Magliocchetti and the subject of a "federal investigation into potentially corrupt political contributions," has given \$3.4 million in political donations to no less than 284 members of Congress.

Whereas, the New York Times noted that Mr. Magliocchetti "set up shop at the busy intersection between political fund-raising and taxpayer spending, directing tens of millions of dollars in contributions to lawmakers while steering hundreds of millions of dollars in earmarks back to his clients."

Whereas, a guest columnist recently highlighted in Roll Call that "... what the firm's example reveals most clearly is the potentially corrupting link between campaign contributions and earmarks. Even the most ardent earmarkers should want to avoid the appearance of such a pay-to-play system."

Whereas, multiple press reports have noted questions related to campaign contributions made by or on behalf of the firm; including questions related to "straw man" contributions, the reimbursement of employees for political giving, pressure on clients to give, a suspicious pattern of giving, and the timing of donations relative to legislative activity.

Whereas, Roll Call has taken note of the timing of contributions from employees, the firm and its clients when it reported that they "have provided thousands of dollars worth of campaign contributions to key Members in close proximity to legislative activity, such as the deadline for earmark request letters and passage of a spending bill."

Whereas, the Associated Press highlighted the "huge amounts of political donations" from the firm and its clients to select mem-

bers and noted that "those political donations have followed a distinct pattern: The giving is especially heavy in March, which is prime time for submitting written earmark requests."

Whereas, clients of the firm received at least three hundred million dollars worth of earmarks in fiscal year 2009 appropriations legislation, including several that were approved even after news of the FBI raid of the firm's offices and Justice Department investigation into the firm was well known.

Whereas, the Associated Press reported that "the FBI says the investigation is continuing, highlighting the close ties between special-interest spending provisions known as earmarks and the raising of campaign cash."

Whereas, the persistent media attention focused on questions about the nature and timing of campaign contributions related to the firm, as well as reports of the Justice Department conducting research on earmarks and campaign contributions, raise concern about the integrity of congressional proceedings and the dignity of this institution. Now, therefore, be it:

Resolved, that

(a) the Committee on Standards of Official Conduct, or a subcommittee of the committee designated by the committee and its members appointed by the chairman and ranking member, shall immediately begin investigation into the relationship between the source and timing of past campaign contributions to Members of the House related to the raided firm and earmark requests made by Members of the House on behalf of clients of the raided firm.

(b) The Committee on Standards of Official Conduct shall submit a report of its findings to the House of Representatives within 2 months after the date of adoption of the resolution.

The SPEAKER pro tempore. The resolution qualifies.

MOTION TO TABLE

Ms. SLAUGHTER. Madam Speaker, I move to lay the resolution on the table.

The SPEAKER pro tempore. The question is on the motion to table.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, the ayes have it.

Mr. FLAKE. Madam Speaker, I object to the vote on the grounds that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

Pursuant to clause 8 of rule XX, this 15-minute vote on tabling the resolution will be followed by 5-minute votes on motions to suspend the rules and agree to House Resolution 413 and House Resolution 378.

The vote was taken by electronic device, and there were—yeas 215, nays 182, answered "present" 15, not voting 21, as follows:

□ 1900

Messrs. UPTON, KIND, GARY G. MILLER of California, CALVERT, GARRETT of New Jersey, MCINTYRE, BRIGHT and BUYER changed their vote from "yea" to "nay."

Mr. YOUNG of Alaska and Ms. MCCOLLUM changed their vote from "nay" to "yea."

Messrs. CHANDLER and BUTTERFIELD changed their vote from "yea" to "present."

Mr. WALDEN changed his vote from "nay" to "present."

So the motion to table was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated against:

Mr. STEARNS. Madam Speaker, on rollcall No. 243 I was unavoidably detained. Had I been present, I would have voted "nay."

SUPPORTING IEEE ENGINEERING THE FUTURE DAY

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution, H. Res. 413, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. GORDON) that the House suspend the rules and agree to the resolution, H. Res. 413.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 409, nays 0, not voting 24, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining on this vote.

□ 1908

So (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

IN HONOR OF REV. ROBERT CORNELL, FORMER MEMBER OF CONGRESS

(Mr. KAGEN asked and was given permission to address the House for 1 minute.)

Mr. KAGEN. Madam Speaker, I would respectfully ask that all House Members rise and observe a moment of silence on the passing of our former colleague, Congressman Rev. Robert Cornell, who passed away on Sunday, May 10. Father Cornell represented the Eighth District of Wisconsin in this House from 1975 to 1979. He was a lifelong advocate for the betterment of mankind, a deep-thinking educator, and a keeper of his faith.

The SPEAKER pro tempore. Members will rise for a moment of silence.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Without objection, 5-minute voting will continue.

There was no objection.

RECOGNIZING 30TH ANNIVERSARY OF THE ELECTION OF MARGARET THATCHER

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution, H. Res. 378, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. BERMAN) that the House suspend the rules and agree to the resolution, H. Res. 378, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 339, nays 64, answered “present” 6, not voting 24, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

Ms. WATERS and Mr. GUTIERREZ changed their vote from “yea” to “nay.”

Mrs. MALONEY changed her vote from “nay” to “present.”

□ 1922

So (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Ms. KILPATRICK of Michigan. Madam Speaker, I was unable to attend several votes today. Had I been present, I would have voted “yea” on the Motion to Table the Flake Privileged Resolution; “yea” on H. Res. 413—Supporting the goals and ideals of “IEEE Engineering the Future” Day on May 13, 2009; and “yea” on H. Res. 378—Recognizing the 30th anniversary of the election of Margaret Thatcher as the first female Prime Minister of Great Britain.

GENERAL LEAVE

Mr. PERLMUTTER. I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and insert extraneous material on the subject of the resolution (H. Res. 424) earlier adopted.

The SPEAKER pro tempore (Mrs. HALVORSON). Is there objection to the request of the gentleman from Colorado?

There was no objection.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2187, 21ST CENTURY GREEN HIGH-PERFORMING PUBLIC SCHOOL FACILITIES ACT

Mr. PERLMUTTER, from the Committee on Rules, submitted a privileged report (Rept. No. 111-106) on the resolution (H. Res. 427) providing for consideration of the bill (H.R. 2187) to direct the Secretary of Education to make grants to State educational agencies for the modernization, renovation, or repair of public school facilities, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2110

Ms. HIRONO. Madam Speaker, I ask unanimous consent to be removed as a cosponsor of H.R. 2110.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Hawaii?

There was no objection.

WAKE UP, AMERICA

(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. Yesterday, health care executives indicated to the White House that they were going to slow the rate of growth over a period of 10 years, thereby saving \$2 trillion. Wake up, America. You have to look at the underlying numbers here.

What it means is that their share of revenue for our health care spending is going to rise to \$12.8 trillion by 2020. At 1.5 percent, slowing the rate of growth times 10 years—15 percent. You multiply that times your \$12.8 trillion, you get about \$2 trillion.

This is a hoax. It is a swindle. They're trying to tell the American people that these insurance companies that make money—not providing health care—are suddenly going to give the American people a break, when in fact the rate at which we're going to be paying is going to be 35 percent more than it is now.

Wake up, America. The only plan that we can have that can work is universal, single-payer, not-for-profit health care. Break the chains, the shackles that these insurance companies have on our political process.

RENEWABLE ENERGY PART OF AN ALL-OF-THE-ABOVE STRATEGY

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Madam Speaker, I am grateful that despite all the debate over our Nation's energy future, there's a general consensus that America should be the world's leader in the development of the next generation of cleaner, affordable, and renewable energy.

America has a grand tradition of innovation. We have been at the forefront of great technological advances throughout our short history because we have attracted and promoted scientists and entrepreneurs. We have dreamed big and succeeded.

As the debate over a comprehensive strategy for energy moves forward, we must ensure public and private support for strong renewable energy industry. The Congressional Renewable Energy Caucus, which I'm proud to be a member of, will continue to be a part of that support by raising awareness among our colleagues about the enormous potential of renewable energy.

With the threat of rising gas prices and utility costs, the time to promote renewable energy is now.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

TRIBUTE TO REGISTERED NURSES

(Ms. JACKSON-LEE of Texas asked and was given permission to address the House for 1 minute.)

Ms. JACKSON-LEE of Texas. I rise today to pay tribute to the Nation's registered nurses and to congratulate them for the impossible job—but remarkable job—that they do in nurturing and serving and healing America's sick.

In Harris County, Texas, the county that I represent, the county presents 24,480 registered nurses. Nurses are patient advocates and act fearlessly to protect the lives of those under their care.

Nurses care for patients but participate in a wide variety of needed scientific research, and fight cultural and ethnic disparities and treat all patients as equal. Nurses are also teachers not only to future generations of nurses, but to the public, educating us on health and safety.

In a year where health care reform is a top priority, it is significant to acknowledge that 33 national nursing organizations have endorsed a consensus statement for the nursing community that complements five of President Obama's tenets.

The real issue is that they have come together to organize around good health care. I celebrate the fact that nurses are in Washington, D.C., speaking on behalf of those who cannot speak for themselves. It is important to respect the contributions that our nurses make.

RENEWABLE ENERGY AND ENERGY EFFICIENCY CAUCUS ON ALGAE

(Mr. SMITH of Nebraska asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Nebraska. During the height of last summer, gas prices hit an all-time high. Thirty years ago, in the midst of another energy crisis, our country began to explore turning algae into fuel. The microscopic, single-celled plant has the potential to be a tremendous resource.

Algae grow very quickly, as anyone with a backyard garden or a watering tank in their pasture knows. It ingests carbon dioxide—releasing oxygen in the process—and is laden with oils which can be used to produce biodiesel.

My friends, we need to continue to explore any and all viable forms of research and development in this renewable energy.

On Thursday, Members of Congress will have the chance to see what the future may hold for our Nation's energy resources at the Congressional Renewable Energy and Energy Efficiency Expo. There are still hurdles to overcome, but now is the time to begin working for a strong and diverse renewable energy portfolio.

□ 1930

SOLAR AND THE RENEWABLE ENERGY EXPO

(Ms. GIFFORDS asked and was given permission to address the House for 1 minute.)

Ms. GIFFORDS. Madam Speaker, many Members tonight are speaking on energy efficiency and renewable energy because they represent tremendous sources of barely tapped potential to help our Nation save money, increase energy independence and reduce greenhouse gas emissions.

This week the House Renewable Energy & Energy Efficiency Caucus is drawing attention to these important opportunities by sponsoring the annual Renewable Energy and Energy Efficiency Expo. The event will run all day on Thursday in the Cannon Caucus room. It will feature over 50 companies and advocacy groups explaining the latest and greatest in energy.

Coming from southern Arizona, it's no surprise that my favorite type of renewable energy, of course, is the sun. And this is an exciting time for solar power. Technologies are rapidly improving, and costs are falling.

Solar power is already cost-competitive with peak power in many areas of the country. Many experts believe that it is on track to be competitive all day long within just a few years.

I urge my colleagues to stop by the expo on Thursday and learn more about these exciting contributions that energy efficiency and renewable energy will make to our future.

ENERGY EFFICIENCY

(Mr. TONKO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TONKO. President Obama has outlined a bold vision for a significant change in our Nation's energy policy. In keeping with the theme this evening of energy efficiency, I share with you a vision that the President has borne that will take and highlight energy efficiency.

Energy efficiency should be our fuel of choice, a fuel we need to drill and mine like we currently drill for oil and mine for coal. We must invest in demand-side energy solutions as well as supply-side.

Madam Speaker, we must diversify our energy portfolio and achieve efficient outcomes.

For example, this summer in New York State, almost 45 percent of a homeowner's utility bill will go for heating and cooling. For every degree the thermostat is set below 78 degrees, the customer will use 3 to 5 percent more electricity.

When government implements rate-based or taxpayer-funded demand-side management programs, the public policy is clear—the kilowatt saved is the cheapest, cleanest and the quickest kilowatt we can produce.

Madam Speaker, as we move to create legislation that focuses on clean energy jobs, we must remember the important role that energy efficiency has to play.

CLEAN ENERGY JOBS

(Mr. INSLEE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. INSLEE. Madam Speaker, later this week or next week, the House Energy and Commerce Committee will advance President Obama's clean energy jobs program, and we will do that by maximizing the job creation potential of renewable clean energy and energy efficiency.

I saw the enormous potential of job creation this weekend in Seattle, Washington, where I went to the MacDonald-Miller Company, a company that installs highly efficient energy efficiency heating and cooling systems, where they have found they can reduce energy usage by 12 percent simply by putting in a system that will adjust the energy depending on what the temperature is outside.

Now if we could get huge efficiency measures like that and put hundreds of people to work, like they are doing at MacDonald-Miller, we're going to find that we can grow our economy while solving global climate change as well.

The energy bill we will do will require 15 percent clean energy and 5 percent efficiency. That's a vision for the future. We're going to pass President Obama's clean energy jobs plan. That's a good thing for the U.S. economy.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

WE MUST CREATE, NOT DESTROY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Ms. WOOLSEY) is recognized for 5 minutes.

Ms. WOOLSEY. Thank you, Madam Speaker.

The recent news from Afghanistan is particularly troubling. American bombs killed Afghan civilians last week. Of course our troops are doing what they can to avoid civilian casualties, but bombs have a large footprint, and innocent people are being killed and injured along with the enemy.

Last week's incident has angered the people of Afghanistan, as it would, and some are demanding the withdrawal of American troops from their country. Anti-American sentiment is spreading.

This terrible tragedy, Madam Speaker, proves once again that war is not the way to win hearts and minds, and it proves that violence is the least ef-

fective way to achieve our national security goals and to keep our country safe.

That's why I've called upon President Obama to change our mission in Afghanistan. Instead of military solutions, I've asked him to focus on reconciliation, on economic development, humanitarian aid and diplomatic efforts.

President Obama is under a great deal of pressure to expand our military involvement in Afghanistan, but I also know that he is a man of peace, not war. So I'm hopeful that he will begin to rely more and more on peaceful solutions to the situation in Afghanistan and Pakistan as well before things get out of hand.

The President has already taken some important steps towards peace. He is encouraging civilians and military reservists to go to Afghanistan and to Pakistan to help with development projects.

He's also announced that he will go to Egypt next month to deliver a speech to the Muslim world. This will be an important opportunity for the President to hold out the hand of friendship and to spread good will.

The speech in Egypt will be the second time that President Obama has spoken directly to the Muslim people because last month he addressed the Turkish Parliament where he declared, and I quote him, "The United States is not and will never be at war with Islam." He promised to "seek broader engagement with the Muslim people based on mutual interests and mutual respect."

He then quoted an old Turkish proverb that says, "You cannot put out fire with flames." And he said, "The future must belong to those who create, not those who destroy."

I agree with the end of destruction wholeheartedly. That's why I propose a comprehensive new national security plan called the SMART Security Platform for the 21st Century. Instead of violence and destruction, it emphasizes diplomacy, international cooperation, conflict prevention and nuclear non-proliferation.

This SMART Security Platform would eliminate the root causes of violence by supporting democracy building, global health, better educational opportunities, particularly for girls and women, and development aid and debt relief for countries.

It calls for a broad range of policies to stop the spread of conventional, biological, chemical and nuclear weapons. It would deny hundreds of billions of dollars every year to irresponsible regimes by ending our Nation's addiction to foreign oil. And it strengthens international intelligence and law enforcement so we can track down and stop individuals involved in violence while still respecting human and civil rights.

These are the steps that will put America back on the moral high ground, where we will be in a much better position to lead the world toward peace.

Madam Speaker, the Turkish proverb is right. You cannot put out fire with flames. That's what we learned in Iraq, and that's what we're learning again in Afghanistan.

It's time for a new strategy that recognizes that creating, not destroying, is the best way to make our future safe and to make the future of our children safe and the future of our world as well.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Mr. POSEY) is recognized for 5 minutes.

(Mr. POSEY addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

SINALOA DRUG CARTEL WANTS OLD WEST SHOOT-OUT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Madam Speaker, according to the Los Angeles Times, the Mexican Attorney General's office has informed U.S. authorities that the Sinaloa drug cartel of Mexico has been ordered by its leader Joaquin "El Chapo" Guzman, also known as Shorty, to use guns and shoot it out, if necessary, with American law enforcement. This has been ordered by the drug kingpin to protect his drugs from seizure and capture by U.S. authorities.

Law enforcement officials in Arizona have received two alerts that the Guzman smugglers have been told to, quote, use their weapons to defend their loads at all costs.

The threat of escalated violence is for several reasons. One, El Chapo no longer can afford to lose drugs because of his connections and partnerships with Colombian drug cartels that are making greater demands on him for successful smuggling into the United States. Also, El Chapo is competing with rival drug cartels and attempting to take their business, their territory and their drugs. Thus, he wants to make sure his smugglers outgun the competition old west style.

Another reason for more violence is the drug smugglers no longer will get paid unless they deliver the goods to a U.S. destination. Therefore, they are becoming more trigger happy.

A few weeks ago a shoot-out between two drug smuggling groups took place on a road leading to Phoenix, Arizona. The criminals were trying to hijack each other's loads.

United States Border Patrol in Tucson has stated that confrontation between law enforcement and suspected traffickers has grown more violent. The L.A. Times reports weapons-related assaults against U.S. border agents rose 24 percent last year as compared to 2007.

Besides using weapons, the criminals throw rocks at our Border Patrol and ram their vehicles into agent vehicles.

Recently, again, according to the Times, agents stopped a vehicle in Douglas, Arizona, and drug traffickers on the Mexican side of the border laid down suppressive gunfire to pin the U.S. border agents down, which allowed the smugglers to retreat to the Mexican side of the border with their drugs intact.

The Tucson sector alone reports about 25 assaults a month on border patrol agents.

□ 1945

Madam Speaker, there seems to be an all-out border war between the drug cartels and the Mexican-U.S. law enforcement personnel. But not much is being said about this border war.

Madam Speaker, this border war is real. Our government should protect our Nation from these gun-toting drug smugglers. Our border protectors should be given enough personnel and equipment to fight these violent cartels, including being able to use the National Guard. Our border protectors should also know that our government will support them in their lawful protection of our border, and when a violent conflict occurs, be more concerned about our border protectors than the outlaw drug smugglers.

In other words, we must not let more agents suffer an unjust fate like Border Agents Ramos and Compean, who were persecuted and prosecuted for political reasons for shooting a drug smuggler they believed to be armed.

The violence on the border will continue to grow unless the likes of Joaquin "El Chapa"—"Shorty"—Guzman and his border bandits know the United States will not go away into the darkness of the desert night and simply surrender our border to them by silently doing nothing to prevent their unlawful invasion into the United States.

And that's just the way it is.

AMERICA'S TRADE DEFICIT IS AGAIN ON THE RISE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio (Ms. KAPTUR) is recognized for 5 minutes.

Ms. KAPTUR. Madam Speaker, today the United States announced that America's trade deficit is back on the rise. The 2008 annual trade deficit topped \$677 billion. That is three-quarters of \$1 trillion, knocking several points off of economic growth in our country, and yet in response to today's announcement of the growing deficit, U.S. Trade Representative KIRK said we need to work more on new and pending free trade agreements. But trade agreements based on the NAFTA job outsourcing model are what helped get us into this mess of rising unemployment and heavy borrowing in the first place.

Take Mexico, for example, which is the red on this chart. When NAFTA was signed back in 1993, the United States had a trade surplus with Mexico of \$1.3 billion. But in 2008, our deficit

with that country had surged to more than \$367 billion. This year, in only 3 months, we have already seen a \$9.7 billion deficit with Mexico.

Indeed, in every single year of NAFTA since 1993, more imports have come in here from Mexico than our exports there. The biggest U.S. export to Mexico has actually been our jobs. Good jobs.

In an article published in 1993 in Fortune Magazine, the self-proclaimed economic geniuses who urged NAFTA's passage, including Gary Hufbauer and economist Jeffrey Schott, said at that time that if that treaty passed, the United States would maintain, and I quote them, "an annual current account surplus with Mexico of about \$10 billion throughout the 1990s." Boy, were they wrong. Could they have been more wrong? Dead wrong. Consistently wrong.

Since NAFTA was enacted, the United States has accumulated more than \$1.2 trillion in trade deficits to both Mexico and Canada. The orange is the Canadian deficit. And this means lost jobs in our country and lost income to both Mexico and Canada. That \$1.2 trillion of lost wealth in this country could pay for better health care. It could pay for better roads and bridges. It could pay for a better-protected soldier abroad and for police forces here at home. But instead, we shift these dollars and hundreds of thousands of jobs across our borders every single year leaving our home communities devastated and costing our taxpayers ever more.

People ask: Why is President Obama spending money to try to re-engage our economy? And the answer is: What other choice does he have? Doing nothing in an economy with double-digit unemployment numbers is absolutely cruel. At a time when our home districts are straining to make ends meet, millions of people are facing foreclosure and pink slips are coming day after day, why would we want to send more of our jobs and dollars abroad working on new, and I quote the trade ambassador, "new and pending free trade agreements," as Ambassador Kirk suggests, instead of focusing our time and energy on remedying the broken banking and economic system of our country? We have to fix that. We have to fix the foreclosure crisis. And we have to create well-paying jobs right here in our own neighborhoods rather than weakening America further by shipping out more jobs and wealth abroad.

Congress needs to stop making it easier for U.S. jobs to go to these far-flung, slave-wage havens, as in China, in Mexico, and in Panama. And by the way, countries like Panama are corporate tax havens as well.

We need banking reform. We need help for homeowners. We need modern infrastructure, and we need lots more good jobs right here at home. Ambassador Kirk, won't you join us in the fight for America's economic pros-

perity? Why send more of our jobs away from our communities that need them most, particularly when you are staring in the face of reality, which is \$1.3 trillion of trade deficit since NAFTA's inception, both with Mexico and with Canada, and not a single year in the black? Invest in the United States. We can leave Panama and Mexico to another day. It is time to reclaim our wealth and bring it back home where it belongs.

I think the American people intuitively know something is really wrong, and they are trying to figure out why all this has happened. And I would say to some of the very institutions on Wall Street that have caused the deep harm to this economy, you are the very institutions that have helped to finance the outsourcing of these jobs.

H.R. 1701, THE PTSD/TBI GUARANTEED REVIEW FOR HEROES ACT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. JONES) is recognized for 5 minutes.

Mr. JONES. Madam Speaker, almost 2 million American servicemembers have served our Nation in Afghanistan and Iraq. Unfortunately, many are returning home with symptoms of posttraumatic stress disorder and traumatic brain injuries. An April 2008 study by the RAND Corporation found that nearly 20 percent of Iraq and Afghanistan veterans had symptoms of PTSD or major depression.

The study also found that many servicemembers do not seek treatment for psychological illnesses because they fear it will harm their careers. Of those who do seek help for PTSD or major depression, only about half receive treatment that researchers consider minimally adequate for their illness. If our government and the military fail to address problems associated with PTSD, the situation will only grow worse in future years.

Tragically, the worst cases can result in a servicemember causing harm to themselves or others. Most recently, a United States Army sergeant who had done at least three tours in Iraq had been charged with murdering five of his fellow servicemembers at Camp Liberty in Baghdad. A defense official confirmed that the sergeant had been a patient at the stress treatment center where the shooting occurred. When some servicemembers suffering from PTSD or TBI are not properly treated, they end up self-medicating or experiencing other changes in behavior. This can lead to serious legal issues and a threat of separation from their service without benefits or treatment.

One marine stationed at Camp Lejeune, in my district, fell victim to this problem and has been pending involuntary administrative separation due to misconduct. His fitness report shows that he was an outstanding marine prior to his deployments. His medical board report states, and I quote

the board, "His service in the Marine Corps caused his PTSD and indirectly his incidents and legal problems. The Marine Corps' failure to treat him in the past and treat him appropriately has done nothing but worsen the problem."

Madam Speaker, that is not my comment. That is the comment by the Navy doctors at Camp Lejeune. If this marine would be administratively separated from service, he would have no chance of being eligible for TRICARE benefits. He would have difficulty attaining a job, and it is unlikely that a university would accept him as a student. Luckily, the Marine Corps has decided to give this marine another chance, and he will be transferred to a naval hospital for PTSD treatment.

However, this is not an isolated problem. Many servicemembers may have already lost their benefits due to an administrative separation from the service. For this reason, I have introduced H.R. 1701, the PTSD/TBI Guaranteed Review for Heroes Act. This legislation attacks this issue from two angles. First, it creates a special review board at the Department of Defense for servicemembers who were less than honorably discharged. And secondly, the bill would mandate a physical evaluation board prior to an administrative separation proceeding if the servicemember has been diagnosed with PTSD or TBI by a medical authority.

Ultimately, this bill will help preserve the benefits of the servicemembers upon leaving service. H.R. 1701 has already been endorsed by the National Association for Uniformed Services, the National Military Family Association, the Military Officers Association of America, the Air Force Sergeants Association, Veterans of Foreign Wars, the Military Order of the Purple Heart, and the Marine Corps League.

Madam Speaker, this is a very impressive group of American service people who endorse this bill, H.R. 1701. I am grateful to have Congressman GENE TAYLOR as a lead cosponsor as well as BILL PASCRELL and TODD PLATTS, both cochairmen of the Congressional Brain Injury Task Force. I hope that many of my House colleagues will join as cosponsors of this important legislation for our Nation's military heroes, and I look forward to working with the leadership of the House Armed Services Committee to advance this much-needed change.

And, Madam Speaker, before I leave, I have done this so many times over the past few years, I ask God to please bless our men and women in uniform, and ask God to please bless the families of our men and women in uniform, and ask God in His arms to hold the families who have given a child dying for freedom in Afghanistan and Iraq. And I close three times, Madam Speaker, by asking God, please God, please God, please God, continue to bless America.

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tleman from Oregon (Mr. DEFAZIO) is recognized for 5 minutes.

(Mr. DEFAZIO addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

A TRIBUTE TO BILL HOLM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Minnesota (Mr. WALZ) is recognized for 5 minutes.

Mr. WALZ. Madam Speaker, every time I get the privilege to speak on this floor, I am truly humbled. I am humbled by the knowledge of what we, as a Nation, have done. Each one of us in this body realizes that the strength of this Nation and our democracy lies in the extraordinary nature of our people.

I come from the heartland of this great Nation, the places where the Great Plains begin and the Mississippi River begins to flow. Mankato, Minnesota, is my home town. That was the "big town" where the Ingalls family went to shop for school clothes in Laura Ingalls Wilder's "Little House on the Prairie." My congressional office is located at 227 Main Street in Mankato. That is just a couple of blocks down from where America's first Nobel laureate, Sinclair Lewis, lived when he wrote his novel "Main Street." Minnesota is also the home of F. Scott Fitzgerald. And I feel truly blessed to have the friendship of Garrison Keillor and his iconic "Prairie Home Companion."

Each of these writers had a special gift to describe a place. As a child of the prairie and a geographer, place is something I have spent my entire life trying to understand. I teach high school geography, and invariably whenever I tell people that, they flash back to some really bad memories of having to memorize capitals. And I explain to them, that is location, and it is only a very small part of geography. Place, on the other hand, is knowing the people and what is in their heart.

Minnesota recently lost another great writer. He was one of the most thoughtful and insightful tellers of place I have ever seen. Bill Holm was born in Minneota, Minnesota, in 1943. Minneota is a small town in southwest Minnesota where my father-in-law, Valgene Norwood Whipple, is still the high school boys basketball coach.

Bill was of Icelandic descent, and he never lost his love for his proud ancestral home, spending his summer in Iceland. He went to college in St. Peter, Minnesota, at the great Swedish College of Gustavus Adolphus, named for the Swedish King and patron of literature and learning.

Bill went on to the University of Kansas, became a Fulbright Scholar in Reykjavik, as well as a Bush Foundation fellow. He taught at Southwest Minnesota State University in Marshall, Minnesota, and he wrote several books and volumes of poetry. That is his biography. What Bill truly did was

tell the soul of a northern people, a proud stoic people, who not only settled the harsh prairies of Minnesota, but built the vibrant culture and strong unique communities.

One of Bill's works that touched me the most was a small volume called "The Music of Failure." It is a journey of place and people that leaves one feeling incredibly thankful for family, friends, neighbors and this Nation, and puts into perspective what is truly important.

I would like to spend a minute or so and let Bill's own words from "The Music of Failure" tell a little of his place.

□ 2000

"Farmers go to bed early, or at least they used to when I was a boy. Small towns in Minnesota close by 6, the cafes frequently by 4. People eat at home where you can save money. By 10, the streets are silent, only the liquor store is open, its lonesome Hamm's sign proclaiming a few that are still up. Nothing but blue flickering TVs behind drawn blinds, and a random pattern of yard lights stretching off into the prairies. By midnight, nothing. Drive on these county roads, and you can imagine that trolls have kidnapped the entire human race, leaving only electricity behind. Your headlights are a ship's beacon, lighting up a few breakers on the grass ocean, as the car rocks along toward whatever port you have business in. I like driving late at night on these roads without traffic. It provides me with a valuable corrective against human arrogance."

Bill understood place and he understood what made this Nation so strong: it was the people and their resilience.

He also understood that not all of us saw the world the same way.

There are two eyes in the human head—the eye of mystery, and the eye of harsh truth—the hidden and the open. The woods eye and the prairie eye. The prairie eye looks for distance, clarity and light; the woods eye for closeness, complexity, and darkness. The prairie eye looks for usefulness and plainness in art and architecture; the woods eye for the baroque and ornamental. Dark old brownstones on Summit Street in St. Paul, they were created by the woods eye; the square white farmhouses and the red barn are the prairies eye. Sherwood Anderson wrote his stories with a prairie eye, plain and awkward, told in the voice of a man almost embarrassed to be telling them, but bull-headedly persistent to get the meaning of the events. Faulkner, whose endless complications of motive and language take the reader miles behind the simple facts of an event. He had a woods eye. One eye is not superior to another, just different.

When he wrote his book and the book I am reading from today, "The Music of Failure," he was trying to get at the heart of what this Nation was about, what the soul was about, and he talked often about when he was a young man

trying to understand how we judged failure.

One sentence summed it up for many of us: At 15, I could define failure in Minnesota by dying here and going nowhere.

What Bill Holm understood was this Nation had a way to make itself great, reinvent itself and move to the future.

Bill, rest in peace. Yours was not failure.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. BURTON) is recognized for 5 minutes.

(Mr. BURTON of Indiana addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

TRIPLE PLAY OF AMERICAN CENTURY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. INGLIS) is recognized for 5 minutes.

Mr. INGLIS. Madam Speaker, it is interesting to see and troubling to see gas prices rising again. I have talked to several colleagues here tonight in fact about gas prices going up. I noticed today on the Wal-Mart sign in Travelers Rest, South Carolina, that the price has gone up here recently. But I am here to say, Madam Speaker, that gas at \$2 a gallon or so is a sleeper cell waiting to detonate in the United States. I am also here to predict for you that within 2 years, I will make the bold prediction, within 2 years gas will once again be \$4 a gallon. So the question is: What do we do about that? Do we wait for it to happen and just sit here and assume that we have to absorb that kind of hit, gas at \$4 a gallon, or do we start taking action now to prepare for the energy security of the United States?

Madam Speaker, I hear a lot of our colleagues saying we need to do other things. We need to, for example, in the case of electricity generation, we need to do nuclear. I think it is a great way to make electricity. But the problem is there are some economic challenges there. Others say let's move away from gasoline and move towards alternatives. But there is a problem there. There are economic barriers, and the economic barriers are in both of those cases the liquid transportation fuel; and in electricity generation, the challenge is that the incumbent technologies have some freebies that they get. And as long as those freebies continue to distort the marketplace, the free market system, as long as those distortions are there, we won't move to alternatives for gasoline. We won't move to alternatives to coal. What we will do is just stick with the incumbent technologies. As long as the incumbent technologies get these freebies, and economists call them negative externalities. They are basically bad

things that come with those products that aren't recognized by the market, and as a result the market doesn't respond.

So, for example, take the national security risk that we run by being dependent on gasoline, on oil. Right now on the Straits of Hormuz we have some very heavy metal going up and down the Straits of Hormuz protecting a supply line of a product that we must have because we are dependent, we are addicted, addicted to oil.

If you attributed some of those costs to the price per gallon of gasoline, it wouldn't be the \$2.09 that I saw on the marquee in Travelers Rest, South Carolina, today; it would be a lot higher than that. If there were proper cost accounting, if you will, and that were really attributed to the price of gasoline, right now we would be moving more rapidly toward alternatives.

We would be having plug-in hybrids coming very quickly to the market. We would be having the Chevy Volt make its way to the market. We would be having hydrogen coming much closer and faster than it is coming now.

Madam Speaker, we have to figure out a way to change the underlying economics because I believe the solution here is not us in Washington coming up with grant programs and maybe doling out some money here and there, but rather in harnessing the power of American free enterprise, entrepreneurship, to deliver these solutions. The way that they are delivered is if we come together as a Nation and say listen, no more freebies, no more of these negative externalities that are unrecognized because as long as they are unrecognized, there is a market distortion. We attach those to the prices of the products, and I think the way to do that, by the way, is a revenue-neutral carbon tax where you reduce taxes elsewhere, say on payroll, and in an equal amount impose a transparent tax on carbon.

The result would be no additional take of tax revenue to the government; but rather, a price signal to the marketplace that says the incumbent technologies aren't going to get their freebies any more. If they are not going to have their freebies, then those of us who have alternatives can make a buck selling them.

When that happens, Madam Speaker, we will change American energy dependence on the Middle East and we will be able to say to them we just don't need you like we used to. We can improve the national security of the United States, we can create jobs with those new technologies, and we can clean up the air. It is the triple play of this American century. Madam Speaker, I say let's get about it.

HEALTH CARE REFORM

The SPEAKER pro tempore (Mr. MAFFEI). Under a previous order of the House, the gentleman from Connecticut (Mr. MURPHY) is recognized for 5 minutes.

Mr. MURPHY of Connecticut. Mr. Speaker, those of us who came to Washington to pass comprehensive and revolutionary, potentially transformational health care reform are emboldened by the realization that we now, for the first time in almost a decade, have a President and an administration who are as committed as any advocate in this country to the premise that this country must reform its health care system. We are reminded almost weekly of President Obama's commitment to health care reform that happens this year.

This week we saw the President bring together varying and diverse groups that over the course of the history of health care have normally been at each other's throats, coming together to say that the first premise of health care reform has to be lowering of cost in the system. The health insurance community, the hospital association, the medical association, PhRMA and SCIU, one of the Nation's biggest unions, all coming together and saying, listen, let's take cost out of this system. And it is the right way to first approach health care reform. We can talk all we want about coverage, but if we don't start to dramatically slow the growth of health care at a pace now that stands at 7 or 8 percent a year, if we don't bring it down to something that more resembles the general inflationary rate in this country, there will be no room, never mind to expand coverage, there will be no room to just cover the people with health care now. We have gone over the numbers over and over again: \$7,400 per person that we spend on health care in this country, \$2.2 trillion across the spectrum of our health care system. Twice as much of our GDP is spent on health care as we spent in 1970, and twice as much of our GDP is spent on health care than many other similarly situated industrialized nations.

Health insurance premiums over the last 10 years have gone up 119 percent, while earnings have risen only 34 percent. We know there are savings because we look out across the country and we see dramatically diverse experiences with regard to cost.

In my home market of Hartford, Connecticut, we are spending on average about \$8,000 a person to treat a Medicare patient. Well, you go down the eastern seaboard to Miami, and they are spending twice that amount, \$16,000 to treat a similar Medicare patient.

Now, I am sure we can come up with a list of reasons why that care is going to be marginally more expensive give the client base and the provider costs, but not twice as expensive.

As we saw in some recent work at Dartmouth University, there is no correlation between what you spend and the quality you get. In fact, it tends to be the reverse: the better you are at coordinating care and keeping costs down, the healthier your patients are. So there is an enormous amount of savings that we can achieve just by better

coordinating care and learning from the areas of the country and the health care communities that have figured out that you can reduce costs and preserve quality.

But ultimately, Mr. Speaker, I don't think we can really take a whack at costs until we understand the important role that a public insurance model can play in our health reform system. I want to talk about this for 1 minute.

We have looked at comparative models, for instance on the purchase of prescription drugs via a government program like the veterans health care system and private models like the Medicare prescription drug benefit programs, and we see example after example on how the ability of the United States Government or entities acting on its behalf can bring down the cost of health care. We have seen examples of how a government-sponsored health care initiative that has no interest in returning value to shareholders, that has no interest in paying its CEOs massive salaries, that does not have a profit motivation can get more humane and less expensive care to its recipients. That is the theory behind those that want a government-run single payer system, and I think we all acknowledge we are not going to get there.

But we are not going to achieve the savings that we hope to achieve unless we can have a robust, completely competitive market where individuals and businesses that are purchasing insurance get to choose not only between private insurance companies that might offer them the best deal, but also from a public option as well.

This is fundamentally about creating real market-based choice for consumers. If we have a diverse array of private insurance products and a public option, that more than anything we do with regard to changing reimbursement from volume to outcomes, can bring down the cost of health care.

IN MEMORY OF SPECIALIST RYAN CHARLES KING

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia (Mr. GINGREY) is recognized for 5 minutes.

Mr. GINGREY of Georgia. Mr. Speaker, today the residents of northwest Georgia are saying good-bye to a native son who died while bravely serving his Nation in Afghanistan. Specialist Ryan Charles King was killed in action on May 1, 2009, in Afghanistan when his unit came under enemy fire while on a night mission.

Last evening, Mr. Speaker, I joined Specialist King's family, his friends and supporters at his visitation to honor the life of this brave soldier. In speaking with Specialist King's parents, I found out that he and I have a history together. When I was an obstetrician-gynecologist, I delivered Ryan King a little over 22 years ago on Veteran's Day in 1986. How fitting that

this brave soldier who made the ultimate sacrifice for his country was born on such a special day.

We remember Ryan as a man of the highest character whose receipt of the Army Commendation Medal, the Army Achievement Medal, the Army Good Conduct Medal, National Defense Service Medal, Global War on Terrorism Service Medal, Army Service Ribbon, Overseas Service Ribbon, and NATO Medal are testament to the supreme sense of duty he felt to his country and to his comrades.

Born in Marietta, Georgia, at WellStar Kennestone Hospital, Ryan attended Faith Lutheran Church for many years.

□ 2015

He was a talented and a spirited baseball player, leaving his mark on the diamonds throughout Canton, Powder Springs, and Dallas, Georgia.

A few months after graduating from East Paulding County High School, Ryan King fulfilled a lifelong dream and he enlisted in the United States Army. He went to basic training at Fort Sill in Oklahoma, followed by advanced individual training at Fort Huachuca in Arizona. After completing his training, Specialist King was stationed in Korea for 1 year, and it was there that he met his wife, Sergeant Rachel Nicole Smith King.

As a member of the Special Troops Battalion, 3rd Brigade, 1st Infantry, he left for deployment in eastern Afghanistan in July of 2008 and, sadly, was scheduled to return to Fort Hood in Texas in June, 2009, just 1 month from now.

Specialist King leaves behind his wife, Sergeant King, his father, Charles King of Temple, Georgia, his mom, Candice R. King of Decatur, Georgia, younger brothers Tyler King of Temple and Dante Moore of Decatur, grandparents, Dorothea King of Temple and Tommy and Nancy Roberts of Dallas, Georgia, as well as many aunts, uncles and cousins.

Mr. Speaker, my prayers go out to his family. And my deepest gratitude goes out to Specialist King for his selfless sacrifice for our Nation. I ask all Members to join me in honoring the distinguished memory of Specialist Ryan Charles King.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kansas (Mr. MORAN) is recognized for 5 minutes.

(Mr. MORAN of Kansas addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Maine (Ms. PINGREE) is recognized for 5 minutes.

(Ms. PINGREE of Maine addressed the House. Her remarks will appear hereafter in the Extensions of Remarks.)

PUBLICATION OF THE RULES OF THE COMMITTEE ON ENERGY AND COMMERCE, 111TH CON- GRESS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. WAXMAN) is recognized for 5 minutes.

Mr. WAXMAN. Madam Speaker, pursuant to rule XI, clause 2 of the Rules of the House of Representatives, I respectfully submit the rules for the Committee on Energy and Commerce in the 111th Congress for publication in the CONGRESSIONAL RECORD. The Committee adopted the following rules in open session by a voice vote, a quorum being present, at our organizational meeting on January 14, 2009:

RULES OF THE COMMITTEE ON ENERGY AND COMMERCE, U.S. HOUSE OF REPRESENTATIVES, ADOPTED JANUARY 14, 2009, 111TH CONGRESS

Rule 1. General Provisions. (a) Rules of the Committee. The Rules of the House are the rules of the Committee on Energy and Commerce (hereinafter the "Committee") and its subcommittees so far as is applicable.

(b) Rules of the Subcommittees. Each subcommittee of the Committee is part of the Committee and is subject to the authority and direction of the Committee and to its rules so far as applicable. Written rules adopted by the Committee, not inconsistent with the Rules of the House, shall be binding on each subcommittee of the Committee.

Rule 2. Meetings. (a) Regular Meeting Days. The Committee shall meet on the fourth Tuesday of each month at 10 a.m., for the consideration of bills, resolutions, and other business, if the House is in session on that day. If the House is not in session on that day and the Committee has not met during such month, the Committee shall meet at the earliest practicable opportunity when the House is again in session. The chairman of the Committee may, at his discretion, cancel, delay, or defer any meeting required under this section, after consultation with the ranking minority member.

(b) Additional Meetings. The chairman may call and convene, as he considers necessary, additional meetings of the Committee for the consideration of any bill or resolution pending before the Committee or for the conduct of other Committee business. The Committee shall meet for such purposes pursuant to that call of the chairman.

(c) Notice. The date, time, place, and subject matter of any meeting of the Committee or its subcommittees scheduled on a Tuesday, Wednesday, or Thursday when the House will be in session shall be announced at least 36 hours (exclusive of Saturdays, Sundays, and legal holidays except when the House is in session on such days) in advance of the commencement of such meeting. The date, time, place, and subject matter of other meetings shall be announced at least 72 hours in advance of the commencement of such meeting.

(d) Agenda. The agenda for each Committee or subcommittee meeting, setting out all items of business to be considered, shall be provided to each member of the Committee at least 36 hours in advance of such meeting.

(e) Availability of Texts. No bill, recommendation, or other matter reported by a subcommittee shall be considered by the Committee unless the text of the matter reported, together with an explanation, has been available to members of the Committee for at least 36 hours. Such explanation shall include a summary of the major provisions of the legislation, an explanation of the relationship of the matter to present law, and a summary of the need for the legislation.

(f) Waiver. The requirements of subsections (c), (d), and (e) may be waived by a majority of those present and voting (a majority being present) of the Committee or subcommittee, or by the chairman with the concurrence of the ranking member, as the case may be.

Rule 3. Hearings. (a) Notice. The date, time, place, and subject matter of any hearing of the Committee or any of its subcommittees shall be announced at least one week in advance of the commencement of such hearing, unless a determination is made in accordance with clause 2(g)(3) of Rule XI of the Rules of the House that there is good cause to begin the hearing sooner.

(b) Memorandum. Each member of the Committee or subcommittee shall be provided, except in the case of unusual circumstances, with a memorandum at least 48 hours before each hearing explaining (1) the purpose of the hearing and (2) the names of any witnesses.

(c) Witnesses. (1) Each witness who is to appear before the Committee or a subcommittee shall file with the clerk of the Committee, at least two working days in advance of his or her appearance, sufficient copies, as determined by the chairman of the Committee or a subcommittee, of a written statement of his or her proposed testimony to provide to members and staff of the Committee or subcommittee, the news media, and the general public. Each witness shall, to the greatest extent practicable, also provide a copy of such written testimony in an electronic format prescribed by the chairman. Each witness shall limit his or her oral presentation to a brief summary of the argument. The chairman of the Committee or of a subcommittee, or the presiding member, may waive the requirements of this paragraph or any part thereof.

(2) To the greatest extent practicable, the written testimony of each witness appearing in a nongovernmental capacity shall include a curriculum vitae and a disclosure of the amount and source (by agency and program) of any federal grant (or subgrant thereof) or contract (or subcontract thereof) received during the current fiscal year or either of the two preceding fiscal years by the witness or by an entity represented by the witness.

(d) Questioning. (1) The right to interrogate the witnesses before the Committee or any of its subcommittees shall alternate between majority and minority members. Each member shall be limited to 5 minutes in the interrogation of witnesses until such time as each member who so desires has had an opportunity to question witnesses. No member shall be recognized for a second period of 5 minutes to interrogate a witness until each member of the Committee or subcommittee present has been recognized once for that purpose. While the Committee or subcommittee is operating under the 5 minute rule for the interrogation of witnesses, the chairman shall recognize in order of appearance members who were not present when the meeting was called to order after all members who were present when the meeting was called to order have been recognized in the order of seniority on the Committee or subcommittee, as the case may be.

(2) The chairman with the concurrence of the ranking minority member, or the Committee by motion, may permit an equal number of majority and minority members to question a witness for a specified, total period that is equal for each side and not longer than thirty minutes for each side. The chairman with the concurrence of the ranking minority member, or the Committee by motion, may also permit committee staff of the majority and minority to question a witness for a specified, total period that is equal for each side and not longer than thirty minutes for each side.

(3) Each member may submit to the chairman of the Committee or the subcommittee additional questions for the record, to be answered by the witnesses who have appeared. Each member shall provide a copy of the questions in an electronic format to the clerk of the Committee no later than ten business days following a hearing. The chairman shall transmit all questions received from members of the Committee or the subcommittee to the appropriate witness and include the transmittal letter and the responses from the witnesses in the hearing record.

Rule 4. Vice Chairmen; Presiding Member. The chairman shall designate a member of the majority party to serve as vice chairman of the Committee, and shall designate a majority member of each subcommittee to serve as vice chairman of each subcommittee. The vice chairman of the Committee or subcommittee, as the case may be, shall preside at any meeting or hearing during the temporary absence of the chairman. If the chairman and vice chairman of the Committee or subcommittee are not present at any meeting or hearing, the ranking member of the majority party who is present shall preside at the meeting or hearing.

Rule 5. Open Proceedings. Except as provided by the Rules of the House, each meeting and hearing of the Committee or any of its subcommittees for the transaction of business, including the markup of legislation, and each hearing, shall be open to the public, including to radio, television, and still photography coverage, consistent with the provisions of Rule XI of the Rules of the House.

Rule 6. Quorum. Testimony may be taken and evidence received at any hearing at which there are present not fewer than two members of the Committee or subcommittee in question. A majority of the members of the Committee or subcommittee shall constitute a quorum for those actions for which the House rules require a majority quorum. For the purposes of taking any other action, one-third of the members of the Committee or subcommittee shall constitute a quorum.

Rule 7. Official Committee Records. (a)(1) Journal. The proceedings of the Committee and its subcommittees shall be recorded in a journal which shall, among other things, show those present at each meeting, and include a record of the vote on any question on which a record vote is demanded and a description of the amendment, motion, order, or other proposition voted. A copy of the journal shall be furnished to the ranking minority member.

(2) Record Votes. A record vote may be demanded by one-fifth of the members present or, in the apparent absence of a quorum, by any one member. No demand for a record vote shall be made or obtained except for the purpose of procuring a record vote or in the apparent absence of a quorum. The result of each record vote in any meeting of the Committee and its subcommittees shall be made available in the Committee office for inspection by the public, as provided in Rule XI, clause 2(e) of the Rules of the House. The Chairman also shall make the record of the votes on any question on which a record vote is demanded available on the Committee's website not later than 2 business days after such vote is taken. Such record shall include a description of the amendment, motion, order, or other proposition, the name of each member voting for and each member voting against such amendment, motion, order, or proposition, and the names of those members of the committee present but not voting.

(b) Archived Records. The records of the Committee at the National Archives and Records Administration shall be made available for public use in accordance with Rule

VII of the Rules of the House. The chairman shall notify the ranking minority member of any decision, pursuant to clause 3 (b)(3) or clause 4 (b) of the Rule, to withhold a record otherwise available, and the matter shall be presented to the Committee for a determination on the written request of any member of the Committee. The chairman shall consult with the ranking minority member on any communication from the Archivist of the United States or the Clerk of the House concerning the disposition of noncurrent records pursuant to clause 3(b) of the Rule.

Rule 8. Subcommittees. (a) Establishment. There shall be such standing subcommittees with such jurisdiction and size as determined by the majority party caucus of the Committee. The jurisdiction, number, and size of the subcommittees shall be determined by the majority party caucus prior to the start of the process for establishing subcommittee chairmanships and assignments.

(b) Powers and Duties. Each subcommittee is authorized to meet, hold hearings, receive testimony, mark up legislation, and report to the Committee on all matters referred to it. Subcommittee chairmen shall set hearing and meeting dates only with the approval of the chairman of the Committee with a view toward assuring the availability of meeting rooms and avoiding simultaneous scheduling of Committee and subcommittee meetings or hearings whenever possible.

(c) Ratio of Subcommittees. The majority caucus of the Committee shall determine an appropriate ratio of majority to minority party members for each subcommittee and the chairman shall negotiate that ratio with the minority party, provided that the ratio of party members on each subcommittee shall be no less favorable to the majority than that of the full Committee, nor shall such ratio provide for a majority of less than two majority members.

(d) Selection of Subcommittee Members. Prior to any organizational meeting held by the Committee, the majority and minority caucuses shall select their respective members of the standing subcommittees.

(e) Ex Officio Members. The chairman and ranking minority member of the Committee shall be ex officio members with voting privileges of each subcommittee of which they are not assigned as members and may be counted for purposes of establishing a quorum in such subcommittees. The chairman emeritus shall be an ex officio member without voting privileges of each subcommittee of which the chairman emeritus is not assigned as a member and may not be counted for purposes of establishing a quorum on any such subcommittee.

(f) Subcommittee on Witness Inquiry. There shall also be established a Subcommittee on Witness Inquiry that may examine witnesses in executive session pursuant to House Rule XI, clause 2(g)(2) and 2(k)(5). The subcommittee shall be comprised of two members of the majority party appointed at the discretion of the chairman and one member of the minority party appointed at the discretion of the ranking minority member. Subsections (a), (b), (c), (d), and (e) shall not apply to the Subcommittee.

Rule 9. Opening Statements. (a) Written Statements. All written opening statements at business meetings conducted by the committee or any of its subcommittees shall be made part of the permanent record.

(b) Length. Statements shall be limited to 5 minutes each for the chairman and ranking minority member (or their respective designee) of the Committee or subcommittee, as applicable, and 3 minutes each for all other members. At any business meeting of the full Committee, the chairman may limit opening statements for Members (including, at the discretion of the Chairman, the chairman

and ranking minority member) to one minute.

Rule 10. Reference of Legislation and other Matters. All legislation and other matters referred to the Committee shall be referred to the subcommittee of appropriate jurisdiction within two weeks of the date of receipt by the Committee unless action is taken by the full Committee within those two weeks, or by majority vote of the members of the Committee, consideration is to be by the full Committee. In the case of legislation or other matter within the jurisdiction of more than one subcommittee, the chairman of the Committee may, in his discretion, refer the matter simultaneously to two or more subcommittees for concurrent consideration, or may designate a subcommittee of primary jurisdiction and also refer the matter to one or more additional subcommittees for consideration in sequence (subject to appropriate time limitations), either on its initial referral or after the matter has been reported by the subcommittee of primary jurisdiction. Such authority shall include the authority to refer such legislation or matter to an ad hoc subcommittee appointed by the chairman, with the approval of the Committee, from the members of the subcommittees having legislative or oversight jurisdiction.

Rule 11. Managing Legislation on the House Floor. The chairman, in his discretion, shall designate which member shall manage legislation reported by the Committee to the House.

Rule 12. Committee Professional and Clerical Staff Appointments. (a) Delegation of Staff. Whenever the chairman of the Committee determines that any professional staff member appointed pursuant to the provisions of clause 9 of Rule X of the House of Representatives, who is assigned to such chairman and not to the ranking minority member, by reason of such professional staff member's expertise or qualifications will be of assistance to one or more subcommittees in carrying out their assigned responsibilities, he may delegate such member to such subcommittees for such purpose. A delegation of a member of the professional staff pursuant to this subsection shall be made after consultation with subcommittee chairmen and with the approval of the subcommittee chairman or chairmen involved.

(b) Minority Professional Staff. Professional staff members appointed pursuant to clause 9 of Rule X of the House of Representatives, who are assigned to the ranking minority member of the Committee and not to the chairman of the Committee, shall be assigned to such Committee business as the minority party members of the Committee consider advisable.

(c) Additional Staff Appointments. In addition to the professional staff appointed pursuant to clause 9 of Rule X of the House of Representatives, the chairman of the Committee shall be entitled to make such appointments to the professional and clerical staff of the Committee as may be provided within the budget approved for such purposes by the Committee. Such appointee shall be assigned to such business of the full Committee as the chairman of the Committee considers advisable.

(d) Sufficient Staff. The chairman shall ensure that sufficient staff is made available to each subcommittee to carry out its responsibilities under the rules of the Committee.

(e) Fair Treatment of Minority Members in Appointment of Committee Staff. The chairman shall ensure that the minority members of the Committee are treated fairly in appointment of Committee staff.

(f) Contracts for Temporary or Intermittent Services. Any contract for the temporary services or intermittent service of in-

dividual consultants or organizations to make studies or advise the Committee or its subcommittees with respect to any matter within their jurisdiction shall be deemed to have been approved by a majority of the members of the Committee if approved by the chairman and ranking minority member of the Committee. Such approval shall not be deemed to have been given if at least one-third of the members of the Committee request in writing that the Committee formally act on such a contract, if the request is made within 10 days after the latest date on which such chairman or chairmen, and such ranking minority member or members, approve such contract.

Rule 13. Supervision, Duties of Staff. (a) Supervision of Majority Staff. The professional and clerical staff of the Committee not assigned to the minority shall be under the supervision and direction of the chairman who, in consultation with the chairmen of the subcommittees, shall establish and assign the duties and responsibilities of such staff members and delegate such authority as he determines appropriate.

(b) Supervision of Minority Staff. The professional and clerical staff assigned to the minority shall be under the supervision and direction of the minority members of the Committee, who may delegate such authority as they determine appropriate.

Rule 14. Committee Budget. (a) Preparation of Committee Budget. The chairman of the Committee, after consultation with the ranking minority member of the Committee and the chairmen of the subcommittees, shall for the 111th Congress prepare a preliminary budget for the Committee, with such budget including necessary amounts for professional and clerical staff, travel, investigations, equipment and miscellaneous expenses of the Committee and the subcommittees, and which shall be adequate to fully discharge the Committee's responsibilities for legislation and oversight. Such budget shall be presented by the chairman to the majority party caucus of the Committee and thereafter to the full Committee for its approval.

(b) Approval of the Committee Budget. The chairman shall take whatever action is necessary to have the budget as finally approved by the Committee duly authorized by the House. No proposed Committee budget may be submitted to the Committee on House Administration unless it has been presented to and approved by the majority party caucus and thereafter by the full Committee. The chairman of the Committee may authorize all necessary expenses in accordance with these rules and within the limits of the Committee's budget as approved by the House.

(c) Monthly Expenditures Report. Committee members shall be furnished a copy of each monthly report, prepared by the chairman for the Committee on House Administration, which shows expenditures made during the reporting period and cumulative for the year by the Committee and subcommittees, anticipated expenditures for the projected Committee program, and detailed information on travel.

Rule 15. Broadcasting of Committee Hearings. Any meeting or hearing that is open to the public may be covered in whole or in part by radio or television or still photography, subject to the requirements of clause 4 of Rule XI of the Rules of the House. The coverage of any hearing or other proceeding of the Committee or any subcommittee thereof by television, radio, or still photography shall be under the direct supervision of the chairman of the Committee, the subcommittee chairman, or other member of the Committee presiding at such hearing or other proceeding and may be terminated by such member in accordance with the Rules of the House.

Rule 16. Subpoenas. The chairman of the Committee may, after consultation with the ranking minority member, authorize and issue a subpoena under clause 2(m)(2)(A) of Rule XI of the House. If the ranking minority member objects to the proposed subpoena in writing, the matter shall be referred to the Committee for resolution. The chairman of the Committee may authorize and issue subpoenas without referring the matter to the Committee for resolution during any period for which the House has adjourned for a period in excess of 3 days when, in the opinion of the chairman, authorization and issuance of the subpoena is necessary. The chairman shall report to the members of the Committee on the authorization and issuance of a subpoena during the recess period as soon as practicable but in no event later than one week after service of such subpoena.

Rule 17. Travel of Members and Staff. (a) Approval of Travel. Consistent with the primary expense resolution and such additional expense resolutions as may have been approved, travel to be reimbursed from funds set aside for the Committee for any member or any staff member shall be paid only upon the prior authorization of the chairman. Travel may be authorized by the chairman for any member and any staff member in connection with the attendance of hearings conducted by the Committee or any subcommittee thereof and meetings, conferences, and investigations which involve activities or subject matter under the general jurisdiction of the Committee. Before such authorization is given there shall be submitted to the chairman in writing the following: (1) the purpose of the travel; (2) the dates during which the travel is to be made and the date or dates of the event for which the travel is being made; (3) the location of the event for which the travel is to be made; and (4) the names of members and staff seeking authorization.

(b) Approval of Travel by Minority Members and Staff. In the case of travel by minority party members and minority party professional staff for the purpose set out in (a), the prior approval, not only of the chairman but also of the ranking minority member, shall be required. Such prior authorization shall be given by the chairman only upon the representation by the ranking minority member in writing setting forth those items enumerated in (1), (2), (3), and (4) of paragraph (a).

Rule 18. The chairman shall maintain an official Committee website for the purposes of furthering the Committee's legislative and oversight responsibilities, including communicating information about the Committee's activities to Committee members and other members of the House. The ranking minority member may maintain an official website for the purpose of carrying out official responsibilities, including communicating information about the activities of the minority members of the Committee to Committee members and other members of the House.

Rule 19. The chairman of the Committee is directed to offer a motion under clause 1 of Rule XXII of the Rules of the House whenever the chairman considers it appropriate.

CARBON POLLUTION

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Oregon (Mr. BLUMENAUER) is recognized for 60 minutes as the designee of the majority leader.

Mr. BLUMENAUER. Mr. Speaker, in every great problem there is a great

opportunity. We are now facing the most severe economic crisis in a generation. At the same time, the scientists are telling us clearly that our inaction dealing with carbon pollution is threatening the planet that is our only home. Fortunately, the same actions that will fix the economy will also help save the planet. In an economic downturn, we want to put people to work and help them manage costs. Energy efficiency does both and reduces carbon emissions at the same time.

The United States finally shook off the great economic depression of the thirties by mobilizing the economy to fight World War II. We can fight off this recession, deep as it is, by mobilizing our fight against global warming.

Mr. Speaker, President Obama, from the rostrum before you, laid out an ambitious agenda in his first speech to the Members of Congress, recognizing that as Americans we can do great things when we come together to work for the common good, as we did dealing with the challenges of World War II and the Great Depression.

The President has presented us with a clean energy jobs plan, a plan that will create new jobs that can't be shipped overseas, a proposal that will protect existing jobs while it reduces our dependence on foreign oil. It will avoid tax increases on working families as we all work to reduce carbon pollution. This plan starts by regulating carbon polluters and making them pay for the pollution that they've been allowed to spew out for free into the sky, damaging the atmosphere and threatening the water and land without regard to the cost to the rest of us.

Then the President's plan will create new jobs through research and development and deployment of new clean energy technologies such as wind, solar and biomass. It is exciting to see in the President's economic recovery package that we have already taken decisive action, investing billions of dollars across America to do something about it.

His plan further provides the support and the incentives needed to help the American spirit of innovation and creativity to build the new clean technologies of the future. Just as we led the world in developing the automobile and the computer, we can, and if we follow the plans that have been set forth that have been articulated by President Obama and the Democratic leadership, we will be able to lead the world in developing the new cheaper, cleaner energy technologies that will power this century in America and around the world.

These new technologies are already resulting in clean energy jobs that are forming the basis of our new economic security. Change is difficult under the best of circumstances, but I think there is growing recognition at this point that we have no choice. But we want to be thinking about the future, not planning the economy through the rear-view mirror.

The proposals that we are working on will provide all Americans with clean energy tax credits so that they will have money to buy clean energy technologies so that they personally can join in America's clean energy future. This will allow them to be stewards of the family budget while we are all stewards of the planet. In this way, the actions of millions of Americans to reduce their energy bills and to protect the planet will create even more jobs and lead to that prosperity that is so important to us all.

There are any number of examples, Mr. Speaker, about how what we have already done in energy efficiency has made a difference. Researchers at the University of California calculate that the gas and electric energy efficiency measures for the past 30 years in California have saved the residents of that State \$56 billion while producing 1.5 million new jobs.

They have projected that the savings in jobs for meeting California's new carbon cap-and-trade law, and by projecting it forward just to the year 2020, that Californians will save an additional \$76 billion in energy costs just at current rates. And I heard my good friend from South Carolina on the floor just a few minutes ago predicting that energy costs are going to be going up. I personally agree with him, I think he is right. But even at current rates, Californians would save \$76 billion and create an additional 400,000 new net jobs.

I'm from the Pacific Northwest, where we've been working very hard on energy efficiency over the course of almost 30 years. My hometown of Portland, Oregon, was the first city in the United States with a comprehensive energy policy that has made a difference for us in terms of saving money on energy, while we've created new economic opportunities and have reduced our carbon footprint.

In the Pacific Northwest, our Power Planning Council has estimated the work that we've done just in the Northwest alone between 1980 and 2000, where we invested almost \$2.5 billion in energy efficiency, our region earned that total investment back about once every 18 months. This is a rate of return of about 67 percent, annual rate of return on investment. An extraordinary record when we think about how our 401(k)s are turning into 301(k)s and 201(k)s. Watch the gyrations in the stock market and uncertainty in housing prices. Looking at what has happened with a very solid year-in, year-out rate of return on energy efficiency is truly encouraging and inspirational.

Mr. Speaker, the time to act is now. We have heard the warnings from the vast majority of scientists developing a consensus about the threats to the planet. We are already feeling the effects of changing climate as we watch large quantities of polar ice disappear, as we watch snowpacks rise, when we watch the shift of patterns of migration of birds, where the permafrost in

Alaska is no longer perma, and the roads are buckling and coastal villages washing away.

The realities of climate change effects are being visited upon Americans across this country in all 50 States, and they are gathering momentum in terms of a sense of urgency and public awareness. We are watching groups in the evangelical arena, scientific arena, civic organizations, American business, labor, environmental organizations coming together to be part of this consensus. Leadership is being exhibited on college campuses and at synagogues across the country. Over 900 cities have made the decision that they weren't going to wait for the Bush administration; they were starting ahead with their own efforts to reduce pollution from carbon.

Well, we ignored the warnings of experts, for example, with the risks in the financial sector and, sadly, we've seen the consequences. We have learned the dangers and added costs of trying to move after the fact, after a disaster or after some sort of natural catastrophe occurs. It is very expensive cleaning up after Katrina, after flooding, after wildfires, as opposed to taking action to try and prevent it.

We, once again, need to act as good stewards of the Earth, protecting our children and grandchildren. We must remember that there will be great costs associated with dealing with impacts once they have occurred. Mr. Speaker, Mother Nature doesn't do bailouts.

We need to focus on the big picture. The economy is the task at hand. The next step to create millions of American jobs in renewable energy, energy efficiency, and modernization of a smart electric grid is going to make a difference now. Clean energy can provide an engine to drive the Nation out of a recession and sustain our economy for years to come.

It is time for us to step forward, investing seriously in energy innovation. We invest about one-tenth of 1 percent of our annual energy bill in research. It is absolutely ludicrous to have an area that is so central to our economy and our way of life, where we see costs escalating around the globe, and that we have neglected to invest in ways to drive technological innovation. Luckily, as part of the economic recovery package and legislation that is working its way through the House and the Senate, we will be addressing this issue of greater investment in innovation.

I see I have been joined by my colleague from the great State of Washington, Congressman INSLEE, who has focused a great deal of time and attention on this question of innovation as it relates to energy. He has sponsored legislation in this regard. He has been a champion in speaking out in forums large and small around the country and is hard at work now on the Commerce Committee in the formulation of legislation that will codify these opportunities and bring them to fruition.

I am pleased to yield to my friend if he would care to share some of his thoughts in this area.

Mr. INSLEE. Well, I come to the floor with some good news tonight, and that is that the Energy and Commerce Committee will be working to produce a bill starting either late this week or early next week to really jump-start President Obama's vision for a transition to a clean energy future for the country.

□ 2030

And we reached today some very important milestones to reach consensus in our committee to move this vision forward. And I'm very optimistic about that, contentious as this is, for a couple of reasons. One, I just was being briefed by some findings about what Americans' beliefs are about this issue from a fellow named Mark Mellman, who basically looks and asks questions of people and what they think of America. And it was amazing how optimistic Americans are and how much they embrace this idea that we can innovate and create millions of new, clean energy jobs. In fact, the research showed that by two-to-one margins, over two-to-one margins, Americans believe that if we act in Congress to promote the creation of clean energy technology, to do the research and development to create these high-tech, energy-efficient sources of energy, if we create limits on the amount of pollution that polluters can put in the air, by two-to-one margins, Americans believe this will create jobs, clean energy jobs. And that fundamental belief is the thing that will allow the U.S. Congress this year to pass a bill to move us down the clean energy future.

And I would suggest there's a reason Americans believe by two-to-one margins that action on clean energy will create jobs, and that is that we're the most innovative, creative, dynamic, entrepreneurial society ever. And with all due respect to the Egyptians and the Romans, we are the most innovative society, and I think that this optimistic view by two to one that we can create jobs by moving forward in clean energy, it's really consistent with the American character. That's the first reason.

The second reason I feel excited tonight about the Commerce Committee's now advancing President Obama's clean energy vision is the same things that I've seen happen. I went home to Seattle, the Seattle region where I represent, and I just met such exciting people in the State of Washington who are creating these new jobs today.

Yesterday, I went to a company called MacDonald-Miller, a company in Seattle, and they install heating and cooling equipment and energy efficiency equipment. And a few years ago, they started to try to figure out how can they boost their sales. They were having some tough times. They actually went through a restructuring, and they asked themselves, how can we

boost our sales and build our company? And they decided to really pursue energy efficiency. And they decided to build a model, a business model, around selling efficiency services, and they showed me one thing they're doing. It's pretty amazing.

It seems so simple, but they are employing hundreds of people at this company by selling a product that will simply adjust your thermostat. If you've got an office building, it will adjust the thermostat dependent on the outside air temperature. And what they found is, and I know this sounds simple, but what they found is that people's comfort level varies on the outside temperature. So they might want it at 73 on a hot day, but they're comfortable at maybe 69 or 70 on a cold day. So they found out people's comfort level varies; so they basically are selling a product that will adjust the temperature of the office building to be consistent with that comfort level depending on the outside temperature. And they had an average reduction of energy of, I think, about 12 percent when they did that. And that's astronomical.

I mean, if you reduced everybody's energy 12 percent in your buildings, it would be incredible in your heating and cooling expenses. But most importantly, by doing that, they're creating jobs and wealth, and their sales have gone up dramatically in the last 4 or 5 years because they are adopting that strategy.

So what we are doing here in Congress in this bill, we will be adopting a provision that will call for Americans to have a higher level of renewable energy, 15 percent, and an additional 5 percent of efficiency gains that will help boost these companies that are now hiring so many people around the country.

Another company in my area called McKinstry, President Obama mentioned them when we were at the White House last week. They have similarly sold efficiency services.

So everywhere you look, you can find opportunities for this job creation. But what these companies need are policies that will level the playing field, because right now our policies just favor some of the older industries, and now we need some policies that will really level the playing field and allow this transition to take place.

Now, in this bill where we're going to be doing it, there are some costs associated, of course, as there always are. We don't usually expect something for nothing. But in our bill it's the polluters and the polluters' industries that will pay. They will be the ones that will be required to purchase and pay for permits associated with this pollution. And, generally, I think it's fairly well understood that in a society that favors responsibility, it ought to be the polluters who are responsible for costs, not citizens. In fact, there will be some assistance to citizens with their utility bills associated with this project.

So the good news that I'm hearing from across the country is Americans believe that we will create jobs if we act on clean energy, number one. And, number two, I'm seeing with my own eyes my constituents getting hired in these new emerging industries.

I went to the 3 Tier Corporation the other day. They essentially manage electricity in large corporations, manage server farms and manage the like, and they're hiring people. The AltaRock Company is doing engineered geothermal in the North Seattle area. That's where you poke a hole down, you pump water down it, it comes up hot, you make steam and generate electricity.

I went to a company called Ausra Engineering. It's a marine architecture firm in Seattle. You don't normally associate marine architectural firms with job creation and clean energy, but they are potentially working on platforms to build floating platforms for offshore wind turbines, and they are in the preliminary work of looking at particular designs to do that because we have enormous capacity for wind off of our shorelines.

So the basic American belief in the innovative spirit of the country is now being matched by these real businesses in real time, hiring real people with real paychecks, and that's what this bill is going to do that we are going to pass here out of the committee hopefully late next week to really jump-start, kick-start this job creation.

So I appreciate the gentleman's letting me join him in this discussion.

Mr. BLUMENAUER. I, likewise, appreciate your comments and observations and bringing it down to real-life examples.

One of the nice things about being a Member of Congress is that we have a chance to see these products emerge. We have a chance to hear. We both serve on the Global Warming and Energy Independence Committee that the Speaker has set up, and for 30 months we have seen a parade of witnesses come before us with new and emerging technologies in wind and solar and transportation that are already putting Americans to work while they're working to save Americans money. But that is just, I think, a hint of what we can do in the future.

I'm watching in my hometown of Portland, Oregon, where we reintroduced a modern streetcar to the landscape. We just received approval from the Obama administration to move forward with a streetcar extension that's going to not only create nearly 1,300 jobs for construction and not only will we be manufacturing the first streetcar built in America in 58 years, but I know in your area in the Puget Sound you already have the South Lake Union Trolley that is in operation. You're looking to expand that. Every one of these projects not only represents an economic opportunity, but it dramatically changes the carbon footprint.

Servicing 240 units along a trolley line instead of a suburban subdivision is a million pounds of carbon a year that is saved. A trip not taken. Being able to extend things like modern streetcars to communities large and small across America, like they were a hundred years ago, provides an opportunity for thousands of construction jobs, changing the carbon footprint, changing the technological and manufacturing advances in ways that are going to affect millions of lives.

It is so important for us to be thinking about that big picture because we are exporting overseas over a billion dollars a day for oil and we're watching that probably starting up again. Last year it was \$700 billion that was lost. And this is money that is taken out of our economy. In my community, the difference between just the fact that we drive 20 percent less keeps \$800 million a year circulating in that local economy that isn't sent to Venezuela or to Saudi Arabia.

Mr. INSLEE. Will the gentleman yield?

Mr. BLUMENAUER. I will be happy to.

Mr. INSLEE. I think that's a very important point is that the portfolio of these new renewable energy sources that are going to provide the electricity for both our toasters and for these train systems that Mr. BLUMENAUER talked about, when you generate this electricity using renewable sources, it's, by necessity, a domestic product. If you are using renewable energy to generate your electricity, you know you're using an all-American energy source, because that means the wind is right in eastern Washington or eastern Oregon.

By the way, Washington just had the biggest wind farm in America, became the largest producer of wind power in the world last year. There are actually as many people working in the wind power industry today as the coal mining industry. We're rapidly increasing the number of jobs, but we are using domestic energy when we use wind power.

I went to a company in Tri-Cities, Washington, a couple of months ago. The Infinia Company has developed a sterling engine. It's a solar energy system using a sterling engine, and that's a system where you have these concave dishes that look like large satellite dishes and they concentrate the sun's energy on a little engine about the size of a couple of pop cans, and that turns out pressure differences into mechanical energy and generates electricity. Now, when you use the Infinia system, you are getting a job creation in the Northwest, in Washington State, and you are using a domestic supply of energy, namely the sunshine that's falling on us right now.

Mr. BLUMENAUER. May I just elaborate on that point. I think that is a very important point to make, that this is 100 percent American energy, but also in terms of what happens with

the net economic impact. There are some who claim that, well, we should deal with the fossil fuels, the oil and coal, because they create jobs. Well, they do create jobs, but I think the evidence is clear that the investment in the alternative energies of the future that you're talking about, in wind and solar, the clean energy economy creates about four times the jobs for each million dollars invested as in the traditional fossil fuels. And when you consider that we are also avoiding some of the most negative consequences of burning dirty coal on the health of individuals and of the larger ecosystem, it is a multiple benefit to the economy and the environment.

You know, on the floor, and this was incredible to me, last week I heard my Republican friends being upset that the Speaker, with the initiative to green the Capitol, had replaced dirty coal with natural gas, which has half the carbon emissions. It doesn't have the other problems in terms of sulfur dioxide, in terms of carbon monoxide.

□ 2045

The Capitol Heating Plant was the number one source of pollution in our Nation's Capital, threatening the lives and health of people who work around the capitol. Children in our schools and the opponents of responsible action for a clean economy were saying that was somehow an attack on coal.

Mr. INSLEE. I think it's really important you have brought up the issue of coal. I think it's very important to note that when this bill comes out of our committee, it comes to the floor of the House. It is not going to ignore the potential of coal to remain part of our energy future.

We have huge amounts of coal reserves in this country that could power us for hundreds of years. But we need to find a way to burn it more cleanly, to take the carbon dioxide, which is now going into the atmosphere and making our oceans more acidic and contributing to global warming, to take that carbon dioxide and bury it in the Earth for 10,000 years so it's not going to be a problem. Now, in our bill we are not ignoring that issue. We are, in fact, contributing about a billion dollars a year in an effort to find a way to bury that carbon dioxide so we can continue to use coal.

Now, this is an important point, because we feel that we all need to move together, including the regions of the country that are very heavily coal dependent, and we intend to have a very well-balanced research program where we don't favor any one energy source. We are going to be doing work on solar, we are going to be doing work on wind, we are going to be doing work on geothermal, and we are going to be doing work to find a way, hopefully, to sequester carbon dioxide when it comes out of the coal-fired plants.

So I think that's an important point that all areas of the country you are going to have some benefit to find ways to use their energy sources.

Mr. BLUMENAUER. I appreciate your clarification of that. As it stands now, the way that we are using coal indiscriminately, not dealing with the consequences of not just the carbon pollution, but, frankly, there are other pollutants that we have been struggling with for years because of the hazards to human health and to the environment, but the willingness to focus on ways to truly try and make it possible to use coal in a way that is environmentally sensitive. I think it's very important. It is important not just because the United States has vast amounts of coal, but it would be nice if we could use them in a way that was safe and environmentally sound; but we are also facing a situation where there is still heavy reliance on coal in China, in India.

We, in the Pacific Northwest, are breathing Chinese coal pollution in the Puget Sound area, in metropolitan Portland every day. So your work on the Commerce Committee, to be able to have some resources to try and move this research forward dealing with ways to truly make it environmentally benign, I think it's very important, establishing standards and sticking by them.

I will be coming to the floor soon to talk about another methodology that has been employed in the past, which is an underground gasification process, where you never bring the coal to the surface, that the process of conversion takes place in the actual coal seam. There are projects under way right now in Wyoming. It was actually a technology that was developed by Nazi Germany and in the Soviet Union in an earlier era dealing with gasification of coal, but has tremendous potential for being able to use coal in a way that is environmentally responsible.

I appreciate the work that is being done to help advance these technologies and others.

Mr. INSLEE. You mentioned China, or meant to, one of the two. I wanted to comment on this too.

We are also, in this bill, dealing with, when we are advancing clean energy, we want to make sure we don't lose jobs in competition for some of these other countries, even if they don't move as rapidly as we do and try to move away from this pollution of CO₂.

And one of the things we are going to have in our bill is a provision that will protect our jobs and protect our industries against job leakage going overseas to countries that may not have some CO₂ regime to reduce pollution. We have now reached agreement, essentially, that we will essentially have a cushion for industry-intensive industries—steel, aluminum, cement—a cushion so they will be insulated from increases in energy costs associated with this so that we won't lose jobs, having these plants move to China or India or some other country that may not have a regulation on CO₂ as we do. This is a very important resolution.

I worked with Mike Doyle, a Representative from Pittsburgh, on this,

and we can now legitimately tell folks in these industries that we have this protection against job leakage. And it is a message, an important message, to countries around the world that all countries are going to have to enter into some action plan to reduce carbon dioxide.

We know we can't solve this problem without China's participation, and that's why in this bill we will also have a provision that in the event there is not progress made, that there could be trade adjustment at the border for imports from China if, in fact, China is unable to move forward with this. Now, we hope it will succeed on that and that won't be necessary.

But the point is we are designing a bill that will capture the innovation, allow us to make the electric car here rather than China, and not lose jobs in the steel industry. And I think we have designed a bill that's going to accomplish that.

Mr. BLUMENAUER. We are following, on the Ways and Means, these provisions, closely. We are looking forward to having the bill out of your committee and on to our jurisdiction, one of the areas that Ways and Means jurisdiction deals with trade provisions. And we are quite confident that we can work with you in this area to make sure that people are not able to export their carbon pollution overseas or that other countries can import their carbon pollution into the United States.

I am looking forward to seeing the refinement that comes from your committee and working with my colleagues on Ways and Means to make sure that there are strong border protection provisions to make sure this is neutral. It is not anti-trade; it is not pro-trade. It is simply preserving the integrity of the carbon pollution regulation, and I am quite confident that these tools can be employed to accomplish precisely that.

Mr. INSLEE. I think, too, when we think about this clean energy future, it has to be in relationship with what other countries are doing as well. And when we pass this bill next year, it is going to be because we believe we are not going to cede these markets to countries who could steal these markets from us.

You know, we are in a race right now to see who is going to be dominant making electric cars and electric batteries. China has an interest in doing that, and they are making enormous investments to do that.

We are in a race today to decide who is going to dominate the solar-power industry. China is making enormous investments in their solar cells. In fact, I met a fellow from, I believe it was from, Indiana who had a solar cell manufacturing plant. And he had a guy walk in from China and plunk down \$300 million and try to get him to move his plant to China, lock, stock and barrel.

And the fellow said, I am a red, white, and blue American, and I am not

leaving. But that's what we are up against, and that's one of the reasons we intend to take an aggressive position here with research and development dollars, with limits on CO₂ that will spur investment and kick start the businesses here that we need so we can regain these markets.

You know, we invented solar energy in this country, but the Germans sort of commercialized it because they saw this a little before we did. We need to get in that game today and see to it that the companies like Infinia Companies and Nanosolar that's doing thin-cell photovoltaics and Bright Source.

By the way, I want to mention this one source of solar energy that people may not have heard about, the Bright Source Company and the Ausra Energy Company, two companies doing what's called concentrated solar power. What they do is they use mirrors in various fashions to concentrate radiant energy, heat up a liquid, make steam and then create electricity from it with zero pollution associated with it.

Bright Source has now signed contracts for thousands of megawatts of crystal pure solar energy in various places in the United States, and it would surprise you, it's not just Nevada. They have places in the Southeast where they can do this as well.

And it is this type of technological breakthrough that if we put our minds to it and pass this bill, we are going to jump-start jobs in this country.

Mr. BLUMENAUER. I appreciate the context that you have provided, and your unrelenting interest in understanding and acknowledging and advancing American technology, but, sadly, we are not—you mentioned having fallen behind the Germans, for example, in technologies that we developed in terms of the commercial application.

China is spending six times more than we spend on clean energy, \$12.5 million every hour of Chinese expenditure. We can't afford to be complacent about this. We need a sense of urgency.

While we are pleased with what's happening in the Pacific Northwest, you referenced the large wind farm in southeastern Washington. Portland, Oregon, is competing with Denver and Houston to be the wind energy capital and a couple of international companies have located their American headquarters there. And there are many technologies that we helped initiate, but we are falling behind.

We rank below Spain, Denmark and Portugal in the use of wind power. We watched what happened where little Denmark, what, about the size of the State of Washington, set its sight on being a wind energy leader, being the wind energy leader 30 years ago and have accomplished amazing feats, both in terms of their own energy production and the dominance of world wind energy activity, that one of those leading companies I mentioned that has its American headquarters in Portland, is Vestas, a Danish company.

So we watch what countries that we think are less developed than in the United States, like the Chinese, or small countries, like Denmark, really making significant advancement and putting the pressure on us to step up and do what we know we can do.

Mr. INSLEE. The gentleman has mentioned wind. Some people think of wind as kind of a toy you get under a Christmas tree or something. In fact, wind energy, according to the Department of Energy, and this was under the previous President's Department of Energy, concluded that we could have 20 percent of all of our electricity generated by wind in the next couple of decades, just using existing technology.

Now, we believe there are going to be some advances in technology. We think there is a good shot at having good storage. One of the issues of wind, of course, is the wind doesn't blow all the time. It's an intermittent source. So there is two ways to get around that problem: one, have multiple wind sites that are tied together in an advanced transmission grid so if the wind is not blowing in one place, it will be blowing in another; or to have a storage system.

And I have talked to these companies now that are developing batteries that are as large as a semi-trailer, and these now have the potential of actually being grid connected to store wind and solar when we have excess power generation. So we think there is a reasonable chance to get to 20 percent, which is very significant, just on one technology alone. Then we have so many options, of course, including efficiency, which can be done everywhere, day or night.

Mr. BLUMENAUER. And even problems of the intermittency dealing with wind energy, if it is coupled with other areas of innovation, like plug-in hybrids and using storage capacity in vehicles to be able to help balance some of the loads, we have tremendous opportunities to have these work together.

I must say, we are both from the Pacific Northwest, the issue of wind integration and how we are going to do that is something that is looming large on my agenda. I know you are concerned. We have our regional power marketing authority, the Bonneville Power Administration, which has been a leader in helping facilitate wind energy, but now it's looking at really rather dramatic cost increases for wind integration, which I am hopeful that we can look at very hard and help them find ways to not provide disincentives for wind energy production right at the point where all of the incentives that we have put in place are starting to kick in.

□ 2100

It would be unfortunate if somehow they are priced out of the market at just the time we want to engage them.

Mr. INSLEE. We appreciate the gentleman's leadership on that. I want to

thank you. I must excuse myself, but I want to thank Mr. BLUMENAUER for being such a stalwart champion of these causes. We know there's going to be thousands of jobs created in this clean energy revolution, and I hope a lot of them are going to be in Oregon, which is a great State.

Thank you for letting me join you, Mr. BLUMENAUER.

Mr. BLUMENAUER. Thank you, Congressman INSLEE, for joining us, and for your leadership and comments.

Mr. Speaker, I hope that this Chamber will be able to reject the arguments of people who are looking at the smallest possible elements of the puzzle; people who are seeking to politicize it for short-term electoral gain at the expense of the long-term interests of our children.

I, frankly, have been embarrassed by some of the argumentation that we have heard; the misrepresentation of just basic factual information.

One of the things that we are hearing, sadly, from Republican leadership, is consistent misrepresentation, for instance, of the MIT study that you will hear referred to. The St. Petersburg Times had an editorial of late saying, "The GOP is full of hot air about Obama's light-switch tax. If the Republicans had simply misstated the results of the MIT study, the Truth-O-Meter would have been content giving this one a False. But for them to keep repeating the claim after the author of the study told them it was wrong means we have to set the meter ablaze. Pants on Fire," was their evaluation.

In the Wall Street Journal: "For starters, the figures cited by Republican House leadership is almost 10 times higher than the cost estimate provided in the study" by Professor Reilly of MIT.

The Boston Globe: "One particular issue is Republicans' assertion that a cap-and-trade system on greenhouse gases would mean a 'light switch tax.' 'It's just wrong,' Reilly said. 'Wrong in so many ways, it's hard to begin.'"

I would hope, particularly when we still have not had the actual provisions of the legislation put in place, for people to make wild misrepresentations about costs and consequences does a disservice to what is one of the most important debates of our generation.

Being able to protect the planet, to restore our economy, to regain our position of technological leadership, and be able to put us on the path of sustainability environmentally and economically for the future, the stakes are too high to have misrepresentation, to have an inability for people to engage in reasonable discussion.

I know the Republican leader has said that his members shouldn't be legislators; they should be communicators. They should be talkers instead of doers. I hope—I fervently hope—that many of our colleagues on the other side of the aisle will reject the leadership's marching orders to politicize, to talk, and to not engage; but, instead,

to deal with the facts; instead, deal with opportunities to restore our economy; to create millions of clean energy jobs—some in a whole new industry; that we take important steps to reduce the tragic dependence on imported oil.

Even if we weren't concerned about the pollution, even if we weren't concerned about global warming and the damage that is attendant thereto, just in terms of the strategic interests of the United States, we should stop wasting more oil than anyone in the world. We should stop using more oil per capita for transportation than anybody in the world. We should reduce our strategic vulnerability to actions of people who don't like us very much in unstable or hostile parts of the world. And, of course, the damage that is done to our economy by shipping over a billion dollars a day overseas.

I'm hopeful that we will be able to reduce the carbon pollution that causes global warming, that will enable us to be good stewards of the land now, because the effects of global warming are going to cost a lot more than the consequences of reducing it.

As we have discussed this evening, this is in fact an opportunity for us to put our economy back on track, create millions of jobs, strengthen our strategic position, while we make a contribution to the future of humankind.

Mr. Speaker, I appreciate the opportunity to spend some time this evening dealing with this issue. I look forward to continuing the discussion about the new technologies, about the facts of science and economy on the floor as we prepare to move this legislation forward. Thank you.

THE HIDDEN HAND

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Ohio (Mr. LATOURETTE) is recognized for 60 minutes as the designee of the minority leader.

Mr. LATOURETTE. Tonight, I return to talk about an old topic and also to talk about something that's just happened in the last couple of weeks.

The Speaker may recall that a number of weeks ago there was outrage at both ends of Pennsylvania Avenue when it was determined that located within the \$792 billion stimulus bill there was a provision that authorized \$173 million in bonuses to executives at the insurance company AIG. At the time, a number of us thought, Well, how could that happen?

It seems, just to review, Mr. Speaker, that when the stimulus package was considered on the other side of the Capitol in the United States Senate, two Senators, in a rare display of bipartisanship—Senator SNOWE, a Republican of Maine, and Senator WYDEN, a Democrat of Oregon—authored an amendment that would have put restrictions and basically indicated that if you were a firm like AIG that has received billions and billions of dollars in bail-

out money, perhaps there should be some restrictions on executive compensation and what people should make.

Well, a funny thing happened, however, on the way to the conference committee. The Snowe-Wyden language was removed and instead this paragraph was inserted.

Now this paragraph, if you read it carefully, Mr. Speaker, indicates that rather than placing restrictions on the bonuses, it specifically authorizes and exempts any bonus at AIG or any other Wall Street giant that received billions and billions of taxpayer money. Any executive compensation scheme that was entered into before February 11 of this year, which happened to be the date that the stimulus package was considered, would be exempt and the bonuses would be paid.

Now I have indicated a number of times on the floor that I know that a lot of people were embarrassed by that. I would suggest that that's what happens when you legislate in a sloppy, rushed, haphazard, nonpartisan fashion.

The Speaker will recall the week of the consideration of the stimulus bill, the members of the Republican Party—the minority party—put forward sort of a novel proposition, and that was since we were talking about spending \$792 billion in the stimulus bill, it might be a good idea if Members had 48 hours to read the bill, and further suggested it should be put on the Internet so anybody in America could take a look at this over a thousand pages of legislation.

Well, that proposal passed. It came to a vote here in the House, and every Member who was present that day, Republican or Democrat, voted and agreed that that was a good idea. That we should have 48 hours to read the bill. That was Tuesday.

On Thursday, apparently the majority leadership forgot about the vote on Tuesday. And the bill was filed about midnight on Thursday.

The next morning—and I have apologized to my constituents that I didn't read the thousand pages at midnight. It didn't come to my attention that we had a thousand-page bill that we were going to consider on that Friday until I arrived at the office that morning.

But the debate was 90 minutes and, basically, Members, both Republican and Democrat, had 90 minutes to digest a thousand pages and determine whether or not that piece of legislation deserved an up or a down vote.

It was a bipartisan vote, in that every member of the Republican Conference voted against the stimulus bill, together with some Democrats. But the overriding majority of the Democratic Party voted in favor of it. And it passed and went on to be signed by the President of the United States.

What is strange is that everyone who voted for the stimulus bill voted for this paragraph that authorized the bonuses to AIG. Yet, the next day or days

after the bonuses were announced, everybody was coming to the floor beating their chest and pulling out their hair and saying, I'm shocked. I can't believe it. I don't know how this happened. We want our money back.

Well, nobody should have been surprised, nobody should have been shocked, because anyone who supported the stimulus package in the House or the Senate voted—the final conference report—voted to specifically allow AIG and anybody else that had received billions of dollars of taxpayer money and bailouts to receive those bailout payments.

But people were shocked. And so they came up with—I will call them goofy—they came up with goofy pieces of legislation in an attempt to cover their political rear ends.

And so the first one was, Let's tax those bonuses at 90 percent. Well, what a dumb piece of legislation that was, Mr. Speaker. So tomorrow we decide we're mad at somebody else. Maybe tomorrow we're mad at the oil companies so let's tax them at 90 percent. Day after that, we're really not happy with the airlines so let's tax them at 90 percent.

To use the Tax Code to punish a small group of people when the mistake was made when this paragraph was inserted in the stimulus package is inappropriate and, thankfully, the President of the United States—President Obama—expressed his opinion that it wasn't a worthy piece of legislation, and it has died a natural death over in the United States Senate, where it exactly should have.

The next dumb idea that people came up with was, Well, I know. Let's not tax these bonuses at 90 percent. Let's have the United States Treasury—the government—tell people how much money they can make. What a dumb idea that is.

So, today it's the AIG guys. Again, tomorrow, let's say that we are not so crazy about the amount of money that bus drivers make. Well, why doesn't the Department of Transportation—Secretary LaHood—just figure out what the bus drivers in the country should make? Another cover-your-rear-end piece of legislation.

So in response to all this we have been coming to the floor on a semiregular basis to try and determine, because even though everybody was outraged, no one will say how the first language was removed from the bill and how this paragraph was placed in the bill.

And so we have devised a game that most Americans are familiar with—the game of Clue. A great game, and I recommend that everyone think about running out to Hasbro to get either the original edition or this edition.

This is the case of "The Hidden Hand." And that is: Who took out the Snowe-Wyden amendment and who wrote that paragraph that I had displayed on the chart before?

Now there are a number of suspects. We have taken some out, we have put

some in. But if you read the news reports of the final negotiations on the stimulus bill, we know that it either happened in the Speaker's office or the conference room, and there was this shuttle diplomacy going back and forth as to what the final bill was going to look like.

As a matter of fact, the distinguished chairman of the Ways and Means Committee, Mr. RANGEL of New York, was quoted in the paper the next day words to the effect that, It's difficult to get stuff done when only three people run the institution. So we excluded a couple of weeks ago Chairman RANGEL. He's not the hidden hand. He didn't do it.

So, like the game of Clue, we know that it happened in the Speaker's office or the conference room, and we know that the weapon that was used was a pen. What we can't figure out and what people haven't owned up to at this moment in time is: Who did it? It's pretty simple. Quite frankly, somebody did it. The thing didn't appear from nowhere.

□ 2115

Someone had to actually say to the drafters of the document, take out Snowe-Wyden, and put in what's commonly been now referred to as the Dodd amendment. Put in the Dodd amendment.

Now we have asked repeatedly, and we have asked everybody we can find, Did you do it? And no one has answered the question, I did it or why.

So because we couldn't finish the game of Clue on our own, we embarked on another tack. About a month ago I filed what's called a resolution of inquiry. It was directed to the Secretary of the Treasury, and it basically asked the Treasury to provide to the United States Congress all of the documents and communications with AIG and others to try to figure out who the hidden hand was, how the Dodd amendment had got into the stimulus package.

Well, I want to recognize a champion, somebody who's been more than good to his word, the chairman of the full Committee on Financial Services, BARNEY FRANK of Massachusetts, after it was filed came to me and said, I'll do whatever you want me to do with this resolution. If you want me to not consider it, I won't consider it. If you want me to consider it, we'll consider it. And I said, I would like you to consider it.

So Chairman FRANK took it before the Financial Services Committee. Everybody would have 48 hours to read the bill. The resolution of inquiry was called up, and everybody on the Committee on Financial Services, every Republican and every Democrat voted for this resolution of inquiry.

And I'm thinking to myself, Now we're going to get someplace. Now we're going to figure out who the hidden hand is. Now we are going to figure out who sought to protect the \$173 million of bonuses paid to AIG.

And right before we broke a couple weeks ago, Chairman FRANK came to

the floor, good to his word. He filed the report and recommended that the Financial Services Committee report the bill favorably to the House.

Now I thought surely we would have a debate on that. Again, this wasn't a party-line vote. It wasn't close. It was 63-0 or 64-0. And I thought for sure we could get this resolved so we could go down to the Treasury, and the Treasury could hand over the documents and we could be done with the game of Clue, and we could solve whether or not it was the Speaker, did she want to do it? Whether it was HARRY REID, the majority leader in the Senate. Whether it was Mr. Geithner, who is the new Secretary of the Treasury. Whether it was the chief of staff to the President of the United States, Mr. Emanuel, because some press accounts indicated that before it could be removed, they had to get the approval of the White House. Well, who in the White House approved it? We've cleared Chairman RANGEL, and a lot of fingers were pointed at Senator DODD, the distinguished Chairman of the Senate Banking Committee, that perhaps he had inserted it.

But what people have said to this moment in time, Mr. Speaker, is that Secretary Geithner called the head guy at AIG, and the head guy said, Well, we've got some legal problems with the bonuses. So we need to go forward.

But nobody yet has come forward and said, I took the language out, and I put the language in, and here's why.

So I was happy when Chairman FRANK reported the bill. And I thought, I know that the distinguished leader, majority leader of the House, Mr. HOYER of Maryland, is going to call that bill up. We're going to debate it. We're going to vote on it.

Again, 63-0, all the Democrats, all the Republicans voted for it. I was sure it would sail through the House. But I've been waiting, and I've been waiting a month.

I know you know this, Mr. Speaker. But legislation can only come to the floor here in the House of Representatives when it is authorized and called up by the majority leader, in this case, Mr. HOYER of Maryland.

There is an exception to that. So I waited for the bill to be called up. I waited for a debate. It never happened, and so I filed, about 2 weeks ago, a rule and today at the Speaker's desk is a discharge petition to discharge that rule so we can have a debate, so we can finally get down to brass tacks, and we can figure out who the hidden hand is, and we can figure out who decided that we should protect the AIG bonuses when these companies have gotten billions of dollars of bailout money and why. That's a pretty simple question.

Now I'm optimistic—there's a meeting tomorrow at 4 o'clock with the Treasury Department, and they've been pretty cooperative. They're going to come over, and hopefully we'll be able to resolve what it is that we are seeking through the resolution of inquiry. I hope so.

If not, I really hope that the distinguished majority leader would call up this piece of legislation so that we can have a debate, and we can get on with it. And we can solve this problem that outraged the President of the United States, it outraged Members of Congress, it outraged the public. This would help us figure out how to solve the problem.

Now what we hear a lot of times around here is, well, we have so many important things to do that you're looking backwards.

I mean, okay. We gave away billions of dollars in TARP money. We gave away and authorized \$173 million, and somehow somebody in the dead of night inserted this language into the bill with a hidden hand. But get over it because we have important work to do in the House of Representatives. Sadly, Mr. Speaker, we have heard that a lot since the beginning of the 110th Congress, the last Congress.

I will tell you, I mean, we voted today. I think every person in the United States needs to feel comfortable because they will not go in and buy a new 44 cent stamp at a post office that hasn't been named by the House of Representatives over the last 2 years.

We spent a lot of time naming Federal buildings. We spent a lot of time naming post offices, and this happened to us last year too.

The Speaker may remember that last summer everybody was talking about not AIG and bailouts, but everybody was talking about gas prices. And in many parts of the country, gas—for the first time in my lifetime, a gallon of gasoline went over \$4 a gallon. At that time we asked the new majority party, could we have a debate and come up with an energy bill and relieve some of the pain that people are experiencing at the pump? And they said, Well, we're really too busy to get to that.

So a lot of Republicans took to the floor during our August recess and talked about the fact that we needed to do something. We needed to do all of the above. We needed to have clean coal technology. We needed to look at the renewables, wind, solar, geothermal. We needed to determine whether or not we were going to explore for more oil and natural gas in the United States.

But again, because it is the majority party that calls the tune in the House of Representatives. They're the only people, with some exceptions, that can call up legislation. That never happened.

And they said, you know what, we're really busy, and we really don't have time to talk about gasoline. And a lot of us said, you know, okay, when gasoline was \$2.22 on January 29, 2007, which was about the beginning of the 110th Congress when the voters—because we, Republicans, had done such a great job—threw us out and installed the Democrats as the majority party in the House of Representatives, gas was \$2.22. And rather than talking about

energy, we passed a resolution congratulating the University of California Santa Clara soccer team.

Now, Mr. Speaker, I'm sure that every parent and every player on that soccer team is proud of what it is that they accomplished, but not as important as the pain that our constituents were beginning to feel at the pump.

But you could say, hey, it's only \$2.22. What's the big deal? So maybe it's not a crisis. Well, then on September 5 of that year, gasoline goes up to \$2.84. And you would say, oh, you know, I'll bet we're going to talk about gasoline prices and the national energy policy. That has to be something that we're going to consider on the floor of the House of Representatives.

Well, when gas hits \$2.84, the most important issue that the majority can bring up is National Passport Month. Now I like passports. I think passports should be honored. But gas is creeping up to \$2.84.

Well, it begins to get a little more serious. In February of 2008 it hits \$3.03. You know that we're going to begin talking and take this problem seriously. But on the day that the national average reached \$3.03 a gallon, the most important piece of legislation that the majority could bring to the floor was to commend the Houston Dynamo soccer team for what they did.

Now, you know, those of us in elected office know the new buzzword, we have to look at the soccer moms. So apparently we had to get the soccer moms not once, we had to get them twice because our two resolutions, when gas was \$3.03 and when we started, they honor soccer folks.

But then a big jump happens. In the spring of 2008, gas goes to \$3.77 a gallon. And you say, well, listen, you know, we're going to talk about gas now because my phone was ringing off the hook. I assume the Speaker's phone was ringing off the hook. And you know that we're going to have a national energy bill that we were going to discuss because they are honest disagreements. Some people were saying, Drill, baby, drill. Some people were saying conserve. All we wanted to have was a debate.

So gas hits \$3.77, and you know we're going to have that debate in the House, but not yet.

On that day, gas hits \$3.77, and the most important thing we can do here in the Congress is to commemorate National Train Day. Now, again, I think trains—we've made a big mistake in this country by not investing in rail transportation, passenger rail transportation. But when gas is \$3.77, maybe we could come up with something better than National Train Day.

Gas continues to climb. We're out to almost Memorial Day last year, where we are about this year. \$3.84 a gallon. And the most important thing that the majority can give us is the Great Cats and Rare Canids Day Act. Now, I have to tell you, I know what a great cat is. Those are lions and tigers and things

like that. But I didn't know what a canid was. And if you don't know, Mr. Speaker, it's a dog.

So on that day when our constituents were paying \$3.84 a gallon to fill up their cars, we were recognizing dogs and cats on the House floor.

It continues to go up as we get to June, \$4.09. It crests \$4, as I said, for the first time in my lifetime. You know we're going to talk about gas in the greatest deliberative body in the world.

But no. On that day when the national average was \$4.09, we declared 2008 the International Year of Sanitation.

Now some of the people back in my district were not understanding this. They're saying, are you kidding me? We're paying \$4.09 a gallon, and you are declaring this the International Year of Sanitation?

But it peaks out there on June 17, 2008, \$4.14 a gallon. Now clearly everybody in the country is screaming about energy. All you have to do is turn on the television and see the talking heads. They're all talking about energy, why is gas so expensive? Well, you know now, we're going to get it. Now we're going to understand. We've got to have a national energy debate. What direction are we going to go in to reduce our reliance on foreign oil? Seventy percent of the oil that we use in this country is brought in from other countries. Surely we're going to do something about that.

And I'll bet when I take this sticky note off of June 17, the day that gas hits \$4.14, I know we had a debate on energy that day.

□ 2130

No. It wasn't an energy debate on that particular day. We passed the Monkey Safety Act. Now, Mr. Speaker, I don't know anybody that wants unsafe monkeys. We should want safe monkeys in the United States of America. But on the day that our constituents are paying \$4.14 a gallon for gas, do you think that the most important issue facing the United States Congress, this august body, is the Monkey Safety Act? Well, it was to those who schedule the floor. So, sadly, we thought maybe people got it, that that probably wasn't the best use of our time when gas was going through the roof.

Well, this year, Mr. Speaker, as the gentleman knows, we have had a big problem with unemployment. Our Nation is hurting. There are people that have lost their jobs, and there are people that continue to lose their jobs. And so on January 6, which was the opening day of this 111th Congress, we all got together, and it is before President Obama took the oath of office, because we all know that that historic day was January 20, you have an unemployment rate that is beginning to climb. But as you see at the outside, by the time we get to the end, it is pretty significant.

Well, so January 6 is the opening day of the United States Congress. January 20 is the day that President Obama was inaugurated, and there you see unemployment has inched up a little bit. You certainly can't blame President Obama. He was not even the President of the United States then, but the Congress was in session since January 6. That is when the new Congress started. We elected Speaker PELOSI again to be the Speaker of the House.

So we get along to February 3. Again, the Congress has been working hard for 1 month, and you know that we are going to have some economic package to help alleviate the pain that is going on in this country with people that have lost their jobs. But on February 3, the most important thing that we could do here in the House was to pass a resolution supporting the goals and ideals of National Teen Dating. Now, I don't know whether that means that teens are dating nationally or it is a national day of teen dating, but rather than talking about the pain that was being experienced in communities all across the country, we recognized teen dating. Now, again, like with the monkeys, I want teen dating to be safe.

Well, unemployment continues to rise. We get to February 10. Hundreds of thousands of more people lost their jobs, and on that day, the best we can do here in the House is to commend Sam Bradford for winning the Heisman Trophy. And just like the soccer moms, I'm sure that the Bradford family is more than pleased, and they should be. They should be proud of what their son has accomplished. But again, unemployment continues to rise, hundreds of thousands of people are losing their jobs, but we are too busy to talk about that. We are going to do that.

Now, February 24, you will notice a theme here, Mr. Speaker, unemployment continues to go up. And I know we are going to deal with this situation and that we are going to find a way to help people who have lost their jobs. But because the United States Senate didn't enact the Monkey Safety Act last year, we called up the Monkey Safety Act again. And so for the second time in 2 years, we didn't have time to do an energy policy, we didn't have time to talk about unemployment, but we did have time in the House to pass the Monkey Safety Act not once but twice.

Unemployment continues to go up on March 3. And just in case anybody is confused about the United States Congress' commitment to animals, we pass the Shark Conservation Act.

And as unemployment continues to arc out, and I apologize for only going to rise since then, I bet we are going to talk about unemployment and how we help people back home. But on that day, we passed the resolution supporting "Pi Day." Now, I was excited when I got the whip notice, because I thought it was p-i-e, pie. And I like pie a lot. But this pi is the mathematical

3.14. And rather than discussing a lot of things that are going on in the United States, we felt it was necessary and that the most important thing was to recognize pi and support "Pi Day," and we all did, and we are all really happy that we did, because the country is a better place because we recognize pi on March 11.

So, coming back to the game of Clue, I think that we have demonstrated that maybe we weren't too busy to get to the resolution of inquiry. Maybe we weren't too busy to figure out who put that offending paragraph in. Maybe we weren't too busy to explain to our constituents how folks on Wall Street who have sucked up billions and billions of taxpayer dollars that are paid into the Treasury by hardworking people all across the country, how through a drafting, it wasn't an oversight, somebody intentionally put it in there, how they rewarded these people with \$173 million of bonuses.

Now, all we want is for people to say, "I did it, and here is why I did it," and then we can move on to do something else. But to indicate that we are too busy to get to that question I think is not okay.

Now, Mr. Speaker, the second issue that brings me to the floor is last week and the week before, the country was rocked with the announcement of the bankruptcy filing of Chrysler. And a lot of people deserve credit. The President of the United States deserves credit. His auto task force deserves credit. The workers at the Chrysler plants across the country, the ownership, the employees, the white collar employees all deserve credit for making concessions and attempting to work it out. The Italian automaker Fiat had been courted. The President said, You have 30 days to work out a deal with Fiat or bad things are going to happen. Fiat stepped up to the plate. And 1 week ago Wednesday, and this is where, really, it is baffling to me, 1 week ago Wednesday, United Auto Worker members all across the country, and there are about 38, 39,000 of them that work for Chrysler, went to their local union halls to determine whether or not to ratify an agreement making these concessions so that the Chrysler deal could move forward either in or out of bankruptcy, and Fiat could purchase those assets out of bankruptcy if that is the way it went.

And you may remember that there were a number of bondholders, people that held the paper for Chrysler, and most of them agreed to negotiate what it is they were owed. There were some that did not. And so the only route left was to go into bankruptcy, and Fiat now will purchase Chrysler's assets out of bankruptcy. But all of the auto-workers that worked for Chrysler went to the union hall and voted whether or not to accept these pretty big concessions, and it passed.

As a matter of fact, I have a Chrysler facility in my district, the 14th District of Ohio. It is the Twinsburg

stamping plant. And those approximately 1,200 union workers went to vote on Wednesday, and 88 percent of them voted to approve the concessions that were being asked of them.

And a couple of things. The paragraph, Mr. Speaker, that is on the easel now behind me is, if you look at the agreement reached between the auto-workers and Chrysler, there was a specific provision. And as a matter of fact, the president of local 122 in Twinsburg, Doug Rice, deserves a lot of credit, because if you look at the stamping plant in Twinsburg, what you saw was they were stamping parts for an assembly facility in Newark that was not going to be utilized anymore. So recognizing that there may be a downturn and that people may use that downturn as an excuse to shutter the facility, Doug Rice specifically negotiated a paragraph that is labeled, "Twinsburg Stamping Plant." And, Mr. Speaker, I will insert page 4 of the UAW agreement into the RECORD.

SOURCING, PRODUCT AND INVESTMENT COMMITMENTS SOURCING

The UAW strengthened our involvement in early product sourcing decisions. Annually, the company will review its five-year global assembly and powertrain cycle plan with the union.

In addition, sourcing-related activities have been identified in which the UAW will participate to accomplish early and direct involvement for our members.

CURRENT AND FUTURE PRODUCT COMMITMENT AND FUTURE INSOURCING OPPORTUNITIES

The 2007 Product Commitment and Investment Letter reflects the company's plans. It is understood that additional confidential dialogue has been exchanged with respect to the favorable effect of a Chrysler/Fiat alliance on Chrysler's operations. The effect could result in incremental product loading in the company's assembly and powertrain operations.

UNION INVOLVEMENT AND SUPPLIER RELATIONS

The UAW and Chrysler agree that there are ways in which a seat supplier and its union can achieve a competitive labor cost structure that enables the supplier to provide a competitive bid to the company.

To advance those opportunities the union will explore a variety of means to ensure a competitive, fully fringed labor rate.

During these negotiations the UAW and Chrysler agreed that a fully fringed labor rate of \$35 per hour for seat assembly when the work is being done at a supplier is considered by the company to be competitive.

SUPPLIER MEETINGS

The parties will continue ongoing dialogue to review the supply base and review opportunities to improve the company's supplier base. Discussions will include the quarterly Distressed Supplier Roundtable meetings with senior management from Procurement and Supply, Union Relations and the National Committee, and UAW Chrysler Department leadership.

PRODUCT LOADING REVIEW

The UAW and Chrysler LLC will meet to review vehicle plans for assembly, stamping, powertrain and components operations in the United States, Canada and Mexico. The meetings also provide an opportunity to discuss long-term plans for the company.

SOURCING ADDENDUM

As stipulated in the 2007 CBA, the current Roundtable and Powertrain meetings will

continue to provide an avenue for union involvement in the Chrysler product decision-making process.

Roundtable Meeting

The UAW-Chrysler Roundtable Meeting will continue on an annual basis and will include comprehensive vehicle plans for the United States, Canada and Mexico assembly, stamping, powertrain and components.

Powertrain Meeting

The UAW-Chrysler Powertrain meeting will continue each year and include a comprehensive review of the United States, Canada and Mexico Powertrain Long Range Plan and Powertrain Plant product loading.

The UAW will continue to participate in the Product Team Sourcing, Pre-Program Start and Program Start meetings, giving us the opportunity to focus on information provided throughout the Chrysler Development System process and Supplier Selection Period. The National and Local Job Security Operational Effectiveness and Sourcing Committees provide an additional avenue for UAW input on sourcing decisions.

UAW, CHRYSLER AND SUPPLIER PARTNERSHIPS

The company has agreed to a quarterly meeting between the UAW Vice President and Director of the UAW Chrysler Department and Chrysler Purchasing Directors for commodities and supplied parts, to foster partnership between the UAW, Chrysler and key suppliers.

TWINSBURG STAMPING PLANT

During these discussions the company agreed to review the long-term utilization plan for the Twinsburg Stamping Plant and to share those plans with the UAW. The company will consider investment costs and current market demand in determining the plant's suitability for placing non-stamping work in the facility, at tier-11 rates, to keep TSP viable.

FIAT INVESTMENT AND PRODUCT COMMITMENT

Your UAW leadership has been in intense negotiations with representatives of Fiat and Chrysler over the past several months to arrive at a partnership arrangement that will secure Chrysler's long-term viability. As a result of these discussions, the term sheet establishing the Chrysler/Fiat alliance includes a commitment from Fiat to manufacture a small car in one of Chrysler's U.S. facilities.

In addition, Fiat will share key technology with Chrysler, (such as the 3.0 liter diesel and 1.4 liter gas engines) and all its product platforms. This is equivalent to an investment by Fiat amounting to more than \$8 billion and will create approximately 4,000 new UAW jobs in the United States.

So this paragraph indicates that during these discussions, and this was Wednesday again when they were asked to vote on it, Chrysler agreed to review the long-term utilization plan. The company will consider investment costs and current market demand in determining the plant's suitability for placing nonstamping work at the facility at tier 2 rates to keep the stamping plant viable. So what the people at 122 think that their president negotiated, and he did, was a provision that, okay, we have tough times here in Twinsburg, but now the company has agreed that we are going to look at ways to bring other work to Twinsburg.

So they went to vote 1 week ago Wednesday, and 88 percent of local 122 voted to approve the contract. Well,

then sadly for those folks, the sun came up 1 week ago Thursday, and my day was a lot like the day of other Members of Congress who have Chrysler facilities in their district. The first thing that happened was that we had a conference call, if you wanted to participate, with President Obama's automobile task force. And on the phone was Ron Bloom, who is the head of it, Larry Summers, who is the President's financial adviser, and maybe a couple more. And Members of Congress, Governors and other people who were interested were in on the call.

The notes that I took contemporaneously with that telephone call, it began with, "This is a good day for Chrysler and the people that work there." They went on to describe how the bankruptcy was going to work and basically what I described before, that because some of these bondholders wouldn't come to the table, we had to go the bankruptcy route, but the good news was, on the other side, Fiat was going to purchase Chrysler out of bankruptcy and we were going to move on.

I thought I—I know that I understood that that meant that the plants were going to stay open. We did hear that there was going to be some idling, which they said at 1 o'clock, when you talk to Chrysler, Chrysler will tell you what the idling is, but no indication of plant closures, no indication of job losses, and so we moved on.

So then at noon, at the White House, and it is a pretty famous picture now, the President of the United States, President Obama, made the announcement at 12 o'clock 1 week ago Thursday about Chrysler. And like many Americans, and certainly many people who work at Chrysler, this is what the President of the United States said on April 30 of this year at the White House: "No one should be confused about what a bankruptcy process means. It will not disrupt the lives of the people who work at Chrysler or live in communities that depend on it."

Now, that is a pretty clear observation. I understood it. And then at 1 o'clock, the former CEO of Chrysler, Mr. Nardelli, had another conference call in which anybody who had questions or wanted to hear from the head of Chrysler could participate in that conference call. And you could ask questions. I asked a question about the supply chain, would the suppliers be paid?

The first question during that call came from the Governor of the State of Michigan, Mrs. Granholm, and I thought that she asked a really great question. She said that when the President made this announcement, he said, it is a great day, words to that effect, we are going to be able to save 30,000 jobs. And Governor Granholm asked Mr. Nardelli, This is great work, nicely done. We are very proud of you, but I just want to ask a question. I want to make sure that when the President of the United States said 30,000 jobs, he

wasn't speaking in code, because there are about 39,000 people that work for the Chrysler car company in the United States of America. And after a lot of discussion about how many people were worldwide and all this other business, no, the President wasn't speaking in code. The jobs are safe. The plants are safe.

Now, I left that phone call feeling pretty good. And as a matter of fact, I called my communications director and I said, Hey, put out a press release praising President Obama, praising his task force, and praising all the people that made sacrifices at Chrysler, because this was a pretty good day. No plants are closing. Nobody is losing their jobs, and we are going to move on.

Let me just go back to that phone call and express the disappointment, because I know that the folks at Chrysler are under a great deal of pressure today. But that phone call, when we got on the phone call, you had to agree and understand that the phone call was being taped. And so what I just referenced about Governor Granholm would have been tape-recorded on that telephone call.

We also had a Democratic Member of Congress on the phone from Wisconsin, and it was Representative GWEN MOORE of Milwaukee. She asked directly about the future of the Kenosha, Wisconsin, engine plant which employs 800 people. But for some reason, and Mr. Nardelli now says that he made a mistake and he confused Kenosha with another plant in Trenton, but in responding to Congresswoman MOORE, he said, I mistakenly conveyed the status of the Phoenix investment in Trenton, Michigan. It is not even in the same State. I thought Trenton was in Wisconsin. So you have got Kenosha, Wisconsin, and you got Trenton, Michigan.

The facts that I described were accurate, and he basically told Congresswoman MOORE they loved the plant, everything was good, everything was going to be okay. And like my folks in Twinsburg, Ohio, I assumed that the 800 autoworkers in Kenosha, Wisconsin, that went to the ballot box to determine whether or not they would voluntarily reduce their compensation and benefits thought that meant they would continue to have jobs.

□ 2145

But that turned out not to be the case. Later that afternoon, buried in the voluminous bankruptcy filing by Chrysler, which was anticipated, was the fact that the first five, and then erstwhile reporters dug out eight Chrysler plants across the country were scheduled to be closed on a sliding schedule. In the case of Twinsburg in 2010, and roughly 9,000 auto workers who worked for Chrysler were going to be out of jobs and their plants were going to be closed.

Imagine my surprise, among other people, and the fellow from Chrysler called and apologized. He said, We are

sorry to have communicated that in that way. We wish we could have done it in another way.

I said, Listen, who knew that these plants were going to be closed? If you were an auto worker in Twinsburg, Ohio, why would you vote for a contract that meant you wouldn't have a job? Why would you vote for a contract that meant that you weren't going to have a job any more? It didn't make sense.

Although the apologies are nice, we have a situation where 39,000 auto workers went into the ballot box believing that by approving this new contract and these concessions, they were going to save the company and they were going to save their jobs.

So I issued a second release saying that is not what I heard on the conference calls, it is not what I heard from Chrysler, it is not what I heard from the President's Auto Task Force, and it is not what I heard the President of the United States say on Thursday.

Well, the first response to my local newspaper, Cleveland Plain Dealer, was that I was confused. And so I immediately went out and I bought one of those new Miracle Ears, and I now have the Miracle Ear so I can understand things a little more clearly than I did before. But I began checking with other people on the call, and their recollections were the same as mine.

I called Chrysler and said, You know what, I don't think I misunderstood, but I know this telephone call was taped because your contractor said at the beginning of the call the call is going to be taped, and if you don't want to be on a taped call, hang up and don't participate in the call.

I said to really prove this, Why don't you just give me the tape. And then I said, Well, okay, not the tape, give me the transcript.

They called back. They said there is a transcript; the lawyers have to figure out whether or not you can have the transcript. This was last Wednesday. And today, I got kind of a terse letter that has a question that was asked by a representative of my Governor, Governor Strickland, on the phone call, and they have been kind enough to give me those two paragraphs, but no transcript, no observations, no words that I know that they have that were spoken by Governor Granholm, no words that were spoken by Representative GWEN MOORE of Wisconsin either.

So I have to tell you, it is a difficult conversation that we are having.

The mayor of Twinsburg, Kathy Procop, who is a wonderful mayor, sent Mr. Bloom, the head of the President's Auto Task Force, a note; and I have to tell you, he was very prompt in responding to her on May 6 and basically she was saying, I don't understand. I don't understand how we went from Twinsburg is open and people popping champagne corks celebrating to Twinsburg is now closed. So Mr. Bloom in the operative section of the letter, which is the second full paragraph,

writes: While the original February 17 plan submitted by Chrysler was not deemed viable by the task force, the more recently proposed Fiat-Chrysler alliance plan has been approved. This plan included the same plant closure schedule as the one originally proposed by Chrysler, and the President's comments were meant to convey the message that the bankruptcy of Chrysler had in no way changed these plans.

So when the President spoke at noon a week ago Thursday and said no one should be confused about a bankruptcy or what the process means, it will not disrupt the lives of people who work at Chrysler or live in communities who depend on it, it is kind of like in baseball where they put an asterisk next to the record, that "except." I mean, it would have been a simple thing for him to go on to say except for the eight plants that have been identified but not revealed to anybody in the February 17 plan which we rejected. Then everybody would have understood. Everybody would have known.

But when the leader of the Free World stands up and says, It is not going to disrupt the lives of people who work for Chrysler or the communities that depend on it, I can just tell you, Mr. Speaker, that 1,200 people work at the Twinsburg stamping plant. It is disrupting every one of their lives. And the city of Twinsburg, where it is located, the Chrysler plant is 13 percent of their tax base. And it is clearly not only the pain of individual families and individual employees, but it is clearly going to affect the schools, the police department, the fire service, the garbage pickup. So I have trouble accepting this paragraph from Mr. Bloom that the President was just saying, Listen, no lives are going to be disrupted unless we have already determined you are going to get the ax.

The problem with that is they all point to this document that was rejected by the President's Auto Task Force that was filed on February 17. The problem with that argument, and when people were saying I was confused, it was a simple misunderstanding, we went out and I read and my staff read the agreement, or the proposal, that was filed by Chrysler on February 17 that was rejected.

Nowhere in this document, nowhere in the 177 pages is there any indication that the stamping plant in Twinsburg was going to be closed; that the plant in Kenosha was going to be closed; that the plant in Fenton, Missouri, was going to be closed; that the plant in Sterling Heights, Michigan, was going to be closed.

So I guess when people say that the workers who voted for the contract and then were told the next day that they were going to lose their jobs should have known, the only way they could have known, because everybody says we didn't make it public, we couldn't make it public, the only people who would have known are people with ESP, people who can read the minds of

the President's task force and the minds of people at Chrysler, because clearly nobody else could have contemplated that these 9,000 people who voted in good faith to ratify a contract that reduced their benefits, reduced their pay, could have said, Listen, I'm voting to end my job. As a matter of fact, the president of Local 122 who I mentioned earlier, Mr. Rice, will be here this week. But in conversations with me on the telephone he said, Look, we are shocked. I specifically negotiated this paragraph into the UAW-Chrysler agreement that said that we were going to bring more work to Twinsburg. So to go from voting for an agreement that you think will not only preserve your job, and you are getting additional work, to not having a job, I don't understand why people are surprised that people are surprised.

So, clearly, Mr. Speaker, we have a problem. So in the spirit of the theme, since we have almost concluded The Case of the Hidden Hand as to how the AIG bonuses got into the stimulus package, we have developed Clue, The Travel Edition. And this is one that you can play in a car with your kids. It is called The Travel Edition because we are talking about Chrysler. In this case we don't have a pen. The perpetrator didn't alter the stimulus package with a pen. Instead, he or she used an ax. They basically used that ax to stop the employment of 9,000 people who work in this country making automobiles.

And as you see around the edge, of course in the top right you recognize the President of the United States, President Obama; and his economic adviser, Mr. Lawrence Summers; Robert Nardelli, the former CEO of Chrysler; Mr. Geithner, the Secretary of the Treasury; and Ron Bloom who was the head of President's task force. I also, just for the benefit of the Speaker, I put a picture of President George W. Bush up there, and you may ask why did I put President Bush up there, and I would just tell you there are some people in this country who blame President Bush for everything, and so we wanted to make sure that we had him as a potential suspect.

But, again, in this group, and I really don't think it was the President of the United States, President Obama, but in this group between the President's Automobile Task Force and Mr. Nardelli and others at Chrysler, somebody knew, and I would suggest more than somebody knew, that the bankruptcy filing which was going to be filed a week ago Thursday afternoon had a provision in it to cease the livelihood over time of eight Chrysler plants employing about 9,000 people. The only problem with that is they forgot to tell the 9,000 people. They forgot to tell the people who were thinking that they were being good employees, good Americans, and agreeing voluntarily to a reduction in the amount of money they make, but the trade-off was Chrysler was going to survive and they would have jobs.

So hopefully at the 4 p.m. meeting tomorrow with the Department of the Treasury, we will solve the Case of the Hidden Hand and figure out how the AIG bonuses were protected. We now embark on a new mission, and that is where, we go the ax, we got the weapon out of the way, we just need to identify what room it took place in and which one of these gentlemen, and I would remove the 43rd and 44th President of the United States who knew, and why didn't you tell anybody? And why did you let 9,000 people vote to end their jobs?

Now, we are going to continue to ask Chrysler for a copy of that telephone call from 1 p.m. in the afternoon. We are going to, if necessary, file another resolution of inquiry directed at the White House. But we will, I think, get to the bottom of this.

Again, Mr. Speaker, I know, sadly, that what we will hear is, Let's look forward; let's talk about rebuilding. Let's talk about doing wonderful things.

But before you can look forward, you need to look back and you need to find out what happened to these 9,000 hard-working Americans that have manufactured American-made cars in some cases for many, many years.

But I fear based upon our debate on energy prices and gasoline prices last summer, and based upon our experience with the AIG bonuses this year, that we will again be told we are too busy. We have post offices to name. We have to honor pi, 3.14, the mathematical formula.

This is my last chart and the last observations I will make. This chart indicates the number of people who work for Chrysler who have lost their jobs from January 12 of this year to this week.

And so in January, 4,000 people at Chrysler lost their jobs. Again, rather than figuring this thing out, we passed a resolution here in the House of Representatives honoring the life of Claiborne Pell who was a wonderful and great former United States Senator; but we didn't talk about Chrysler.

Then in February, and by then about 9,500 people from Chrysler have lost their jobs. And for a reprise, a surprise revisit, we again, because the Senate apparently didn't take it up last year, we again passed supporting the goals and ideals of national teen dating. So while people are losing their jobs at Chrysler by the thousands, at least teen dating has been covered here in the Congress.

We get to the middle of March, and you are now up to about 11,000 people at Chrysler have lost their jobs all across the country, and the Monkey Safety Act makes a return appearance. This time there was a tragic accident where a pet monkey attacked a woman and really injured her, and so I don't make light of the fact that she will need serious medical attention and the Monkey Act is probably a decent piece of legislation, but when you have 11,000

Chrysler workers out of work, what are we doing passing the Monkey Safety Act again?

□ 2200

In April, we got up to about 13,000 jobs, and, you know, we'll do something for Chrysler, but the Great Cats and Rare Canids Act comes back to the floor. And, again, when 13,000 people are out of work, we talk about cats and dogs.

But then it gets up to 16,000, and, you know, just like with gas prices, just like with the AIG bonuses, I know that the United States Congress will not sit still while 16,000 of their countrymen have lost their jobs. But the most important piece of legislation that the majority can schedule on the day that 16,000 people were now unemployed at Chrysler, we awarded a Gold Medal to Arnold Palmer, the golfer. Now, I think Arnold Palmer is a great American. I think Arnold Palmer deserved the Gold Medal. I don't know, when you have 16,000 Chrysler workers out of work, why that's the most important issue that the majority can bring to the table.

And now this week, that number is up to 18,000. That 18,000 does not include the 9,000 people that voted the other day to terminate their jobs. But, again, we have a repeat, 18,000 people at Chrysler out of work, and the most important issue on the House floor, National Train Day.

Madam Speaker, we are not too busy to do this, as these charts clearly indicate, and the 9,000 workers and the people in communities all across America that will now see their tax bases decrease, people out of work, deserve to know which one of these gentlemen, or do we have to add another suspect, which one of these gentlemen knew, as they sent those people into the polling place to approve a concession contract, which one of these people knew that they were going to terminate their jobs, close their plants, and decimate their communities.

So, Madam Speaker, I look forward to returning to another day and continuing the adventure of Clue, the Travel Edition. I thank the Speaker for her courtesy.

THE 30-SOMETHING WORKING GROUP

The SPEAKER pro tempore (Mrs. DAHLKEMPER). Under the Speaker's announced policy of January 6, 2009, the gentleman from Ohio (Mr. RYAN) is recognized for half the time until midnight.

Mr. RYAN of Ohio. Madam Speaker, I appreciate the opportunity, and it's always a pleasure to follow my good friend from northeast Ohio (Mr. LATOURETTE), who is not only a good advocate, I think, for his congressional district but also a very good friend and a fellow LeBron James fan. So we want to congratulate the Cavaliers, and I want to thank Mr. LATOURETTE.

Madam Speaker, we are representing the 30-Something Group here tonight, a group that was started several years ago by then Minority Leader NANCY PELOSI when the Democrats were in the minority, and we were talking about issues that were facing the men and women of this country in their thirties and began to frame some of the Republican agenda at that point as it affected the 30-somethings and also used it as an opportunity to talk about the young people in this country, how the decisions that were being made by then—the then Bush administration would not only have a short-term effect on the young people of our country but also have long-term consequences. And unfortunately today, Madam Speaker, we are dealing with many of those consequences that were laid at the plate of now President Obama, laid at the plate of the now Democratic Congress and, quite frankly, laid at the plate of the American people.

So as we speak here tonight, and I will be joined later by Congressman BOCCIERI and Congressman ALTMIRE, we're going to discuss where we are today in our country and in our congressional districts and also some of the approaches that we need to make over the course of the next several months and over the course of the next several years.

I represent a district, Madam Speaker, that is just south of Mr. LATOURETTE's district. I represent Akron, Youngstown, Warren, Niles, and the Mahoning Valley. And over the course of the last several months and over the course of the last year, for example, in Trumbull County, our unemployment rate has doubled. And this has not been just a short-term problem; this has been a 30-year problem that our communities have been dealing with. And if you look and you see what has happened in communities like ours where companies, longtime companies in this country like Delphi, like General Motors, steel mills like WCI are near closure. We have Delphi retirees who are both salaried and union who are now joining together to figure out what they're going to do with their families, what they're going to do with their kids, their house payment, their mortgages, their college tuition that they have to pay, their daughters' weddings that they have to pay for, over the course of the next several weeks, months, and years. So, Madam Speaker, we need a strong agenda here in Congress and a strong agenda coming from the President as to what exactly we are going to be able to do.

Madam Speaker, the President has approached this, I think, in a very comprehensive way, and the Congress and Speaker PELOSI and Senator REID have approached this in a very comprehensive way. We are trying to address this on all fronts. We are dealing with a credit crisis. We are dealing with a manufacturing crisis. We are dealing with a foreclosure crisis. We are dealing with home equity problems.

We are dealing with lost wages. We are dealing with all of these issues all at the same time. So, Madam Speaker, we see the President of the United States has taken a comprehensive approach, and I think it's been a good one.

Now, on the backs of 8 years of the Bush administration, some people say, you know, we shouldn't go back and we shouldn't talk about the past, that we should just move on. But we are getting criticized on our side of the aisle for the decisions that we have made based on the problems that were left for us to deal with, and the criticism is coming from the same group of people who put us in the exact same position that we are in and then criticize the solutions that we are presenting because those solutions in some way may be different than the philosophies that got us to where we are. So tonight, Madam Speaker, we are going to talk about some of those solutions.

Now, recently in Congress we have done a couple of different things. We have passed the supplemental appropriations bill to deal with some of the defense concerns. But I think more importantly one of the things that we have done, one of the first things that President Obama pushed for over the course of the first few days in office and between the time he got elected to the time he got sworn in, is the American Recovery and Reinvestment Act. So, Madam Speaker, although the supplemental is not passed and signed into law, it is on its way and it does reflect, I think, the priorities of not only this administration but the priorities of the Congress.

So let's look at how things are different. Over the 8 years of the Bush administration, we saw the wealthiest in our country get tax cuts. We saw the wealthiest in our country, the top 1 percent, gain all of the income. And it's interesting if you look, and I think it goes back to 1990, and it may be 1980, but I think it was 1990, since 1990 where 80 percent of the income growth went to the top 10 percent of the people in this country.

□ 2210

And since 2000, 90 percent of all income growth went to the top 10 percent of the people in this country. And that means that the middle class has been squeezed. So they are not getting the income growth, their energy costs are going up, gas was \$4 a gallon, health care costs were going up by 15 percent. The Congress and the President both, both controlled by the Republican Party, had a very laissez faire attitude, not only for the economy, but for everything, that the government had no role, and it should be parsed off and given to the highest bidder.

And that's what happened in the war in Iraq, that's what happened with health care. And I think it's important for us to remember as we are dealing in these difficult economic times, as tensions are being wiped out, as 401(k)s are being halved, that it was the Repub-

lican Party who stood on this floor and wanted to privatize Social Security.

The only thing that many people have left is Social Security. And can you imagine if our friends on the other side had the opportunity to take the Social Security system and put it into the stock market, where this country would be, imagine where our retirees would be, imagine where our grandparents would be, imagine where our parents would be, and imagine where this country would be if we had to bail out the Social Security system in this country.

And so when we are receiving criticism for what we are trying to do, I think it's important for the American people to remember the big picture and to remember how we got here and to remember that there are two different governing philosophies in this country. And one of the philosophies, as sad as it is to say, Madam Speaker, got us to the position we are in. And we are going to move on, and we are going to talk about our response to this.

But it is critical for everyone to recognize and everyone to know that the Republican, conservative, extreme right-wing agenda was implemented in the United States of America. From the year 2000 to the year 2006, they controlled every branch of government: the House, the Senate, the White House, the Supreme Court. Many of the State legislatures, like the ones that Congressman BOCCIERI and I come from in Ohio, all were controlled by Republicans.

So they implemented their agenda. They implemented Chicago-style economics. They implemented the shock doctrine. They implemented supply-side economics. And, today, because of a lack of regulation, because Wall Street was run like the wild, wild west, because there were no cops on the beat, here we are today, billions of dollars in debt, borrowing the money from China, a middle class getting squeezed, energy costs going up, increased reliance on the Middle East for our energy, health care costs going up, insurance companies hiring more people and knocking more people off the rolls, any kind of income growth in our country going to the top 10 percent of our people, where everybody else is left behind, school funding problems all over the country, mental health issues, soldiers coming back with PTSD not getting the proper treatment. Walter Reed was falling apart, and on and on and on. So the issues that President Obama is dealing with today and the Democratic Congress were issues that were laid on this table left for us to try to deal with.

And so President Obama came with a plan, a stimulus plan, because there was a \$3 trillion hole, gap in our economy. And all the economists were telling us that we had to somehow fill this hole or we would have a continual slide for our country.

And so President Obama, his economists, JOHN MCCAIN's economists, on both sides of the aisle, we are in agree-

ment that we needed to do something. We needed a stimulus package.

And the stimulus package was going to be something different that Washington hadn't seen for a long, long time. This stimulus package was going to go to the middle class. It was going to go for those programs that were going to lift people up, where the middle class would be able to spend money and fill this hole. We were going to invest in education. We were going to invest in energy research. We were going to fund NIH, National Institutes of Health, so that we could increase cancer research.

And now all over the country we have Relay for Lives, all over the country, my congressional district, and I am sure yours, where thousands and thousands and thousands of people are walking for a day, at night and through the night for 24 hours straight to raise money for cancer research. It was President Obama's stimulus package that increased funding for cancer research, because it was a national priority. And we can talk about a lot of the different investments in the research and into energy research, weatherization, tax cuts for 95 percent of the American people.

But I just want to talk for a second about the investments that he made in education. Because there is no greater investment we could make in this country than to invest in the young people in our country and to make sure that they get the kind of education that they need, that they deserve, because they are the next leaders that will be in this body. They are the next teachers. They are the next astronauts, the next scientists that are going to keep America strong in the future.

And so the difference in priorities from the last administration to President Obama can be summed up, and there are a lot of different examples, but I think they could be summed up in this, a \$2,500 opportunity tax credit to go to college, where the same parents that we had, growing up, middle class, northeast Ohio, Italian, were working hard to send their kids to school, and that was the number one priority. And President Obama recognizes that and makes sure that that tax credit was in this stimulus bill.

And he made sure that there was an increase in the Pell Grant so that people could get grant money to go to school and then stood up at that podium and challenged the American people, all of us, to go one more year to school and contribute, that it was in the national interest for that to happen. This is a much different approach than President Bush saying after 9/11 the greatest thing you can do for this country is to go shopping. That is a tremendous difference in leadership styles, and, I think, approaches.

And I think the focus on education, as we will continue to talk about it through the next hour, I think is something that is very critical. I think this is the first time we have shared the

floor together. Congressman BOCCIERI and I started our careers together, I want to say a long time ago, but it wasn't that long ago.

So I yield to my friend.

Mr. BOCCIERI. Congressman RYAN, thank you for allowing me to be a part of this discussion, and the zeal and the passion that you display on this House floor I remember watching a few years ago when I was serving in the legislature. Congressman RYAN and I both came up through the legislature in Ohio, and he cut his teeth earlier in the Congress.

And it's an honor to be here with you today. Because we do share the same vision about what it's going to take to move our State and, more importantly, our country forward. And Congressman RYAN and I have similar backgrounds. I hail from a working-class family. My grandparents were coal miners, carpenters and steel workers. My parents were one of the first in their families to go to college, respectively, and two successful brothers, one is a pharmacist and a chemist, and the other is working in the military and working in the defense industry.

□ 2220

I can tell you that my family is not unlike thousands, perhaps millions across this country. Congressman RYAN, who worked hard, played by the rules, punched the time clock, went to work every day, carried that lunch pail, because they believed in America; they believed in the spirit of America; that when you work hard, you play by the rules, you give back to your country and your community, that America is a place where your hopes and dreams and desires can be fulfilled.

More than ever, we find that that dream of that American spirit is being challenged—challenged by some of the decisions of previous administrations, challenged by the fact that we have got to put our own house in order and move our country forward and invest in things that really matter—invest in our greatest asset, which is our people. And, as Congressman RYAN has so eloquently said many, many times on this House floor, that we have an opportunity to change the direction of this country and move it in a direction and trajectory that is going to be about prosperity and sharing the ideals and values that brought my grandparents from a country so far away to settle here on the shores of America because they believed in this experiment in democracy, and that was where hopes and dreams could be realized.

Now I tell you this because in the spirit of our discussion tonight we're going to talk about some of our problems, but we're going to talk about solutions, more importantly.

We're going to talk about the fact that Ohio has been hemorrhaging with manufacturing job loss. In fact, in 2008 alone, the United States itself lost 149,000 manufacturing jobs, and many of those jobs, as Congressman RYAN had said, were from Ohio.

Ohio is a place where we built things. We helped build America. Some of the great thinkers of our country hailed from Ohio—innovators like Thomas Edison and a variety of astronauts like John Glenn. We had success stories across the board because we had such diversity.

He comes from an Irish and Slovak background. And I have great respect for the Irish because I married one. But I have to tell you that Ohio is not unlike many States in the heartland of America that have experienced such job loss, such movement of manufacturer's jobs out of this country—and because of some of the policies that we have enacted here in Congress.

Now you have spoken often and loudly about the fact that we need a manufacturing policy in this country that protects jobs, that protects innovators, and that protects people who want to build and start their own business. But what we have seen is a whole host of failed policies that have allowed our jobs to move overseas.

Now I tell the American people here tonight that America cannot sustain itself by being movers of wealth. We have to produce wealth in this country. We have to build things—like we have always done.

And I heard on some of our district work periods about, Why are we giving loans to the automotive industry? Well, let's be clear about this. Are we going to depend on Fiat to build our tanks and weapons that we need to defend this country if we were ever attacked? Are we going to depend on some other foreign-owned or foreign-born company to produce the things that we're going to need to defend our country?

It is important that we maintain the Big Three, not only as a matter of our economic security, but our national security. And the supply lines that go into the Big Three through Ohio and into Michigan and from Pennsylvania, the heartland of our country, we have got to be the producers of wealth, not just the movers of wealth. And that is why this Congress moved to protect and defend American jobs and American security, Congressman RYAN. And I was proud to support some of those initiatives because we cannot tolerate policy that is going to make our country weaker.

I hear oftentimes that if we could only just be like countries like China, or just be like countries like India. Now as an Air Force air crew and pilot, I have been over the world. It only takes one trip outside the borders of our country to understand how good we have it. We have a robust economy. We have a workforce that works hard. It is unmatched and unparalleled in the rest of the world, in my opinion. And we have a country that sustained itself throughout generations because we invested in our people—our greatest asset.

But when we allow jobs to pack up and move overseas, when we allow a

little bit of who we are—the identity that has created America—to slip away by allowing those jobs, and those manufacturing jobs in particular to leave our country, we are making America weaker and not stronger.

Mr. RYAN of Ohio. Will the gentleman yield?

Mr. BOCCIERI. Absolutely.

Mr. RYAN of Ohio. I think coming from our area—and you can go to Wisconsin, you can go to Indiana, you can go to Pennsylvania—you can go all throughout the industrial Midwest and you read statistics that say, Hey, for every manufacturing job, there are five spinoff jobs, and for every service job, there's two spinoff jobs.

So if you go to get a massage, you have the masseuse and then you have somebody that's going to wash your feet and put a warm towel around your neck or clean the towels. If you have a manufacturing job where you're working in a car plant, you have the suppliers of that and the people around the one manufacturing job that support it.

I read this a lot in economics classes and everything else, but it hit me a few months ago when we lost a third and then a second shift at a General Motors plant in Lordstown, because they said that the second shift was going to go, and then about a couple of days later the local seat manufacturer—the second shift was maybe 800 or 900 people.

A couple days later, the seat manufacturer laid off a couple hundred. Then, a couple days later, the logistics company that did all the logistics for coming in and out of the General Motors plant laid off another hundred people. Just the spinoff.

So when we say we need to make things in the United States, it's important to recognize the ripple effect. Ross Perot said in the early campaign in the early nineties, You can't run an economy on back rubs. You just can't do it.

That's something that I think we're staring right in the eye. If you look at the history of the world with the Dutch and the Spaniards and the Brits, when 20 to 25 percent of their GDP became finance, that was the beginning of the end for those countries. Because, like you said when you first started, all you start doing is moving money around. You're not making anything. You're not adding value to a product. And you start these Ponzi schemes like we just ended up having here in the United States.

So I think it's important that we do focus on this manufacturing policy.

I yield back.

Mr. BOCCIERI. The gentleman from Ohio could not be more correct in his assertion that we have got to focus on producing things in this country. I don't know about you, Congressman RYAN, but I have heard you speak many times, eloquently at that, because we cannot have this race to the bottom.

I hear many people say, If we were just like China, like India, in terms of—our standard of living is much

higher than countries like China and India. Why would we ever want to have a race to the bottom? Let's embolden them and bring them up so we can have an equal transfer of goods and services and products that are going to make both of our countries stronger. That's what we need to enact in trade policies right here on this floor and make sure that our trade policies are in concert with making a manufacturing sector of our economy robust.

I don't know if you know this, but two-thirds of our outsourced jobs in the United States have come from our manufacturing sector. Two-thirds. Two-thirds.

We're in a dangerous position right now with respect to what we're doing with our military-industrial complex. We cannot continue to allow those manufacturing jobs to leave our country if we don't protect and defend the economic security and the national security of our country by producing things right here. I know that you have fought hard for a policy that emboldens.

You know, Ohio has been bleeding factory jobs. More than 257,000 factory positions have evaporated since the beginning of 2000; 257,000 families have been handed pink slips and notices that their jobs are going to be leaving the country. I think that we have got to do a better job, Congressman RYAN.

I want to work with you on this House floor to come up with real solutions; tangible solutions that are going to protect our workers and protect our national security.

I know that you and I have been championing many of the things that are going to make our country stronger—research and development tax credits, making sure that we do research here in America.

When I was in the State legislature with you, we talked about the fact that for every \$1 that the State of Ohio spends, we can leverage \$10 from the Federal Government to help spur innovation and entrepreneurship and the intuitiveness that's going to help create and produce the minds that are going to produce the cures to cancer. They're going to produce the new energy sectors for our economy in years to come. It's this type of research, it's this type of investment that is going to make our country stronger.

□ 2230

Now I'm a freshman Congressman. You've been here for several terms. When I was going through my orientation this year at the John F. Kennedy School of Public Policy, they were telling us that only 16 percent of what we spend in this country is for investment back into the country, 16 percent.

Now our 16 percent is much larger than most countries because of our economic prowess. But at the end of the day, 16 percent is far too little to sustain us for years to come.

I know you've championed that at your local universities, and I'm going to talk about some of mine.

Mr. RYAN of Ohio. Well, we need it I think from the perspective of investing in research and development, but I want to go back to the point you were making about the defense industrial base that we have.

Right outside your district and in my district is Goodyear. Goodyear is the last American tire manufacturer in the United States, and there's a huge movement within the city of Akron, within Summit County, State of Ohio, Federal officials to keep Goodyear's headquarters in Akron.

One of the problems is—and Goodyear is actually doing fairly well now—trying to get Goodyear, the only American tire manufacturer, to be a supplier of military tires. I mean, it's like you've got to beg people at the Pentagon to have Goodyear supply. It's hard to get them as a second source sometimes, to back up Michelin, who is a French company.

Now I was against the war. I thought it was one of the worst geopolitical decisions in the history of our country, and we are going to pay for it for many, many years to come.

But when our country goes to war, you'd better be able to supply our own military. And we are getting dangerously close to losing our defense industrial base in this country. It's tires. And we have the same issue with RTI, a titanium company in our region, both in your district and in mine. There used to be 10 titanium companies in the United States. Now there's two, and one of them is in Niles in Weathersfield Township and one of them is in Canton I think.

And the problem is, there's an amendment called the Berry amendment, which says the military has to buy their specialty metals from American companies. But there's a waiver, and there's this process that always gets waived. So the RTIs of the world have to struggle to get military spending to go to their companies.

So it went from 10 titanium companies to two.

We're getting dangerously close to not being able to supply our own military because the titanium comes from Russia, our tires are coming from France. This is getting dangerous here.

We've got to be very, very careful with that. And I think part of it is the investment, what we did in the stimulus package with transportation, infrastructure, research to rebuild the country in many, many ways.

But if we don't have that defense industrial base, it's going to put us in a real predicament to try to supply our own military.

I yield back to my friend.

Mr. BOCCIERI. Congressman RYAN, you bring up several valid points. And the question is—and I'm sure the American people out there listening to us tonight, our 30-something group here, they're asking, So what do we do? What can we do to make certain that we are the producers of wealth and not just the movers of wealth?

Well, you and I have championed legislation that is going to invest directly, as I said earlier, into our greatest asset.

When we center our centers of excellence and pin them down with research and development, our universities and the great research that we're doing in Ohio is tremendous.

I mean, in my district alone, the Rolls-Royce company is actually researching fuel cell technology at Stark State Community College. We also have the EPO Group that's researching plug-in hybrids. And at the Ohio State Agriculture Research and Development Center in Wayne County, they're actually researching anaerobic digesters to use as energy, compressed natural gas. They are actually selling this gas back to the grid. This is the type of research that we need to champion and hone around our centers of excellence.

Not only are we going to use taxpayer dollars to create the next innovators and the great thinkers from Ohio, but we're going to help create a sustainable industry around these different types of investments.

If we invest in our greatest asset, our people, we can help spur the innovation that has helped put Ohio on the map.

I'm going to read a list here of some of the great innovators that have come from our State. Charles Kettering who was the inventor of the first electronic starter motor ignition system. Jim Spangler invented the portable electronic vacuum cleaner. And we all know about Thomas Alva Edison who was a prolific inventor and certainly helped with the incandescent lightbulb. Lester Pelton invented a type of free-jet water turbine and was from Vermilion.

These are the type of innovators that if we invest in our higher education, in our institutions of higher learning, Congressman RYAN, we're going to have the next viable industry. And hopefully that will be a green energy industry that will blanket northeast Ohio.

From Cleveland to Canton, from Canton to Youngstown, we have a triangle of success, and we have the opportunity to invest in things that are going to put our State forward.

Mr. RYAN of Ohio. If you look at the difference between the past philosophy that got us here where if you cut taxes for the top 1 percent and hope they maybe invest into whatever it is that they invest in, and it hopefully will trickle down to the middle class, cut research funding, fail to invest into higher education, fail to invest into research, fail to invest into health care research, health care technology, you get what we've got. And you end up where we are.

But if you look at the dramatic change in the stimulus package—and we can go through the whole thing. For example, increases in NIH and all the different energy research, weatherization to try to create markets for all these new alternative energy projects,

\$7.2 billion to increase broadband access in usage to unserved and underserved areas of the Nation, which will better position us for economic growth so that all of our kids, not just the ones that happen to be in a nice school district where there's a good property tax base, and they have good schools and good jobs, but all our kids can have access to the Internet, and all communities could access broadband, and all hospitals could be plugged into this.

If you look at the billion dollars for prevention and wellness programs, \$10 billion to conduct biomedical research for cancer, Alzheimer's, heart disease, stem cells, to improve NIH facilities, if you have a family member who has cancer, Alzheimer's, MS, Lou Gehrig's disease, ALS—they're on the Hill today—this President and this Congress are backing you up.

We're saying, this is a priority. Your family members being sick and the government not putting in the proper resources to do the investment is wrong.

President Obama came in and said, We're going to put science back on the table, and 70 to 80 percent of the American people agree.

And that creates jobs at the Cleveland Clinic, at the University of Pittsburgh Medical Center, in the Stark County hospitals, Summit County hospitals, hospitals in Youngstown, all of the information technology to make sure that our doctors and nurses and health care technicians aren't making mistakes so that people who go to the hospital don't get hurt because of miscommunications.

This President and this Congress are saying, We've got your back. We're going to make these investments. You can't have a strong country and just wish and hope it may happen.

There are very strategic investments that were made in the stimulus package. And I love some of these people saying, Yeah, but it's one-time money. Well, how about no-time money? No-time money means a bunch of teachers get laid off. That's what no-time money means. And in our State, some of the Republicans are telling Governor Strickland, you know, this is one-time money. What are you going to do next year? Well, we've got to deal with this year.

□ 2240

And we are plugging holes, and we are making sure we are not laying people off, at least as many as we can, prevent as many layoffs as we can. And we have infrastructure money that President Obama made sure was included in here, \$2 billion in grant funding for the manufacturing of advanced batteries.

We are now ceding the battery industry to China. President Obama, Speaker PELOSI, Majority Leader REID, the Democratic caucuses, probably 70 percent of the American people thinks that is probably a pretty bad idea. So we can sit here and say, Oh, my God, the Chinese are taking—we are going

to have all these new cars, plug-ins, and the battery is going to be made in China. And we will be sitting here, Congressman, 10, 20 years from now, how are they going to let that happen? We are saying put money into helping companies and universities research this stuff so we can make it in Youngstown, Ohio, we can make it in Canton, Ohio. That is the goal here. And we cannot wish this to happen, and there are difficult decisions that need to be made.

Leadership is lonely, and you've got to make some difficult decisions. But I love the fact that President Obama is coming up and saying, This is what we have got to do. The American people elected me, and this is what I talked about, and this is what we are doing. And in 4 years, I will run again on that record. But let's not sit around and hope good things may happen and our friends on the other side vote against everything.

They borrowed more money from China. President Bush and the Republican Congress, Madam Speaker, borrowed more money from China and from foreign interests than all the other Presidents and Congresses before them combined. They lay this on the table, and we have got to borrow some money to make sure that the economy doesn't completely collapse, and all of a sudden we are the bad guys.

These investments that we are making are critical: Head Start, Early Start, child care development, block grants, supplemental nutrition assistance programs so that our kids can eat, community health centers so that people who can't access health care now can go and get some preventive care before they end up in the emergency room costing everybody billions of dollars.

So these are very strategic investments. These aren't things that we just picked out of the air to throw money at to just say we are doing something. We are going to look back on this time, and we are going to thank President Obama. And we are going to thank the Democratic Congress for making these investments because they will pay great, great dividends for thousands in the long run.

Mr. BOCCIERI. Congressman RYAN, you can't be more correct. Can you imagine a novel idea, that this Congress is taking bold action to actually invest in America, to invest in our country, our people, our way of life? Can you imagine? How arrogant can some be who suggest that we should not do this for our people, that we should not take their money and invest back in our country? We are going to be judged by two measures. We are going to be judged by two measures in this great recession we find ourselves in, by action or inaction. And Congressman RYAN, when I was going through the orientation courses of the freshman Members, they told us that if we sat on our hands and watched thousands of jobs evaporate, more factories

pack up and go overseas, that we would see unemployment in the first quarter of 2010 perhaps as high as 18 percent. Eighteen percent.

So we have to take action. We have to have movement. And to invest in the things that are going to make our country stronger is not only prudent, it is necessary. After years and years of rebuilding a country that I had so many visits to, we were building roads and bridges in Iraq, building brand new hospitals and schools in Iraq, making sure that every man, woman and child in Iraq had universal health care coverage, how dare us think about the American people for once here? How dare us think about the American people? And all we hear is stiff arms and noes and enough is enough, and this country has got to be put back at the tier that we need to put and we need to set in this Congress, and that is by investing in the things that were in this recovery package.

Now imagine this, the Democratic Congress of the United States House of Representatives that is controlled by the Democrats now obviously enacted the largest tax reduction in our Nation's history and the largest investment in capital in our Nation's history to make our country stronger, to make our country and our people stronger. I think that spells scores of success stories and future innovators that have helped Ohio become the great State that she is. But we can make a difference by investing and putting the parameters out there, putting the goalposts, putting the out-of-bounds markers for our market to act in a way that is responsible to its people, that is responsible to its people, and to help us forge a way on the path toward prosperity. That is what this Congress has done in just a few short months.

Mr. RYAN of Ohio. If you look at what all these investments are, infrastructure and science, \$120 billion. Now I think you hit the nail on the head. We are at \$1 trillion that we have spent in Iraq. One trillion. Now, I don't know about how anyone else feels, and I don't think I'm actually going out on a limb here to say we have a lot of projects in our communities that could use a little bit of that money.

Sewer overflow. My goodness gracious, these cities that are dealing with combined sewer overflow issues is in the hundreds of millions of dollars. Sewer lines, septic tanks that need to be cleaned up and sewer lines put in, water lines, roads, bridges, schools, hospitals, health care for our citizens, these are basic investments that our country needs to be making. And this stimulus package is a step in that direction.

And when you look at it, I mentioned the broadband, if you look at \$27.5 billion for highway construction, \$16.5 billion to modernize Federal and public infrastructure to save energy costs in the long run, \$19 billion for clean water, flood control, environmental restoration investments, \$17.7 billion

for transit and rail to reduce traffic congestion and gas consumption, these are all programs and investments to help reduce our dependency on foreign oil so we are not in this morass that we get involved in and all these little political situations that we get in because we have to pull oil out of some of these countries to run our country.

Thirty billion dollars to transform the Nation's energy transmission distribution and production systems so we can have a smart grid. Those are good investments. Five billion dollars to weatherize modest income homes. These are investments that we need to make.

Lower health care costs, education, helping workers. Twenty billion dollars to increase the food stamp benefit by over 13 percent. Look at what the Democrats have done even when we got in and had to fight to get a couple of these things done.

We raised the minimum wage for the first time since 1997 when Democrats got in and basically had to jam it down the White House's throat in order to get it signed into law. The largest increase in veterans' spending in the 77-year history of the VA, and we had a lot of people running around this town in 2001, 2002, 2003, 2004 and 2005, who is more patriotic? And it was all red, white and blue when the lights were on and cutting the veterans' health care budget and benefits in the back room.

And when we got in, the largest increase in the 77-year history of the VA. And you see it again with our budget this year. You saw it in the 2009 budget that President Obama signed. You are going to see it again now. You saw it in the supplemental, which we can go over some of the investments that were made. But this is a commitment to our Nation's veterans who served this country so well. Again, an investment in our people. You serve our country, you will be rewarded. Four years of free education if you served in Iraq and Afghanistan. Benefits have increased. We reduced and got rid of a lot of the fees and assessments that were put on by the other side. These are steps.

Have we done enough? Not even close. I'm not here to say, and I don't think anyone else is, to say that we have been in for however long, 110, 112, 114 days, whatever, and things are great now. They are not.

And before you came in, I stated the economic distress of the 17th Congressional District, but these are steps in the right direction. These are steps that are lifting up people that need help. This is not a handout, but a little bit of help along the way to where they can get themselves back on their feet and this economy can get moving again, and then these green jobs, the investments in science, investments in infrastructure, rail and all of these things we are talking about, Rolls Royce, which they are doing in your district which is phenomenal, these are the kinds of things that will grow. But they take some seed corn. They take a

little water, a little fertilizer, and the government now, I think, is responsible for doing a lot of that.

□ 2250

So we are making these investments. We will continue to make these investments, and we will continue to, I think, strategically invest the taxpayers' money prudently, judiciously invest the money.

Mr. BOCCIERI. I have to tell you, Congressman RYAN, after being in the Air Force 15 years and flying our wounded soldiers in and out of Baghdad, and whether we agree with this war or not, we have to give every degree of respect to the men and women who serve in uniform because they fought in Iraq and Afghanistan only because our country asked them to. As far as I am concerned, when they come back, when their boots hit the ground here in America, they should not have one hospital bill, any expenses that are required to go to college, get a degree and advance themselves. We should be investing in them and rewarding them for the sacrifice that they have made for our country.

Let me tell you about a soldier who was in my State legislative district when I was serving in the State House. He was injured with an IED and will be disfigured for the rest of his life. A piece of shrapnel hit him in the jaw, and he had surgeries at Walter Reed to try to put his face back together. After he was discharged with a Purple Heart, a Bronze Star and let go back into the civilian world. Two weeks after discharge from the military, his jaw broke again. This 22-year-old soldier with a young child had \$15,000 in medical expenses that he couldn't weed through the VA to get paid to make sure that he could put bread on the table for his family.

A soldier like that who almost gave everything for this country should not have to pay for his bills for injuries that he sustained while overseas. It took swift action by this Congress in the last 2 years to make certain that our soldiers were not forgotten.

And the Wounded Warriors Program that we have right now that acknowledges the sacrifice, the great sacrifice of those men and women, we cannot forget and we should never forget. As long as I am a Congressman and have the ability to speak publicly about this, we will champion those soldiers and tell them what we are doing to put their lives back in order and to invest in them.

Mr. ALTMIRE. I have been listening to what the two Ohio Members have been saying. To put this in perspective for our colleagues and for the American people, I would like to talk with regard to the stimulus and the budget. People talk about the fact that we are running up a tremendous deficit this year, \$1.8 trillion. It is an inconceivable amount for a 1-year deficit. We are reducing the deficit over the course of 5 years by two-thirds, from 12 percent

of GDP to 3 percent of GDP. People in my district when I tell that story will say that is great, but you need to do more. Why can't we do more? Why is that a great feat that we have cut it by two-thirds? Going to what the gentleman said with the VA, let's look at the budget that we have control over, what is the discretionary control that we have.

If you look at \$3.5 trillion in budget, the entire Federal budget for this year that we passed, most of that Social Security, Medicare, Medicaid, interest on the national debt, Federal employee pensions, veterans retirement benefits and pensions, those are mandatory accounts. That money goes out without Congress having year-to-year control over that amount.

So what Congress actually has control over, the discretionary account, is about \$1 trillion; \$1.1 trillion. It is a very high amount of money, but compared to \$3.5 trillion, not nearly enough to make a dent in that deficit that we are talking about.

Now, half of that trillion dollars that Congress has control over is defense. Nobody thinks we should cut defense. We increase spending for defense by 4 percent. It is what we need to do to keep us safe and secure. We all agree, Republican and Democrat, that is what we need to do. So you take that \$530 billion out of the equation, and you are left with about \$500 billion. Now, that is what we have discretionary control over. That is the post office, that is scientific and medical research, that is the national parks, that's student loans. That is our embassies overseas. That is Federal law enforcement, border security, FBI, CIA. And as the gentleman talks about, that is the VA hospitals in this country, funding for veterans health care. That is keeping the lights on at every Federal building in the country. That is our Federal roads and highways. That is everything that the Federal Government does. When you think about the Federal Government on an annual basis, that is what we have discretionary control over.

If we were to say, you know what, American people, people in our district, the Fourth Congressional District of Pennsylvania, the people in Ohio, we are so committed to deficit reduction and we are so committed to cutting the budget this year, we are going to shut down the government. We are going to shut down everything that we have discretionary control over this year. We are not going to deliver the mail this year. We are going to lay off every Federal employee in the country for 1 year. We are not going to do student loans and Federal law enforcement. We are going to close every Federal office building in the country, no scientific research, no national parks, close our embassies overseas, bring everybody back home, shut down the Congress and the White House, everything that we have control over. If we did that for 1 year, we would cut the Federal deficit for this year

from \$1.8 trillion to \$1.3 trillion. That's how deep a hole we are in.

So when I say to the gentleman from Ohio, Madam Speaker, that we cut the deficit by two-thirds over 5 years, a 1.9 percent growth over a 4-year period, the slowest projected growth rate in the history of the country, that is a monumental achievement. And we do it all while preserving our commitment to our Nation's veterans, as the gentleman talks about, making sure every veterans hospital in this country is adequately funded, and that every veteran in this country has access to the highest quality health care available anywhere in the world. We preserve that commitment while we do the best job we can at reducing the deficit that this President inherited, because we are not starting from zero. I think everybody realizes that. And it is pointless to talk about the past and to point fingers, but it is instructive to take a look at how we got here, why we are here, and the fact that we have very difficult decisions to make moving forward.

The only way we are going to bring down these costs and bring down the deficit and bring down the debt is by making the difficult choices, and that is what this Congress is going to continue to do.

Mr. RYAN of Ohio. I think the other point there with the stimulus is because credit locked up, that clearly shut down, and still is, we are still getting calls in our office that people still can't get loans. So the TARP money and all of this other help that we have given to the banks has not yet kicked in. If there was not even the stimulus package, imagine what the economy would be doing, if there wasn't a little bit of money in everybody's paycheck. I ran into an operating engineer the other day who was finally getting himself back to work because of some road projects that were happening. All over Ohio, the Governor just made a tour around the State with different infrastructure projects that he was spreading around from the stimulus money. So we are filling this gap. There would be a complete shutdown.

And, yes, we are taking some of this money and, yes, we are borrowing money to make investments now. But imagine the tax loss we would have in this country if we weren't making any investments. And who knows what the yield will be from the investments we are making into energy and the NIH for the Cancer Institute.

I mean, what is the value in the long term of reducing the cost of cancer to our health care system, of Alzheimer's to our health care system? What benefits will stem cell research yield for our country in terms of health care? How many accidents will be prevented because of better communication with the investments into the health care information technology?

These are things that you can't put a price on. And it is the old saying, some people know the price of everything

and the value of nothing. And you can't always pinpoint what piece of research yielded the best benefits because all of this research tends to build onto itself.

□ 2300

And we are making these investments now, and we are going to find out in the long run that these were good decisions that we made, courageous decisions that the President has made.

I yield to my friend.

Mr. BOCCIERI. Let's make no question that we want to show, and I am a 30-something here on the floor of the House of Representatives telling you and the American people that we will recover. We will recover. We will grow out of this recession, and we will be stronger for it at the end of the day.

And for those who suggest that we are spending a lot of money in this great recession that we find ourselves in, the worst economic downturn since the Great Depression, in 1946 when the United States came out of the Great Depression and World War II, the government was spending more and borrowing more than the economy could produce, spending more and borrowing more than the economy could produce as a percentage of GDP and what the government debt was. Right now we are at about 50 percent of what the economy can produce.

And once we start growing this economy again, investing in the things that are going to make our country and our people stronger, we will see the difference. We will see the investments realized. We will see the tangible results coming back to us as we have a stronger workforce, a workforce that can critically think, multitask, problem solve, and be competitive with the Indians and Chinas of the world that have already begun investing in their workforce.

And I will tell you that the gentleman from Ohio is correct in his assumption that by making these strategic investments in our country, in our people, and in our way of life, we're going to be the producers of wealth once again, not just the movers of wealth. Investing in green energy, investing in the things that are going to transform our economy so that we have diversity. Can you imagine rolling into the gas station one day and having a choice between using traditional gasoline, biomass, ethanol, maybe even plug in our electric hybrid, or drive by the gas station altogether because we have a fuel cell that was researched right here in the 16th Congressional District of Ohio that allows you to get 100 miles to a gallon? Can you imagine how that would be transformational for our economy? These investments that we have in the American recovery package and the stimulus package are going to be what are going to make the difference and transcend our economy for years to come. And I say that in confidence as a 30-something.

And I want you to know that these challenges that confront all of us as

leaders are not Democrat or Republican challenges but American challenges, and we will recover with prudent investment.

Mr. RYAN of Ohio. And I would be remiss if I didn't talk a little bit about what we are doing locally here in the last minute between Congressman BOCCIERI's district in Canton and my district in Akron to Youngstown and also Cleveland, all the way over to Congressman ALTMIRE's district over in the Pittsburgh area, creating a technology belt in which all of the health care and green energy and the legacy manufacturing that we have in this area can help stimulate this mega-region from Cleveland to Akron, Canton, through Youngstown, Warren, over into Pittsburgh, to try to plug into all of this because if areas like ours aren't benefiting from these investments, then really it's all for naught. It's the heartland of our country.

So with that I want to thank the gentleman from Pennsylvania. I want to thank the gentleman from Ohio.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. TANNER (at the request of Mr. HOYER) for today on account of family medical situation.

Ms. KILPATRICK of Michigan (at the request of Mr. HOYER) for today.

Mr. CUMMINGS (at the request of Mr. HOYER) for today on account of illness.

Mr. STARK (at the request of Mr. HOYER) for today and the balance of the week on account of illness.

Mr. CULBERSON (at the request of Mr. BOEHNER) for today on account of a family medical emergency.

Mr. ROGERS of Kentucky (at the request of Mr. BOEHNER) for today on account of severe flooding and storms throughout eastern Kentucky.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Ms. WOOLSEY) to revise and extend their remarks and include extraneous material:)

Ms. WOOLSEY, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Mr. DEFazio, for 5 minutes, today.

Mr. WALZ, for 5 minutes, today.

Mr. MURPHY of Connecticut, for 5 minutes, today.

Ms. PINGREE of Maine, for 5 minutes, today.

Mr. WAXMAN, for 5 minutes, today.

(The following Members (at the request of Mr. JONES) to revise and extend their remarks and include extraneous material:)

Mr. BURTON of Indiana, for 5 minutes, May 15.

Mr. POE of Texas, for 5 minutes, May 15, 18 and 19.

Mr. INGLIS, for 5 minutes, today and May 18.

Mr. JONES, for 5 minutes, May 15, 18 and 19.

Mr. GINGREY of Georgia, for 5 minutes, today and May 13.

Mr. FORTENBERRY, for 5 minutes, May 13.

ADJOURNMENT

Mr. RYAN of Ohio. Madam Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 11 o'clock and 3 minutes

p.m.), the House adjourned until tomorrow, Wednesday, May 13, 2009, at 10 a.m.

EXPENDITURE REPORTS CONCERNING OFFICIAL FOREIGN TRAVEL

Reports concerning the foreign currencies and U.S. dollars utilized for speaker-authorized official travel during the fourth quarter of 2008 and the first quarter of 2009, pursuant to Public Law 95-384 are as follows:

REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON AGRICULTURE, HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JAN. 1 AND MAR. 31, 2009

Name of Member or employee	Date		Country	Per diem ¹		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency ²	Foreign currency	U.S. dollar equivalent or U.S. currency ²	Foreign currency	U.S. dollar equivalent or U.S. currency ²	Foreign currency	U.S. dollar equivalent or U.S. currency ²
Hon. Glenn Thompson	2/27	2/27	Kuwait				(³)				
	2/27	2/28	Iraq				(³)				
	3/1	3/2	Afghanistan		25.00		(³)				25.00
	3/2	3/3	Hungary		229.43		(³)				229.43
Committee total					254.43						254.43

¹ Per diem constitutes lodging and meals.

² If foreign currency is used, enter U.S. dollar equivalent; if U.S. currency is used, enter amount expended.

³ Military air transportation.

HON. COLLIN C. PETERSON, Chairman, Apr. 22, 2009.

REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON APPROPRIATIONS, HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JAN. 1 AND MAR. 31, 2009

Name of Member or employee	Date		Country	Per diem ¹		Transportation		Other purposes		Total

H.R. 2346

OFFERED BY: MR. WOLF

AMENDMENT NO. 2: At the end of the bill (before the short title), insert the following:

RESTRICTIONS AND REQUIREMENTS REGARDING
THE TRANSFER OR RELEASE OF GUANTANAMO
BAY DETAINEES INTO THE UNITED STATES

SEC. ____ (a) None of the funds made available in this or any other Act may be used to transfer or release prior to October 1, 2009, an individual who is detained, as of April 30, 2009, at Naval Station, Guantanamo Bay, Cuba, into the continental United States, Alaska, Hawaii, or the District of Columbia, for the purposes of detaining, releasing, or prosecuting such individual.

(b) Not later than August 22, 2009, the President shall submit to the Congress, in writing, a comprehensive plan regarding the proposed disposition of each individual who is detained, as of April 30, 2009, at Naval Station, Guantanamo Bay, Cuba, who is not covered under subsection (c). Such plan shall include, at a minimum, each of the following for each such individual:

(1) The findings of an analysis carried out by the President describing any risk to the national security of the United States or the residents of the United States that is posed by the transfer or release of the individual.

(2) A certification by the President that any risk described in paragraph (1) has been mitigated, together with a full description of the President’s plan for such mitigation.

(3) A certification by the President that the President has submitted to the Governor and legislature of the State to which the President intends to transfer or release the individual and certification in writing (together with supporting documentation and justification) that the individual does not pose a security risk to the United States, and that the Governor and State legislature of that State consent to the transfer or release of the individual.

(4) A certification by the President that the transfer of the individual into the continental United States, Alaska, Hawaii, or the District of Columbia will not have an adverse affect on the United States Government’s ability to further detain or prosecute such individual, in accordance with the laws of the United States, for any offenses the individual may have committed.

(c) None of the funds made available in this or any other Act may be used to transfer or release an individual detained at Guantanamo Bay, Cuba, as of April 30, 2009, to the country of such individual’s nationality or last habitual residence or to any other country other than the United States, unless the President submits to the Congress, in writing, at least 30 days prior to such transfer or release, the following information:

(1) The name of any individual to be transferred or released and the country to which such individual is to be transferred or released.

(2) An assessment of any risk to the national security of the United States or its citizens, including members of the Armed Forces of the United States, that is posed by such transfer or release and the actions taken to mitigate such risk.

(3) The terms of any agreement with another country for acceptance of such individual, including the amount of any financial assistance related to such agreement.

(d) Not later than August 22, 2009, the President shall submit to the Congress, in writing, a detailed analysis of the total estimated direct costs of closing the detention facility at Naval Station, Guantanamo Bay, Cuba, and any related costs, including the estimated costs of detention, prosecution, security, and incarceration in the United States of the individuals detained at such facility as of April 30, 2009, and the estimated costs of transferring or releasing such individuals to other countries.

(e) The plan required by subsection (b) and the information required by subsections (c) and (d) shall be submitted in unclassified form, but shall include a classified annex if necessary.

H.R. 2346
